

OFFICIAL AUCTIONEER OF THE PCGS MEMBERS ONLY SHOW

# THE REGENCY AUCTION 35

DECEMBER 12 | COSMOPOLITAN | LAS VEGAS, NV

## Welcome to Regency Auction 35!

Friends,

In the pages that follow you will find 611 of some of the FINEST rare coins on the market. Our team has worked very hard, over many long hours to present the coins in this catalog to their finest advantage.

Four collections anchor the sale and provide the backbone of the offering. Starting off the auction is the Valley View Collection, which is a selection of Mint State and Proof Walking Liberty half dollars, assorted type coins, and wonderfully toned, ultra-colorful classic commemoratives. The next collection up, starting our extensive selection of nickels, is the Trzaska Collection. Ranked #2 for Proof nickels, 1866-2019, this set is all PCGS and all CAC where applicable and contains many tied for finest graded examples. The Cullen B Collection starts off our Morgan dollar section. The partial set is all PCGS/CAC and features a wide range of coins at a price point that will attract lots of bidder attention. The final collection serves as the bridge between silver and gold. The Piedmont Numismatics Collection is an investment portfolio type of collection, featuring silver and gold issues, including impressive Proofs and type coins. These coins have all been off the market for over a decade.

Collection highlight coins include:

- Lot 7. 50C 1942 PCGS MS68 CAC From the Valley View Collection
- Lot 32. \$1 1900 Lafayette. PCGS MS66+ CAC From the Valley View Collection
- Lot 141. 5C 1867 Rays. PCGS PR64+ CAC From the Trzaska Collection
- Lot 426. \$1 1888-O Scarface. PCGS MS63+ CAC From the Cullen B Collection
- Lot 534. 10C 1796 PCGS MS63 CAC From the Piedmont Numismatics Collection
- Lot 548. \$2.50 1882 PCGS PR66 DCAM CAC From the Piedmont Numismatics Collection

Between these four collections, highlights abound! Just take a look at this partial list:

- Lot 67. 1/2C 1808 PCGS MS64+ BN CAC
- Lot 82. 1C 1877 PCGS MS66+ BN CAC
- Lot 237. 5C 1937-D 3-Legs. PCGS MS66
- Lot 322 50C 1808 PCGS MS66+ CAC
- Lot 511. \$1 1921 Chapman. PCGS PR67
- Lot 570. \$2.50 1834 PCGS MS64+ PL PCGS CAC
- Lot 609. \$20 1916-S PCGS MS66+ CAC

We really wish to thank all of our consignors who have entrusted their coins to us and we invite you, our bidders to enjoy the excellent descriptions, the vivid photos, and bid. Whether in person, over the phone, via absentee bid, or on our website, bidding is easy. On behalf of the entire staff, we wish you good luck in bidding and if you need any assistance, do not hesitate to contact us.

Julie Abrams  
President

## TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

## BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

## SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

## PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email [info@legendauctions.com](mailto:info@legendauctions.com) for bank-wiring instructions and/or to provide numismatic references.

## E-CHECK PAYMENTS

E-check payments now available. Please email form to [info@legendauctions.com](mailto:info@legendauctions.com)

## INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

## EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

## RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

## SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

## INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to [info@legendauctions.com](mailto:info@legendauctions.com). Payment for all international orders is required in US funds. Please contact [julie@legendauctions.com](mailto:julie@legendauctions.com) for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

#### BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

#### RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

#### DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

#### WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

#### DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

# LISTED BID INCREMENTS

Bid increments are to serve as a general guideline. Actual increments are at the auctioneer's discretion.

\$0 - \$199	\$10
\$200 - \$999	\$25
\$1,000 - \$1,999	\$50
\$2,000 - \$4,999	\$100
\$5,000 - \$9,999	\$250
\$10,000 - \$19,999	\$500
\$20,000 - \$39,999	\$1,000
\$40,000 - \$99,999	\$2,500
\$100,000 - \$199,999	\$5,000
\$200,000 - \$399,999	\$10,000
\$400,000 - \$999,999	\$25,000
\$1,000,000 - \$1,999,999	\$50,000
\$2,000,000 and up	\$100,000

---

## OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

## PRINCIPALS

Laura Sperber  
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan  
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams  
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

# THE VALLEY VIEW COLLECTION

Legend Rare Coin Auctions is proud to lead off this sale with this carefully assembled collection of Mint State and Proof Walkers, select Commemoratives and choice Type coins.

This passionate collector specialized in finding eye appealing and kaleidoscope colored coinage. He was not afraid to go after any coin he deemed suitable for his collection. He traveled extensively to shows and carefully combed through auction catalogs to complete his collection. As well as made it known to dealers throughout the community that he is a buyer of eye appealing Walkers and Commemoratives.

The highlights of this collection include:  
a rarely seen 1941-S toned Walker in MS65  
a near perfect 1942 Walker in MS68.  
a super crystal clear near miss Cameo 1936 Walker PR67  
and a Lafayette Dollar MS66+ that is simply awe inspiring!  
Rounding off the collection is a fully semi PL 1877-S Trade Dollar in MS65+.

Every coin is graded by PCGS, and majority are CAC approved. We expect very spirited bidding as majority of the lots are highly thought after.

**LOT 1**  
**10C 1939 PCGS PR66 CAM CAC**

Cameo Proofs of this era are EXTREMELY RARE! The dies were not prepared in the same way that earlier and later era Proofs were struck. Highly reflective mirrored fields beam and glisten on both sides, setting apart from the frosted devices. Some traces of pale iridescent tone attest to the inspiring originality of this impressive piece. The population data at PCGS and NGC confirm just how rare this date is in CAM; regular PR66s have a combined Population of 1902, while in CAM, there are 21 (just about 1%).

PCGS 6, NGC 15, CAC 5. The last one to sell brought \$2,820 half a decade ago in a December 2014 auction. Keep in mind there are just 4 finer in CAM at PCGS, all PR67s, and we sold the most recent of those for \$7,344. A rare prize for the collector of 20th century Proof coinage! Good luck.

**PCGS# 85074 | ESTIMATE: \$2,750+**

**LOT 3**  
**50C 1940 PCGS MS67 CAC**

Why PCGS did not + this coin is a mystery to us (NO promises).

Immaculate surfaces are satiny smooth. A full glowing luster beams from all over. The luster also dramatically brings out the highlight of the coin-the colors. Clearly, original tissue paper toning covers both sides. These are far from the dull hazy kind you typically see. Blushes of original baby blue/gold/violet/golden brown colors swirl all over. Miss Liberty and the details are remarkably struck. you do not need a glass to see the split in the thumb!

This coin is all about the color and HIGH end quality. We do not rank the colors as wild-just SUPER wicked pretty!

**PCGS# 6609 | ESTIMATE: \$1,300+**

**LOT 2**  
**25C 1917 TYPE 2. PCGS MS65 FH CAC**

This GEM has a lot going for it! Exceptional, especially for a Standing Liberty quarter, toning on both sides shows off very pleasing blues and golds that dance over rich, original silver lustrous surfaces. Sharply struck, this is a no questions asked Full Head, housed in an OGH.

PCGS 228, NGC 134, CAC 31. The most recent example sold in December 2018 for \$1,140, well above the current Collectors Universe value of \$950. With its bold look, this one is clearly worth a premium over and above.

**PCGS# 5715 | ESTIMATE: \$1,200+**

**LOT 4**  
**50C 1941-D PCGS MS67 CAC**

Frosty, satiny mint luster peers through the central devices, which are framed by a lovely sunset orange-rose and magenta on the obverse and cobalt, emerald, and violet on the reverse. Sharply struck devices stand out, but it is the color that makes this SUPERB GEM special!

PCGS 238, NGC 173, CAC 129. While the Collectors Universe value is listed at \$650, this one will bring a very strong bid for its outstanding eye appeal. We know toned Walker collectors will flock to this one.

**PCGS# 6612 | ESTIMATE: \$1,000+**

## THE VALLEY VIEW COLLECTION

### LOT 5 50C 1941-S PCGS MS65 CAC

EX SIMPSON COLLECTION

This is a gorgeous GEM. Despite its MS65 grade, we consider this coin SUPERB. Amazing luster beams from all over. The reverse is blast, original, white hot silver luster and the obverse is ringed in rich cobalt and coppery red color, yielding to brilliant untuned silver centers. Sharply struck details and very clean surfaces give this 41-S a powerful eye appeal.

PCGS 2724, NGC 908, CAC 268. Ignore the pricing data, this coin is clearly worthy of a very strong bid for its outstanding eye appeal. We think our estimate will prove conservative.

PCGS# 6613 | ESTIMATE: \$1,500+

### LOT 6 50C 1941-S PCGS MS66

A beautifully toned example of this late date Walker. Gem quality luster blooms all over with a vibrant, satin sheen. Both obverse and reverse are framed by multicolored bands of gold, with tinges of crimson and pale green. Nicely preserved, the central devices are softly struck, typical for the date. The eye appeal is excellent. We are not sure what CAC saw that prevented beaming this GEM.

PCGS 711, NGC 201. A toned NGC coin brought \$2,160 in March 2018 well in excess of the listed \$825 Collectors Universe price. This one should bring more as well. RARE finer.

PCGS# 6613 | ESTIMATE: \$1,250+

### LOT 7 50C 1942 PCGS MS68 CAC

Over the years, this cataloger has seen some amazing late date Walking Liberty half dollars. When a 1942 stops him in his tracks it has to be beyond anything the imagination can conjure! Really this coin is absolutely one of the most spectacularly toned SUPERB GEMS of any date! Plus, the quality of this coin is mind blowing.

First off, the surfaces are PRISTINE and are the epitome of perfection! A beaming luster blazes its way on the smooth defect free surfaces. Sharply struck devices are truly

a delight to behold. However what sets this SUPERB GEM apart is the amazing obverse toning! A brilliant swath of original magenta, tangerine, and bright yellow gold frames the right side of the obverse, making the silver frosted devices of the striding Liberty stand out wonderfully with a stunning effect. We rank the colors a 9+ on our 1-10 color scale (10 is the best). The eye appeal is incredible!

PCGS 5, NGC 4, CAC 3. No CAC approved MS68 has ever sold in auction. There has not been an example of this lofty state of preservation sold in auction since November 2013, where one sold for \$16,450 but it did not have the color and eye appeal of this one.

An example brought a record of \$23,000 in November 2008. This majestic example will likely bring a price above the current PCGS Price Guide level of \$14,500 and it would not be a shock if the record price for the date, surpassing that \$23,000 level. Good luck, this coin will set your short set heads and shoulders above pretty much all others!

PCGS# 6614 | ESTIMATE: \$21,000+

**LOT 8**  
**50C 1942-D PCGS MS67 CAC**

A marvel of Mother Nature! We very rarely see late date Walkers that have such a stunning visual allure. The color ranks as a 9 on our 10 point color scale, and both sides are awash in orange-gold, red, magenta, honey-gold, and traces of pale green. The devices are strongly rendered by an exacting blow from the dies, and the surfaces are very lustrous, which brings out the great colors. The eye appeal is virtually unrivaled any we have seen in recent times.

PCGS 195, NGC 132, CAC 73. The value of this SUPERB GEM is based on the outrageous color and it will see very spirited bidding from the advanced collector who demands the finest of toned Walking Liberty half dollars.

**PCGS# 6615 | ESTIMATE: \$2,700+**

**LOT 9**  
**50C 1942-S PCGS MS66 CAC**

A band of gorgeous and totally original toning at the left obverse periphery graces the satiny lustrous surfaces, amplified by the glowing underlying luster. Lavender, lilac, rose, and emerald blend with tan-gold yielding to brilliant silver at the center. The reverse shows a delicate opal and emerald-green that blends with a russet-olive at the lower and left periphery. We are not sure if this coin was ever submitted for a "+" but we could see this PQ GEM in a 66+ holder (no guarantee).

PCGS 564, NGC 172, CAC 206. Keep in mind the jump in value from MS66 to MS66+ and the absolute rarity of this date in MS67. We believe this beauty will bring a very strong price when the hammer finally drops.

**PCGS# 6617 | ESTIMATE: \$1,200+**

**LOT 10**  
**50C 1943 PCGS MS67 CAC**

The reverse is so beautifully toned that PCGS put this coin reverse up in the holder. Clearly this SUPERB GEM sat in an ancient bank roll, which imparted a dappled melange of reds, greens, golds, and pinks that blend together beautifully in a whimsically abstract, modern art sort of way! The surfaces are clean, free of distracting marks and the design elements are crisp. The luster is brilliant with bold cartwheel flash, bringing out the colors and amplifying the outstanding eye appeal.

PCGS 554, NGC 529, CAC 348. Go ahead any ignore any and all pricing data, this uniquely toned SUPERB GEM speaks for itself, indeed it screams! Good luck!

**PCGS# 6618 | ESTIMATE: \$1,250+**

**LOT 11**  
**50C 1943-S PCGS MS66 CAC**

A wonderful GEM with a bold luster, warm peripheral tone, and sharp strike. Totally original and high end quality, both visual and technical.

PCGS 788, NGC 291, CAC 282. The Collectors Universe value is listed at \$425, but this one is certainly worthy of a premium bid. Scarce finer, with MS66+s worth \$900+.

**PCGS# 6620 | ESTIMATE: \$1,000+**

**LOT 12**  
**50C 1944 PCGS MS67 CAC**

Not a rare date, but a rare date to find with beautiful double sided toning. The obverse color is dramatic with vivid verdant and mauve hues that blend with gold, fuchsia and pale lilac-blue that is richer on the right side and more pastel-like on the left. A bold strike shows full definition to the devices. Exceptionally eye appealing, this coin is worthy of any collection of toned Walkers and is high end quality all the way.

PCGS 126, NGC 87, CAC 89. We sold a monster toned 1944 Walker in our May 2018 Regency Auction for \$9,106. While not as vivid, this wonderfully toned and high end SUPERB GEM is certainly worthy of a strong bid, so go ahead and toss out any Price Guides!

**PCGS# 6621 | ESTIMATE: \$2,500+**

**LOT 13**  
**50C 1944-D PCGS MS66+ CAC**

For a Walker, this 44-D is a MONSTER toner! WOW! It ranks quality-wise with the coins in the Dale Larsen Collection that we sold. Indeed, this coin is way more colorful and eye appealing than the 44-D in his set, graded PCGS MS66+ CAC.

Stunning orange, emerald, teal, magenta, rose, and apricot hues all blend together on the obverse covering 100% of the surface, amplified by a bold, brilliant luster. The reverse, likewise, is very beautiful with a rich golden-apricot and peach-rose tone that glows in a light. The obverse is a 10/10 on our color scale!

Don't bother looking at Pops, price guides, or APRs. Just look at the coin and realize how special it is. Good luck!

**PCGS# 6622 | ESTIMATE: \$1,500+**

**LOT 14**  
**50C 1944-S PCGS MS66 CAC**

This is an absolutely stunning toned GEM. Not at date and grade we see with this much SUPERB color.

Original and rich golden-orange dominates with accents of rose, green, and magenta that give this PQ toned beauty a SUPERB look. We rate the color as a 9+ on our 10-point color scale. A coin that would have fit into our sale of the Dale Larsen Collection of toned Walkers. Toss out your price guides and ignore auction prices and go with your gut! This coin has a great look and will have serious bidding activity when it crosses the block.

**PCGS# 6623 | ESTIMATE: \$4,000+**

**LOT 15**  
**50C 1945 PCGS MS66 CAC**

An amazing reverse toner! Deep purple, crimson, olive-gold, and emerald hues blanket the reverse, while the obverse is mostly a pearly-dove with slate and orange-gold and olive-tan toward the periphery. Well struck and showing only a few minor ticks, this GEM has a SUPERB look!

Considering that the color rates at least a 9 on our 10-point scale, it should bring a very strong price indeed. Off the market since June 2005, where it sold for nearly \$500; today's market is deeper and this coin should easily bring more.

**PCGS# 6624 | ESTIMATE: \$1,000+**

**LOT 16**  
**50C 1945-D PCGS MS67 CAC**

Beautiful rainbow toning around the periphery blends to varied and attractive dappled tones. Shades of orange, magenta, emerald, olive, gold, opal, crimson, and violet blend together with speckled splashes of untuned silver that contrast with the exceptionally colorful surfaces. The reverse is likewise beautifully toned with rose, peach, tangerine, and green hues. Generally the surfaces are clean, though we note a small scratch hidden on the reverse that is hidden entirely by the toning and does not detract from the monster color eye appeal.

PCGS 220, NGC 211, CAC 141. While this date is very rare any finer, the value of this SUPERB GEM is tied up in the eye appeal and the stunning color. Worthy of a very strong bid from the collector who demands amazing color!

**PCGS# 6625 | ESTIMATE: \$2,000+**

**LOT 17**  
**50C 1946-D PCGS MS67 CAC**

An incredible example of this late date Walker with a SUPERB look! Gorgeous teal and cobalt blue tone mingle with soft gold that enriches to a deeper copper-orange at the rims. Satiny luster brings out the subtle differences in shade. Satiny smooth surfaces show off a strong strike on both sides. The eye appeal is spectacular.

PCGS 107, NGC 123, CAC 64. Another wonderfully toned example from the Dale Larsen Collection sold for \$2,056 in our May 2018 Regency Auction. The current PCGS value is listed at \$1,200 and this one will sell for way more!

**PCGS# 6628 | ESTIMATE: \$4,500+**

**LOT 18**  
**50C 1946-S PCGS MS66 CAC**

Magnificent toning graces the peripheries of both sides of this PQ 46-S Walker. Satiny mint frost glows on both sides of this well struck beauty, accenting the bands of olive, blue, gold, and russet tan. Clearly this GEM sat for a time in a coin board where it was able to acquire this wonderful melange of color, which is where this beauty derives its value.

**PCGS# 6629 | ESTIMATE: \$725+**

**LOT 19**  
**50C 1947 PCGS MS66+ CAC**

Beautiful! A superb toned GEM with wonderful pink, blue, and green iridescent shades that really pop as the luster catches the light. Well struck and very clean, this coin has a stunning look.

PCGS 1434, NGC 708, CAC 278. PCGS has graded 139 in 66+. This coin's value is derived from the outstanding color and eye appeal, and is worthy of a strong bid, so toss out the price guides and ignore your APRs and just go with your gut on this one.

**PCGS# 6630 | ESTIMATE: \$1,100+**

**LOT 20**  
**50C 1947-D PCGS MS67 CAC**

This is an outstanding quality and boldly eye appealing SUPERB GEM that boasts a sensational, original toning that is simply a delight to behold. Frosty luster has a shimmering satin sheen that accents the warm, orange-gold peripheral tone that yields to a delicate sky blue patina in the centers. While there is a tiny touch of contact on both sides, the eye appeal is exceptional and this high end beauty is worthy of a great cabinet!

PCGS 62, NGC 57, CAC 32. We sold one in September 2018 for \$5,170. There are just 11 MS67+s graded finer, which will cost between \$23,000 and \$30,000 based on our recent APRs.

**PCGS# 6631 | ESTIMATE: \$4,000+**

**LOT 21**  
**50C 1936 PCGS PR67 CAC**

This piece is in its own galaxy when it comes to being of "beyond" quality! This is the way these are supposed to look!

Deep hard mirrored surfaces gleam with a bold, dramatic vibrance, unencumbered by any haze or toning that detract from the SUPERB, original reflection on both sides. Exceptionally clean and offering bold clarity, the eye appeal is very high end for the grade. Housed in a slightly older generation blue tag holder.

PCGS 54, NGC 77, CAC 28. Only 10 PCGS/CAC examples have sold in auction since October 2015, and the average APR is \$9,829; the two most recent sold for \$7,500 in December 2018 and before that, we sold one in our December 2017 Regency Auction for \$10,869. The current PCGS value is listed at \$8,500. With just eight coins graded finer at PCGS, and the most recent PR67+ selling for \$24,000, this SUPERB GEM 1936 half is worthy of a great set of Proof Walkers.

**PCGS# 6636 | ESTIMATE: \$9,000+**

**LOT 22**  
**50C 1937 PCGS PR67 CAC**

A stunning, high end SUPERB GEM! Highly reflective mirrored fields radiate a flashy sheen that is bold and very high end. The mirrors offer a bold depth of clarity. Sharply struck devices stand out and the eye appeal is excellent.

PCGS 259, NGC 231, CAC 131. The most recent PCGS/CAC example to sell in auction brought \$1,528 in our June 2019 Regency Auction and the current PCGS value is listed at \$1,600. Very scarce finer, this is a great looking example for a wonderful date.

**PCGS# 6637 | ESTIMATE: \$1,500+**

## THE VALLEY VIEW COLLECTION

### LOT 23 50C 1938 PCGS PR67+ CAC

A very high end GEM. SUPERB quality everything! Ultra reflective mirrors shimmer with a glistening chrome-like look. Icy smooth, clean surfaces beam all over with strong clarity, totally devoid of any unsightly haze, flecks, or hairlines. The frosted devices stand out against the bold mirrors. The eye appeal is bold.

PCGS 281, NGC 279, CAC 124. PCGS has graded just 19 in 67+ and 21 graded higher (all PR68). The most recent example to sell in auction was NGC/CAC and realized \$1,740 in the recent 2019 ANA auction.

The last PCGS/CAC coin sold in an internet only auction in March 2019 for \$1,500, which is the current Collectors Universe value. With PR68s bringing between \$6,900 and \$10,800, this SUPERB coin is an excellent choice for any serious collector. Good luck, as we see strong bidding for this reflective beauty.

**PCGS# 6638 | ESTIMATE: \$1,500+**

### LOT 24 50C 1939 PCGS PR68 CAC

Virtually perfect! We are enamored by the quality and eye appeal of this killer piece. When you see it, your heart will pound!

Gorgeously toned and very high quality in terms of overall condition and stunning eye appeal. Ultra original with deeper original shades of orange, red, and violet around the periphery of the obverse, framing the clean and clear mirrored fields (clear mirrors are so important). The reverse has some splashes of gold and russet. Razor sharp devices stand out against the totally original

surfaces, which are free of hairlines or unsightly haze that normally impairs the eye appeal of these early Proof Walkers.

PCGS 50, NGC 79, CAC 23. While the most recent example sold for \$9,000 in the 2019 FUN auction, most examples have sold in the \$4,000-\$5,000 range. This stunning, high end example is worthy of a strong bid and we anticipate intense bidding when it crosses the block.

**PCGS# 6639 | ESTIMATE: \$6,000+**

### LOT 25 50C 1940 PCGS PR67 CAC

Intense, flashy, boldly mirrored reflection on both sides is blinding in the light. Untoned and unhazed on both sides, the mirrored fields have real depth and clarity which contrast nicely against the somewhat frosted, razor sharp devices.

PCGS 367, NGC 373, CAC 192. The average APR for a PCGS/CAC example is \$842 from the 10 most recent examples sold, and we sold one in May 2018 for \$1,087. While the Collectors Universe value is only \$850, this SUPERB GEM should bring more. Good luck.

**PCGS# 6640 | ESTIMATE: \$900+**

**LOT 26**  
**50C 1940 PCGS PR68 CAC**

The toning on this magnificent GEM would make a Peacock blush! Rarely will you see Proof Walkers looking like this.

The amazing original rainbow toning frames the obverse peripheries, and blends in on the reverse framing the highly reflective fields and nicely struck up devices. The flashy, watery mirrors bring out the brilliance of the original blues, golds, pinks, and every other color that graces the surfaces, particularly at the peripheral areas. Clearly this amazing coin must have

sat for ages in a Wayne Raymond or some other similar album where it was able to slowly acquire this stunning color. We rank the colors a 9+ on our 1-10 color scale (10 is the best).

PCGS 40, NGC 56, CAC 17. A coin like this, you can probably toss out the APRs and ignore the Price Guides. With its stunning eye appeal, this coin is in a class of its own! Be prepared to bid liberally if you want to bring this beauty home! Truly a unique opportunity for the advanced toned Walker half dollar or toner collector!

**PCGS# 6640 | ESTIMATE: \$6,500+**

**LOT 27**  
**50C 1941 PCGS PR68 CAC**

WOW! A beautiful and totally fresh to the market GEM that is simply beyond SUPERB quality.

Deep, icy mirrors beam from all over. The totally original toning starts as a pale white/silver iridescent hue with clear, baby blue, gold, and emerald green accents depending on the angles. At the periphery, a slightly deeper hue frames both sides, really bringing out the sharply struck devices. The eye appeal is simply stunning.

PCGS 31, NGC 54, CAC 30. Very similar in look to the one we sold in July 2018 which realized \$6,169 in our July 2018 Regency Auction. The current Collectors Universe value is listed at \$5,000. EXCESSIVELY RARE any finer, just a quartet have graded PR68+ higher, and we sold one of those for \$18,800 in May 2018. This beautiful and very high end example is worthy of a great set of Proof Walkers! Take advantage of this important opportunity!

**PCGS# 6641 | ESTIMATE: \$6,500+**

**LOT 28**  
**50C 1942 PCGS PR67**

First off, we do not know why CAC did not bean this stunner! Beautifully reflective, icy smooth mirrored fields dance in the light. Both sides are framed by a narrow band of totally original and gorgeous rainbow toning.

PCGS 928, NGC 841, CAC 491. While the Collectors Universe value is listed at \$750, that does not take into account the extraordinary eye appeal and this one will bring an off the charts bid for the grade, and we anticipate our estimate will be easily surpassed.

**PCGS# 6642 | ESTIMATE: \$3,700+**

## LOT 29

T\$1 1877-S TRADE. PCGS MS65+ CAC

Despite a fairly large mintage of over 9.5 million, the 1877-S Trade dollar is quite RARE in such a fine state of preservation, with fewer than ten coins graded higher at PCGS. This coin is well worthy of its lofty + designation.

This highly lustrous GEM radiates a vibrance reminiscent of an 1880-S Morgan dollar! The surfaces have a swirling cartwheel luster with BOLD hints of Prooflike flash that, especially on the reverse contrasts nicely with the razor sharp devices. There is a good amount of frost on the devices and the fields are very clean, with just a trivial contact mark or two noted for accuracy. Mostly untoned, the brilliant surfaces show just the slightest glint of clear gold that comes out in the light.

PCGS 39, NGC 27, CAC 17. There are just 8 in MS65+ and nine are graded higher. The only PCGS/CAC example to sell in auction had a somewhat distracting dappled gray/gold patina on both sides, which realized \$9,000. The current PCGS Price Guide value is \$9,500 and this brilliant, untuned, GEM is worthy of an even stronger bid.

PCGS# 7046 | ESTIMATE: \$10,000+

## LOT 30

T\$1 1882 TRADE. PCGS PR63+ CAM CAC

Beyond compare quality and eye appeal! We have never seen a coin graded "only" 63 that has such a high end visual allure! Whirling blues, violets, purples, peaches, golds, and reds encircle thickly frosted, silver white devices in the centers. The mirrors are watery and have a dramatic flash that contrasts with the exceptionally frosty texture of the devices. We note, under the aid of a strong glass, a few patches of light hairlines that limit the grade, but are mostly hidden under the rich layer of gorgeous, totally original, old time toning.

PCGS 47, NGC 38, CAC 5. The only PCGS/CAC example to sell in auction realized \$3,525 in March 2017 and that coin did not have the seductive toning and visual allure of this CHOICE example. The Collectors Universe value is listed at \$3,750 and it should bring more due to its superb look. Great for type or date purposes, bid accordingly.

PCGS# 87062 | ESTIMATE: \$3,500+

## LOT 31

25C 1893 ISABELLA. PCGS MS66 CAC

WOW! What a VERY HIGH END GEM! This coin is well above and beyond the typical MS66 Isabella. We rank it among the best in terms of eye appeal we have seen for the grade! In fact, if there was a Northern Lights Collection for Commems, this coin would be in it. We rank the colors a full 9+ (on our 1-10 color scale-10 is the best).

Awesome album toning encircles both sides with shades of blue and purple dominating, blending to rose and gold before yielding to brilliant, frosty silver at the centers. The mint luster is vibrant and brilliant swirling with flashy cartwheels that bring out the subtle hues. The luster also brings out the depth and crispness of the strike.

PCGS 250, NGC 139, CAC 104. A coin like this is worthy of a super premium bid, higher than the most recent examples to sell. The current price guides are meaningless for a coin like this. It is all about the eye popping color here. We know its technical and aesthetic values will surely entice any collector of silver commemoratives. If you are building a wildly toned GEM set, this coin is for you!

PCGS# 9220 | ESTIMATE: \$5,500+

**LOT 32****\$1 1900 LAFAYETTE. PCGS MS66+ CAC**

Looking like this the Lafayette dollar is superior to all other MS66's! We rank it SUPER HIGH END.

Even in GEM grades, the luster is usually muted and the surfaces are toned in a dullish gray, silver hue. This magnificent Premium GEM is the exact opposite of what you normally see graded MS66.

Ultra satiny mint luster blooms all over the smooth surfaces.

We cannot stress enough the cleanliness of this coin. Clearly this wonderful coin sat in the original packaging, undisturbed for years, where it was able to acquire a layer of totally original rich, coppery-orange patina that blends with violet, blue, gold, and dove hues at the periphery. Every detail is sharply impressed from a strong, forceful blow from the dies. The eye appeal is exceptional in every way and is one you won't forget!

PCGS 91, NGC 63, CAC 31. PCGS has graded 12 in MS66+ with only 5 higher. The last PCGS CAC MS66+ to sell in auction realized \$22,800 in January 2019. Indeed, three MS66+ PCGS/

CAC coins have sold in auction dating back to 2013. We expect strong bidding and possibly even a bidding war on this exceptional piece. Be prepared! This coin is bound for an amazing type set or complete HIGH END and HIGH GRADE set.

**PCGS# 9222 | ESTIMATE: \$20,000+**

## THE VALLEY VIEW COLLECTION

### LOT 33

**50C 1892 COLUMBIAN. PCGS MS66 CAC**

As the first classic commemorative half dollar, the Columbian Expo is one of the most popular types. Its large mintage of 950,000 also makes it one of the most available ones as well. HOWEVER, when offered in a SUPERB state of preservation combined with beautiful toning, these see fierce bidding competition. The reverse faces up in the PCGS holder, displaying a shockingly vivid azure-teal and rose-gold tone, while the reverse boasts a rich reddish-pink that blends with gold. A bold luster adds to the outstanding eye appeal. While we have seen some "toned" Columbian Expo halves, and have offered them, few if any can come close to this one!

PCGS 290, NGC 219, CAC 121. This marvelous GEM sold back in November 2010 for \$1,783 which is near the record \$2,115 realized for a PCGS/CAC MS66. We know bidding will be intense for this one, and it would not shock us if a new record for a PCGS/CAC MS66 is set when the hammer finally falls.

**PCGS# 9296 | ESTIMATE: \$1,500+**

### LOT 35

**50C 1924 HUGUENOT. PCGS MS66 CAC**

For a type that rarely comes with any kind of colorful toning, this PQ GEM has a bold color palette that is such a delight to look at. A frosty, underlying sheen enlivens a beautiful blend of teal, rose, peach, gold, and pale lilac, which is slightly dappled on the obverse and smooth and evenly distributed on the reverse. The design elements are sharply impressed and the fields are satin smooth. The color is very pretty on any coin, even more so on a type that rarely comes with color.

PCGS 432, NGC 305, CAC 136. RARE finer, but this coin is special for the color and should be strongly considered by any advanced toned Commemorative half dollar specialist. You can ignore any price guide values and there are few, if any comparable looking GEMS that you can use as auction price data. Just go with your gut on this one!

**PCGS# 9314 | ESTIMATE: \$1,500+**

### LOT 34

**50C 1928 HAWAIIAN. PCGS MS64+ CAC**

First off, the Hawaiian half dollar is one of the scarcest and most popular types in the series. However, they rarely come nicely toned. The typical survivor is either a dull, lackluster silver, or covered with a yellow gold patina. This VERY CHOICE Mint State example is essentially of full GEM quality. The design elements are blessed with a wonderful, glossy mint luster that brings out the well struck devices and smooth surfaces. What really sets this one apart from the rest is the beautiful album toning that hugs the periphery. A ring of gold and violet hues give the obverse an almost regal look.

PCGS 1122, NGC 730, CAC 145. A beauty like this should bring a bid in excess of the current PCGS Price Guide value of \$2,750. If you are carefully building a set of high end for the grade classic commems, be sure to bid liberally for this one!

**PCGS# 9309 | ESTIMATE: \$4,000+**

### LOT 36

**50C 1918 LINCOLN. PCGS MS66+ CAC**

EX BINGHAM COLLECTION

One of the most beautiful Lincoln halves in MS66 we have ever seen! Having come from the famed Bingham Collection, where it was graded NGC MS66\*, this coin was truly worthy of the coveted "\*" for eye appeal! Both sides show a bold luster that enlivens gorgeous peripheral crimson, gold, emerald, aubergine, pale blue, and magenta hues. The toning is more vivid on the obverse, but the reverse is beautifully toned as well. Truly of Premium GEM Quality, the surfaces are clean, smooth, and have a stunning eye appeal. This is clearly a very special coin bound for a carefully curated cabinet of classic commemoratives.

PCGS 583, NGC 287, CAC 149. Colorfully toned examples have always proved popular and sell for a strong premium over price guide, so go ahead and put them away when figuring your bid.

**PCGS# 9320 | ESTIMATE: \$4,000+**

## THE VALLEY VIEW COLLECTION

### LOT 37

**50C 1920 MAINE. PCGS MS66**

Gem Original toned Maine's are extremely rare. The quality of this coin is VERY HIGH END!

Gorgeous color graces both sides of this SUPERB GEM Maine Centennial half dollar. Mauve, magenta, peach, gold, rose, pale blue, and brilliant steely silver colors are vividly brought out by a strong luster. We are unsure why CAC did not sticker this colorful and beautiful GEM, but it should not matter, the eye appeal and quality speak for themselves!

PCGS 471, NGC 295. Go ahead and ignore the APRs and Price Guide values, this is a unique and beautifully toned GEM. The value of this amazing coin is based solely on its outstanding color and eye appeal. Good luck!

**PCGS# 9326 | ESTIMATE: \$1,600+**

### LOT 38

**50C 1921 MISSOURI. PCGS MS65+ CAC**

WOW! We were gobsmacked when this Missouri half came in. This is one of those early commems that is extremely rare with rainbow toning. Usually, if they have any color at all, Missouri's have an earth tone palette, usually of tan, gold, and olive. This wonderful GEM is a grand exception. The obverse has a dramatic frame of rainbow iridescent toning and the reverse displays a more subtle ring as well. The original neon like green, blue, gold, and burnt orange-red colors were likely imparted by an ancient coin board. We rank the colors a full 9+ on our 1-10 color scale (10 is the best). The satiny lustrous surfaces are clean and the devices are sharply struck up. The eye appeal is exceptional for this date that often comes dull and lifeless.

PCGS 297, NGC 293, CAC 66. The current published price guides are meaningless for this wild toned Commem. Here it is about the color. You never ever see Missouri's with real vibrant color like this!

**PCGS# 9330 | ESTIMATE: \$3,000+**

### LOT 39

**50C 1926 OREGON. PCGS MS67**

This is a beautifully toned SUPERB GEM quality 1926 Oregon Trail half. Satiny lustrous surfaces glow on the essentially pristine surfaces. Pastel pink, emerald, and purple hues blend to sunset orange, soft aubergine, tangerine, and gold. We think that a tiny carbon fleck next to the F of HALF is all that kept this extremely eye appealing coin from obtaining a CAC bean.

PCGS 123, NGC 65. Go ahead and forget the Collectors Universe and all other price guides and go with your gut on this one; the colors and eye appeal clearly speak for themselves!

**PCGS# 9340 | ESTIMATE: \$2,500+**

### LOT 40

**50C 1926-S OREGON. PCGS MS67 CAC**

This is a vividly lustrous, high end SUPERB GEM that has long sat undisturbed in an old album. Both sides have wonderful peripheral toning that frames both sides. Under a light, the blues, golds, bright pink, deeper violet, subtle teal and emerald green, and traces of crimson really provide a wonderful contrast against the strong brilliance of the central design elements. The eye appeal is exceptional for this early Oregon half. With its 83,055 mintage, the 26-S is ideal for a commem type set, and this one is very special indeed!

PCGS 178, NGC 171, CAC 138. Rare finer, the value jumps from \$750 in 67 to \$2,000 in 67+ and with its high end quality and beautiful toning, this one will certainly sell "in the spread."

**PCGS# 9341 | ESTIMATE: \$1,000+**

## THE VALLEY VIEW COLLECTION

### LOT 41

**50C 1937-D OREGON. PCGS MS67 CAC**

Bold tab toning attests to the originality of this SUPERB quality Oregon half dollar. A frosty mint luster brings out the deeper olive-russet and tan-slate tones. Smooth, defect free surfaces provide the back drop for crisply defined, well struck devices. The eye appeal is wonderful and the originality is unquestioned in any way.

PCGS 714, NGC 532, CAC 366. The toning and originality are the source of the value of this otherwise somewhat common issue and it should bring a strong premium to the Collectors Universe, or any other price guide.

**PCGS# 9347 | ESTIMATE: \$1,250+**

### LOT 42

**50C 1938-D OREGON. PCGS MS67 CAC**

This SUPERB GEM has been off the market since 2005 when it was sold at auction for over \$2,000. It is very high end and offers a vivid blend of colors from sea-green to violet. Between, shades of peach-rose, apricot-gold, and burnt orange are brought out by a satiny underlying luster. The devices are deeply and boldly impressed giving this beautifully toned and wonderfully preserved SUPERB GEM a superb look!

PCGS 294, NGC 250, CAC 180. As mentioned, in March 2005, this coin sold for \$2,013, and has been off the auction market since August 2006. Use that as an indication of the value and what it should bring today. Still housed in the older PCGS holder, we do not believe it was ever submitted for "+". Good luck.

**PCGS# 9349 | ESTIMATE: \$2,500+**

### LOT 43

**50C 1938-S OREGON. PCGS MS67 CAC**

Magnificent! This is one of the most richly toned Oregons that have crossed the block in a Legend Auction. The reverse is a deep blend of reds, oranges, and purples that really comes to life in a light. The toning on the obverse is mostly limited to the periphery, leaving the center mostly a satiny brilliant silver. Razor sharp in strike, the definition is complete and has a stunning look.

PCGS 190, NGC 154, CAC 111. This coin brought over \$2,100 back in March 2005 and has not been in auction since. Clearly for a coin like this you can ignore current price guide values and recent APRs; this coin's strong eye appeal and beautiful toning places it into a class all its own.

**PCGS# 9350 | ESTIMATE: \$2,000+**

### LOT 44

**50C 1939 OREGON. PCGS MS67 CAC**

A totally original SUPERB GEM! Both sides display a delicate iridescent pastel tone, imparted from old envelope storage. While first glance the tone looks soft and subdued, but under close inspection, rotating the satiny lustrous surfaces in a light, pale blue, light lilac, and warm gold patina comes to the fore. Sharply struck, this is a wonderful survivor of a tiny mintage of 3,004.

PCGS 127, NGC 113, CAC 71. The most recent example we sold was in September 2018, where it realized \$908. This one has an even better look and it should bring more! The current Collectors Universe value of \$900 does not take into account this coin's lovely eye appeal and high end quality.

**PCGS# 9352 | ESTIMATE: \$1,000+**

**LOT 45**  
**50C 1939-D OREGON. PCGS MS67+ CAC**

Gorgeous sunset orange-red and vibrant golden patina graces the surfaces of this impressive SUPERB GEM. Only 3,004 were struck, making it one of the lowest mintage classic commemorative half dollars, and they are quite scarce in this high a grade, and especially so with such a stunning visual allure. We love the look.

PCGS 211, NGC 177, CAC 94. PCGS has graded just 25 in 67+. The most recent example we sold was in our January 2018 Regency Auction, bringing \$1,087. This is a stunning coin worthy of a bid in excess of the current PCGS value of \$1,350. Clearly a special coin that is surpassed in the population by just 33 pieces.

**PCGS# 9353 | ESTIMATE: \$2,700+**

**LOT 47**  
**50C 1921 PILGRIM. PCGS MS66 CAC**

EX GUTTAG FAMILY

A glorious example of this early Commemorative that is rarely encountered with such beautiful toning. Peripheral toning shows a blend of variegated blues, reds, gold, violet and lime green that complement the exceptionally lustrous satin surfaces. Sharply struck on both sides with some very minor ticks. The eye appeal is amazing for a Pilgrim half. This coin was once in the inventory/collection of the famed Guttag Brothers, New York City coin and stamp dealers who were very active in the 1920s. For ages, the family retained a cache of classic commemoratives that were finally sold in a series of sales, beginning with the 2011 ANA. This coin was lot 1244 of that sale, where it realized \$6,325.

PCGS 349, NGC 169, CAC 116. More recently this coin sold in the 2012 Central States auction for \$3,450. Clearly this coin's value is based on its exceptional eye appeal, and will again sell for a very strong bid when the hammer falls. This is a great coin that has only been sold twice in auction since the 1920s! Good luck!

**PCGS# 9360 | ESTIMATE: \$3,000+**

**LOT 46**  
**50C 1920 PILGRIM. PCGS MS66 CAC**

This is a fabulous GEM! Totally original and exceptionally pretty, this is a great coin for any commemo collector. Soft, pastel iridescent blue and amber gold tone deepens to slate highlights. The sharply struck devices stand out and the surfaces have a clean, lustrous texture that brings out the colors and details. The eye appeal is wonderful!

PCGS 463, NGC 188, CAC 147. A similar toned NGC MS66\* CAC sold for \$1,920 in May 2018 Auction. Note: This coin was also at one time an NGC MS66\* grade coin but we cannot find it selling in prior auctions, but no doubt it is worth a strong premium over published levels. Good luck!

**PCGS# 9359 | ESTIMATE: \$2,000+**

**LOT 48**  
**50C 1925 STONE MOUNTAIN. PCGS MS67 CAC**

This is truly a gorgeous SUPERB GEM Stone Mountain half dollar. Both sides have a seductive satin frost that blooms with a bold brilliance. A small blush of color on the obverse connects to a lovely patch of color on the reverse. Peach, gold, rose, emerald, and violet mingle with each other, over the smooth surfaces. The design elements are crisply rendered by an exacting blow from the dies. Struck to help fund Stone Mountain, a memorial to the Confederacy, the giant statue in Georgia features equestrian statues of Robert E. Lee, Stonewall Jackson and Jefferson Davis. The coin displays just the two famed generals, and not the Confederate president.

PCGS 291, NGC 182, CAC 119. Beautifully toned examples sell for well in excess of the current PCGS Price Guide value, and this one should be no exception. We note the last two were not CAC and brought \$1,320 and \$2,400. This coin, with CAC approval should bring a strong bid. Good luck!

**PCGS# 9378 | ESTIMATE: \$2,000+**

**LOT 49**  
**25C 1893 ISABELLA. PCGS MS67+ CAC**

Exceptional quality to the fore! We love the look of this totally original SUPERB GEM. Wonderful slate-blue with emerald accents, this intensely lustrous beauty is essentially perfect. Flawless, pristine surfaces are brilliant and even with a strong glass, we find nothing to that is worthy of mention. Sharply impressed design elements stand out giving this satiny SUPERB GEM an even greater eye appeal.

PCGS 55, NGC 46, CAC 35. There are 9 graded MS67+ and just seven finer. We sold the most recent example in March 2019 for \$16,450 and the current PCGS Price Guide value is listed at \$12,500. Any 68 is a \$50,000+ coin, so this is a great value for anyone wanting a SUPERB and totally awesome GEM!

**PCGS# 9220 | ESTIMATE: \$10,000+**

**LOT 50**  
**50C 1937-S ARKANSAS. PCGS MS65 CAC**

This is a stunningly toned GEM 37-S Arkansas. This is a beautiful coin that clearly sat in some old collector's album where it obtained a gorgeous blend of rainbow tones that form a target pattern across the obverse. Crimson, gold, azure, and teal tones are vivid and we rate them a 9+ on our color scale. Only 5,506 were distributed, and this low mintage issue rarely comes with gorgeous color, so when one does, all bets are off. As you know, when it comes to special toned commems, you can toss out the pricing data and go with it. We know this one will bring fierce bidding and our estimate will likely prove to be conservative. Good luck!

**PCGS# 9243 | ESTIMATE: \$1,000+**

**OUR ESTIMATES**

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 51**  
**50C 1938-S BOONE. PCGS MS68 CAC**

LRCA is proud to offer this pristine, high end, and exemplary quality SUPERB GEM 38-S Boone. Of the 2,100 minted, this one is one of just four graded MS68 with just a single MS68+ graded higher. While the mintage was low, clearly contemporary collectors respected the low mintage, saving them for posterity. Today, it is more available in MS66 and lower grades than the mintage would suggest. In MS67 this date becomes very scarce, and is extremely RARE in this coin's lofty state of preservation.

Gloriously smooth and clean surfaces have a glowing satin sheen that blooms all over. Even using a strong glass, you will be hard pressed to find anything that comes close to a flaw of any kind. A narrow band of vibrant orange and magenta gold frames the extreme periphery. The devices are crisply struck and stand out nicely. The eye appeal is quite attractive.

PCGS 4, NGC 4, CAC 2. The most recent example to sell in auction was back in March 2006! Hard to believe, but that was nearly 14 years ago! That coin realized a record \$32,200. Today, Collectors Universe lists a value of \$24,000. For the Registry Set collector, this AMAZING GEM is only exceeded in grade by a single MS68+ that has not been seen in auction before, making this one of the absolute FINEST available. It would not be a shock if this beauty brought a new record price when the hammer finally falls.

**PCGS# 9276 | ESTIMATE: \$18,000+**

**LOT 52**  
**50C 1936 DELAWARE. PCGS MS67+ CAC**

This is a very high end and very appealing SUPERB GEM. Beautifully preserved, the surfaces are frosty and satiny with a bold luster that glows all over. Both sides are pristine showing off a delicate gold on both sides, especially on the reverse periphery. Every detail is sharply struck up and the surfaces immaculate.

PCGS 188, NGC 111, CAC 82. There are 37 graded MS67+ The most recent example sold in our September 2019 Regency Auction for \$2,056 and the current PCGS Price Guide value is listed at \$2,750. None of the coins that have graded higher at PCGS have ever sold in auction, making this a prime candidate for the Registry Set collector. Good luck!

**PCGS# 9301 | ESTIMATE: \$2,000+**

**LOT 53**  
**50C 1936 ELGIN. PCGS MS67+ CAC**

A SUPERB GEM! One of the NICEST Elgins we have handled. Boldly defined details stand out against the satiny smooth surfaces and rich frosty luster. Both sides are awash in a BEAUTIFUL multi-hued iridescent toning that is particularly colorful in the central devices of the reverse (rose, pink, olive, and blue hues really sparkle in the light). The eye appeal is awesome.

PCGS 290, NGC 136, CAC 108. There are 52 coins in 67+ at PCGS. Recent PCGS/CAC have sold in the \$1,350 to \$2,100 range, and the current PCGS value is listed at \$1,650. Only eight coins are finer, and this coin has such a great look, we can see it bringing a very strong premium bid!

**PCGS# 9303 | ESTIMATE: \$1,200+**

**LOT 54**  
**50C 1936 GETTYSBURG. PCGS MS67 CAC**

Totally original and very high end. Richly toned and satiny lustrous surfaces are essentially mark free and the eye appeal is bold.

PCGS 128, NGC 64, CAC 55. The most recent example to sell in auction realized \$2,040 in June 2019 and the current PCGS Price Guide value is listed at \$2,250. RARE any finer, PCGS has graded fewer than two dozen higher.

**PCGS# 9305 | ESTIMATE: \$1,800+**

**LOT 55**  
**50C 1935 HUDSON. PCGS MS67**

The Hudson half dollar is a low mintage issue, with just 10,008 distributed. Rarely seen so fine, this date is extremely RARE any finer. Satiny mint luster blooms all over on both sides of this well preserved SUPERB GEM. The obverse side offers a peripheral frame of vivid red-gold patina that yields to a brilliant untuned center. The reverse has a touch of pearly-silver overtone. Well struck for the issue, this coin shows only a few teeny ticks that keep it from an even loftier state.

PCGS 22, NGC 33. The last one sold in July 2017 for \$7,931, and the current PCGS Price Guide value is \$10,000. This very eye appealing example will bring a strong bid. Just five coins are graded finer, all MS67+. The only one of those to sell in auction brought \$22,913 in our September 2018 Regency Auction. This is a great coin for any Commemorative Set.

**PCGS# 9312 | ESTIMATE: \$8,500+**

**LOT 56**  
**50C 1921 MISSOURI 2X4. PCGS MS66+ CAC**

Legend Rare Coin Auctions is pleased to offer this truly SUPERB HIGH-END Missouri. It is by far the finest we have ever offered! Tied for FINEST GRADED at PCGS, it is indeed a trophy for the collector of classic commemoratives.

First, we must say we do not recall any Missouri with a luster so strong. Frosty, satin luster blooms in the ultra smooth fields; it is so vibrant. It actually jumps out at you. This coin was never dipped or messed with. The surfaces appear satiny smooth and super clean. A light shade of original pale lavender/light golden brown covers parts of the surfaces. The details are all exceptionally struck. You actually can see some of the shoulder strap on the reverse. The overall eye appeal is tremendous! If you collect TOP POP commems, you will find a lot to love with this GEM!

PCGS 51, NGC 41, CAC 14. PCGS has graded 8 in MS66+ and NONE ARE GRADED HIGHER. Just one coin sold in auction, realizing \$31,725 in our May 2019 Regency Auction. The current PCGS Price Guide lists a value of \$30,000 and is worthy of a bid in that range. If you are working on the #1 PCGS Registry Set of Classic Commemoratives, you must bid on this marvelous coin!

**PCGS# 9331 | ESTIMATE: \$25,000+**

**LOT 57**  
**50C 1938 NEW ROCHELLE. PCGS SP67+ CAC**

This is a stunning SUPERB GEM example of this very rare and popular Specimen strike commem. These are just so cool! During the production run, mint employees struck 50 examples on specially polished planchets after polishing the dies. Unlike full Proof strikings, these received only one blow from the dies.

Glassy reflective mirrors beam in the fields. The icy surfaces have a stunning, blast white, untuned brilliance that glimmers against the sharply struck devices. The eye appeal is SUPERB!

PCGS 15, NGC 8, CAC 15. There are just three graded SP67+ and the most recent sold in our May 2018 Regency Auction for \$18,213; prior to that, a different one sold for \$19,975 in our October 2017 Regency Auction. The current PCGS Price Guide value is \$18,500 and there is just a single SP68 graded higher, a coin that has not sold in auction, making this one likely the FINEST you will see anytime soon. Bid accordingly!

**PCGS# 99335 | ESTIMATE: \$15,000+**

**LOT 58**  
**50C 1938 NEW ROCHELLE. PCGS MS67+ CAC**

A superb example of this commemorative half dollar. The reverse is beautifully toned with orange and violet hues that are evenly distributed over ultra smooth, frosty surfaces. Sharply struck up, the obverse has a ring of toning at the periphery that attests to storage in the original cardboard holder of issue. The satiny lustrous surfaces are pristine and have no visible imperfections of any kind or size.

PCGS 280, NGC 88, CAC 117. There are 62 graded 67+, and just eight are graded higher, none of which have ever sold in auction. This high end example will bring a very strong bid when the hammer falls. Good luck.

**PCGS# 9335 | ESTIMATE: \$2,400+**

**LOT 59**  
**50C 1936-S OREGON. PCGS MS68 CAC**

Tied for second FINEST PCGS graded 36-S Oregon half dollar and bested by just a single MS68+. Gorgeous, pristine surfaces have a bold, satiny mint glow that accents the original, pearly silver that shows just the slightest touch of orange-gold at the rims. The devices are sharply struck up with full, complete definition on both sides. Only 5,006 were struck and of that mintage, just a single coin has graded finer.

PCGS 9, NGC 21, CAC 11. The most recent example sold in June 2019 for \$5,760 and the current PCGS Price Guide value is listed at \$7,500. The single MS68+ graded finer has never sold in auction, making this as fine an example as you can hope to obtain in the current market.

**PCGS# 9346 | ESTIMATE: \$5,500+**

**LOT 60**  
**50C 1936-D RHODE ISLAND. PCGS MS67+**

This SUPERB GEM Rhode Island half is among the top dozen graded, just 2 are finer at PCGS. Frosty luster blooms on both sides accenting a light narrow band of color on the peripheries of both sides. Sharply struck, there is just a single tick or two that we can find anywhere with a strong glass, but we do not understand why CAC did not bean this one. The surfaces are totally original.

PCGS 9, NGC 3. There are just 2 finer. The current PCGS value is \$2,750 and the only MS67+ to sell in auction was CAC approved and sold for \$3,055 in our November 2018 Regency Auction and this one is worthy of a strong bid.

**PCGS# 9364 | ESTIMATE: \$2,500+**

**LOT 61**  
**50C 1935-S TEXAS. PCGS MS68 CAC**

Tied for FINEST 1935-S Texas and what a beauty it is! This is NOT a "just made it" MS68 that was upgraded from a 67; this coin is all there and then some, truly worthy of its CAC bean! Cool with a lower mintage too, only 10,000 were struck.

Superb, original surfaces are just that - SUPERB! They are the epitome of perfection, with zero imperfections

of any kind anywhere. The boldly lustrous surfaces shimmer with a brilliant, pearl-like sheen on both sides., which is accented by the wonderful sunset-orange gold coloration at the rims. The eye appeal is magnificent!

PCGS 5, NGC 9, CAC 5. The most recent one of these PCGS/CAC coins sold for \$12,600 in the 2019 ANA auction. That coin was similarly toned, but it had a spot in the right obverse field. The current PCGS value is \$15,000 and honestly it would not shock us if it brought close to that amount, it is that nice! This coin will sell be at home in the FINEST of commem sets!

**PCGS# 9384 | ESTIMATE: \$9,000+**

**LOT 62**

**50C 1938-D TEXAS. PCGS MS68 CAC**

This Texas is the epitome of perfection! A stunning and glorious coin that is amazing. The eye appeal is off the charts. Not only is the eye appeal ultra high end and breathtaking, the technical qualities are all there and then some!

The design types are sharply impressed on both sides, the devices and fields are flawless, free of any marks, lines, or discolorations. A brilliant, pearly satin luster blooms all over, enhancing the delicate pastel toning on both sides. From a tiny net mintage of 3,770, this beauty ranks as FINEST GRADED with just three others at PCGS.

PCGS 4, NGC 6, CAC 4. The most recent example realized \$28,200 in April 2015 and prior to that, one sold for \$32,900 in August 2013. The current PCGS Price Guide value is listed at \$30,000. Clearly this SUPERB Texas half is worthy of the FINEST Commemorative collections and will see very strong bidding for sure. Be prepared if you want to bring this one home!

**PCGS# 9395 | ESTIMATE: \$22,000+**

**LOT 63**  
**50C 1948 BOOKER T. WASHINGTON. PCGS MS67 CAC**

One of the FINEST graded, with just a single MS67+ graded higher, this is a real prize for any advanced Commem collector. The 1948 Booker T. Washington half dollar saw a mintage of only 8,005. This delicately toned SUPERB GEM has a brilliance reserved for only the FINEST examples. The surfaces are exceptionally clean and high end.

PCGS 17, NGC 17, CAC 14. The most recent example sold for \$1,800 in the 2019 FUN auction and the current PCGS value is listed at \$2,400; the value jumps to \$15,000 in 67+. If you are working on a high ranking set look to this one to upgrade your collection or fill that hole finally. Good luck.

**PCGS# 9412 | ESTIMATE: \$1,500+**

**LOT 65**  
**50C 1936 WISCONSIN. PCGS MS68**

A truly SUPERB, original, and high end Wisconsin, one of the FINEST graded at NGC. Wonderfully colorful pastel iridescent apricot-gold toning graces the central areas, while the peripheries are deeper. Stunning surfaces show a rich, thick frost with a soft satin finish. For a Wisconsin, this SUPERB coin has a great eye appeal, totally worthy of the lofty MS68 grade!

PCGS 38, NGC 38. The most recent non-CAC example in PCGS MS68 sold for \$3,360 in September 2017 and the current Collectors Universe value is listed at \$5,000. This gorgeous coin will see very strong bidding for sure. The eye appeal is amazing.

**PCGS# 9447 | ESTIMATE: \$2,700+**

**LOT 64**  
**50C 1954-D WASHINGTON-CARVER. PCGS MS66+**

This late classic commemorative issue saw a mintage of only 12,000, of which this is one of the highest graded at either service, with just a single MS67 graded higher. Boldly lustrous surfaces show bold rolling cartwheels on both sides. Toned nicely at the peripheries this coin clearly sat undisturbed in the original mint holder of issue. The surfaces are pristine.

PCGS 12, NGC 4. The current PCGS Price Guide value is listed at \$1,150 and as a coin that is toned, on a series that is not usually attractively toned this coin will see active bidding.

**PCGS# 9443 | ESTIMATE: \$1,000+**

**LOT 66**  
**1925 NORSE-AMERICAN. SILVER THIN. PCGS MS66 CAC**

A wonderful GEM example of this Fraiser designed U.S. Mint struck medal. Authorized by an act of congress, these were struck in 1925 to commemorate the arrival of 53 Norwegian immigrants one hundred years earlier. The Philadelphia mint struck these as medals, since a commemorative coin act did not pass Congress. Even though it is thus technically a medal, this type has been collected alongside the classic commemorative series since it was struck. This is a PQ GEM, bordering on a SUPERB grade designation. Its devices show off a razor sharp definition, amplified by a truly delightful pearly-silver, shimmering luster.

PCGS 20, NGC 7, CAC 16. The most recent example sold in our May 2018 Regency Auction for \$9,400 and the current PCGS Price Guide value is listed at \$7,500. PCGS has not graded any finer, so if your Commem set includes a slot for a thin planchet Norse Medal, you will NOT FIND A FINER EXAMPLE.

**PCGS# 9451 | ESTIMATE: \$6,000+**

**VIEW MORE COMMEMS IN THE PIEDMONT NUMISMATICS COLLECTION AT LOT 530**

**LOT 67****1/2C 1808 PCGS MS64+ BN CAC**

C-3, B-3. This is an AMAZING example of this EXTREMELY difficult final year of the series. Tied with the Missouri Cabinet--D. Brent Pogue Collection coin for FINEST graded at PCGS, this exquisite, CHOICE Draped Bust half cent is the PCGS CoinFacts Plate coin.

Bold, satin frost glows brilliantly on both sides. A swirling cartwheel can be seen on the rich chocolate brown surfaces. Steely blue and light olive accents appear when rotated in a light. Well struck from the typically seen dies state (Breen II, Manley 2.0) showing light die rust on the obverse field and nearly full dentils on both sides. The date was initially punched in the working die as "180" and the 8 is actually 2 "0"s punched on top of each other. Adding to the intrigue of this GEM is the rotated reverse, which is struck in essentially medal turn, 180 degrees from its proper coin turn position. Just a few tiny ticks are seen with the aid of a strong glass, none of which detract from the outstanding eye appeal of this incredible Mint State example.

There were three die marriages of 1808 half cents struck, C-3, B-3 is the only non-overdate example, and is considered to be quite common, HOWEVER, in Mint State, PCGS and NGC have graded just 16 pieces in all grades, with exactly ZERO graded in the RB or RD categories.

PCGS 3, NGC 0, CAC 3. This coin is tied with the Pogue coin, which had some spots, and sold for \$56,400 in March 2017. The current PCGS Price Guide value is listed at \$71,000 and with NONE GRADED FINER at PCGS, this coin will fit in nicely to ANY high end type or half cent collection. We doubt you will find anything like it again anytime soon! Good luck!

**PCGS# 1107 | ESTIMATE: \$50,000+**

**LOT 68**  
**1/2C 1835 PCGS MS64 RD CAC**

It is always a marvel to see early U.S. copper coins that survive with full original mint red color. This C-1, B-1 is a borderline GEM with a bold fiery mint red color and strong, rolling cartwheel luster. Sharply struck from Die State II with a single clash mark seen under the bust. The star centers, dentils, hair details, and leaves are all sharply struck up. A

strong glass reveals some minor toning flecks that is common to Classic Head half cents, even in full RED. This lovely coin likely originated in the Elmer Sears hoard, which Walter Breen notes contained "at least a

back of a thousand spotty mint red examples," that was discovered in the mid 1930s. Today, the populations show much less than that number in RB and RD graded, suggesting that this was another numismatic legend that adds color to our great hobby.

PCGS 35, NGC 9, CAC 11. The most recent example to sell in auction realized \$4,320 in the 2018 ANA auction. Prior to that, the Gardner coin sold for \$4,994. The current PCGS Price Guide is \$4,000, but this CAC-approved near-GEM should bring more. Just seven coins are graded finer, and no CAC approved MS65 RD has ever sold, and if you could find the single example, it would likely cost in excess of \$20,000. Perfect for type or date purposes, and a coin that will delight even the pickiest EAC collector.

**PCGS# 1170 | ESTIMATE: \$3,500+**

**LOT 69**  
**1/2C 1855 PCGS MS65 RD CAC**

Only one set of dies was used to strike the 56,500 half cents produced in 1855. While considered to be the most available date in RED, GEMs, especially those approved by CAC are quite RARE. This is NOT your typical faded stained red coin.

Full red, blazing luster radiates on both sides. Sharply struck up from a later state of the dies, with crumbling rims on the lower obverse. Aside from a single ancient fleck, this GEM has very clean surfaces and exceptional eye appeal.

Housed in an old green tag holder, this coin is Premium Quality defined!

PCGS 39, NGC 12, CAC 7. First, we think there is duplication on the population report, with a few examples being resubmitted for a "+". This is shown by the fact only four are graded 65+ RD and NONE FINER! The only CAC-approved MS65 RD example was the Gardner coin, which brought \$16,450. Essentially in a class by itself, we would not be shocked if this coin broke into the five figures when the hammer drops.

**PCGS# 1235 | ESTIMATE: \$7,000+**

**LOT 70**  
**1C 1840 LARGE DATE. PCGS MS65+ BN CAC**

This is an exceptional GEM N-6, one of the FINEST examples and from a late die state that has three very clear cuds on the rim below star 13.

The surfaces offer a bold, semi-reflective luster that flashes with traces of faded mint red throughout. Sharply struck with crisp, complete definition throughout the design types. VERY RARE in this die state with the cuds, this is the FINEST known of the die state.

PCGS 20, NGC 13, CAC 12. There are five in MS65+ BN for all Large Date Newcomb numbers. The most recent example to sell was the ex. Twin Leaf collection coin that was from an earlier, more common die state and sold for nearly \$5,000 in its initial appearance in July 2015. The current PCGS Price Guide value is listed at \$6,250. This impressive GEM is worthy of a very strong bid.

**PCGS# 1820 | ESTIMATE: \$3,500+**

**LOT 71**  
**L1C 1840 N-9. LARGE DATE. PCGS MS65+ BN CAC**

The N-3 is a scarce R-3 variety and this GEM was struck from Noyes Die State D/C with a sharp, bisecting die crack from Star 4 to Star 11, crossing through Liberty's eyelid, and ear. It is amazing to think that with the hundreds of die varieties of Large cents, struck 1793 to 1857, only three have full bisecting cracks: 1793 S-14, 1839 N-1, and this 1840 N-9.

Impeccable surfaces show just a few tiny ticks seen only with the aid of a strong glass, otherwise it is very smooth and high end quality for the grade. A

glossy even brown patina shows a lovely satin sheen and some traces of very faded rose color can be found in the protected areas. A tiny cud is noted under 18 in the date and shows again how broken the obverse die was when this GEM was struck.

Boasting a great provenance, ex: Anderson-Dupont Collection, Stack's September 1954, lot 812; Wayne Slife; Lester Merkin's October 1972 Auction, lot 636; Garry Fitzgerald; Del Bland, January 1973; Jerry Bobbe, May 1974; Robison S. Brown Collection, Superior, October 1986, lot 920; Jules Reiver Collection, Heritage, January 2006, lot 20151; Stack's Bowers 2018 ANA auction, lot 369.

PCGS 20, NGC 13, CAC 12. There are just 5 in 65+ and 8 finer. This coin brought \$3,840 in the latest auction appearance. Collectors Universe lists a value of \$5,000 and this high end N-9 is clearly in the condition census, and we think that it sold on the low side in 2018; it should bring more today.

**PCGS# 395843 | ESTIMATE: \$3,600+**

**LOT 72**  
**L1C 1851/81 PCGS MS66 RB CAC**

A very high end example of this intriguing variety, where the die sinker erroneously placed the date punches, with the date originally punched 1881, then corrected to 1851--traces of the under digits visible with the aid of a glass. This is AMONG the FINEST KNOWN, and as the sole MS66 RB with CAC approval, it is arguably the finest.

Bold mint red color surrounds the stars and peripheries and covers about 85-90% of the reverse. Sharply struck from dies that show mint made die lines throughout around the date, stars,

and portrait. There is a subtle overtone of steely-teal on the mellow chocolate brown. The eye appeal is off the charts! Finer than the Naftzger -Pogue MS65 RB, this is a true prize for anyone pursuing the very finest in Braided Hair large cents.

PCGS 2, NGC 4, CAC 1. A coin like this comes around so rarely that the Price Guide values fail to keep up. The Pogue coin realized \$10,200 when it was re-offered in the 2019 ANA auction (not CAC). This is a GEM worthy of the finest collection and will see very strong bidding when it crosses the block.

**PCGS# 1896 | ESTIMATE: \$13,000+**

**LOT 73**  
**1C 1857 FLYING EAGLE. PCGS MS65+ CAC**

Exceptional quality in every sense! This boldly struck 1857 Flying Eagle cent has thick, frosty mirrors that contrast with the semi-reflective, highly lustrous surfaces. A couple of scattered ticks are noted for accuracy, but there are none that are singularly distracting. Some die cracks add to the visual character of this GEM. Rich orange-tan gold color on both sides radiates through with the vibrant luster, imparting a great eye appeal.

PCGS 314, NGC 221, CAC 75. There are 27 graded in MS65+ at PCGS and just 27 graded finer. The most recent example to sell in auction was a monster toned example that brought \$18,213 in our May 2019 Regency Auction. The current PCGS value is listed at \$7,000 and this one could well bring in excess of that. What a great type coin, one that will bring very strong bidding when the hammer falls.

**PCGS# 2016 | ESTIMATE: \$6,000+**

**LOT 74**  
**1C 1857 FLYING EAGLE. PCGS MS66 CAC**

WOW! What a great looking 1857 Flying Eagle cent! Despite a mintage of nearly 17.5 million and status as the first year of issue for general circulation, you would think that there would be more that were saved at the time of issue in SUPERB grade; this is not the case. Above MS64, this date becomes quite scarce and is VERY RARE in MS66. The present high end and high grade survivor is boldly lustrous with a flowing, radiating satin bloom that enlivens the surfaces. The devices are fully rendered by an exacting blow from the dies, which pressed every minute detail strongly

into the copper-nickel planchet. Warm orange-tan color has lighter golden highlights that attest to the absolute originality of this borderline-SUPERB GEM example. The surfaces are clean and there is a tiny toning dot or two that can be seen with a strong glass.

PCGS 26, NGC 12, CAC 10. The most recent PCGS/CAC MS66 to sell brought \$15,600 in the 2018 ANA auction, but keep in mind we sold a PCGS MS65+ CAC for \$18,213. The current PCGS Price Guide value is \$17,500. Just a single MS66+ is graded finer at PCGS, a coin that has never sold in auction, and who knows when, if ever, it becomes available to collectors. This may be one of your few chances to add a very high end 1857 Flying Eagle cent to your type set. Good luck.

**PCGS# 2016 | ESTIMATE: \$14,000+**

**LOT 75**  
**1C 1858 SMALL LETTERS. PCGS MS65+ CAC**

This is a gorgeous Flying Eagle cent! Everything about this GEM is impressive. A billowing mint luster shines throughout the surfaces. As you rotate the coin around in a light, hints of prooflike reflection can be seen in areas of the fields. All the devices are sharply struck and fully defined; each of the eagle's feathers and the details in the reverse wreath are crisply defined by an expert strike from the dies. A close look with a glass reveals quite a bold clashmark on the obverse above the eagle. Totally original the orange-gold-tan coloration shows accents of pale blue that adds to the exceptionally high end and beautiful eye appeal.

PCGS 115, NGC 72, CAC 35. PCGS has graded 6 in MS65+ and the ONLY one to ever sell brought \$5,053 in our December 2017 Regency Auction. The current PCGS value is listed at \$6,500. Just 18 have graded higher, and a PCGS/CAC MS66, if you can find one, would certainly sell for close to \$15,000. Good luck, because this is a GREAT looking coin that will be sure to bring a premium bid.

**PCGS# 2020 | ESTIMATE: \$4,200+**

**LOT 76****1C 1856 FLYING EAGLE. PCGS PR65 CAC**

This is a high end example of the S-9 variety. Full GEM quality in every way with wonderful watery reflection in the fields, coupled with a sharp strike and warm slate-blue and lovely golden tan and orange patina on both sides. Every detail is exquisitely rendered with full crisp definition to all of the eagle's feathers. The planchet is hard, with no flaws, pre or post minting, and the eye appeal is superb.

By the early 1850s, the cost of copper rose to the point where the large cent was no longer a viable coin, and the half cent had little use in commerce. Starting in 1850, and progressing to mid decade, the mint began experimenting with different sized planchets and different alloys. By 1856, they decided on the familiar diameter we still use today, but thicker and a copper/nickel alloy. A small number were struck in 1856 for VIPs. The total mintage is approximated at 1,500, many of the survivors are lower grade or impaired. Though scarce, GEMS are seen in auction a few times per year, but always bring strong prices when they do, especially when CAC approved.

PCGS 61, NGC 33, CAC 23. The most recent PCGS/CAC PR65 to sell in auction brought \$38,775 in our May 2019 Regency Auction. The present coin brought \$32,900 in the 2015 ANA auction, and the current PCGS Price Guide value is \$33,500. EXTREMELY RARE any finer, just seven coins have graded higher, including the PR66 that we sold in our September 2019 Regency Auction for \$70,500. A blue chip coin that is worthy of any wonderful collection of small cents or type coins, it will see very strong bidding when it crosses the block today!

**PCGS# 2037 | ESTIMATE: \$30,000+**

**LOT 77**  
**1C 1860 PCGS MS65 CAC**

What a great looking MS65! Intensely lustrous golden-tan surfaces are very high end. Sharply struck. Without any serious marks or flecks anywhere, this GEM has a great eye appeal.

PCGS 194, NGC 123, CAC 47. The most recent example with CAC approval sold in February 2019 realized \$1,320, well above the current PCGS value of \$1,000. Scarce finer, this would make a great type coin or representative of the date.

**PCGS# 2058 | ESTIMATE: \$1,000+**

**LOT 78**  
**1C 1864 COPPER-NICKEL. PCGS MS65+ CAC**

A lovely GEM with a bold golden-tan coloration and snazzy luster that glows brilliantly in the fields, accenting the sharply struck up devices. The eye appeal is very high end.

PCGS 184, NGC 123, CAC 68. There are half a dozen graded MS65+ at PCGS and the last two brought \$1,320 and \$1,410 (the most recent in September 2018) and the current PCGS value is listed at \$1,800. Scarce finer, this is the last year of the Copper-Nickel Indian Head cent series, before the mint switched to a bronze alloy.

**PCGS# 2070 | ESTIMATE: \$1,150+**

**LOT 79**  
**1C 1868 PCGS MS66+ RB CAC**

Tied for FINEST in the RB category this immaculate and beautifully preserved SUPERB GEM has a great look. Brilliantly lustrous with ample original mint red, that mellows with a gentle overtone of pale violet that mingles with gold, rose, and orange color. Sharply struck and the surfaces are clean and devoid of any sort of distracting marks or discolorations of any kind.

PCGS 27, NGC 12, CAC 6. There are four in MS66+ RB and this is the only one to have ever sold in auction, bringing \$3,840 in June 2018. The current PCGS Price Guide value is listed at \$4,750 and there are NONE graded finer in the designation. This beautiful coin is worthy of a great Indian Head cent collection.

**PCGS# 2092 | ESTIMATE: \$3,600+**

**LOT 80**  
**1C 1873 OPEN 3. PCGS MS66 RB CAC**

Here is another beautiful Indian cent that is tied for FINEST graded in the designation. Exceptional luster booms all over this brilliant 1873 cent. There is just the ever so minor touch of iridescent toning over the vibrant red surfaces that keep this GEM in the RB category. Nicely struck on both sides, the eye appeal is wonderful.

PCGS 9, NGC 7, CAC 5. The last time a PCGS/CAC example in MS66 RB sold was back in the 2014 FUN auction and the current PCGS Price Guide value is listed at \$3,500. None are graded finer, this coin is very high end and will delight any serious collector.

**PCGS# 2107 | ESTIMATE: \$3,000+**

**LOT 81**

**1C 1875 PCGS MS66+ RB CAC**

This is a remarkably high end quality GEM and is the SOLE FINEST graded coin in the Red/Brown designation, and is certainly much closer to the RED classification than the Brown. A bold, radiant luster beams along both sides accenting the totally original red that is just beginning to mellow, giving this GEM a stunning look. VERY RARE with such a large amount of original red.

PCGS 8, NGC 19, CAC 5. This is the coin that sold in our May 2018 Regency Auction for \$4,583 on an estimate of \$3,200-\$3,500. The current PCGS value is listed at \$5,500. There are NONE graded finer in the RB category, and this date is very rare in the RD category. Good luck.

**PCGS# 2122 | ESTIMATE: \$4,000+**

**Jessica Berkman (jessica@legendauctions.com)**

**LOT 82**  
**1C 1877 PCGS MS66+ BN CAC**

It is clear to us this coin survived 142 years hidden away in some safe storage where it was allowed to tone wonderfully. The quality is VERY HIGH END and is the FINEST grade!

Virtually immaculate surfaces adorn both sides. The reverse has a small possibly hidden cut (there is die clashing in the area) that you need a glass to see - once you find it. We think that is what keeps this coin from a full MS67 BN grade. There is a strong luster that beams from all over. Both sides were blessed by Mother Nature with original shades of olive/brown/pale mint red/green/pale violet colors. There are ZERO spots or discolorations. You do not even need a glass to see the needle sharp strike. The eye appeal is gorgeous!

PCGS 1, NGC 1, CAC 1. This is the ONLY MS66+ BN grade-and deservedly so! NO MS66 BN has ever appeared or sold via auction. The current Collectors Universe Value is \$45,000.00. The market will determine what this rare and out of this world SUPERB GEM is worth! Be prepared for strong bidding here!

**PCGS# 2127 | ESTIMATE: \$35,000+**

**LOT 83**  
**1C 1878 PCGS MS66 RD CAC**

This is just a monster of an 1878 Indian Head cent. One look and you know this coin is all there and then some from both a technical and aesthetic standpoint. Clearly it is worthy of its lofty Mint State grade and approval by CAC.

Vivid and brilliant red luster rolls over the exceptionally smooth problem free surfaces. The color is totally original, flaming red that shows some light golden accents around the sharply struck devices.

PCGS 15, NGC 6, CAC 9. This is the coin that sold in June 2018 for \$15,600; a record price for the date. There are three coins graded higher at PCGS, including an MS67 RD that has not been seen in auction in nearly two decades. Worthy of a very strong bid again, clearly the current PCGS Price of \$7,000 is way too low for a high end coin like this. It will again sell for a very strong bid. Good luck!

**PCGS# 2132 | ESTIMATE: \$7,500+**

**LOT 84**  
**1C 1879 PCGS MS66 RD**

This is a lovely PQ GEM! Beautiful and radiant original red luster blooms on both sides of this well struck GEM. The surfaces have no major issues and the eye appeal is superb!

PCGS 20, NGC 3. The last example to sell in auction without CAC approval brought \$4,800 in October 2018 and prior to that one brought \$8,225 in March 2017. The current PCGS value is listed at \$8,500. What a great coin, one worthy of a very strong bid.

**PCGS# 2135 | ESTIMATE: \$4,500+**

**LOT 85**  
**1C 1879 PCGS MS66+ RD**

What a stupendous condition census GEM example of the date. Just two have ever garnered the 66+ RD grade with three graded higher.

A glorious, swirling mint red luster blooms brilliantly all over. The fields show off a thick satiny frost that glows throughout. Sharply struck devices stand out boldly and we note no serious marks or imperfections of any kind, we really do not know what stopped CAC from approving it. A strong glass reveals a cool repunched date feature, with the 1 and 9 boldly repunched.

PCGS 2, NGC 0. Nothing finer than MS66 RD has ever sold in auction and the most recent example was CAC and brought \$13,200 in the 2019 ANA auction. The current Collectors Universe value is \$14,000 in MS66+ RD and jumps to \$28,500 in MS67 RD. This is a real prize for anyone working on a high ranking Registry Set. If you are looking to upgrade your GEM to a SUPERB coin, or need to fill this hole in your set, bid accordingly.

**PCGS# 2135 | ESTIMATE: \$10,000+**

**LOT 86**  
**1C 1881 PCGS MS65+ RD CAC**

Blazing, seductively brilliant luster radiates all over with bold, swirling cartwheel luster that gives life to the GEMMY surfaces. The fields show minor traces of reflection that adds to the outstanding eye appeal, and were it not for a minor fleck at the forehead this coin would likely grade even higher! We love the originality and can see this coin bringing a very strong bid.

PCGS 89, NGC 37, CAC 6. There are just three in MS65+ RD, none of which have ever sold. There has not been a PCGS MS65 RD CAC sold in auction since April 2016 and in December 2017 we sold the most recent MS66 RD CAC for \$4,348. In 65+ the Collectors Universe value is listed at \$1,300. Scarce finer, and this one will bring a very strong price.

**PCGS# 2141 | ESTIMATE: \$1,250+**

**LOT 87**  
**1C 1887 PCGS MS65 RD CAC**

A wonderful and original GEM with brilliant, fiery mint red luster. The surfaces glow throughout the obverse and reverse in the fields and across the sharply struck devices. There are some minor toning flecks that can be seen scattered about on both sides. The eye appeal is quite nice.

PCGS 61, NGC 20, CAC 15. The most recent sold for \$1,920 in June 2019, and another sold for \$3,720 in April 2019. Keep in mind that the CDN CAC Bid is \$2,250 and the current PCGS Price Guide value is listed at \$1,650. RARE any finer, the value jumps dramatically in 66. Good luck.

**PCGS# 2159 | ESTIMATE: \$1,800+**

**LOT 88**  
**1C 1888 PCGS MS66 RD CAC**

Among the FINEST graded, there are just three finer at PCGS. We sold this beautiful GEM over two years ago, where it was described as:

"Beautiful! Brilliant, original, glowing mint red luster shines on both sides accentuating the sharply struck devices. Every detail in the headdress, hair, and wreath is fully and crisply defined. Even under intense scrutiny, we note only a tiny tick and a microscopic fleck or two. The eye appeal is wonderful."

PCGS 16, NGC 3, CAC 6. Prior to this one selling in October 2017 for \$9,400, the most recent example to sell in auction brought \$9,106 in the 2016 ANA auction. Others have sold for as much as \$11,750 in recent years. The current Collector's Universe value is listed at \$11,000. If you are building a top tier set of Indian cents, this is among the finest graded and bound for a high ranking Registry Set.

**PCGS# 2168 | ESTIMATE: \$8,000+**

**LOT 89**  
**1C 1889 PCGS MS66 RD CAC**

LRCA is proud to offer this wonderful GEM again. We last sold this coin in our November 2018 Regency Auction 29 where we described it as:

"Brilliant, glowing coppery lustrous surfaces glow throughout this high grade GEM. Tied for finest graded at PCGS. The devices are sharply struck that stand out with crisp definition in the Indian's headdress and the leaves in the reverse wreath. There are a few micro-flecks that can only be seen with a powerful glass. Rosy-red with salmon pink overtones, this coin has a great, lustrous look, worthy of its lofty grade."

PCGS 16, NGC 1, CAC 7. The most recent example brought \$15,600 in the 2019 ANA auction. This coin brought \$10,575 in our November 2018 Regency Auction, and both prices realized are well above the current Collectors Universe value of \$7,500. We think this one will bring a very strong bid from the specialist collector, there is just a single MS66+ RD finer.

**PCGS# 2174 | ESTIMATE: \$8,000+**

**LOT 90**  
**1C 1892 PCGS MS66 RD CAC**

Very high end, totally original, and virtually perfect! Really this is a pristine coin that has its full, original RED color and bold radiating luster. The surfaces are exceedingly clean and free of any imperfections anywhere. The details are nicely struck and the eye appeal is exceptional.

PCGS 21, NGC 4, CAC 8. The most recent example to sell in auction realized \$3,290 in our May 2019 Regency Auction, and prior to that, we sold one for \$3,995 in our November 2018 Regency Auction. The current PCGS Price Guide value is listed at \$3,350 and this date is bested by four coins, making this a great one for any high ranking set.

**PCGS# 2183 | ESTIMATE: \$3,000+**

**LOT 91**  
**1C 1894 PCGS MS66+ RD**

WOW! Someone get the hose, this blazing RED 1894 cent is on FIRE. Bold, brilliant luster has a thick satiny frost that accents the vivid surfaces. This coin has a stunning look imparted by a combination of red, orange, gold, and rose copper hues and sharply struck devices. The quality is very high end.

PCGS 12, NGC 1. Only one to sell in auction realized \$9,694 in our November 2018 Regency Auction, but that coin was CAC approved. Just a single MS67 RD is graded finer at PCGS, a coin that has never sold in auction. This coin can be called the second finest to ever sell in auction and will see very strong bidding. The current PCGS Price Guide value is listed at \$9,250. Worthy of a strong bid from anyone working on a top tier set.

**PCGS# 2189 | ESTIMATE: \$7,500+**

**LOT 92**  
**1C 1901 PCGS MS67 RD**

An premium quality SUPERB GEM. Tied for second FINEST graded! Exceptional RED mint luster has a strong satin frost in the fields and on the sharply struck devices. The cartwheel effect rolls fully over smooth, problem free surfaces. Various shades of RED beam from all over imparting a SUPERB eye appeal.

PCGS 12, NGC 2. There is just one in MS67+ RD and NONE ARE FINER in the RED designation. The current PCGS Price Guide value is listed at \$10,000 and the most recent examples have all sold in the \$5,760 to \$9,600 range. The eye appeal of this coin is excellent and should bring a strong bid.

**PCGS# 2210 | ESTIMATE: \$6,000+**

**LOT 93**  
**1C 1907 PCGS MS66+ RD**

Ultra satiny RED luster blazes across the GEM quality surfaces. Sharply struck on both sides, the devices show complete definition. The cheek and field show a tiny tick or two, but nothing distracting to the otherwise bold eye appeal and fiery RED brilliance. This GEM looks like it was just plucked from a fresh roll.

PCGS 5, NGC 0. There are just five graded higher. The current PCGS value is listed at \$3,500 and the only one to sell in auction hammered at \$2,800 in our May 2017 Regency Auction. What a neat coin!

**PCGS# 2228 | ESTIMATE: \$2,800+**

**LOT 94**  
**1C 1908 PCGS MS66+ RB CAC**

This unbelievable SUPERB GEM is tied for FINEST in the RB category with just a single example and is essentially full RED, the reverse shows just the slightest bit of "mellowing." Intense luster swirls along very clean surfaces which accents the delicate tone and sharply struck devices.

PCGS 8, NGC 25, CAC 3. There are just two MS66+ RB graded at PCGS (none at NGC) and neither has ever sold in auction. The current PCGS Price Guide value is listed at \$1,250 and keep in mind that a slightly redder example in a RD holder will cost substantially more. Good luck!

**PCGS# 2230 | ESTIMATE: \$1,000+**

**LOT 95**  
**1C 1908 PCGS MS66+ RD CAC**

A magnificent SUPERB RED 1908 cent! Truly a coin worthy of its lofty grade, but it is not just high end in terms of technical quality, but the eye appeal is off the charts! Vivacious RED luster gives this frosty coin a great look. Well struck, the design elements are bold. Totally original, there are a few minor flecks that attest to the originality but they do not detract from the awesome fiery orange color!

PCGS 116, NGC 35, CAC 29. We sold one in November 2018 for \$3,878 and the current PCGS Price Guide value is listed at \$4,150. EXTREMELY RARE any finer, PCGS has graded just 3 in MS67 RD, and the last one to sell brought \$33,600. This coin is worthy of a very strong bid from a Registry Set collector.

**PCGS# 2231 | ESTIMATE: \$3,000+**

**LOT 96**  
**1C 1908-S PCGS MS66+ RD CAC**

We are proud to offer this high end, high grade GEM example of the first cent issue struck outside of Philadelphia. This one ranks among the very finest that survive, only a trio of MS67 RDs are graded finer at PCGS. Highly lustrous with light golden-orange color that really accents the sharply struck design elements. The eye appeal is absolutely stunning!

PCGS 76, NGC 25, CAC 21. There are 16 graded MS66+ RD at PCGS and as noted 3 in MS67 RD. The last two PCGS/CAC coins have sold for \$7,800 in the 2019 ANA auction. This coin is an old friend, having sold in our October 2017 Regency Auction for \$8,519. The current PCGS Price Guide value is listed at \$9,000; keep in mind that even though none of those graded 67 RD have ever sold in auction, Collectors Universe values them at \$52,500. Also note, none of those are CAC, so this is among the FINEST CAC approved coins--we know this one will bring a very strong bid!

**PCGS# 2234 | ESTIMATE: \$7,500+**

**LOT 97**  
**1C 1909-S INDIAN. PCGS MS66+ RD CAC**

No question this is one of the FINEST 1909-S Indians you will ever see. It is more than worthy of its + designation. What a great example of the FINAL issue of Indian cent!

Totally clean surfaces are not as common on this date as you might think. Undoubtedly this coin's surfaces are clean and are above average. This cataloger believes this coin has been safely stored since the day it left the bank. A strong glowing luster beams from all over. Both sides are a semi faded original GEM Mint red color. There is some super light original toning and a few toning dots scattered around. Miss Liberty and the details are fully struck and do stand out. The eye appeal is fabulous!

Special note: in its 40 years of operations, our sister company, Legend Numismatics, has only handled one 1909-S PCGS MS66-and that was in 2016. Do NOT let the pops fool you, this is beyond a tough date and grade to find!

PCGS 37, NGC 9, CAC 12. PCGS has graded just 6 in MS66+ RD and this Marvelous SUPERB GEM happens to be the ONLY MS66+ RD to sell, realizing \$24,675 in our January 2019 Regency Auction. The current PCGS Price Guide is \$22,500 and keep in mind that a 67 RD (no CAC) realized \$48,000 in the 2019 ANA auction. Bound for the FINEST of Indian Head cents and will see stiff bidding yet again!

**PCGS# 2240 | ESTIMATE: \$20,000+**

**LOT 98**

**1C 1861 PCGS PR66 CAM**

This is the single FINEST 1861 cent in the CAMEO designation and is exceptionally high end!

Ultra deep, flashy mirrors beam from all over giving this exceptional Premium Grade GEM. The fields show intense reflection that is deep and bold. The mirrored field contrast dramatically with the thickly frosted devices. Using a strong glass, we see nothing more than a tiny line or two. There are no major flecks or spots that can be seen anywhere. The eye appeal is exceptional in every way.

Only 1,000 Proofs were struck. The die polish wore off quickly, leaving precious few cameos, indeed after 30+ years of grading at both PCGS and NGC, just 11 Cameo Proofs have graded combined, of which, this is the SOLE FINEST at either service.

PCGS 1, NGC 0. This coin is so freshly graded and has never appeared at auction that PCGS has not assigned a value in their Price Guide. This is NOT the PR65 CAM that sold in the ESM Collection in the 2019 ANA auction. A non-CAMEO PR66 sold for \$24,675 in September 2013 - seems like yesterday, but how quickly those six years have flown by! This is the ultimate 1861 Indian head cent in Proof and is worthy of a very strong bid from the advanced collector. We know a new record will be hit when the hammer falls. Good luck!

**PCGS# 82256 | ESTIMATE: \$24,000+**

**LOT 99**  
**1C 1862 PCGS PR66+ CAM CAC**

This is a very high end and high grade SUPERB GEM 1862 Proof cent. Ultra flashy, clean, clear mirrors have deep, bold reflection that stands out dramatically. The devices are thickly frosted and razor sharp in strike. Both obverse and reverse are free of any distracting marks or flecks of any kind that we can find, even with the use of a strong glass.

The eye appeal is amazing.

Only 550 Proofs were struck. PCGS 29, NGC 21, CAC 12. There are 3 graded PR66+ CAM at PCGS.

The only PR66+ CAM to ever sell in auction was not CAC approved and sold six years ago for \$6,463 and the current PCGS value is listed at \$6,850. Just five have graded finer, all PR67 CAM at PCGS and the Perfection Collection coin brought \$15,863 in a weaker market. Today, it would likely bring more, making this high end example a great value for the collector.

**PCGS# 82259 | ESTIMATE: \$6,000+**

**LOT 100**  
**1C 1872 PCGS PR64 RD CAC**

Brilliant mint red mirrors shine in the nearly GEM quality surfaces. Devoid of any serious marks, lines, ticks, discolorations, or anything else that would take away from the absolutely outstanding eye appeal. The devices are sharply struck and stand out brilliantly.

Only 950 Proofs were struck, PCGS 39, NGC 12, CAC 2. We sold a non-CAC example in our August 2017 Premier Session for \$2,100 hammer and the current PCGS Price Guide value is listed at \$2,150. VERY RARE any finer in the designation, this coin is worthy of a strong bid.

**PCGS# 2305 | ESTIMATE: \$1,600+**

**LOT 101**  
**1C 1881 PCGS PR66 RB CAC**

A very pleasing, totally original GEM that has a great look. Ultra reflective mirrors beam all over with very attractive color on the reverse. The obverse is mostly brilliant RED color that is just starting to mellow. Sharply struck design elements stand out with a moderate contrast. The eye appeal is excellent.

PCGS 51, NGC 41, CAC 24. This is a tough coin to value. While the current PCGS value is \$1,400 and the last one to sell realized \$1,528 in our September 2019 Regency Auction, this coin has a great look and should be valued closer to a 66+. Good luck!

**PCGS# 2331 | ESTIMATE: \$2,000+**

#### LOT 102

**1C 1881 PCGS PR67+ RB CAC**

Among the absolute highest numerically graded 1881 cents in any designation, this PR67+ RB is tied for FINEST graded at PCGS with just ONE other coin. WOW! Everything about this stunning SUPERB GEM is the epitome of perfection. Bold, flashy, vivid red mirrors beam all over. The "B" in RB is really just a soft overtone of violet rose, that gently caresses the surfaces of the reverse. Razor sharp in strike, the details are extra bold. The superlatives and adjectives needed to accurately describe this SUPERB GEM escape this cataloger. Take our word for it, this coin is special and is as high end as you could ever hope to see. Take a look for yourself.

PCGS 14, NGC 9, CAC 2. There are just 2 in PR67+ RB and NONE FINER at PCGS. Neither coin has ever appeared in auction, and is unpriced in 67+ RB; in PR67 RB, the current PCGS Price Guide value is listed at \$4,000 and this coin will certainly be bid well past that. We expect a new record price to be set when the hammer falls, be sure to keep your paddle held high if you want to add this SUPERB coin to your collection.

**PCGS# 2331 | ESTIMATE: \$5,000+**

#### LOT 104

**1C 1902 PCGS PR66+ RD CAC**

Bold, flashing mirrored surfaces are totally high end and sheer perfection! Wonderful red color shows off very attractive overtones on the reverse. The beaming mirrored fields give off a stunning contrast against the sharply struck and frosty devices, imparting a great look.

PCGS 35, NGC 18, CAC 11. This is the SINGLE PR66+ RD graded, and there are just 10 graded finer. The current PCGS Price Guide value is \$2,500. The last PCGS/CAC PR66 RD sold for \$2,820 and the last PR67 RD sold for \$7,000. This impressive SUPERB GEM will bring a strong bid! Good luck!

**PCGS# 2395 | ESTIMATE: \$2,000+**

#### LOT 103

**1C 1883 NGC PR66 RB GOLD CAC**

This is a gorgeous, polychromatic GEM Proof 1883 cent housed in an ancient, NGC "fatty" holder. Intense mirrors beam with a bold flash that enlivens vivid shades. Sharply struck and beautiful, this coin is conservatively graded and has a great look.

PCGS 48, NGC 36, CAC GOLD 1. The current Collectors Universe values in PR66 RB and PR67 RB are \$1,250 and \$6,250 and this one will sell for a very strong bid. The eye appeal is great and this coin is very special.

**PCGS# 2337 | ESTIMATE: \$2,000+**

#### LOT 105

**1C 1909-S V.D.B. PCGS MS65 RD**

Looking for a wonderful example of this classic date? Look no further! Bold swirling cartwheel luster rolls over this GEM KEY date. A delightful coin for any collector, the present coin is nicely struck, with full complete devices and a brilliant, fiery RED color. While a strong glass reveals a few tiny, scattered marks and ticks, they do not detract from the great naked eye appeal.

PCGS 916, NGC 169, CAC 115. Recent auction prices range from \$3,600 to \$4,080 and the current PCGS value is listed at \$4,500. Very scarce finer, this is the "optimal" grade for most collectors. Good luck!

**PCGS# 2428 | ESTIMATE: \$3,000+**

**LOT 106**  
**1C 1909-S V.D.B. PCGS MS65 RD CAC**

This is an exceptional example of this classic, key date Lincoln cent. Premium quality surfaces and high end RED luster radiates all over. Sharply struck devices stand out against the smooth, GEM surfaces. Nary a mark or discoloration can be found anywhere on this beauty. Always a popular coin, everyone knows of the status of the famous 09-S V.D.B.

PCGS 916, NGC 170, CAC 115. The most recent PCGS/CAC example sold in our March 2019 Regency Auction 31 for \$4,818 and the current PCGS value is \$4,500. The eye appeal is high end and worthy of a strong bid from the collector.

**PCGS# 2428 | ESTIMATE: \$4,000+**

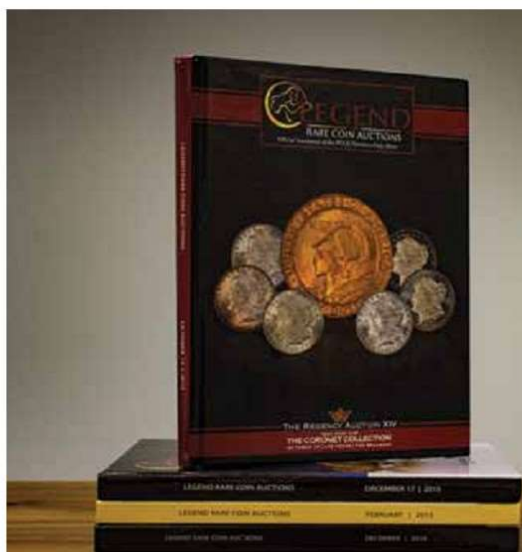

**LOT 107**  
**1C 1909-S/S FS-1501. LINCOLN. PCGS MS66 RD**

Tied for FINEST certified and the PCGS CoinFacts Plate Coin. Bold, brilliant red luster glows with a flaming vibrance on both sides, accented by a touch of subtle iridescent toning.

The repunching of the mint mark is visible with the aid of a glass, the first position slightly too far right, then corrected. The devices are sharply struck and the surfaces are devoid of any serious traces of contact or any kind of flecks, spots, or unsightly discolorations.

PCGS 2, NGC 2. PCGS CoinFacts does not report any auction records for the FS-1501 variety in this lofty, finest seen grade level, but there is a Price Guide value of \$4,000 listed. Indeed, the only APR for a PCGS-graded GEM quality coin was for a PCGS MS65 RD coin that sold back in August 2006. This PQ example, tied for FINEST with just one other at PCGS offers a lot for the advanced variety collector. This opportunity may not occur again!

**PCGS# 2434 | ESTIMATE: \$3,000+**

**BOB SIMPSON, DAVID HALL, GERALD FORSYTHE AND PHIL FLANNAGAN HAVE ALL CONSIGNED TO LRCA, WHY HAVEN'T YOU?**

**CONTACT JULIE ABRAMS, GREG COHEN OR JESSICA BERKMAN TO DISCUSS YOUR COINS!**

**LOT 108**

**1C 1913-S PCGS MS66+ RD**

Legend Auctions is proud to offer the SINGLE FINEST 13-S cents graded by either PCGS or NGC.

Boldly lustrous RED surfaces blaze with a stunning, fiery glow throughout the fields. The color of this SUPERB GEM is truly exceptional. The devices are sharply struck and offer a crisp definition on both sides. The surfaces are generally free of any distracting marks, there is just a minor trace of contact that we note on the reverse. Rose, gold, and salmon accents are lightly toned over the brilliant red color giving this beautiful early Lincoln Condition Rarity a great look.

PCGS 1, NGC 0. This is the SINGLE FINEST graded, and Collectors Universe has yet to assign a value in this lofty state of preservation. The record price for the date is \$63,250 over 13 years ago, and this should bring that or more today! Good luck to anyone working on the #1 Registry Set of Lincoln cents, you cannot beat this SUPERB coin!

**PCGS# 2467 | ESTIMATE: \$65,000+**

**LOT 109**  
**1C 1914-D PCGS MS65+ RB CAC**

A very pleasing and original GEM 14-D. A KEY date issue, with a low mintage of 1,193,000. This sharply struck beauty has a very high end look. Brilliant, satiny luster glows on both sides, accenting the delicately toned copper surfaces. The eye appeal is excellent and even with a strong glass, we are unable to find any serious contact, indeed, the only thing we see is a carbon fleck hidden on the right side of the reverse which does not detract from the great eye appeal.

PCGS 73, NGC 38, CAC 34. PCGS has graded just three in MS65+ RB and there are 4 in MS66 RB finer. The last MS65+ RB to sell was CAC approved and sold for \$10,800 and the current PCGS value is listed at \$12,500. Keep in mind that a 66 RB will bring \$30,000 or so, making this is a great value for the advanced collector and will bring a strong bid.

**PCGS# 2472 | ESTIMATE: \$9,500+**

**LOT 110**  
**1C 1920-D PCGS MS66 RD**

Blazing and brilliant, this SUPERB GEM is as fresh, RED and lustrous as it was the day it came off the dies nearly 100 years ago! It possesses an honored spot at the top of the PCGS Population Report, with NONE finer.

Sharply struck devices stand out against very smooth, defect free surfaces. Satiny red luster blooms all over with hints of magenta, orange, and rose hues. A strong glass reveals a few minute traces of contact, none of which detract from the exceptional eye appeal, and no doubt

this coin will be a welcome addition to any high ranking Registry Set collection.

PCGS 9, NGC 1. The most recent example to sell in auction was CAC approved and sold for \$20,400 in the 2019 FUN auction; prior to that, a non-CAC coin brought \$22,325 in June 2014. The current PCGS Price Guide value is \$25,000. Bidding among Lincoln cent collectors will be intense for this one! Good luck!

**PCGS# 2527 | ESTIMATE: \$15,000+**

**LOT 111**  
**1C 1920-S PCGS MS64+ RD CAC**

Like so many of these earlier date Lincoln cents, the 20-S cent is extremely difficult to find in high grade Mint State with full original mint red color. This borderline GEM is a fully red, lustrous coin with brilliant rosy accents. Sharply struck up with just some tiny toning ticks seen under the aid of a strong glass, however, they do not have any impact on the outstanding eye appeal.

PCGS 102, NGC 28, CAC 4. There are two graded MS64+ RD at PCGS and just 17 are graded higher. While the current PCGS value is listed at \$3,000, we think this one will sell for more. Keep in mind we just sold a PCGS MS65 RD CAC for \$23,500 in our May 2019 Regency Auction. Worthy of any great Lincoln cent set and will see strong bidding.

**PCGS# 2530 | ESTIMATE: \$2,800+**

**LOT 112**  
**1C 1922-D PCGS MS66 RD**

Ranking among the very precious few examples at or just below the apex of the Population Report, this impressive GEM has a fantastic look. Only the Denver mint struck Lincoln cents in 1922, and the mintage was modest, with just shy of 7.2 million falling off the dies.

This GEM offers Original RED surfaces have a bold and brilliant luster that screams all over. Sharply struck devices stand out and the surfaces are of ultra high end quality. This high end and high grade coin is clearly one of the FINEST survivors and worthy of a world class set!

PCGS 16, NGC 2. The last non-CAC example sold in the 2019 FUN auction for \$7,200 and one sold for \$8,813 back in February 2017. The current PCGS Price Guide value is listed at \$12,500. We know bidding will be intense among top tier Registry Set collectors to add this very high end example.

**PCGS# 2539 | ESTIMATE: \$6,500+**

**LOT 113**  
**1C 1926-D PCGS MS65+ RD CAC**

This is a high quality and one of the highest graded 26-D cents. The brilliant RED surfaces are bold and lustrous, showing off with no serious marks or discolorations. The details are all crisply rendered by an exacting, precision blow from the dies. Remarkably RARE any finer, this is a great coin for the advanced Registry Set collector.

PCGS 89, NGC 4, CAC 12. There are 16 graded MS65+ RD and just five finer. The last one sold for \$3,720 in the 2019 ANA auction and prior to that, they brought over \$4,200. The current PCGS value is listed at \$4,500. A PCGS/CAC MS66 RD is a five figure coin, and none have ever sold in auction. This coin will sell for a very strong bid when the hammer falls. Bound for a great set.

**PCGS# 2572 | ESTIMATE: \$3,000+**

**LOT 114**  
**1C 1929 PCGS MS67 RD**

A minty fresh 90-year old bright red lustrous cent. Bold, flaming RED surfaces gleam all over this SUPERB GEM.

PCGS 67, NGC 38. The current PCGS value is listed at \$1,350 and PCGS MS67 RDs without CAC approval have an average APR at \$1,051. This one will bring a good bid, and is bested by just a baker's dozen in MS67+ RD.

**PCGS# 2596 | ESTIMATE: \$850+**

**LOT 115**  
**1C 1943-D PCGS MS68 CAC**

Needle sharp strike with gleaming luster beaming from stunning satiny surfaces. This coin could have been made yesterday, the surfaces are that immaculate and original. Among the finest known for this one-year zinc plated steel type.

PCGS 152, NGC 62, CAC 31. PCGS has graded only 1 finer at 68+ (not CAC). While the PCGS Price Guide lists the value at \$2150, recent APRs for PCGS CAC coins range from \$2,970 to \$6,600, with the most recent bringing \$4,080. A pristine coin

destined for the finest type or date set. Registry set builders will be on high alert for this high-end Lincoln cent.

**PCGS# 2714 | ESTIMATE: \$2,600+**

**LOT 116**  
**1C 1943-S PCGS MS68 CAC**

A PRISTINE and fully frosted lustrous GEM that is essentially PERFECT! Blazing icy, silver steel luster is extremely bold. A light powder-blue iridescent hue flashes when rotated in a light. Sharply struck, with full definition on both sides, this AMAZING coin is certainly among the absolutely FINEST graded.

PCGS 114, NGC 53, CAC 57. The current PCGS Price Guide value is listed at \$4,250, but the most recent PCGS/CAC example sold for \$5,400. Both PCGS and NGC have each graded just a single MS68+ finer, neither of which has ever sold in auction. This stunning quality superb gem is worthy of the FINEST of PCGS Registry Sets. Good luck!

**PCGS# 2717 | ESTIMATE: \$4,200+**

**LOT 117****1C 1955 DOUBLED DIE OBVERSE. PCGS MS64+ RD CAC**

This is one of the greatest TRUE GEM RED 55/55 this cataloger has ever seen! It looks like it just came from the bank. It is impossible to ever see a better MS64+ RD!

Totally covered by GEM "original skin" with fiery red luster blazing boldly on both sides. Soft rose, peach, and gold iridescent accents really pop when rotated in a light (This coin is stable do not worry about it changing color). We note a couple of minor toning flecks with the aid of strong glass, none of which detract from the outstanding eye appeal. Approximately 20,000 were produced when a working die and a working hub were struck together, slightly rotated, creating the dramatic doubling at LIBERTY, IN GOD WE TRUST, and 1955. Many of the doubled dies were placed into the cellophane wrapping of cigarette packs in vending machines. At the time, a pack cost 23 cents, so vending machine operators would put the 2 cent change in the pack. Because of this, most survivors remain in Mint State grades, but ones with full, original RED coloration remain quite difficult to find!

PCGS 175, NGC 42, CAC 34. There are just 10 graded MS64+ RD at PCGS. The most recent sold for \$20,563 in our September 2019 Regency Auction. The current PCGS Price Guide value is listed at \$26,500. Only 21 have ever graded finer at PCGS, none finer than MS65+ RD. We have not seen a true GEM RD offered in years. This coin will more than be the star of any collection or home it resides in. We fully expect strong bidding when it crosses the block.

**PCGS# 2827 | ESTIMATE: \$20,000+**

MS68 RD graded finer. The most recent one to sell brought \$14,400 in June 2019 and the current PCGS Price Guide value is listed at \$12,500. Keep in mind the sole 68 has never sold in auction and Collectors Universe has a listed value of \$22,500. Bound for the FINEST of Lincoln cent sets.

**LOT 118**  
**1C 1972 DOUBLED DIE OBVERSE.**  
**PCGS MS67+ RD CAC**

Among the FINEST graded 1972 Doubled Die obverses, this exquisite SUPERB GEM stands out and ranks very high up on the Population Report. Stunning, fiery, blazing mint red luster is booming and extremely brilliant. Sharply struck devices stand out against the clean, nearly pristine surfaces. The eye appeal is off the charts.

PCGS 72, NGC 18, CAC 9. There are four graded MS67+ RD and just a single MS68 RD graded finer.

**PCGS# 2950 | ESTIMATE: \$10,500+**

\$7,050 and the current Collectors Universe value is listed at \$8,500. What a great coin for any advanced set!

**LOT 119**  
**1C 1983 DOUBLED DIE REVERSE. PCGS**  
**MS68 RD**

Tied with just a single coin for FINEST KNOWN honors!

Stunning pale rose-red luster booms all over. The devices are sharply struck and the reverse doubling is extremely bold and dramatic. Worthy of the lofty grade designation, this high end beauty will fit very well in a world class set.

PCGS 2, NGC 12. The other coin was sold two and a half years ago, realizing

**PCGS# 3056 | ESTIMATE: \$7,500+**

PCGS 45, NGC 8, CAC 17. Our consignor bought this PQ GEM for \$3,290 in June 2014 and the current Collectors Universe value is \$3,000. We know that this amazing example will bring strong bidding when it crosses the block.

**LOT 120**  
**1C 1909 LINCOLN. NGC PF66 RD CAC**

This is quite an exceptional GEM example of the first Matte Proof. Remarkably well preserved with gorgeous color, it is little wonder that the late, great collector Gene Gardner chose this example for his world class collection. Still housed in its "no line, NGC fatty" holder, the surfaces are awash in brilliant red and subtle magenta and gold accents that are truly a delight to behold.

**PCGS# 3305 | ESTIMATE: \$2,500+**

**LOT 121****1C 1909 LINCOLN. PROOF. PCGS PR67 RD CAC**

This is an absolutely STUNNING example of the first year of the Lincoln Matte Proofs. It is virtually pristine, with uber smooth fields, bold red color and brilliant luster, and razor sharp devices. Totally original, this coin offers a band of deeper red toning along the lower left reverse rim, angling up from below the right tip of the wheat stalk, and up and along the lower edge of the left wheat stalk. A single fleck, across from the U in UNITED also serves as a pedigree marker. The eye appeal is awesome in every way.

PCGS 7, NGC 0, CAC 6. The most recent example sold for \$14,688 in the 2016 ANA auction, and prior to that, one sold for \$14,979 in November 2011. Clearly these do not appear with any real frequency. The current PCGS Price Guide value is listed at \$15,500. Just three are graded finer at PCGS, none of which have ever sold in auction, making this among the FINEST you can ever hope to own and we anticipate very strong bidding when this one is hammered down.

**PCGS# 3305 | ESTIMATE: \$13,500+**

**LOT 122**  
**1C 1910 PCGS PR67+ RD CAC**

A mix of heaven meeting earth here. This coin is so wild it does not deserve to even exist!

This coin looks like it was just minted! Phenomenal surfaces are fully satiny and boldly matte like in texture. There is not a single imperfection to be found anywhere. A bold and glowing unbroken luster flames all over. The color is a stunning rich GEM Mint Red with highlights of pale gold. Lincoln and every detail looks like they were carved out by a doctor's scalpel. The eye appeal is so incredible we doubt you'll ever forget this coin!

PCGS 6, NGC 3, CAC 4. There are just two in PR67+ and NONE are graded finer. This coin realized \$41,125 in our July 2017 Regency Auction. Legend has owned the magnificent 1C 1909 VDB PCGS PR67+ RB CAC piece (universally acknowledged to be the FINEST of any Matte Proof 1C). This coin is the only Matte Proof we have ever seen that ranks #2 to that. If you are an advanced Matte Lincoln collector, or have been searching for an out of this world special coin, this piece represents an opportunity of a lifetime!

**PCGS# 3308 | ESTIMATE: \$35,000+**

**LOT 123**  
**1C 1913 PCGS PR66 RD CAC**

This is a gorgeous 1913 Matte Proof cent! Both sides offer an exceptional blend of varied shades of brilliant and deeper reds with lighter golden accents and some warm brick-red/violet overtones that not only add to the outstanding eye appeal, but attest to the unconserved, undisturbed surfaces. A bold satiny luster blooms all over, which is imparted by the fine facets of the sand blast surfaces and the devices are razor sharp in definition. In this cataloger's opinion, this is an ideal example for the date or type for any collector.

PCGS 44, NGC 7, CAC 15. Much nicer than the one we sold in June 2019 for \$3,290, this beauty should bring a strong bid in excess of the current PCGS value of \$3,000. RARE any finer, with just 10 graded higher at PCGS, this is a great coin for any Matte Proof Lincoln set. Get started on your set today!

**PCGS# 3317 | ESTIMATE: \$2,800+**

**LOT 125**  
**1C 1955 PCGS PR68 RD DCAM**

It is amazing to think that this coin was not minted recently, it looks more a 1995 or 2005 fresh from a Proof Set than a coin that is nearly old enough for Medicare and Social Security.

Intense, deep mirrors beam from all over and are the epitome of cleanliness and clarity. They are bold and flawless contrasting wonderfully against the frosty, sharply struck devices. Brilliant RED is as fresh today as when this PRISTINE GEM came off the dies.

PCGS 13, NGC 9. The most recent example brought \$5,520 in the 2019 FUN auction, and prior to that, one brought \$7,050 in April 2017. The current Collectors Universe value is \$7,500. There is a single PR69 RD DCAM finer, but that coin has never sold in auction and would bring into the five-figures if it did. Worthy of a high end Registry Set. Bid accordingly.

**PCGS# 93374 | ESTIMATE: \$5,000+**

**LOT 124**  
**1C 1914 PCGS PR66 RB CAC**

EX GARDNER COLLECTION, as noted on the holder.

This is another gorgeous Matte Proof Lincoln cent from the famed Gardner Collection. Beautifully toned surfaces show off a vibrant matte luster that brings out the subtle shades to the fore. Pristine preservation on both sides, there are no significant marks, spots, flecks or any distractions of any kind. This GEM offers an eye appeal that few can come close to.

PCGS 41, NGC 22, CAC 24. This marvelous example realized \$4,406 back in October 2014. Though today the Collectors Universe value is listed at \$3,200, this one will bring a very strong bid. Good luck!

**PCGS# 3319 | ESTIMATE: \$3,200+**

**LOT 126**  
**2C 1864 LARGE MOTTO. PCGS MS66+ BN CAC**

WOW! This is one of the FINEST Large Motto 1864 2 cent pieces graded in the BN category. It is a real borderline MS67 BN. For a coin in that classification, the surfaces have a ton of retained original RED hidden in the devices. Sharply struck and highly lustrous surfaces are pristine (save for one toning dot) and offer a great eye appeal.

PCGS 24, NGC 37, CAC 19. There are just two in 66+ BN and a single 67 BN graded finer. Neither 66+ ever sold in auction, while that 67 BN sold in the 2018 ANA auction for \$7,200. That makes the current PCGS Price Guide value of \$2,000 seem very cheap by comparison. This coin will see very strong bidding among type and Civil War era specialists. Be prepared!

**PCGS# 3576 | ESTIMATE: \$2,500+**

**LOT 127**  
**2C 1864 SMALL MOTTO. PCGS MS66 BN**  
**CAC**

What an incredible example of this very scarce Small Motto variety. A very strong mint luster radiates brilliantly on both sides, bringing out the strong remnants of original mint red color that make this PQ GEM very close to a RB. Sharply struck devices on both sides show all details well defined from an exacting blow from the dies. As tied for FINEST in the color category, and none are numerically finer in any color category, this exceptionally attractive coin will delight any type, two cent, or Civil War collector.

PCGS 3, NGC 6, CAC 1. The current PCGS Price Guide value is listed at \$6,000 and it would not shock us if this very high end example brought more. Keep in mind that with a touch more red, a PCGS MS66 RB CAC would cost close to \$10,000 (if you can find one, no PCGS MS66 RB has sold in auction since our December 2013 Auction V). This is a very RARE opportunity that is not to be missed!

**PCGS# 3579 | ESTIMATE: \$6,000+**

**LOT 128**  
**2C 1865 PLAIN 5. PCGS MS66 RD CAC**

A beautiful, SUPERB early two cent piece in GEM. A popular variety, with repunching seen at the 8 and 6 of the date and the 5 logotype shows an upright positioning. Bold radiating mint luster shows a vivacious RED color that is quite eye arresting. The devices are sharply struck up and the surfaces are generally clean, showing just a few tiny stray ticks.

PCGS 52, NGC 22, CAC 20. PCGS has graded just five Plain 5s in MS66 RD. We sold a regular MS66 RD 1865 for \$4,070 in our November 2017 Premier Session. For the variety, the current Collectors Universe value is listed at \$7,500. What a wonderful example.

**PCGS# 38249 | ESTIMATE: \$3,500+**

**LOT 129****2C 1872 PCGS MS66 RD**

The 1872 is the undisputed KEY to the series, with a mintage of 65,000. Not only that, but the survival rate is awful! Today, in Mint State Red grades, PCGS has graded fewer than two dozen examples in all grades. The presently offered MS66 RD is tied for FINEST GRADED at either service and it is not just high grade, but is also very visually impressive.

Full red surfaces are essentially flawless and possess a glowing mint frost. The devices are well struck and stand out vividly. The red has slightly mellowed, offering original soft coloration on both sides. The eye appeal is amazing!

PCGS 4, NGC 0. Prior to this one, the last non-CAC MS66 sold in April 2016 for \$52,875 and the current PCGS Price Guide is listed at \$57,500. There are NONE FINER, making this a MUST HAVE coin for the advanced collector of this obsolete denomination. What a great way to cap off your set!

**PCGS# 3614 | ESTIMATE: \$45,000+**

**LOT 130**  
**2C 1866 PCGS PR66+ RD CAM CAC**

This coin is light years superior to the typical PR66 RD you see. It has so much quality and life!

Deep mirrors are almost endless. They have an intensity so powerful the flash competes with the sun! The mirrors are also very clean and have strong clarity. When you twirl this coin, the mirrors look like a freshly made sheet of glass. The contrast is bold. Both sides are a GEM original Mint red color. There are NO black spots or discolorations. Every detail is pinpoint sharp in strike and has thick frost. The eye appeal is breathtaking!

Only 725 minted. PCGS 4, NGC 3, CAC 3 (probably a resubmission is included). PCGS has graded 2 of these with none higher. There is a current Collectors universe Value of \$12,500. NO PCGS CAC piece has ever been sold via auction. Regular PR66RD's have brought \$10-\$15,000, and that was at least 3 years ago. This is a rare date in full GEM RD, let alone in Cameo. If you collection PR 2C pieces, you know this is a very special coin and opportunity!

**PCGS# 83632 | ESTIMATE: \$12,500+**

**LOT 131**  
**2C 1867 PCGS PR66 RD CAM**

An exceptional SUPERB GEM with bold beaming mirrors. The eye appeal is truly special in every way.

The rich, red brilliance of the the fields reflect beautifully against the frosty, sharply struck devices, imparting a wonderful contrast. A strong glass and careful inspection reveals nothing more than a tiny fleck or two, but free of

any kinds of marks. Any Proof two cent piece with bold cameo contrast is a rarity and a delightful addition to any advanced set.

Only 625 Proofs were struck. PCGS 2, NGC 0. No PCGS Cameo has sold in auction since a PR64 RD CAM sold a generation ago! The current Collectors Universe value is listed at \$28,500 and this is a great coin for anyone working on an advanced set. Good luck!

**PCGS# 83635 | ESTIMATE: \$20,000+**

**LOT 132**  
**2C 1873 CLOSED 3. PCGS PR65 RB CAC**

This is a truly beautiful and totally original example of the final year of this short-lived series and is the very scarce Proof only issue. Solid, hard mirrors beam from all over with a bold, flashy reflection. Richly toned, with mint red dominating bold overtones of violet and medium chocolate brown that really come to life in the light. The eye appeal is very high end.

Only 600 were struck according to estimates. PCGS 116, NGC 61, CAC 43. The most recent example to sell in auction realized \$3,408 in our June 2019 Regency Auction. The current PCGS Price Guide value is \$4,250. RARE any finer, this GEM has a great look and is a great coin for any collection of 2 cent pieces.

**PCGS# 3652 | ESTIMATE: \$3,400+**

**LOT 133**  
**3CS 1862/1 PCGS MS66 CAC**

This coin is very high end! What a great, original, Civil War era GEM with a bold visual allure. Satiny underlying mint frost glows from below a totally original, melange of color that really pops in a light. Shades of pale blue, apricot-rose, tangerine-gold, and pewter-slate combine over exceptional quality, pristine surfaces. A high end stone bold GEM worthy of any collection of trimes.

PCGS 86, NGC 64, CAC 43. Prices are all over the place, going back to 2008, the average APR is \$1,841. We sold one in our January 2018 Regency Auction of the Ipswich Collection for \$2,468. RARE any finer, this is a great coin for any high end set.

**PCGS# 3681 | ESTIMATE: \$1,600+**

**LOT 134**  
**3CS 1870 PCGS PR66 CAC**

An exceptionally gorgeous GEM! Imbued with beautiful bulls-eye toning with rose-gold at the center, then rich teal and blue, finally with russet and crimson around the rim. The fields are gloriously reflective, while the devices and lettering are all frosty with contrast. The combination of the bold strike, exceptional toning and high quality make these Three-Cent Silver pieces highly collectible!

Only 1,000 Proofs were struck. PCGS 22, NGC 26, CAC 22. The last one sold in June 2016 for \$3,995 and the eye appeal is amazing, making it a great coin for any set. There are just four graded higher in the designation.

**PCGS# 3721 | ESTIMATE: \$3,000+**

**LOT 135**  
**3CN 1888 PCGS MS67+ CAC**

This is not your average MS 3CN. This coin is SUPER HIGH END and truly ranks as one of the finest survivors.

Immaculate surfaces have a thick satiny coating. A few microscopic toning dots are visible using a strong glass. They actually help confirm the coin's bold originality. A strong cartwheel type luster beams from all over. Both

sides are a beautiful GEM original nickel color. This coin is NOT dull or drab. There are NO discolorations. Miss Liberty and the details are frosty and are well struck (for a 3CN). The eye appeal is fantastic!

PCGS 60, NGC 40, CAC 25. PCGS has graded 6 in MS67+. The last PCGS CAC piece to sell in auction brought \$11,750.00 in April of 2017. We can not stress enough how rare these are looking as fresh and nice as this coin. This is a great coin for any HIGH END GEM Type or MS 3CN set!

**PCGS# 3757 | ESTIMATE: \$10,000+**

**LOT 136**  
**3CN 1866 PCGS PR66+ DCAM CAC**

Impressively deep mirrors shine with exceptional reflective brilliance against the highly frosted devices, producing a coin with an exceptional cameo contrast. The design elements almost appear to float off the icy fields. The surfaces on both obverse and reverse are smooth and clean, free of all but the tiniest line or fleck, and nothing that is visible to the naked eye. Clearly one of the finest examples extant, and the eye appeal is sensational!

PCGS 9, NGC 7, CAC 13. This is the ONLY PR66+ DCAM graded by PCGS. The current PCGS Price Guide value is listed at \$4,500 and this coin has sold for over \$5,000 in the past. There are 7 coins graded PR67 DCAM finer. This is a very rare opportunity to buy one of the most superb examples of this date without having to spend into the five figures! Opportunity knocks very loudly here!

**PCGS# 93762 | ESTIMATE: \$4,000+**

**LOT 137**  
**3CN 1866 NGC PR68 ULTRA CAMEO**

WOW! What an exceptional SUPERB GEM example! This is the SINGLE FINEST 1866 Proof 3CN!

This coin is essentially FLAWLESS! It looks like it was struck just yesterday. The mirrors are exceptionally deep and smooth with a brilliant reflectivity in the light. The well struck reliefs are thickly frosted and are wonderfully contrasted against the mirrored fields. The contrast is so BOLD the reliefs seem to stand out in full 3D! The eye appeal and technical qualities are off the charts!

PCGS 0, NGC 1. Nothing like this has ever sold in auction; the closest records we can find are for PR67 DCAMs which do not have the stunning visual allure of this impressive SUPERB GEM.

**PCGS# 93762 | ESTIMATE: \$20,000+**

**LOT 138**  
**3CN 1877 PCGS PR66 CAM CAC**

This is a Proof Only date, and a low mintage at that! Regardless of whether the mintage in the Red Book (900) or PCGS CoinFacts (510) is correct, this PR only date is very scarce.

This CAC approved PR66 CAM has a great visual appeal. Liquid mercury-like fields contrast wonderfully around the highly frosted reliefs. This is a great example of this key date for any set of 3CN.

PCGS 70, NGC 55, CAC 55. The most recent example to sell in auction brought \$3,840 in the 2019 ANA auction and the current PCGS value is listed at \$4,750. RARE finer, with fewer than two dozen graded higher. While the market might have put these great coins on sale, now is a great time to start working on a collection. Start with this key issue.

**PCGS# 83773 | ESTIMATE: \$3,000+**

**LOT 139**  
**3CN 1881 PCGS PR68 CAC**

Generally, these are NOT found with the pizzazz that this piece displays. This coin stood out to us instantly. It has a really fresh crisp look.

Strong mirrors beam boldly from all over. The mirrors offer strong clarity and are extremely clean. When you twirl the coin, the mirrors look like a freshly made sheet of glass. You actually get a full cartwheel luster effect. Both sides are a totally original nickel/pale blue/pale lilac color. Miss Liberty and the details are lightly frosted and stand out with sharp strikes. The eye appeal is especially gorgeous!

PCGS 5, NGC 9, CAC 2. Prior to this coin selling, the last auction sale for an 1881 PCGS PR68 3CN (NO CAC) was from 2006! We think that speaks volumes about its rarity. If you are a contrarian, this is a coin you really need to add to your collection. PR 3CN's have been weak the last couple years to the point they are probably too cheap. You could even include a SUPERB piece like this in a box of 20. GEM PR 3N's like this have so much to offer! Good luck!

**PCGS# 3777 | ESTIMATE: \$6,000+**

# THE TRZASKA COLLECTION

The Trzaska Collection is the 100% complete #2 PCGS Registry Set of Proof US Nickels with Major Varieties (1866-Present), including the very rare 1867 with Rays in PCGS PR64+. The collection was meticulously built, with each coin hand-picked for eye appeal and quality. The 1904 PCGS PR67+CAM is the single finest known with 55 other coins tied for finest known examples.

The introduction of the Shield Nickel in 1866 was the first time a US coin had been minted from an alloy. With the turmoil of the Civil War, gold and silver coins were being stashed away and saved for the next rainy day. The initial design, Type 1 with Rays, produced only for the first two years was altered upon discovering that the dies deteriorated easily. In mid-1867 the rays were removed, and the Type 2 No Rays variety were struck from 1867 until 1883. Subsequently, the Type 1 Liberty Nickel was released in 1883 without the word "Cents" anywhere on the coin. However with a little gold plating, the coins were easily

mistaken for \$5 gold pieces so later that year the Type 2 "with Cents" Lib Nickels were produced. Liberty Nickels were replaced in 1913 with the perennially popular Indian Head or more commonly referred Buffalo Nickel design. The raised numbers of the date on the obverse and the raised "Five Cents" on the reverse were quick to wear prompting the slight redesign later that year. The Type 2 with recessed "Five Cents" on the reverse remained in circulation until 1938. While the Buffalo was endearing to the public for its very American theme, the Mint was struggling with the consistently breaking dies. A contest for the design of the next Nickel was held and in 1938 the Jefferson Nickel was released. A design that has experienced small changes over the years is still employed today.

The Trzaska collector over the years fastidiously hunted these first-rate Proof Nickels and LRCA is pleased to offer them. This is a great opportunity for collectors of proof Shield, Liberty, Buffalo and Jefferson Nickels to improve their sets!

**LOT 140****5C 1866 RAYS. PCGS PR67 CAM CAC**

This is a stunning SUPERB GEM, tied for FINEST GRADED at PCGS in the CAM designation.

The mint began striking nickels in 1866, and the original James Longacre design shows the Union shield on the obverse and a large 5 in a ring of 13 stars, with rays between. The copper nickel alloy proved very difficult to strike, the dies broke quickly and in 1867 the reverse design was changed.

The present example is very high end. Watery mirrored fields are smooth and icy. The lower obverse is crumbling, evidence of the difficulty the mint had producing this new denomination. All the devices are razor sharp in strike and stand out with a stunning contrast against the mirrored fields. A dusting of pastel iridescent gold really adds to the originality and high end visual allure of this Premium Quality beauty!

Only 600 Proofs were struck. PCGS 4, NGC 11, CAC 2. No CAC approved example has ever sold in auction. A PCGS-graded example without CAC sold for \$12,925 in the 2015 ANA auction. The current PCGS Price Guide value is listed at \$18,000. Only one coin is finer, A PR67 DCAM from the Just Having Fun Collection sold back in November 2013, which realized \$41,125. This exceptional GEM is worthy of a world class collection of Proof nickels.

**PCGS# 83817 | ESTIMATE: \$15,000+**

**LOT 141**  
**5C 1867 RAYS. PCGS PR64+ CAC**

This is the RAREST and most enigmatic issue in the Shield nickel series. Not only is this coin the highlight of the Trzaska Collection, but it is also a highlight of this entire Regency Auction.

The mint changed the design of the Shield nickel reverse part way through 1867. Difficulties in striking caused the With Rays reverse die to break, leaving many small die cracks. The mint sought to fix this issue by removing the rays from the design. A small, but unknown mintage in Proof was produced. Some estimates are as low as 25; PCGS CoinFacts suggests 60; the current combined population of PCGS and NGC-graded coins comes to 88 examples (which likely includes duplication). Regardless of actual mintage, the number of known examples is very small.

This gorgeously toned example sets itself apart from all the others.

Often coming with dull mirrors, this one has a great flash and beaming reflectivity. Stunning rainbow iridescent toning can be seen framing both sides, attesting to its originality and very high end eye appeal. Shades of red, green, blue, and gold blend to create a vibrancy of color that is rarely seen on any 1867 Rays in Proof. A classic rarity that is always in demand from collectors, this coin is eagerly sought by advanced collectors.

PCGS 16, NGC 4, CAC 8. This is the only PR64+ graded and it brought \$31,200 in March 2018. The current Collectors Universe value is \$36,000. A high end coin for any high end set. This one will see very strong bidding for sure.

**PCGS# 3818 | ESTIMATE: \$28,000+**

## THE TRZASKA COLLECTION

### LOT 142 5C 1867 NO RAYS. PCGS PR65 DCAM CAC

On a scale of 1-10 for quality and eye appeal, this coin is a 10+! If you can create a perfect black and white cameo coin in your mind, this coin is what it would look like in person. The quality is all high end for sure!

Deep mirrors boldly beam like search lights from all over; they are incredibly clean, clear, and are intensely reflective. If you twirl the coin the mirrors look like a freshly made sheet of ice. There are no

spots or discolorations. Every detail is needle sharp in strike and has bold thick frost. The eye appeal is tremendous!

ONLY 600 were ever minted. PCGS 1, NGC 0, CAC 1 PCGS has graded only 4 finer. This date should command more respect as it is pretty much just as rare as its cousin With Rays. It is critical to note, The last auction record for this coin was for \$7,050 way back in 2012. SEVEN long years ago. There are NO published prices we feel are correct at this point. Our estimate is reflective of what we believe we'd have to pay in the marketplace to buy this coin.

If you seek a great early date real black and white cameo GEM, here you go! Good luck!

PCGS# 93821 | ESTIMATE: \$7,500+

### LOT 143 5C 1867 NO RAYS. PATTERN REVERSE. PCGS PR63 CAM CAC

What an interesting variety, one that is not well known except to dedicated specialists of this series. This is a muling of the regular issue Proof obverse die, with a reverse die that was used to strike Pattern shield nickels. This reverse was used to strike Judd numbers 476-479; 500; and 507-509a and can be attributed by the placement of the star above the T and S in CENTS.

Bold and flashy mirrored fields have a brilliance on both sides. This high end PR63 CAM has a few contact marks that keep the grade limited to the assigned grade, but the eye appeal is quite nice for the modest grade. The frosted reliefs stand out in bold contrast to the surrounding fields.

PCGS 1, NGC 0, CAC 1. This is a hard coin to value, based on its rarity and infrequency seen in auction. A PCGS PR64 (non CAM, no CAC) sold in September 2014 and we sold a PR65 CAM non-CAC for \$6,756 in our September 2015. PCGS does not have an assigned value in any grade and this is a very RARE and desirable piece that bridges mainstream collecting and something specialized like Patterns.

PCGS# 519407 | ESTIMATE: \$4,000+

### LOT 144 5C 1868 PCGS PR66+ CAM CAC

Truly a spectacular GEM Proof Shield nickel! The Cameo contrast is exceptional, especially on the obverse. This beauty is tied for FINEST graded at PCGS.

The mirrors are deep, bold, and offer the most exceptional clarity. There is zero haze, or any other kind of toning other than a hint of clear iridescence to be seen anywhere. The devices are razor sharp and fully frosted, creating a stunning contrast. The surfaces are clean and free of any distracting post mintage marks or lines. The eye appeal is outstanding!

Only 600 Proofs were struck. PCGS 19, NGC 18, CAC 23. There are just 3 graded PR66+ CAM at PCGS and NONE GRADED FINER. The most recent sold in \$4,935 in the 2017 FUN Auction, and the current PCGS value is listed at \$5,500. For a coin like this, we know bidding will be fierce to bring this SUPERB GEM home.

PCGS# 83822 | ESTIMATE: \$4,500+

## THE TRZASKA COLLECTION

### LOT 145

5C 1869 PCGS PR66+ CAM CAC

WOW! This high end SUPERB GEM has a stunning Cameo contrast.

The mirrored fields have a blazing, bold depth of clarity that contrast against thickly frosted devices. The contrast borders on DCAM status, especially on the obverse which really has claims to that classification. The mirrors are vivid and icy smooth with nearly zero imperfections and the eye appeal is SUPERB.

Only 600 Proofs were struck. PCGS 17, NGC 11, CAC 15. There are just four graded PCGS PR66+ CAM and a mere single example finer. We sold an example in our January 2017 Regency Auction for \$5,640. There was an example that sold in November 2017 for \$4,800 and the current Collectors Universe value is listed at \$4,950. Just a single example has graded higher at PCGS, a PR67 CAM, which last sold six years ago for nearly \$16,000. This is a great early Proof nickel that is a delight to behold and a coin that will be a stand out in any set.

PCGS# 83823 | ESTIMATE: \$4,500+

### LOT 147

5C 1871 PCGS PR66+ CAM CAC

A lovely, high end GEM example with a bold cameo contrast. Sharply struck devices stand out with a thick frost. The eye appeal is excellent, imparted by a deep reflection that offers rich clarity.

Only 960 Proofs were struck. PCGS 29, NGC 15, CAC 21. Only four PR66+ CAMs have graded at PCGS and just three PR67 CAMs are graded finer. The average APR is about \$1,500 and the current PCGS Price Guide value is listed at \$1,900. This coin is worthy of a very strong bid from the collector. These are just too cheap at these levels!

PCGS# 83825 | ESTIMATE: \$1,200+

### LOT 146

5C 1870 PCGS PR66 CAM CAC

EX ELIASBERG COLLECTION

This SUPERB GEM 1870 Proof nickel boasts one of the greatest pedigrees in all of numismatics, that of Louis Eliasberg. Described in lot 757 in the May 1996 Bowers sale as: "Proof-67. Brilliant. It is difficult to imagine that more than just a tiny number of comparable examples could exist." The reflective mirrors beam all over leaving the frosty devices standing in stark cameo contrast. The eye appeal is amazing. Prior to Eliasberg, this coin was in the Clapp Collection where it was obtained from Edouard Frossard's March 1894 auction.

Just 1,000 were struck. PCGS 24, NGC 16, CAC 18. While the most recent examples have sold in the \$1,100 to \$1,300 and the current PCGS Price Guide value is listed at \$1,500, this one last sold in March 2009 for \$5,463. VERY RARE any finer, just seven have graded finer at PCGS, and keep in mind that the value in PR67 CAM is \$16,000. This is a real prize for the specialist collector. Good luck.

PCGS# 83824 | ESTIMATE: \$2,000+

### LOT 148

5C 1872 PCGS PR66+ CAM CAC

A gorgeous borderline SUPERB GEM with a bold reflection on both sides. The fields are flashy with an impressive clarity and brilliance. A light dusting of clear yellow-gold tone graces across the surfaces which show off a very strong Cameo contrast. The eye appeal is amazing.

Only 950 Proofs were struck. PCGS 35, NGC 14, CAC 22. There are just five in PR66+ CAM and five coins finer. The only CAC approved example in 66+ CAM sold for \$2,585 in April 2013 and the current PCGS Price Guide value is listed at \$1,800. Nothing finer has ever received a CAC bean.

PCGS# 83826 | ESTIMATE: \$1,500+

## THE TRZASKA COLLECTION

### LOT 149

5C 1873 CLOSED 3. PCGS PR66 CAM CAC

Like every other coin in this set, this coin was carefully selected for its high end technical and visual qualities. The highly reflective mirrored fields have a deep, bold flash with excellent clarity and they contrast vividly against the frosty texture of the well struck devices. The eye appeal is wonderful, as you do not have to imagine the contrast at all.

PCGS 37, NGC 7, CAC 21. The most recent sold in July 2019 for \$1,680 and another sold for \$1,320 in March 2019. The current PCGS value is listed at \$1,400. There are just a half dozen examples graded finer. This is very high end for the grade and will be a splendid addition to any set of Shield nickels.

PCGS# 83827 | ESTIMATE: \$1,250+

### LOT 150

5C 1874 PCGS PR67 CAC

An impressive SUPERB GEM Proof 1874 nickel with icy brilliance and an exceptional quality reflectivity that entices the viewer with a bold eye appeal. Sharply struck devices stand out against the mirrored surfaces. Totally original and boasting a great eye appeal, this SUPERB GEM is worthy of any high end set.

Only 700 Proofs were struck. PCGS 19, NGC 4, CAC 7. The most recent PCGS/CAC example sold in our June 2019 Regency Auction for \$3,290 and the current PCGS value is listed at \$3,500. Just 2 are graded PR67+, and none have sold in three and a half years. One of those is CAC approved and is being offered on the market privately for \$5,500, a 10% premium over the CU value. This is a real prize for any collector and should bring a very strong bid.

PCGS# 3828 | ESTIMATE: \$3,000+

### LOT 151

5C 1875 PCGS PR66 CAM CAC

Boldly mirrored fields burst with life that brings out the beautiful cameo contrast. The thickly frosted devices stand out against the sleek, bold, deeply mirrored fields. The eye appeal is exceptional.

Only 700 Proofs were struck. PCGS 11, NGC 9, CAC 8. The most recent example to sell in auction brought \$3,055 in our July 2017 Regency Auction and was NOT CAC approved. The current PCGS value is listed at \$3,750 and there is just a SINGLE PR67 CAM graded finer at PCGS, making this one among the FINEST Cameo Proof 1875 nickels on the market.

PCGS# 83829 | ESTIMATE: \$2,500+

### LOT 152

5C 1876 PCGS PR67 CAM CAC

This is a very high end and visually appealing SUPERB Cameo Proof Shield nickel. A popular issue from the centennial year, this date is RARE so fine. Deep beaming mirrors offer a bold flash and ultra clean surfaces. Thickly frosted devices stand out against the mirrors with a strong contrast. The surfaces show the faintest blush of pastel iridescent toning that adds to the exceptional eye appeal.

PCGS 8, NGC 7, ACC 10. The most recent example to sell in auction brought \$3,408 in our October 2017 Regency Auction and the current PCGS Price Guide value is \$4,500. There are just three graded PR67+ CAM finer at PCGS, only one ever sold, bringing \$5,170 in January 2017. This is a grand opportunity for any collector looking to upgrade their set.

PCGS# 83830 | ESTIMATE: \$3,200+

## THE TRZASKA COLLECTION

### LOT 153 5C 1877 PCGS PR67 CAM CAC

Everything about this coin screams amazing quality. You really have to see this coin-no image will do it justice!

Absolutely flawless "ice" like mirrors are the epitome of depth, cleanliness, clarity, and of course monster reflectivity. Light and clearly totally ORIGINAL album toning colors of pastel lilac/gold/baby blue swirl around the peripheries. Every detail is needle sharp in strike and has super frost. For an 1877, this is really a heart pounding jaw dropping monster!

This is a PROOF ONLY date. Just 510 pieces were minted. PCGS 9, NGC 6, CAC 4 (we believe this is 2 of the 4). The current Collectors Universe Value is \$11,000. NO PCGS/CAC piece has ever appeared in auction. Even NON CAC pieces rarely make auction appearances. If you are building a spectacular Shield 5C set, or collect key dates, this is a coin you need to see. Most likely it will be a very long time before another is offered. Enjoy!

PCGS# 83831 | ESTIMATE: \$10,000+

### LOT 154 5C 1878 PCGS PR67 CAC

This is a Premium Quality PR67 with a superb, totally original look. Watery reflective mirrors dance brilliantly on both sides, enhanced by a delicate lilac and apricot hue that is really pleasing to the eye. The eye appeal is outstanding and the surfaces are essentially flawless.

PCGS 28, NGC 22, CAC 10. We sold one in our September 2019 Regency Auction for \$1,821, but it did not have the outstanding eye appeal of this one. The current PCGS Price Guide value is listed at \$2,500. There are just three finer in the designation, all PR67+, none of which have ever appeared in auction. This wonderful SUPERB GEM example will delight anyone working on a high end set.

PCGS# 3832 | ESTIMATE: \$1,800+

### LOT 155 5C 1879 PCGS PR67 CAM CAC

One of the FINEST KNOWN CAMEO Proof 1879 nickels that exists!

Incredible, deeply reflective, ultra flashy mirrors beam from all over sparking intense contrast against the white frostiness of the exquisitely struck up devices. As the grade assigned suggests, the surfaces are immaculate and flawless.

PCGS 6, NGC 9, CAC 6. First off, we think, based on the auction appearances, the Population data may be inflated. First, going back to 2003, only TWO PCGS-graded examples ever sold in auction, the most recent bringing \$5,280 in March of this year. All other appearances are for NGC graded coins. The current PCGS Price Guide value is listed at \$6,500 and there is just a single PR67+ CAM graded finer in the designation, a non-CAC example that brought \$19,975 in our January 2019 Regency Auction. This AMAZING GEM will delight any advanced Proof Shield nickel collection. Bidding will be as intense as the contrast when this one crosses the block!

PCGS# 83833 | ESTIMATE: \$5,000+

## THE TRZASKA COLLECTION

### LOT 156

5C 1879/8 PCGS PR66 CAM CAC

Here is another wonderful, totally original Shield nickel from this outstanding collection. As an overdate, it is one of the few major varieties in the series and is considered a part of the regular Proof series. This sharply struck up PQ GEM has nice frosty devices stand out against the watery reflective, nickel gray surfaces. The eye appeal is quite nice and the overdate is clear with a glass.

PCGS 37, NGC 0, CAC 16. The most recent PCGS/CAC examples sold for \$1,440 and \$1,459 and the current PCGS Price Guide value is listed at \$1,800. This beautiful coin will bring a strong bid and will fit nicely in any set. Keep in mind just 13 are graded higher in the CAM designation.

PCGS# 83834 | ESTIMATE: \$1,250+

### LOT 157

5C 1880 PCGS PR67+ CAM CAC

This is a tremendous SUPERB GEM. It really does border on PR68 Cameo!

Superior deep mirrors beam from all over. The mirrors have bold clarity, superior cleanliness, and are highly reflective. Using a strong glass, all you can find is one tiny obverse lint mark. You can just about shave with the mirrors. They do look like a freshly formed sheet of ice. Both sides offer strong contrast with the same faint gold more so by the rims. Every detail is needle sharp and has a crisp full strike. The eye appeal is amazing!

PCGS 25, NGC 21, CAC 12. PCGS has graded only 4 coins PR67+ Cameo. The last one to sell in auction brought \$3,995 in October 2015. FOUR long years ago. The current Collectors Universe Value is \$5,500. This coin will be a tremendous addition to any GEM PR 5C or Type set!

PCGS# 83835 | ESTIMATE: \$4,000+

### LOT 158

5C 1881 PCGS PR67 CAM CAC

WOW! What an impressive SUPERB GEM Proof Shield nickel. Exceptional pastel toning with pink, gold, and lilac hues that are truly a delight to behold and do not in any way impact the boldness of the reflection in the fields. The devices are sharply struck up and stand out boldly against the smoothness of the icy mirrors.

PCGS 27, NGC 23, CAC 32. The most recent example to sell in auction realized \$2,062 in June 2019 and the PCGS Price Guide value is listed at \$1,500. With just five graded higher, this beauty will no doubt impress even the most jaded Registry Set collector.

PCGS# 83836 | ESTIMATE: \$1,200+

### LOT 159

5C 1882 PCGS PR67 CAM CAC

Among the FINEST Cameo Proof 1882 nickels, just a single coin is graded higher. Deep beaming mirrors contrast wonderfully against the sharply struck devices that have a thick, wonderful frost. A pale dusting of the faintest gold accents the SUPERB GEM quality of this beauty!

PCGS 25, NGC 21, CAC 14. There has not been a CAC-approved example in auction since September 2015, where it realized a very weak \$1,293. Prior to that there are four PCGS coins that sold for over \$2,000. The current PCGS value is listed at \$1,500. There is a single PR68 CAM finer. This is an outstanding example, destined for inclusion in another world class set and will see very intense bidding.

PCGS# 83837 | ESTIMATE: \$1,250+

## THE TRZASKA COLLECTION

### LOT 160

**5C 1883 SHIELD. PCGS PR67 CAM CAC**

From the final year of this series, this remarkable, high end SUPERB GEM ranks among the absolute FINEST graded by PCGS. Exquisite, smooth mirrored fields are the epitome of depth and clarity. The sharply struck devices are thickly frosted and have a bold contrast against the fields. The surfaces are flawless and have a great look.

PCGS 9, NGC 14, CAC 9. The last two PCGS/CAC examples to sell in auction were back in 2015 and they realized \$1,469 and \$1,586. The current PCGS value is listed at \$1,500. There are just 2 finer in PR67+ CAM, neither of which has ever sold in auction, but carry a PCGS value of \$5,000. This marvelous beauty will fit in any high end Registry Set and will see strong bidding among the top tier collectors.

**PCGS# 83838 | ESTIMATE: \$1,200+**

### LOT 161

**5C 1883 NO CENTS. PCGS PR67 CAM CAC**

Tied for FINEST graded in the Cameo designation.

A bold CAMEO Proof that borders on the DCAM designation. Really reflective mirrored fields display the epitome of depth and clarity. A very light gold patina can be seen at certain angles in the light. This SUPERB GEM is one of only a half dozen of high enough quality to be awarded the CAC green bean. The No Cents reverse is a one year only type, which because of its popularity had a very high mintage of 5,219, making it available to most collectors today. The reverse design was altered later in the year to add CENTS.

PCGS 31, NGC 22, CAC 6. The most recent PCGS/CAC PR67 CAM to sell in auction brought \$4,700 in our September 2019 Regency Auction. Prior to that, we sold one in May 2017 for \$4,465. This exceptional SUPERB GEM is worthy of a very classy set of this popular series, and should be hotly contested when it crosses the block. What a great way to start out your Proof Lib nickel set.

**PCGS# 83878 | ESTIMATE: \$3,500+**

### LOT 162

**5C 1883 WITH CENTS. PCGS PR67 CAC**

A gorgeous SUPERB Proof with lovely iridescent toning on both sides, clearly this beauty sat undisturbed in the original tissue paper of issue. Shades of lilac, gold, and dove patina graces both sides of this impressive SUPERB GEM. Flashy mirrors radiate throughout the fields of both obverse and reverse, giving this lovely a great eye appeal.

PCGS 9, NGC 14, CAC 2. There are two PCGS/CAC APRs, the most recent from November 2017 at \$2,520 and one from the 2014 FUN auction which brought \$4,113. Go ahead and ignore the PCGS Price Guide, there is just a single PR68 graded finer, a coin we sold nearly four years ago for \$9,106. This beauty is excellent.

**PCGS# 3881 | ESTIMATE: \$2,000+**

### LOT 163

**5C 1884 PCGS PR67 CAM CAC**

Wow! What a SUPERB example of the date, one of the top graded surviving specimens, ranked as tied for second finest graded. Intense, beaming mirrors flash with a vibrant brilliance on both sides that contrasts brilliantly against the thickly frosted devices. Both sides show a pleasing gold dusting that adds to the eye appeal of this high end SUPERB GEM.

PCGS 14, NGC 13, CAC 12. The most recent example sold in our September 2019 Regency Auction, which was the Meridian Collection, and realized \$4,230. The current Collectors Universe value is listed at \$4,000 and with only six examples graded finer, this beauty will fit nicely in a world class set!

**PCGS# 83882 | ESTIMATE: \$3,500+**

## THE TRZASKA COLLECTION

iridescent tone across the liquid mercury, flashy fields attesting to the originality of this very high grade and high end piece.

PCGS 6, NGC 1, CAC 2. This SUPERB GEM brought \$8,813 back in June 2013 and the current PCGS Price Guide value is listed at \$8,500. Just two are graded higher at PCGS in the DCAM category, the most recent example sold five years ago realizing \$14,100 (neither has CAC approval). This is a real prize for anyone working in a world class collection of Proof Liberty Head nickels. Bidding will be fierce when this 1884 is called to the auction block.

**PCGS# 93882 | ESTIMATE: \$6,500+**

PCGS 2, NGC 2, CAC 2. There has not been a PCGS PR68 sold in auction since August 2011, selling for \$12,650 and the current PCGS value is listed at \$12,000. With NONE graded finer, this is a real prize anyone working on the #1 PCGS Registry Set needs to bid on.

Who knows how long until another comes up for sale!

**PCGS# 3883 | ESTIMATE: \$11,000+**

**LOT 164**

**5C 1884 RPD. FS-301. PCGS PR66+  
DCAM CAC**

The present SUPERB GEM is tied for second FINEST graded DCAM 1884 nickel and is the SOLE FINEST example of the Repunched Date variety graded at PCGS.

Deeply mirrored fields beam with a stunning clarity and they contrast vividly with the exceptionally thick frosted devices. The repunching of the 1 in the date is visible to the naked eye, the first 1 placed too low, then corrected. A light

**LOT 165**

**5C 1885 PCGS PR68 CAC**

This is one of two PCGS PR68s graded and NONE are higher. This is an important opportunity for anyone collecting Proof Liberty Head nickels. The surfaces are flashy with rolling cartwheels that accent the watery mirrored fields. The devices are razor sharp with crisp, complete definition on both sides.

The surfaces are awash in a delicate lilac-blue that add a seductive look to this exceptionally high end and beautiful PR68.

## THE TRZASKA COLLECTION

### LOT 166

**5C 1886 PCGS PR66+ CAM CAC**

Intense, amazing chrome-like mirrors beam from all over the icy smooth SUPERB quality fields. They are clean and the mirrored fields have a deep, bold clarity. The devices are ultra frosted and sharply struck up that contrast brilliantly against the brilliant mirrored fields. The eye appeal is amazing!

PCGS 24, NGC 20, CAC 16. There are 4 graded PR66+ CAM and just eight finer. The only one to sell realized \$3,565 in October 2012, a very long time ago. We sold a 67 CAM CAC in our September 2019 Regency Auction for \$7,638. This beautiful SUPERB coin will see intense bidding, so ignore the Price Guide value and bid accordingly!

**PCGS# 83884 | ESTIMATE: \$3,000+**

### LOT 167

**5C 1887 PCGS PR67 CAC**

What a beautiful Liberty nickel! Clearly this coin was lovingly cared for since it left the mint. It ranks as one of the FINEST certified at PCGS, with just a single coin finer in the designation. The highly reflective mirrored fields are stunning in their flash, smoothness, and clarity. Both sides display a dramatic "tie-dyed" patterned rainbow toning. Wonderful, swirling bands of vivid pink, gold, orange, blue, violet, and pastel green. Sharply struck this SUPERB GEM has an eye appeal that cannot be beat and will delight any collector.

PCGS 8, NGC 3, CAC 6. If you collect Proof Liberty nickels, you know some are nicely toned, but most are not. Those that are, are few and far between and this AMAZING SUPERB GEM has got to rank among the most beautiful we have seen. Previous auction records and price guides are irrelevant here, though we will cite the Collectors Universe value of \$4,000. The record is \$6,900 achieved by an example in August 2011; if this coin came close, it would not be a shock to us. Good luck.

**PCGS# 3885 | ESTIMATE: \$4,000+**

### LOT 168

**5C 1888 PCGS PR66+ CAC**

High end, watery reflective surfaces have a lovely flash when rotated in a light. Nicely struck, the surfaces have a light dusting of color which attests to the bold originality and provides a nice eye appeal.

PCGS 117, NGC 87, CAC 42. There are 10 graded PR66+ at PCGS with just 11 graded finer. The most recent example realized \$793 in our September 2019 Regency Auction, and the Collectors Universe value is listed at \$1,050. The eye appeal is bold and high end making this a great coin for the collector.

**PCGS# 3886 | ESTIMATE: \$700+**

### LOT 169

**5C 1889 PCGS PR67 CAC**

This is a SUPERB GEM, offering watery reflective, nickel silver fields that delight the eye. A trace of the palest iridescent tone is dusted over the surfaces attests to originality and the strike is sharp and complete on both sides. The eye appeal is wonderful.

PCGS 14, NGC 20, CAC 9. NONE have been graded finer at PCGS after 33+ years of operations. One sold in November 2017 for \$4,080. The current PCGS Price Guide value is listed at \$3,500, but this SUPERB GEM with CAC endorsement and strong eye appeal is worthy of a very strong bid and placement in another world class nickel set.

**PCGS# 3887 | ESTIMATE: \$3,500+**

## THE TRZASKA COLLECTION

### LOT 170 5C 1890 PCGS PR66 DCAM CAC

Among the **FINEST KNOWN** 1890 Proof nickels, this remarkable coin brought a world record price in our December 2015 Regency Auction, where it was described as:

“Sparkling white frost announces each device loudly, while the mirror fields fall away in icy perfection. The surfaces are virtually flawless, and close scrutiny finds little more than a few short lint marks from tiny threads that adhered to the dies when these initial Proof coins were

struck. Only 2,740 pieces were struck in Proof, and this is one of the two finest known pieces certified by PCGS with the Deep Cameo designation. It would be hard to imagine any finer example to come from these dies.”

PCGS 2, NGC 0, CAC 2. This piece brought \$12,925 in our December 2015 Regency Auction and the current PCGS Price Guide value is listed at \$9,500. Destined for the ultimate Set Registry collection of Proofs in this series.

**PCGS# 93888 | ESTIMATE: \$8,000+**

### LOT 171 5C 1891 PCGS PR66+ DCAM CAC

This is a truly spectacular **SUPERB GEM DCAM** that has a gorgeous pastel iridescent toning that gives this coin a remarkable and memorable look. We could not put it down, the combination of deep reflection, bold contrast, and awesome color is hypnotic!

Concentric rings of iridescent pastel blue and green color frame the silver and rose tinge centers that gleam and beam from all over. Sharply struck and fully frosted, this **SUPERB GEM**. The eye appeal is amazing in every way and this coin will see very strong bidding, perhaps a record bid.

PCGS 13, NGC 5, CAC 11. The most recent to sell in auction realized a relatively cheap \$5,520 in October 2018; prior to that, one sold for \$8,813. The current PCGS Price Guide value is listed at \$7,000. Just a single PCGS PR67+ DCAM is finer, which has never sold. This beauty will bring a strong bid, so specialists take note. The eye appeal will drive it to a very high bid.

**PCGS# 93889 | ESTIMATE: \$5,000+**

### LOT 172 5C 1892 PCGS PR66+ CAM CAC

This is a stunning **CAMEO Proof** that borders on a DCAM classification! We just love the look. From across the room you can see the bold contrast and deeply reflective mirrored fields. The devices are sharply struck and have a thick frosty texture. The eye appeal is stunning.

PCGS 47, NGC 25, CAC 28. There are 11 PR66+ CAMs graded at PCGS. The most recent example sold for \$750 in the 2018 ANA auction, and prior to that, these were selling between \$1,050 and \$1,200. There are just a half a dozen graded finer, including the one we sold in September 2019 for \$18,213. This is a great coin for anyone working on a wonderful set! Good luck.

**PCGS# 83890 | ESTIMATE: \$750+**

## THE TRZASKA COLLECTION

**LOT 173**  
**5C 1893 PCGS PR66 CAM CAC**

WOW! What a great looking Cameo GEM with an bold intensity to the ultra deep, reflective mirrors. The sharply struck devices are thickly frosted and stand out with a dramatic 3D effect. A blush of the slightest pastel gold tone graces both sides imparting a stunning visual allure.

PCGS 31, NGC 24, CAC 30. The current PCGS value is listed at \$900 and the most recent PCGS/CAC example brought \$780 in November 2017. Hard to imagine its been two years since one sold. Seems like a great value here.

**PCGS# 83891 | ESTIMATE: \$700+**

**LOT 174**  
**5C 1894 PCGS PR67 CAM CAC**

Here is another exceptional quality, high end, and high grade Proof Liberty nickel.

Ranking among the absolute FINEST graded, this boldly contrasted SUPERB GEM is a contender for the finest of sets.

The mirrors are deep and offer extreme clarity and cleanliness. The contrast is about as bold as you can hope to see on a Proof Liberty nickel with a thick mint frost seen on both sides of the devices. A delicate golden tone adds to the totally original surfaces and the eye appeal is exceptional in every way.

PCGS 7, NGC 5, CAC 7. The most recent example to sell realized \$7,638 in our September 2019 Regency Auction and was from the Meridian Collection. The current PCGS value is listed at \$6,000. Just four are graded finer, all PR67+ CAM. Upgrade your set today!

**PCGS# 83892 | ESTIMATE: \$6,000+**

**LOT 175**  
**5C 1895 PCGS PR66+ CAC**

This is a really beautifully toned GEM Proof 1895 nickel. Amazing, apricot-peach gold tone across the highly reflective, watery mirrored fields. The surfaces are without flaw and the eye appeal is very high end.

PCGS 28, NGC 32, CAC 14. Just two coins have graded PR66+ and just two are graded higher. The last one to sell in auction brought \$1,058 in April 2017 and the current Collectors Universe value is listed at \$1,250. Keep in mind a PR67 is worth between \$4,000 and \$5,000 and the PR68 sold for \$73,438 in our May 2019 Regency Auction. This PQ beauty will certainly bring a very strong bid for its outstanding eye appeal.

**PCGS# 3893 | ESTIMATE: \$1,000+**

## THE TRZASKA COLLECTION

**LOT 176**  
**5C 1896 PCGS PR67 CAC**

This is a very high end PR67 example of this date with a bold eye appeal and great looking color. Not only that, but it is tied for second FINEST graded at PCGS.

Deep and clean mirrors have excessive flash and bold reflection. They are also flawless (save for a single planchet flaw on the reverse) and have a superior clarity. The details are crisply executed and both sides display a gorgeous and original pastel iridescent patina that adds to the impressive visual allure.

PCGS 6, NGC 9, CAC 5. The most recent example to sell in auction realized \$7,200 in November 2017 and the current PCGS value is \$5,000. Keep in mind that we just sold a 67+ for over \$15,000 in the September 2019 Regency Auction. This is a great opportunity to add one of the FINEST examples to your collection and is worthy of a very strong bid.

**PCGS# 3894 | ESTIMATE: \$5,000+**

**LOT 177**  
**5C 1897 PCGS PR67 CAM CAC**

Super quality! This coin will make you oooh and aaah!

Super deep and stunning crystal clear mirrors are clean and look like freshly made glass. The reflection is intense and the luster is bold. A bit of super light gold mixes with even lighter baby blue around the peripheries. There are no black flecks or discolorations.

Miss Liberty and the details are needle sharp in strike and have lots of frost. The eye appeal WILL make your jaw drop!

PCGS 15, NGC 10, CAC 19 (obviously several resubmissions). The last PCGS CAC to sell in a major auction brought \$1,800 in April 2019. These seem so cheap today. As we have said many times recently, this is a completable series that's still not priced crazy!

**PCGS# 83895 | ESTIMATE: \$1,600+**

**LOT 178**  
**5C 1898 PCGS PR67+ CAM CAC**

WOW! What a marvelous fully black and white SUPERB GEM. Tied for FINEST GRADED at PCGS, The quality is VERY high end for sure! Deep and dazzling mirrors beam vividly from all over; they are crystal clear, have zero imperfections, and are the ultimate in reflection. When you twirl the coin, the mirrors remind you of flowing liquid mercury. This coin is untuned. The contrast is bold. Miss Liberty and the details are pinpoint sharp in strike. The eye appeal is just awesome!

PCGS 13, NGC 1, CAC 10. There are just three coins graded PR67+ CAM and we just sold one for \$7,931 in our September 2019 Regency Auction and another sold in June 2012 for \$7,638. The current PCGS value is listed at \$5,500 and with NONE FINER at PCGS, this coin will see very strong bidding when those vying for #1 on the Registry duke it out to bring home this SUPERB GEM.

**PCGS# 83896 | ESTIMATE: \$5,500+**

## THE TRZASKA COLLECTION

### LOT 179

**5C 1899 PCGS PR67 CAC**

A gorgeous, watery reflective SUPERB GEM with a very high end look and exceptional eye appeal. The mirrored fields are uber flashy and smooth with a bold clarity and cleanliness. A dusting of pale gold iridescent tone gives this coin a very high end and original look. Among the FINEST non-CAMEO designated examples graded by PCGS.

PCGS 11, NGC 20, CAC 13. Don't let the population figures fool you, these don't appear in auction with any frequency; the last one sold for \$1,704 in our October 2015 Regency Auction! RARE finer, just a trio have ever received a finer non-CAM grade at PCGS, PR68 finest. This beauty is worthy of a SUPERB set. Good luck!

**PCGS# 3897 | ESTIMATE: \$1,200+**

### LOT 181

**5C 1901 PCGS PR67 CAC**

EX COMPRADORE COLLECTION

WOW! This is just a great Proof Liberty nickel! A coin of exceptional eye appeal and SUPERB quality. A delicate dusting of apricot gold with light rose accents the highly reflective, flashy mirrored surface and sharply struck devices. The visual effect is very high end!

PCGS 45, NGC 27, CAC 25. The most recent CAC-approved example was graded by NGC and sold for \$1,528 in our June 2019 Regency Auction. The current PCGS Price Guide value is \$1,100 and this pedigreed beauty will certainly bring a stronger bid than that! Good luck!

**PCGS# 3899 | ESTIMATE: \$1,100+**

### LOT 180

**5C 1900 PCGS PR66 CAC**

Thickly toned over watery reflective surfaces. Rich orange gold, with light rose and pale blue accents. The strike is razor sharp and the eye appeal is unique, clearly from sitting in an ancient envelope.

PCGS 89, NGC 69, CAC 35. The most recent sold in June 2018 for \$720 and the current PCGS value is listed at \$575. A very pleasing and affordable GEM.

**PCGS# 3898 | ESTIMATE: \$550+**

### LOT 182

**5C 1902 PCGS PR67 CAM CAC**

Among the 10 FINEST graded with NONE higher in the CAM designation at PCGS. This coin is totally amazing!

Ultra deep, flashy reflective mirrors beam all over on both sides. The fields are smooth, clean, and are the epitome of clarity on both sides. Sharply struck and frosted, the devices stand out against the fields with a bold 3D effect on the obverse. The eye appeal is as stunning as you would expect for one of the finest known specimens.

PCGS 10, NGC 1, CAC 8. The most recent example from the Meridien Collection sold in our September 2019 Regency Auction realizing \$8,225 on an estimate of \$3,200-\$3,500. It is our strong belief (and the last sales prove it to a degree) all printed values for this date and grade are wrong. Also, do not be fooled by the pops, we think a piece or two was resubmitted for a +, we question the current Collectors Universe Value of \$4,500.

**PCGS# 83900 | ESTIMATE: \$4,500+**

## THE TRZASKA COLLECTION

### LOT 183 5C 1903 PCCS PR67+ CAM CAC

A beautiful SUPERB GEM example that is totally original and has dramatically watery mirrored fields on both sides. The devices are boldly rendered with a thick frost. A dusting of pale, pastel lilac and gold iridescent toning attests to the originality.

PCGS 23, NGC 11, CAC 24. There are 10 graded PR67+ CAM at PCGS with just 2 finer. The most recent example sold for \$5,875 in our September 2019 Regency Auction and one brought \$5,640 in our September 2018 Regency Auction. The current PCGS price is \$6,000. The only PCGS PR68 CAM to sell brought nearly \$20,000 nearly six years ago!

PCGS# 83901 | ESTIMATE: \$5,000+

### LOT 184 5C 1904 PCCS PR67+ CAM CAC

Legend Rare Coin Auctions is proud to offer this SUPERB GEM Cameo 1904 nickel, which is the SINGLE FINEST GRADED example of the DATE in all designations!

Wow, this coin is essentially beyond description! This is not an "almost there" or "pushing it" Cameo, this is as distinct a CAM as nearly any date of this series.

Dramatically reflective, deep beaming mirrored fields are smooth and flawless. They are icy and have a brilliant flash all

over and are ultra clean and clear. The obverse is a bold chrome-like nickel-silver while the reverse has a soft pastel gold and pale blue iridescent tone.

While 1,817 Proofs were struck, the dies were poorly prepared, with very few attaining Cameo contrast. Between PCGS and NGC, 14 total have been assigned a CAMEO designation, and this one is by far the FINEST of all.

PCGS 1, NGC 3, CAC 2. This is the ONLY PR67+ CAM at either service. This coin realized a record \$23,500 in the 2015 FUN auction, a sale that was held at a generally weak point in the market. With the market for Pop Top Liberty nickels very active right now, with several major collectors vying for top rank on the PCGS Set Registry, we know the battle to bring this intense Proof will be fierce! Good luck, you will need it!

PCGS# 83902 | ESTIMATE: \$20,000+

### LOT 185 5C 1905 PCCS PR66 CAM CAC

Really high end and visually stunning GEM Proof Cameo nickel. Sharply struck, frosted devices stand out against the ultra deep, clear mirrors that beam all over. The contrast is bold and the eye appeal is excellent, aided by the powder blue overtone that dazzles in the light. We cannot imagine many that have this stunning allure.

PCGS 8, NGC 4, CAC 7. The current PCGS Price Guide value is listed at \$2,250 and this coin should bring close to that or more when the hammer falls. It is a shame that the market has put this series on sale, because it hurts great looking coins like this. Now is the time to work on a set.

PCGS# 83903 | ESTIMATE: \$1,500+

## THE TRZASKA COLLECTION

**LOT 186**  
**5C 1906 PCGS PR67 CAM CAC**

This is a very pleasing, high end 1906 Proof Liberty nickel. The eye appeal is imparted by a bold and flashy reflectivity that contrasts against the frostiness of the sharply defined devices. The surfaces have an icy iridescence that adds to the visual allure.

PCGS 22, NGC 10, CAC 25. The last one to sell in auction brought \$2,468 in our September 2019 Regency Auction and the current PCGS value is listed at \$2,950. RARE any finer, with just five graded in PR67+ and PR68 CAM and keep in mind the jump in price between the grades. Worthy of another world class set and will see intense bidding from specialists.

**PCGS# 83904 | ESTIMATE: \$2,500+**

**LOT 187**  
**5C 1907 PCGS PR66 CAM CAC**

Pure magnificence! This PQ GEM Cameo Proof has a world class look! Deep beaming mirrors have a bold clarity and reflection that flashes all over, contrasting brilliantly against the frosty white devices. A blush of light color, especially on the reverse. The eye appeal is awesome.

PCGS 19, NGC 14, CAC 15. The current PCGS Price Guide value is listed at \$1,250 and with this coin's great looks, that price should be met, despite recent APRs. RARE any finer, so this is worthy of a strong bid, and placement in a world class collection.

**PCGS# 83905 | ESTIMATE: \$800+**

**LOT 188**  
**5C 1908 PCGS PR66 CAM CAC**

Like so many of the Proof Liberty nickels in this inspired collection, this one is of exceptional quality and originality overall. Wonderful glassy smooth mirrors have a deep, clear, clean reflection that beams throughout the fields. The frosted devices stand out against the surrounding fields, imparting a pleasing cameo contrast. Both sides are dusted with a pleasing clear gold.

PCGS 25, NGC 8, CAC 27. Recent auction results range from \$1,020 to \$1,763 and the current PCGS Price Guide value is listed at \$1,400. Just a dozen Cameos are graded finer, making this a great example for a GEM set.

**PCGS# 383906 | ESTIMATE: \$1,000+**

**LOT 189**  
**5C 1909 PCGS PR67 CAM CAC**

Intense CAMEO contrast borders on DCAM on the obverse, the ultra thick mint frost contrasts boldly against the the deeply mirrored fields. The reflection beams from all over. The eye appeal is truly SUPERB! We cannot imagine a nicer one in this grade.

PCGS 36, NGC 24, CAC 40. Four have sold this year, realizing between \$1,821 and \$2,400 and the current PCGS Price Guide value is listed at \$1,950. Quite scarce any finer in the designation, this is a great coin for another world class set.

**PCGS# 83907 | ESTIMATE: \$1,750+**

## THE TRZASKA COLLECTION

### LOT 190 5C 1910 PCGS PR67 DCAM CAC

WOW! What an amazing beauty! It is shocking that a coin like this could survive in such a PRISTINE state of preservation. This miraculous SUPERB GEM is the sole third finest coin on the PCGS Population Report, with just two coins graded finer, one in 67+ DCAM and 68 DCAM.

The contrast is intense. Deeply mirrored fields are flawless, free of any post minting distractions. The reflection is bold, and offers stunning clarity. The

sharply struck devices stand out with a stunning contrast that just jumps from the surfaces. We note, with the aid of a glass, some mint made planchet flaws, which are invisible to the naked eye. The eye appeal is absolutely amazing.

PCGS 1, NGC 0, CAC 3. There are two finer; a PR67+ DCAM and a PR68 DCAM. A PR67 DCAM sold in October 2012 for \$14,100. More recently we sold the PR67+ DCAM in our March 2019 Regency Auction and sale of the Intense Cameo Collection for \$27,025. The current Collectors Universe value in 67 DCAM is \$10,500 and we know this coin will bring more when the hammer falls.

PCGS# 93908 | ESTIMATE: \$10,000+

### LOT 191 5C 1911 PCGS PR67 CAM CAC

Exceptional quality and eye appeal! Deep, icy mirrors beam from all over with intense reflectivity. A touch of original, pale champagne-peach color is splashed all over. Miss Liberty and the details are needle sharp in strike and have thick creamy white frost. The eye appeal is intense!

PCGS 17, NGC 8, CAC 13. The most recent example to sell in auction realized \$4,818 in our September 2019 sale of the Meridien Collection. Prior to that, we sold one in Regency Auction XXIII for \$4,230. This SUPERB coin is bested by a mere four coins, all PR67+ CAM and the only one to sell brought \$9,600 in April 2018. This jewel is worthy of a world class set and will see fierce bidding for sure.

PCGS# 83909 | ESTIMATE: \$3,500+

### LOT 192 5C 1912 PCGS PR67 CAM CAC

This GORGEOUS 1912 is tied for FINEST graded and while there are 8 reported as PR67 CAM at PCGS, there is no way any of them possess the stunning visual allure of the present SUPERB GEM! Amazing, beaming mirrors are flawless and radiate a bold reflection rarely seen on any Proof Liberty nickel. The devices are sharply struck and even the most minute design features are crisply rendered by the exacting blow from the dies. The lower obverse has a dramatic swath of golden-orange that deepens to a fiery sunset orange the closer to the rim you get. The upper portion of that side has a light dusting of pale blue over the stunning original nickel silver that has a chrome-like reflection that really captivates the eye.

PCGS 8, NGC 5, CAC 9. The most recent example to sell was from the Meridien Collection that we sold in our recent September 2019 Regency Auction, which brought a very strong \$6,756 on an estimate of \$3,800-\$4,200; prior to that one, they were selling for about \$4,500. The current PCGS Price Guide value is listed at \$6,000 and with NONE FINER in the designation, anyone looking for a very high end and beautiful example for a top ranking Registry Collection, this coin cannot be beat. Good luck

PCGS# 83910 | ESTIMATE: \$4,000+

## THE TRZASKA COLLECTION

### LOT 193 5C 1913 TYPE 1. PCGS PR67+ CAC

Tied for second FINEST graded Type 1 Buffalo nickel in Proof, with just a handful grading finer at PCGS. This is a GORGEOUS example!

The bold, sculptured devices stand out with a dramatic crispness and fullness of detail. The surfaces are wonderfully satiny with a soft, peach-gold sheen. The eye appeal is simply stunning, which is why this SUPERB GEM ranks among the FINEST!

PCGS 75, NGC 39, CAC 43. PCGS has graded 17 in PR67+. The current PCGS Price Guide value is listed at \$12,000 and we sold the most recent example in May 2019 for \$18,800. Indeed, we have had the honor of selling the three CAC-approved PR67+ graded coins, the others selling for \$9,694 and \$15,275. The current Collectors Universe value is \$12,000 and keep in mind that only 1 PCGS PR68 has ever sold in auction, bringing \$75,900 back in the 2005 ANA auction. That is RARE and we know that this coin with its amazing looks will bring very strong bidding! Good luck.

PCGS# 3988 | ESTIMATE: \$10,000+

### LOT 194 5C 1913 TYPE 2. PCGS PR67 CAC

A gorgeous example, a near twin to the PR67+ Type 1 offered above. Totally original and high end, the surfaces have a wonderfully vivid satin sheen that radiates on both sides. This luster enlivens the soft gold and magenta toning on the obverse, while the reverse has traces of sky blue that gives a depth to the very crisp, full strike. The eye appeal is amazing.

PCGS 74, NGC 36, CAC 40. The most recent PCGS/CAC example to sell in auction brought a low price of \$3,840 in the 2019 ANA auction; before that, one sold in June 2019 for \$4,800. The current Collectors Universe value is listed at \$5,750. Just 18 examples have ever graded finer at PCGS, and the auction prices double in PR67+ and a PCGS/CAC PR68 will cost \$45,000+ if you can find one! Good luck!

PCGS# 3990 | ESTIMATE: \$3,600+

### LOT 195 5C 1914 PCGS PR67 CAC

A vivid and vivacious satin luster blooms all over on this SUPERB GEM Matte Proof nickel. Beautifully toned, the essentially perfect, flawless surfaces show off pastel blue, lilac, and gold hues on both sides, deeper on the reverse, clearly that side was in contact with whatever holder it was in. The eye appeal is spectacular.

PCGS 89, NGC 63, CAC 70. We sold the Northern Lights Collection coin in our May 2019 Regency Auction for \$4,583. Since then two others have sold, one for \$4,200 and the other for \$5,760; all are above the current Collectors Universe value of \$4,000. Quite rare any finer, this is a great grade, price point, and specimen for anyone working on a great set of Proof Buffalo nickels. Good luck.

PCGS# 3991 | ESTIMATE: \$3,600+

## THE TRZASKA COLLECTION

**LOT 196**  
**5C 1915 PCGS PR66 CAC**

When we look at a GEM Proof Buffalo nickel, and we see the current values, there is just so much to fall in love with. With an iconic design, limited mintage, and bold eye appeal, this short series has a lot to offer collectors.

Satiny, glowing surfaces have a dusting of soft iridescent tone attesting to the originality. Sharply struck and high quality, this PR66 has a superb eye appeal.

PCGS 157, NGC 95, CAC 55. The most recent example sold in auction for \$2,160 in the 2019 ANA auction. The current PCGS Price Guide value is listed at \$2,500 and this date is scarce finer, especially for examples endorsed by CAC. Add to your set today.

**PCGS# 3992 | ESTIMATE: \$1,800+**

**LOT 197**  
**5C 1916 PCGS PR66 CAC**

A delicately toned GEM Matte Proof Buffalo nickel, the final year of the short lived series. Sharply struck with a wonderful, glowing satiny surface. The peach-gold, tangerine and pale wintergreen hues come out when viewing in a light. Totally original with clean surfaces, this coin is high end for the grade.

Only 600 Proofs were struck, making this the lowest mintage in the series. PCGS 103, NGC 50, CAC 27. Clearly the Population figures must show duplication. Only seven PCGS/CAC examples have ever sold in auction, with the average APR at \$4,113 and the most recent example selling in the 2017 ANA auction for \$4,935. The current Collectors Universe value is listed at \$5,250. Clearly this date is going to be rare any finer, with just about 50 reported finer at PCGS, which definitely includes resubmissions. What a great coin for your Buffalo nickel Proof Set and a series that we really enjoy.

**PCGS# 3993 | ESTIMATE: \$3,600+**

**LOT 198**  
**5C 1936 SATIN. PCGS PR68 CAC**

Unbelievable quality! Everything about this marvelous SUPERB GEM almost defies written description!

Ultra smooth, satiny Proof surfaces glow with an impressive radiant luster on both sides, which enhances and gives life to the vivid lemon-yellow, rose-gold, and sky-blue pastel iridescent toning. The devices are razor sharp, and the surfaces are as perfect and pristine as if the coin was struck moments ago! Needless to say, the eye appeal is AMAZING and this is a coin that belongs in a fantastic SUPERB GEM set.

PCGS 47, NGC 27, CAC 18. The most recent PCGS/CAC example to sell in auction realized \$9,694 in our June 2019 Regency Auction, and prior to that, another one brought \$10,200 in September 2018. The current PCGS value is listed at \$9,000 and this gorgeous example which is bested by just 3 in PR68+ and 2 in PR69 is a world class 36 Satin Proof, worthy of a type set or very high end collection of Proof Buffalo nickels. Either way, it will be a real joy to be able to look at this one over and over again in your collection!

**PCGS# 3994 | ESTIMATE: \$7,000+**

## THE TRZASKA COLLECTION

**LOT 199**  
**5C 1936 BRILLIANT. PCGS PR67+ CAC**

Blazingly reflective mirrored fields. They are smooth and have a bold depth of clarity that is rarely seen on this date, as many have a layer of haze on them. This one looks brand new, freshly struck and carefully removed from the dies. No flaws or discolorations can be found anywhere without the aid of a very powerful loupe. The eye appeal is as superb as the assigned grade.

PCGS 218, NGC 96, CAC 105. PCGS has graded 47 in PR67+ and just 14 graded finer. The most recent example to sell in auction brought \$3,878 in our June 2019 Regency Auction, the same amount another one brought in our January 2018 Regency Auction. Collectors Universe lists a value of \$4,750, and that number jumps to \$17,500 in PR68. This impressive SUPERB GEM is worthy of a strong bid, and we will not be surprised if the hammer falls at a very strong bid.

**PCGS# 3995 | ESTIMATE: \$3,500+**

**LOT 200**  
**5C 1937 PCGS PR67 CAC**

Holy cow! (Or should we say holy buffalo?) What a blazing, brilliant, ultra reflective SUPERB GEM! Clearly the dies were freshly polished when this coin was struck, rendering the entire surface with an amazing clarity to the mirrors. Sharply struck and very clean, this is the definition of a Brilliant Proof! Ideal for a type set.

PCGS 521, NGC 239, CAC 335. The most recent example to sell realized \$1,469 in our September 2019 Regency Auction. The current PCGS Price Guide value is listed at \$1,650, and the value nearly doubles in PR67+. What a great coin for the quality conscientious collector on a budget!

**PCGS# 3996 | ESTIMATE: \$1,250+**

**LOT 201**  
**5C 1938 JEFFERSON. PCGS PR67+ CAC**

A wonderful SUPERB GEM example of the first year of the series. Flashy mirrors are a delight to behold, accenting the pastel iridescent blue and gold tone. Offering a bold clarity, this beauty has a great look.

PCGS 316, NGC 199, CAC 65. There are just two dozen graded 67+ and 19 finer. The current Collectors Universe value is \$600 in 67+ and we sold a PR68 CAC for \$3,290 in our March 2019 Regency Auction. This exceptional coin seems like a good value in comparison.

**PCGS# 4175 | ESTIMATE: \$500+**

**LOT 202**  
**5C 1939 REVERSE OF 1940. PCGS PR67 CAC**

Essentially PERFECT. Very high end, flashy and reflective, this early Proof Jefferson variety is a coin that will fit into any high ranking set. Lovely pastel toning graces both sides, and its subtle hues are brought out by a vivid reflection. The eye appeal is stupendous and this variety is VERY RARE any finer.

PCGS 48, NGC 24, CAC 23. The last one sold two years ago for \$1,800 and the current PCGS Price Guide value is listed at \$1,850. Keep in mind that just 1 has graded PR68 and has sold for over \$12,000 in the past. Good luck.

**PCGS# 94176 | ESTIMATE: \$1,250+**

## THE TRZASKA COLLECTION

**LOT 203**  
**5C 1940 PCGS PR67 CAC**

Watery reflective surfaces gleam all over, enhancing the wonderful, totally original peripheral rainbow toning, giving this superb GEM a great look.

PCGS 166, NGC 42, CAC 51. While PCGS lists a value of just \$240, this impressive beauty will bring more. The value jumps to \$1,150 in 67+ and we sold a 68 in September 2019 for over \$8,500. This beauty seems a great value in relation and will bring strong bidding.

**PCGS# 4177 | ESTIMATE: \$250+**

**LOT 204**  
**5C 1940 REVERSE OF 1938. PCGS PR67 CAC**

A wonderful example, totally original and very high end with a bold reflection. The mirrors are exceptionally brilliant with a wonderful icy gleam. Extremely RARE any finer.

PCGS 43, NGC 16, CAC 17. The average APR for a PCGS/CAC example is \$1,678, the most recent selling for \$1,058 nearly three years ago! The PCGS value is \$1,250. Just four are graded finer and the value jumps dramatically with each half grade point you go up the scale. This beauty will be a delightful addition to any set.

**PCGS# 94177 | ESTIMATE: \$900+**

**LOT 205**  
**5C 1941 PCGS PR67+ CAC**

This is a beautifully toned SUPERB GEM example and very high end quality. Both sides show a great blend of pastel tone that is amplified by a vivid and brilliant mirrored flash.

PCGS 152, NGC 78, CAC 40. There are 19 graded PR67+ and just a half dozen graded finer. The most recent sold for \$504 and the current PCGS value is listed at \$675. Remember the last PR68 brought \$9,600 nearly two years ago, and they had been bringing well over \$10,000! This one is certainly worthy of a very strong bid from the advanced collector.

**PCGS# 4178 | ESTIMATE: \$550+**

**LOT 206**  
**5C 1942 TYPE 1. PCGS PR67+ CAC**

Gorgeous and SUPERB in every way! The fields are flashy and brilliant with just a kiss of the most subtle icy blue iridescent tone on both sides. The eye appeal is excellent.

PCGS 533, NGC 342, CAC 98. There are 44 in 67+ and fewer than two dozen higher, all PR68. The most recent brought \$360 in May 2018 and the CU value is \$400. A 68 will cost you about \$2,000, this beauty seems like a great value in comparison! Bound for a great set.

**PCGS# 4179 | ESTIMATE: \$400+**

**LOT 207**  
**5C 1942-P TYPE 2. PCGS PR67+ CAC**

This coin is SUPER HIGH END! Totally ORIGINAL with a truly fresh, unmolested look.

The original nickel/pale blue colors are amazing. Sensational, watery reflective mirrored fields flash and the eye appeal is exceptional.

PCGS 468, NGC 413, CAC 106. There are 37 in PR67+ and just 20 graded higher. The most recent example sold for \$480 in the 2019 ANA auction and we sold one for \$688 in our December 2018 Premier Session. The current PCGS value is listed at \$625, but we sold a 68 for \$5,650 in May this year, which makes this one seem like a great value. We expect strong bidding for this outstanding SUPERB GEM piece!

**PCGS# 4180 | ESTIMATE: \$500+**

**LOT 208**  
**RUN OF PROOF JEFFERSON NICKELS. 1950 - 1964**

Here we have a limited date run of Vintage Proof Jefferson Nickels, 15 coins total from 1950 to 1964. There are 3 coins in PR67CAM, 3 in PR68, 4 in PR68CAM, 1 PR68DCAM, 1 in PR69CAM and 3 in PR69DCAM. Almost all of them are perfectly black and white with impeccable contrast. The only few that have any bits of color display a light eye appealing golden champagne color. These high grade Proofs are sure to delight the Jefferson enthusiast or the new collector looking to start a set.

The combined Collectors Universe value is \$4386, which sounds incredibly reasonable when you consider that the collector did all the work of hunting down such a pleasing set for you.

**ESTIMATE: \$4,200+**

**LOT 209**  
**RUN OF PROOF JEFFERSON NICKELS.**  
**1965 - 2019-S**

This complete run of Proof Jefferson Nickels is comprised of 62 coins, including the 1965, 1966 and 1967 SMS in SP67CAM, MS68, and MS67DCAM with an extra 2003-S for good measure.

Even the ever popular 1971 No S is represented in an PR68DCAM, the only missing mintmark in the entire series! This set of Type 1 Original Modern Design, Type 3 Westward Journey Designs and Type 4 Return to Monticello Designs are all graded PCGS PR69DCAM

and PR70DCAM. With essentially flawless surfaces across the board, these Deep Cameo Jeffersons' have rolling watery mirrors and seemingly bottomless contrast that would have distracted Lewis and Clark from the actual ocean.

The total combined Collectors Universe value is \$7,384. All the work of putting together an incredibly high end set of Proof Jeffersons has been done for you!

**ESTIMATE: \$7,000+**

**LOT 210**  
**5C 1873 CLOSED 3. PCGS MS66+ CAC**

Tied for FINEST of this very scarce issue. At the beginning of the year, mint die sinkers used a date logotype with the 3 with the loops coming close together, making the 3 look similar to an 8. Part way through the year, the logotype was changed. The Closed 3 variety is the rarer of the two.

A thick, frosty, satin mint luster blooms all over on both sides. The pale gold iridescent tone over the sultry nickel silver surfaces. Sharply struck from broken dies.

Extensive die cracks on the obverse add charm and character to the exceptional eye appeal.

PCGS 13, NGC 1, CAC 2. There are just two examples graded MS66+ and NONE are finer. Neither example has ever sold in auction, but there is a Collectors Universe value of \$13,500. A PCGS/CAC MS66 (not "+") sold for \$5,520 in the 2018 FUN auction, and that was the ONLY CAC MS66 to ever sell as well. We know that with top ranking Registry Set collectors battling it out, this coin will hit a record price realized when the gavel falls. Good luck!

**PCGS# 3801 | ESTIMATE: \$8,000+**

**LOT 211**  
**5C 1883 WITH CENTS. PCGS MS66 CAC**

This is a very high end example for the grade and the eye appeal is that of an even higher grade. We like this for a "+" and though we make no guarantees, this coin should get a "+". Brilliant mint luster really does have a blazing flash that accents an icy, pale blue tone on both sides. Sharply struck, this first year of the series SUPERB GEM has a great look that cannot be beat.

PCGS 70, NGC 46, CAC 42. We think this one is very high quality, and its price realized in 2017 of \$3,290 supports that. Worthy of another very strong bid from the specialist collector. Good luck!

**PCGS# 3844 | ESTIMATE: \$2,000+**

**LOT 212**  
**5C 1884 PCGS MS67**

Tied for FINEST graded example! What an amazing MS67, a great looking coin! While it does not command the attention of the 1885 or 1886 nickels, the 1884 is excessively RARE in MS67. Highly lustrous surfaces show wonderful pastel toning. Well struck and problem free, this coin has an amazing eye appeal!

PCGS 6, NGC 2. The current PCGS Price Guide value is listed at \$11,500 and two sold in auction, one for \$7,800 in the 2018 ANA auction and the other in the 2017 CSNS auction for \$9,400. If you are building the best set of Mint State Liberty nickels, this one is an excellent choice for inclusion! Good luck.

**PCGS# 3845 | ESTIMATE: \$6,000+**

**LOT 213**  
**5C 1893 PCGS PR65 DCAM CAC**

A RARE coin in DCAM. A gorgeous GEM with exceptional Deep Cameo contrast. The fields display deep, chrome-like reflection that is brilliant and boldly flashy, with clean, clear surfaces. The devices are razor sharp in definition and display a thick, rich frost, contrasting vividly against the mirrors. The eye appeal is amazing.

PCGS 4, NGC 0, CAC 4. The last one sold for \$1,501 in October 2019 and another sold for \$2,220 in July 2019. The current PCGS Price Guide value is listed at \$2,000. What a great coin for any collection.

**PCGS# 93891 | ESTIMATE: \$1,500+**

**LOT 214**  
**5C 1901 PCGS PR67+ CAC**

Sheer perfection! This is a vibrant, boldly reflective SUPERB GEM Proof Liberty nickel. NONE are finer with CAC approval!

Liquid mercury-like reflection in the fields shines in the light. The sharply struck devices show some frost. The surfaces are icy and free of any lines or distractions of any kind, even devoid of anything but the palest blue and gold iridescent tone at the peripheries.

PCGS 55, NGC 28, CAC 25. PCGS has graded 10 in PR67+ and the most recent one to sell realized \$1,705 in our April 2017 Premier Session. The current PCGS value is listed at \$2,000 and this one, with its high end appeal should bring that. There are two finer at PCGS, neither of which are CAC approved, making this among the FINEST for a collector who demands CAC approval. Good luck!

**PCGS# 3899 | ESTIMATE: \$1,650+**

**LOT 215**  
**5C 1902 PCGS PR67+ CAC**

Tied for FINEST at PCGS! Wonderfully original in every way, the fields have a watery texture that flashes through pale iridescent toning. The surfaces are clean, free of all but the most insignificant, microscopic fleck or two. The devices are sharply struck, with full and crisp definition. The eye appeal is very pleasing and the quality is high end.

PCGS 26, NGC 19, CAC 14. There are just a half dozen graded in this lofty state of preservation. Only two examples have ever sold in auction, neither of which were CAC. The current Collectors Universe value is listed at \$8,500. An amazing coin for any Registry Set of Proof Liberty nickels. Good luck, there will be lots of competition for this one.

**PCGS# 3900 | ESTIMATE: \$4,500+**

**LOT 216**  
**5C 1913 TYPE 1. PCGS MS68 CAC**

This wonder GEM was part of the Oliver Jung Type set. We admit we tried it for an MS68+, obviously PCGS did not think it was there. This coin is the ultimate of color and quality.

Absolutely pristine surfaces are a joy to behold. Even using a strong glass there are no imperfections anywhere. A decent glowing luster beams from all over. Both sides enjoy a monster blend of totally original rainbow emerald green/violet/reddish gold/gold colors. There are NO

spots or discolorations. All of the details are sharply struck. The eye appeal is jaw dropping!

PCGS 28, NGC 20, CAC 11. The last example to sell via auction brought \$18,213.00 in our March 2019 Regency Auction (white coin). This coin was purchased by Oliver Jung for \$21,787 in February 2014. The Oliver Jung Collection was the FINEST EVER Type set. If this coin was good enough for that set, it is more than worthy of ANY collection!

**PCGS# 3915 | ESTIMATE: \$15,000+**

**LOT 217**  
**5C 1913-D TYPE 2. PCGS MS65+ CAC**

This is a lovely GEM example of this first year of issue. A radiant, satiny mint luster blooms on both sides, giving this beauty a great look. Sharply struck, this pleasing, original example is worthy of a very pleasing set.

PCGS 187, NGC 86, CAC 38. PCGS has graded just four coins in MS65+. The most recent MS65+ to sell was an NGC coin with CAC approval that brought \$1,528 in June 2016. Prior to that, a PCGS/CAC example (the only one to sell) brought \$1,410 in July 2014. The current PCGS value is listed at \$1,500. This coin is worthy of a strong bid.

**PCGS# 3922 | ESTIMATE: \$1,400+**

**LOT 218**  
**5C 1913-S TYPE 2. PCGS MS65 CAC**

Scarce in GEM, the 13-S Type 2 is the scarcest of the six circulation strike issues of this first year of the Buffalo nickel. The present example is totally original and visually very pleasing with a warm satin luster that glows brilliantly through soft, dove, pewter, and iridescent golden and lilac hues attest to the wonderful originality. A really cool, heavy die clash is seen below the Indian's chin adding lots of character to this lovely buffalo nickel.

PCGS 134, NGC 66, CAC 32. The most recent PCGS/CAC example to sell in auction realized \$2,400 and the current Collectors Universe value is listed at \$2,500. Scarce finer, the value goes up to \$3,500 in MS65+ and in MS66 it jumps to \$4,500. What a great coin for a GEM set.

**PCGS# 3923 | ESTIMATE: \$2,000+**

**LOT 219**  
**5C 1914 PCGS MS67+ CAC**

A magnificent, SUPERB GEM that is tied with just a single coin for  
 FINEST CERTIFIED honors!

Needless to say, this coin is PRISTINE! The surfaces are aglow with  
 a very strong brilliant luster that glistens all over. Rose, gold, lilac,  
 and champagne iridescence radiates with the luster. The strike is  
 stronger toward the peripheries, showing some minor weakness,  
 as usual, toward the centers, but the surfaces are totally unabraded  
 and the eye appeal is AMAZING!

PCGS 38, NGC 8, CAC 8. There are just two graded MS67+ and  
 NONE are graded finer! Neither coin has sold in auction, but  
 there is a Collector's Universe value of \$25,000 listed. Similar in  
 rarity to the 1919, 1920, 1921, and 1923 Philadelphia mint issues  
 in this grade, and this one will see very strong bidding when it  
 crosses the block. Worthy of the FINEST set of Buffalo nickels; and  
 we expect a new record to be set when the hammer falls!

**PCGS# 3924 | ESTIMATE: \$16,000+**

**LOT 220**  
**5C 1915-S PCGS MS67 CAC**

What a very rare opportunity this is! Legend Rare Coin Auctions is proud to offer what is likely the **FINEST KNOWN** 1915-S nickel that exists!

Last sold in 2009, this amazing **SUPERB GEM** has a wonderful mint brilliance on both sides, accenting a better than average strike. While there is some minor softness noted, it is way better than the typical coin. A light pastel iridescent tone embraces both the obverse and reverse, the shades of blue, gold, and peach are enlivened by the brilliance of the mint luster. The surfaces are effectively flawless, and there are **NONE** graded higher at either service. The eye appeal is amazing!

PCGS 4, NGC 0, CAC 1. Back in July 2009, this coin brought \$43,125 and the current PCGS Price Guide value is \$43,500. This was the most recent example to sell in auction, meaning that nearly a whole generation of Registry Set collectors have not had a chance to even bid on a 67, and we know this one will see considerable bidding attention when it crosses the block! Worthy of the **FINEST** of Buffalo nickel sets!

**PCGS# 3929 | ESTIMATE: \$36,000+**

**LOT 221**  
**5C 1916-D PCGS MS66+ CAC**

WOW! Stunning quality and eye appeal. An amazing SUPERB GEM which is tied for FINEST at PCGS. It is exceptionally beautiful and a real prize for the advanced collector.

Sharply struck up and fully rendered devices stand out on the flawless surfaces. A booming luster is seen on both sides, amplifying the gorgeous rose-peach, pale gold, and soft pastel blue iridescent toning. The eye appeal is off the charts! Adding to the allure is the rotated reverse, which is about 45 degrees counter clockwise.

PCGS 38, NGC 6, CAC 16. There are 5 graded MS66+ at PCGS and NONE FINER. The most recent example sold for \$24,000 in the 2019 FUN auction and we sold the Angel Dee's coin for \$22,325 three years ago. The current PCGS Price Guide value is listed at \$27,500. With a coin that looks like this, that is among the FINEST graded, the sky is the limit and it would not shock us if a new record price is reached when the hammer falls. All we can say is bidding is going to be intense for this one!

**PCGS# 3932 | ESTIMATE: \$20,000+**

**LOT 222**  
**5C 1918 PCGS MS67**

This is a duplicate from a WORLD CLASS Buffalo nickel collection. Stunning luster is bold and strong with vivid brilliance that delights the eye. The devices are sharply struck up and stand out against the smoothness of the fields. A pastel tone is gently and subtly dusted across the exceptional quality surfaces. For full disclosure, a glass will reveal a tiny tick or two but they are hidden and do not detract from the amazing eye appeal.

PCGS 11, NGC 2. Neither service has ever graded anything finer. The most recent example sold in the 2018 ANA auction for \$22,800 and the current PCGS Price Guide value is listed at \$27,500. A trophy of a Buffalo nickel that will be a great addition to any high ranking Registry Set. Bidding will be strong for this one!

**PCGS# 3937 | ESTIMATE: \$18,000+**

**LOT 223**  
**5C 1919-S PCGS MS65**

Like most coins from 1919, the Buffalo nickel is a conditionally rare date, with a very limited number of GEMs available to collectors. While the mintage was over 7.5 million, combined between PCGS and NGC there are fewer than sixty coins graded MS65 or finer.

The present GEM is exceptionally brilliant and well struck, with a light patina that gently dusts the surfaces giving this carefully preserved 19-S a totally original and very high end look. Pale blue and

pale golden-peach tone graces both sides, accenting the sharply struck devices. The eye appeal is very high end, and we have looked this beauty over and over, and can find nothing that would keep this GEM from CAC approval. We really do love the look.

PCGS 31, NGC 17. The current PCGS Price Guide value is listed at \$10,000, but keep in mind that the average MS65 does not look like this. There are seven coins graded finer at PCGS, among those include a PCGS MS65+ that sold for \$42,000 in March 2019 and a 66 would approach the six figure mark if one were to come up today. Bound for a world class Buffalo nickel collection.

**PCGS# 3943 | ESTIMATE: \$10,000+**

**LOT 224**  
**5C 1919-S PCGS MS65 CAC**

This is truly an exceptional GEM example of this conditionally VERY RARE date! It is wonderfully preserved and totally original, long off the market and housed in an old green tag holder.

This sharply struck 19-S nickel has a dusting of gorgeous blue/green and rose-gold toning on both sides, accented by a bold, underlying luster that radiates brilliantly on both sides. The crisply rendered devices are sharply struck and all the details bold. You could not ask for

a more beautifully preserved and highly eye appealing GEM.

PCGS 31, NGC 17, CAC 12. There are three PCGS/CAC auction results, going back to February 2011, with an average APR of \$12,523. Keep in mind exactly how EXTREMELY RARE this date is finer, with just 7 graded higher, and a MS65+ being worth \$37,500 based on Collectors Universe value, this coin is an excellent choice for collectors of GEM Buffalo nickels! We know bidding will be intense for this one! Good luck.

**PCGS# 3943 | ESTIMATE: \$12,000+**

**LOT 225**  
**5C 1919-S NGC MS66**

An exceptional quality GEM that is tied for FINEST graded at either service!

A remarkably strong strike for the date, this coin is highly appealing for the advanced Buffalo nickel collector. Full and vibrant satin luster does not yield to any scuffs or other distracting marks. Fully brilliant with only a light hint of blue and russet-gold tone on the obverse. As fine an example that any collector could hope to acquire for their advanced set.

PCGS 3, NGC 3. This was the most recent one to sell in auction realizing \$34,075 in our July 2017 Regency Auction. Worthy of a strong bid, keep in mind the Collectors Universe value is listed at \$90,000. This high end example will delight any advanced Buffalo nickel collector.

**PCGS# 3943 | ESTIMATE: \$40,000+**

**LOT 226**  
**5C 1920 PCGS MS66+ CAC**

This is a date that is seldom seen so fine! This impressive PQ GEM was struck from a very interesting late die state with multiple clashes and the fields in both sides show lots of heavy flow lines. The details however are boldly and crisply rendered and the luster is intense. The steely silver offers a pale blue overtone that adds to the outstanding eye appeal.

PCGS 168, NGC 27, CAC 54. There are 20 graded in MS66+ at PCGS. While the most recent examples brought \$2,200 and \$2,880 earlier this year, we sold one in June 2018 for \$2,970 and the current PCGS Price Guide value is listed at \$3,250. RARE finer, with just 20 combined higher at PCGS in MS67 and MS67+. This exceptional 66+ will fit nicely in any high end Buffalo nickel collection and should see very spirited bidding.

**PCGS# 3944 | ESTIMATE: \$2,000+**

**LOT 227**  
**5C 1923 PCGS MS67**

Among the FINEST certified examples of this otherwise common date. Well struck and fully lustrous, the surfaces show a totally original blend of nickel-silver, lilac, sky-blue and pale gold hues. The vivid luster radiates intense mint brilliance in the pristine fields accents the sharply struck devices. A very attractive SUPERB GEM example worthy of any high end collection!

PCGS 28, NGC 9. There is just a single MS67+ graded finer. The most recent examples to sell in auction were in the 2018 ANA auction and realized \$5,520 and \$4,800. We sold one in June 2019 for \$5,288 in our June Regency Auction this year and the current PCGS value is listed at \$7,500. As one of the FINEST, this beautiful coin is worthy of any high end collection! Bid accordingly!

**PCGS# 3949 | ESTIMATE: \$4,000+**

**LOT 228**  
**5C 1928-D PCGS MS66 CAC**

Truly a beautifully preserved and lustrous GEM that is the epitome of quality. A delicate pinkish-gold hue comes out vividly in the light. While there is a touch of minor striking weakness on the centers, the strike is bold otherwise and the eye appeal is exceptional. Conditionally RARE, the present GEM has a better than normally seen strike and high end allure.

PCGS 67, NGC 6, CAC 25. There must have been a small hoard that came out, perhaps two rolls where the majority of the coins graded MS65 and MS66. The most recent example brought \$3,000 in September 2019. This coin has been off the market for over 14 years, selling for \$3,910 in May 2005. Just five coins are graded higher, two MS66+ CAC examples have sold in auction, both bringing \$8,519, the most recent in our March 2019 Regency Auction. Worthy of a very strong bid from the specialist collector. Good luck!

**PCGS# 3964 | ESTIMATE: \$2,800+**

**LOT 229**  
**5C 1929-D PCGS MS66**

A high end luster blooms across the smooth, brilliant surfaces that are nearly pristine on both sides. The devices are sharply struck, and they are awash in a blue, gold, rose, and apricot pastel iridescence. The eye appeal is SUPERB.

PCGS 76, NGC 19. The current PCGS Price Guide value is listed at \$2,000 and the most recent to sell brought \$2,040 in the 2019 ANA auction. Just 15 coins have graded finer at PCGS, making this an important opportunity for anyone putting together a great set.

**PCGS# 3967 | ESTIMATE: \$1,600+**

**LOT 230**  
**5C 1929-S 2 FEATHERS.**  
**FS-401. PCGS MS66 CAC**

This is the single **FINEST** certified example of this very rare variety. Like the more famous 37-D 3-Legged nickel, the die was worked to remove some clashing, which removed the lowest of the three feathers.

The present coin is boldly lustrous with a blazing nickel silver that has some pale blue iridescence. Generally sharp throughout, there is a hint of softness in the high points of the obverse which we note for full disclosure. The eye appeal is excellent.

there is a hint of softness in the high points of the obverse which we note for full disclosure. The eye appeal is excellent.

PCGS 1, NGC 0, CAC 1. Not priced in the PCGS Price Guide, we note that the populations are similar to the 1919 2 Feathers, one of which we sold (unattributed in a PCGS MS65 holder in January 2019 for \$7,638). This coin will bring a very strong bid from the specialist collectors and this one is bound for a world class set.

**PCGS# 3968 | ESTIMATE: \$5,000+**

**LOT 231**  
**5C 1935 PCGS MS67+**

**WOW!** This is a sensational **SUPERB** Gem Buffalo Nickel! Bold brilliant luster radiates on both sides of this very high end and beautifully toned late date Buffalo. Exceptionally lovely yellow-gold, apricot-orange, and pale blue-green pastels dust the obverse giving this coin a great look. Sharply struck up devices stand out against satiny smooth fields. The eye appeal is awesome, what more can we say?

PCGS 31, NGC 5. **EXCESSIVELY RARE** any finer! The current PCGS Price Guide value is \$3,000. The most recent examples were CAC and have brought between \$2,000 and \$2,700. This beautiful **SUPERB** GEM has a look, and will bring a premium bid. Good luck!

**PCGS# 3974 | ESTIMATE: \$1,600+**

**LOT 232**  
**5C 1935 PCGS MS68**

This is a MONSTER Buffalo nickel! It is tied for FINEST graded.

This moose is awe-inspiring! Sharply struck devices stand out with ultra lustrous surfaces and rings of vibrant gold, blue, lilac, and rose iridescent hues. The luster is intense, accenting the sharply struck devices and bringing out the subtle differences of the toning.

Though more than 58 million nickels were struck in 1935 precious few were saved in such a lofty state of preservation. Examples with full definition and bold luster are very rare indeed, usually you get one trait or the other. A coin like this, with the combination of both intense luster and fully rendered devices is exceptional! You cannot beat this coin's eye appeal!

PCGS 4, NGC 2. This coin last sold over a decade ago, realizing \$34,500, and prior to that, it brought \$57,500 back in the 2007

FUN auction. Being a once in a decade opportunity, we are certain that the current Collectors Universe value of \$25,000 will have to be increased after this MONSTER SUPERB GEM crosses the block!

**PCGS# 3974 | ESTIMATE: \$26,000+**

**LOT 233**  
**5C 1936-D PCGS MS67 CAC**

Mint fresh and quite lovely. Bold mint frost has a soft satiny glow throughout the SUPERB GEM surfaces. With just some minor typical weakness as often seen in places, this beauty has generally bold definition throughout. Pale nickel-silver color shows off the lightest trace of old tone, which gives this 36-D nickel a totally original look.

PCGS 99, NGC 13, CAC 37. While the current PCGS price is only \$1,100, CAC-approved examples have sold for well in excess of that amount; the most recent sold for \$5,280 in the 2019 ANA auction. Extremely RARE any finer, just 16 have graded higher. A great coin for a great set. Good luck.

**PCGS# 4177 | ESTIMATE: \$1,500+**

**LOT 234**  
**5C 1936-D PCGS MS67+ CAC**

No question this coin was carefully stored since the day it left the bank. It is as HIGH END of a SUPERB GEM as you will ever find!

Fantastic surfaces are the epitome of cleanliness. Even using a strong glass all you do is become more impressed. A full booming luster beams from all over. Both sides have a pale hint of original gold over nickel. There are NO spots or discolorations. As you would expect, the details are sharply struck; you can see the split in the buffalo's tail without a glass. The eye appeal is super!

PCGS 114, NGC 21, CAC 39. There are 14 graded in MS67+ and the last PCGS8CAC piece to sell in auction brought \$16,450 in our September 2018 Regency Auction. Do not be fooled by the pops, this is a much more difficult date and grade to find than you think! Good luck!

**PCGS# 3978 | ESTIMATE: \$8,000+**

**LOT 235**  
**5C 1936-S PCGS MS67+ CAC**

TIED FOR FINEST GRADED! This SUPERB GEM's eye appeal is off the charts and the technical merits are simply amazing! Both sides are boldly lustrous and sharply struck. Even using a very strong glass nary a mark is to be found on either side. A delicate rose tone adds to the visual allure!

PCGS 139, NGC 38, CAC 32. There are 19 graded MS67+. The last one to sell brought \$4,818 in our September 2019 Regency Auction, and before that, one sold for \$5,520. The current PCGS value is listed at \$5,500 and there are NONE graded higher, making this among the best of the best! Bound for a world class Buffalo nickel set.

**PCGS# 3979 | ESTIMATE: \$4,000+**

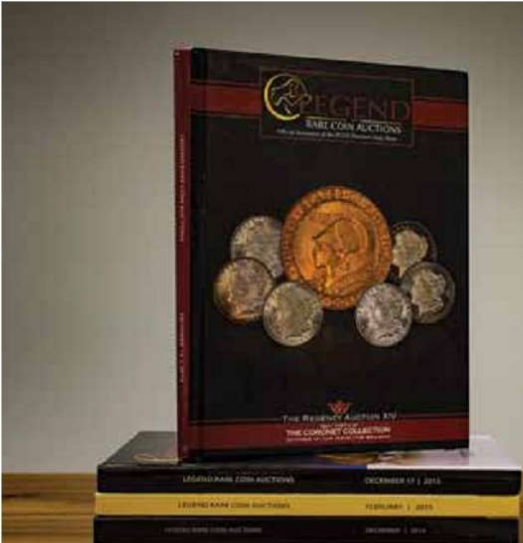

**LOT 236**  
**5C 1937 PCGS MS67+ CAC**

While not a rare coin, this 1937 in MS67+ is VERY high end for the grade and is extremely eye appealing. An icy bold, satiny luster radiates on both sides, accenting essentially perfect surfaces and sharply struck devices.

PCGS 601, NGC 500, CAC 154. There are 99 MS67+s graded at PCGS. The current PCGS Price Guide value is listed at \$950 and the average APR for CAC approved coins is \$1,183. Fewer than 20 are graded finer and these sell for between \$9,000 and \$12,000. Bound for a great set!

**PCGS# 3980 | ESTIMATE: \$800+**

**BOB SIMPSON, DAVID HALL, GERALD FORSYTHE AND PHIL FLANNAGAN HAVE ALL CONSIGNED TO LRCA, WHY HAVEN'T YOU?**

**CONTACT JULIE ABRAMS, GREG COHEN OR JESSICA BERKMAN TO DISCUSS YOUR COINS!**

**LOT 237**

**5C 1937-D 3 LEGGED. PCGS MS66**

A magnificent example of this classic and famous 3-Legged Buffalo nickel. One of the most well known issues of the 20th century, even non-collectors have heard of this nickel.

Bold and brilliant mint luster blooms all over on both sides of this SUPERB GEM. Satiny surfaces show off a soft, pastel blue, gold, and rose patina that accents the sharply struck devices. The fields and surfaces are smooth and free of any distracting marks or ticks of any kind to be found anywhere.

This popular variety was created when an employee of the Denver Mint discovered that the dies were seriously clashed. In an effort to remove the clash marks, the inexperienced worker took an emery board and without realizing removed not just the marks, but also removed one of the buffalo's legs.

PCGS 10, NGC 18. We sold one of these in our May 2016 Regency Auction XVII for \$55,813; more recently two sold for \$48,000. The current PCGS value is listed at \$55,000 and there are just three MS66+ graded finer at PCGS and they estimate the value at \$90,000. This is a real prize for anyone working on a high ranking set.

**PCGS# 3982 | ESTIMATE: \$45,000+**

**LOT 238**  
**5C 1913 TYPE 2. PCGS PR67+ CAC**

Marvelous! What a great looking PR67+ example of this popular Type 2 Proof Buffalo nickel. Sheer perfection in virtually every way.

Beautifully toned with soft, pastel iridescent rainbow toning. Mingling shades of gold, peach, rose, pale blue, and light green appear depending on the angle under a light. The devices are sharply struck and stand out against the smooth, satiny Proof surfaces. The fields show the finely textured, matte surfaces. Needless to say on this stunning SUPERB GEM, the eye appeal is in a class of its own.

PCGS 81, NGC 37, CAC 40. PCGS has graded just 7 in PR67+ and 10 in PR68 finer. The most recent example sold in March 2018 for \$9,600 and the current PCGS value is listed at \$8,500. Keep in mind that a PCGS/CAC PR68 will cost over \$45,000, making this a great option for the Registry Set collector who does not want to spend mid-five figures for a slightly finer example. We know this beautifully toned 1913 Proof nickel will attract very strong bidding!

**PCGS# 39901 | ESTIMATE: \$7,000+**

**LOT 239**  
**5C 1914 PCGS PR67+ CAC**

This is a stunning, SUPERB GEM Proof. The surfaces are flawless and pristine, this coin is essentially perfect! Every detail offers razor sharp definition on both sides and awesome smooth surfaces. The satiny surfaces are ultra flashy and lustrous accenting gorgeous pastel toning that graces both sides. Exceptional gold, pink, pale blue and other iridescent pastel colors blend together on both sides of this magnificent beauty!

PCGS 111, NGC 67, CAC 70. PCGS has graded 22 in 67+ and just 16 finer. We sold two in our recent auctions, one for \$9,400 in June 2019 and one on September brought \$7,931 and the current PCGS value is \$8,500. This gorgeous coin will see very active bidding and will bring a very strong bid from the advanced collector looking to upgrade or start a set of Proof Buffalo nickels.

**PCGS# 3991 | ESTIMATE: \$7,500+**

**LOT 240**  
**5C 1915 PCGS PR67 CAC**

What a wonderful SUPERB GEM! It is very high end quality for the grade and the eye appeal is amazing. Glorious nickel silver surfaces are virtually perfect showing of a wonderful matte finish on both sides. A lovely, original tone graces both sides that dances in the light, enlivening the pristine surfaces. The details are razor sharp in strike and the eye appeal is exceptional.

PCGS 67, NGC 34, CAC 43. The most recent one to sell brought \$5,288 in our March 2019 Regency Auction. The current PCGS Price Guide is \$4,750 and the value jumps to \$8,000 in 67+. There are just 22 graded higher and this is a great coin for any great set.

**PCGS# 3992 | ESTIMATE: \$4,000+**

**LOT 241**

**5C 1916 PCGS PR68**

Sheer perfection! This is an amazing, ultra high graded and beautifully preserved SUPERB GEM. This coin has been to CAC and we seriously disagree with them not beaming this coin. We do not know what they saw here.

The surfaces have a strong, brilliant luster that glows with a wonderful matte texture. Immaculate surfaces are free of any distractions, any where and they show off a totally original melange of color that delights the eye. Sky blue and pale gold hues come to the fore when you rotate the coin in a light. Every detail is pinpoint sharp in strike. The eye appeal is out of this world!

Only 600 Proofs were struck. PCGS 9, NGC 2. The first one to sell since 2016 brought \$30,550 in our March 2019 sale of the Grand Prix Collection. This coin has been off the market since November 2005. The current PCGS Price Guide value is listed at \$32,500 and there is just a single PR68+ that is impounded in a major collection.

**PCGS# 3993 | ESTIMATE: \$25,000+**

**LOT 242**  
**5C 1936 SATIN. PCGS PR68**

This is an AMAZING, MONSTER toned SUPERB Satin Proof nickel. Both sides are framed by a dramatic rainbow toning that is vivid and stands out with an eye popping appeal. Rarely are they seen with such a stunning color. The surfaces are totally smooth and pleasing with a warm satiny glow that brings out the sharpness of the devices and extremely high end colorful look. The blues, golds, and pinks really stand out and the eye appeal is absolutely off the chart. There are no lines, marks, flecks, or spots anywhere to be found and we are not sure why CAC did not bear this one.

PCGS 47, NGC 27. Ignore the auction prices, rarely will you find any Proof Buffalo with this kind of color and eye appeal. With the current PCGS Price Guide listed at \$9,000, we know this one will bring a strong price. Good luck.

**PCGS# 3994 | ESTIMATE: \$7,000+**

**LOT 243**  
**5C 1936 BRILLIANT. PCGS PR68**

What an awesome SUPERB Brilliant Proof! This coin has all the bells and whistles and is housed in an old green tag holder.

Bold, flashy mirrored fields make the sharply struck devices stand out. The reflection is deep and bold with a wonderful watery texture that rolls up to the sharply struck up devices. The surfaces are flawless and, needless to say, the eye appeal is exceptional in every way.

PCGS 11, NGC 22. The most recent example to sell in auction brought \$16,450 in our June 2019 Regency Auction. Keep in mind that there are three coins graded finer, including the PR68+ that we sold in the September 2019 Regency Auction for \$39,950. This one will bring a strong price and is worthy of the FINEST Buffalo nickel Proof set.

**PCGS# 3995 | ESTIMATE: \$14,000+**

**LOT 244**  
**5C 1937 PCGS PR67+ CAC**

Exceptional and high end quality. The eye appeal is simply SUPERB with wonderful glassy, reflective mirrors that have a bold depth of clarity. Sharply impressed devices and a subtle trace of soft toning, this beauty has a lot to offer the collector of Proof type or anyone working on a set of Proof Buffalo nickels.

PCGS 613, NGC 344, CAC 337. PCGS has graded 92 in PR67+, and we sold the most recent example with CAC approval in our September 2019 Regency Auction for \$2,938. The current PCGS Price Guide value is \$3,000. RARE in PR68 or finer, the price guide doubles in that grade. A great example of the last Proof Buffalo nickel series.

**PCGS# 3996 | ESTIMATE: \$2,500+**

**LOT 245**  
**5C 1937 PCGS PR68 CAC**

WHOA! This PR68 is absolutely one of the most brilliant, reflective, intense SUPERB GEMS we have ever offered! It is unbelievable!

First off, this coin is a CAMEO; there is full contrast between the devices and the mirrored fields, and our consignor has tried it several times. We really do not know what PCGS is looking for to get the Cameo designation! The mirrors are blazing, deep, clear,

clean, and totally flawless! The devices are frosted and stand out dramatically in a way that you nearly never, ever see! This blazer is as fresh, reflective, and brilliant as the day it came off the dies. It is a very special coin, one that should be seen to be fully appreciated.

PCGS 45, NGC 55, CAC 19. Do NOT let these pops fool you, we can assure you that NONE look like this! VERY RARE as a CAMEO, PCGS has graded 13 in the designation, none finer than PR67+ and the only one that has sold recently is a PR67 CAM, non CAC that brought nearly \$11,000 in April 2019. Those are the comps to look at, not these in PR68. Worthy of a very strong bid, and placement in a very special, world class Proof Buffalo nickel set. Good luck!

**PCGS# 3996 | ESTIMATE: \$6,500+**

**LOT 246**  
**5C 1941-D PCGS MS68 FS**

A picture of sheer perfection! WOW! There are high grade Jefferson nickels, then there are coins like this, which defy logic that they even survive in such a lofty state of preservation.

This is arguably the FINEST Jefferson nickel that this cataloger has had the pleasure of looking at. First of all, the surfaces define the word PRISTINE! There are no flaws of any kind or size to be found anywhere. The luster is brilliant, bold, and blazing, which accents the stunning pastel blue and pink toning which give this coin the look of a swirled Easter egg. Every detail is razor sharp in definition and the eye appeal is out of this world. The grade, eye appeal, and quality are all affirmed by the PCGS grade and the QA check sticker.

PCGS 3, NGC 1. The only MS68 FS to sell in auction realized \$11,400 in the 2018 ANA auction, and this one has a much better eye appeal. The current PCGS Price Guide value is \$14,000 and with NONE graded finer, if you are assembling the #1 PCGS Registry Set, you need this coin. If you are looking for that really special Jefferson nickel for your type set, you need this coin! Regardless of whether it is going into a Jefferson nickel set or type set, it will see very strong bidding and will likely bring a record price. Good luck!

**PCGS# 84011 | ESTIMATE: \$8,000+**

**LOT 247**  
**5C 1955-D PCGS MS66 FS**

Tied for FINEST graded at either service, this sharply struck 55-D nickel clearly sat undisturbed for a long time in some sort of old holder, more than likely a mint set board. Totally original, the surfaces have a dusty old time patina that is accented by a bold underlying luster. The devices are sharply struck, especially the central reverse devices, where Monticello's steps are boldly rendered by an exacting blow from the dies. The surfaces show a few tiny, scattered ticks are noted, perfectly acceptable for the assigned grade. What a great coin for anyone building the top ranking Jefferson nickel Registry Set.

PCGS 3, NGC 1. The current PCGS Price Guide value is listed at \$15,000, and none have ever sold in auction. This is tied for FINEST graded. A coin worthy of the FINEST set, bid accordingly!

**PCGS# 84057 | ESTIMATE: \$8,250+**

**LOT 248**  
**5C 1956-D PCGS MS66+ FS**

This is the SOLE FINEST graded 56-D nickel in the Full Step designation at PCGS. A satiny luster blooms all over with a light pastel gold and light blue over nickel-silver color. Sharply struck, all of the steps are crisply defined. The surfaces are of pleasing, GEM quality with just a single fleck and a tick or two that we note with the aid of a very strong glass.

PCGS 1, NGC 0. Unpriced in the PCGS Price Guide, and VERY RARE in MS66 FS, none have sold since 2010. You read that right, we are just three months shy of a full

DECADE since the last one sold. The market has certainly matured since then, and this GEM could bring a new record price!

**PCGS# 84060 | ESTIMATE: \$8,500+**

**LOT 249**  
**5C 1958 PCGS MS66+ FS**

Jefferson nickel collectors take note! Legend Rare Coin Auctions is proud to offer this SINGLE FINEST Full Step 1958 nickel graded by either service!

Flashy, brilliant, essentially Prooflike reflective luster radiates strongly on both sides. The devices are sharply struck and stand out against minimally abraded surfaces. High end quality, the eye appeal is enhanced by a touch of clear gold and pale rose over the nickel silver surfaces.

PCGS 1, NGC 0. The only "comp" to be found is a single MS66 FS that sold three and a half years ago for \$8,225. Unpriced in MS66+ FS, we expect this stunning SUPERB GEM to realize a record bid from the top Jefferson Registry Set collector. Good luck!

**PCGS# 84063 | ESTIMATE: \$8,500+**

**LOT 250**  
**5C 1963 PCGS MS66+ FS**

Among the very **FINEST** graded! While the Philadelphia mint churned out nearly 176 million nickels in 1963, little care was taken for striking quality. Full Step designated examples are **VERY RARE** today, indeed, after 32+ years of grading just 42 examples have graded in MS66 or finer at PCGS. The present **GEM** has a bold satiny mint luster and a delicate iridescent patina over the original nickel-silver surfaces. Every detail of Monticello, including all six steps are fully rendered by an exacting blow from the dies. As you rotate the satiny surfaces in a light, soft pastel iridescent toning comes out, giving this **SUPERB** coin a great look!

PCGS 4, NGC 0. Just a single example is graded finer. Only one has sold in auction, an example that did not have this coin's great look, realizing \$1,704 in our September 2019 Regency Auction. The Collectors Universe value is \$2,000 and this one could well come close to that amount when the hammer falls. Bound for a great Registry Set.

**PCGS# 84073 | ESTIMATE: \$1,400+**

**LOT 251**  
**5C 1963-D PCGS MS65+ FS**

This is the second **HIGHEST GRADED** example at either service, with just a coin graded higher.

Lovely and original, the satiny lustrous surfaces gleam with just a touch of color on the nickel silver. Well struck, there is just a tiny trace of contact that keeps it from grading higher.

PCGS 1, NGC 0. PCGS does not list a value in grades above MS65, though in that grade the Collectors Universe value is \$7,000. The last MS65 FS, sold for \$5,640 in the 2017 FUN auction; hard to believe that is almost three years ago! What a great opportunity for anyone building the **FINEST** of collections on the Set Registry.

**PCGS# 3949 | ESTIMATE: \$8,500+**

**LOT 252**  
**5C 1939 REVERSE OF 1938. PCGS PR67+ CAC**

High end, watery mirrored fields possess a great "flash" when rotated in a light. Both sides offer a subtle tinge of the faintest pale powder-blue tone that adds greatly to the **SUPERB** eye appeal.

PCGS 194, NGC 75, CAC 55. There are 23 in PR67+ and 19 graded finer. The most recent brought \$900 and the current Collectors Universe value is \$1,000. Keep in mind a marginally finer PR68 will cost five times that, making this a great value play in our opinion!

**PCGS# 4176 | ESTIMATE: \$2,800+**

**LOT 253**  
**5C 1939 REVERSE OF 1938. PCGS PR68 CAC**

Among the **FINEST** graded examples of this early Jefferson nickel Proof. Highly reflective mirrors beam like liquid mercury on both sides and have taken on a gentle, icy blue toning that really comes to life in a light. The eye appeal is **SUPERB** and very high end.

PCGS 19, NGC 10, CAC 16. There are **NONE FINER**. We sold one in June 2019 for \$6,169 and the current PCGS value is listed at \$6,750. Bound for a wonderful collection of Jefferson nickel Proofs.

**PCGS# 4176 | ESTIMATE: \$5,000+**

**LOT 254**  
**H10C 1795 PCGS MS66 CAC**

This is an old friend, having last sold in our September 2018 Regency Auction. The collector who bought it has changed directions and is re-offering this outstanding GEM 1795 half dime. One casual glance at the lustrous and beautifully toned surfaces, and you know it is one of the highest graded and clearly one of the **FINEST KNOWN!**

Clearly it is a Condition Census LM-8. The wonderful toning is the first thing that catches your eye. A wealth of deep rose and teal-blue hues cover the centers, with accents of gold and silver near the rims. Satiny mint frost on the obverse, the reverse's luster has a distinctive reflective look. The devices are nicely struck with some of the eagle's breast feathers visible, which is not often the case on this issue. Even though the 1795 is the more common of this two year type, it is still exceptionally rare in such lofty grades.

This **MONSTER** 1795 half dime's eye appeal is off the charts.

PCGS 9, NGC 4, CAC 7. Realizing \$76,375 in our September 2018 PCGS currently lists a price of \$87,500 in the Collector's Universe Price Guide. There are five examples finer if you can believe it, 2 in 66+ and 3 in 67. The most recent MS67 to sell was the D. Brent Pogue coin that sold for a record \$176,250. Certainly a great coin for any advanced type collection! It may be a while until another **SUPERB** 1795 half dime comes up for sale again!

**PCGS# 4251 | ESTIMATE: \$70,000+**

**LOT 255**  
**H10C 1829 PCGS MS65 CAC**

This GEM is a great representative for the type with a vibrant satin luster that dances in the light. The devices are crisp and sharp. Only a tiny tick or two can be found with the aid of a strong glass, and is more than acceptable given the overall eye appeal.

While most of the series of silver and gold coins began utilizing John Reich's popular Capped Bust design in 1807 to 1815; the half dimes were the last to come on board, in 1829. This was the first mintage of half dimes since 1805.

PCGS 32, NGC 32, CAC 11. This is the most recent PCGS/CAC example to sell in auction, realizing \$2,468 in our September 2016 Regency Auction and the current PCGS Price Guide value is listed at \$3,000. With its bold visual allure, this one should bring close to that today.

**PCGS# 276 | ESTIMATE: \$2,500+**

**LOT 256**  
**H10C 1831 PCGS MS67**

LM-7. A glorious, frosty SUPERB GEM Capped Bust half dime. High grade and very high quality with a great eye appeal, this sharply struck jewel is a delight to behold. Gorgeous, pale gold toning attests to the originality of this high end example. We think a single, microscopic tick is all that keeps this SUPERB GEM from obtaining a CAC bean, but we really do like this one.

PCGS 11, NGC 11. The most recent example to sell realized \$7,800 in September 2018 and the current PCGS Price Guide value is listed at \$12,500. Just three have ever graded finer at PCGS, none of which have ever sold in auction. This will sell for a strong bid for sure!

**PCGS# 4278 | ESTIMATE: \$6,500+**

**LOT 257**  
**H10C 1836 NGC MS65 CAC**

This is a totally original, high end GEM LM-6. Lovely mint luster glows brilliantly on both sides, enhancing the slightest traces of toning. Both sides are crisply rendered with bold reliefs. The eye appeal is excellent.

PCGS 26, NGC 23, CAC 6. The current Collectors Universe value is \$3,250. This one sold in September 2019 for \$3,120. These do not appear with any frequency, worthy of a very strong bid.

**PCGS# 4287 | ESTIMATE: \$2,900+**

#### LOT 258

**H10C 1853 ARROWS. PCGS MS65 CAC**

A high end GEM that combines both bold technical quality and strong eye appeal. Pearly silver surfaces show off a vibrant satin luster with a touch of gold and lilac toning. Nicely struck and very alluring.

PCGS 61, NGC 74, CAC 21. The current PCGS value is listed at \$1,000 and going back to 2008, only 11 PCGS/CAC coins have sold in auction, the most recent examples selling between \$800 and \$1,000. This one appears to have been off the market for over a decade and it is truly a delight to behold.

**PCGS# 4356 | ESTIMATE: \$1,000+**

#### LOT 259

**H10C 1858 PCGS MS67+ CAC**

WOW! We are amazed by this tiny coin's huge eye appeal! To call this coin SUPERB does not even begin to describe this glorious jewel.

Semi-Prooflike reflection in the fields is bold and flashy, accenting every variegated shade in the toning that is dusted over both sides. Rich aqua-teal and cobalt blue shows some orange-gold and rose hues. The devices are sharply struck and frosty. The devices stand out dramatically against the satiny smooth surfaces. The eye appeal is truly sublime!

PCGS 21, NGC 24, CAC 12. PCGS has graded just 4 in MS67+. The current PCGS Price Guide value is listed at \$3,750 and the only one to ever sell, in our opinion sold cheaply, bringing \$2,820 in January 2017. This coin's eye appeal is far superior and should bring a stronger price. Keeping in mind that anything finer is going to cost five-figures, this is an exceptional beauty that presents a great value along with its AMAZING eye appeal.

**PCGS# 34367 | ESTIMATE: \$2,800+**

#### LOT 260

**H10C 1860-O PCGS MS66 CAC**

Blast white and brand spanking new! This stunning half dime looks like it just came off the dies. Radiant luster booms in the fields. This coin is essentially PERFECT, with smooth surfaces and sharply struck up design elements. Exceptionally high end.

PCGS 9, NGC 13, CAC 2. This coin is the ONLY CAC example to ever sell, bringing \$2,400 in the 2018 FUN auction. The current PCGS value is \$2,600 and just four are graded finer, the most recent CAC example brought nearly \$10,000 in the May 2015 Gardner Collection coin. Worthy of a great half dime collection and should bring a strong bid.

**PCGS# 4378 | ESTIMATE: \$2,000+**

#### LOT 261

**H10C 1862 PCGS MS66+ CAC**

What a cool little jewel! Fully prooflike surfaces gleam with a bold, lustrous mint brilliance that beams all over. What makes it even cooler is that the dies retained the flashy, polished finish even after clashing at least twice. The devices show bold definition and frostiness, enhanced by a faint hint of peripheral gold. The eye appeal is high end.

PCGS 59, NGC 46, CAC 20. There are just 9 in MS66+ at PCGS. The most recent PCGS/CAC example to sell in auction realized \$1,020 in the 2018 FUN auction. The current PCGS Price Guide value is listed at \$1,350 and in MS67 the last CAC approved example brought \$2,468. This GEM is worthy of a very strong bid for sure.

**PCGS# 4381 | ESTIMATE: \$1,000+**

**LOT 262**  
**H10C 1863 PCGS MS67 CAC**

One of the highest graded examples of the small, original wartime mintage of 18,000, just five coins have ever graded finer. Nearly full prooflike surfaces flash with a lustrous radiance. Thickly frosted devices contrast against the fields, giving this SUPERB GEM a wonderful almost cameo look. Very attractive and very high end!

PCGS 16, NGC 15, CAC 13. The most recent example sold in January 2015 for \$3,995 and that was the first time one had sold since the 2010 ANA auction. Just five are finer, again, none sold since 2015. A great coin for any specialized collection of Civil War era coins, or for a world class Seated Liberty half dime set.

**PCGS# 4382 | ESTIMATE: \$3,600+**

**LOT 263**  
**H10C 1864 PCGS PR65 CAM CAC**

A gorgeous, watery, totally original, flashy Proof. Rare and underrated, this GEM is bested by at most a half dozen coins at PCGS. Delicate champagne-gold is dusted over the brilliant silver surfaces, giving it a great look.

Only 470 Proofs were struck. PCGS 12, NGC 6, CAC 4. The most recent PCGS/CAC PR65 CAM sold in February 2012; nearly eight years ago! We really think these are too cheap and should be worth more.

**PCGS# 84447 | ESTIMATE: \$1,500+**

**LOT 264**  
**10C 1824/2 PCGS MS64**

This is an exceptional JR-1, the only really collectible of the two varieties of the 1824/2 overdate. Warm peach and apricot gold tone shows light rose and pale tan iridescent toning. This charming coin was bluntly struck from clashed and cracked dies. The eye appeal is better than the other examples we have seen.

PCGS 8, NGC 6. The current PCGS Price Guide value is listed at \$5,000 and with only six graded higher, this coin is a real prize. Keep in mind that the ONLY MS65 to sell brought \$31,200 in the 2018 ANA auction. This is a very scarce coin in Mint State and in our opinion, grossly undervalued.

**PCGS# 4502 | ESTIMATE: \$3,500+**

**LOT 265**  
**10C 1830 MEDIUM 10C. PCGS MS64+ CAC**

This is a very high end JR-7. Lovely and totally original pearly silver surfaces beam with an exceptional underlying mint frost. The sharply struck devices stand out against smooth, problem free surfaces. The eye appeal is excellent!

PCGS 29, NGC 29, CAC 11. There are 3 in MS64+ graded at PCGS, none of which sold in auction. The current PCGS Price Guide value is listed at \$5,000 and keep in mind that anything graded finer will be much more expensive! Worthy of a great type collection or select set of Capped Bust dimes.

**PCGS# 4516 | ESTIMATE: \$4,000+**

**LOT 266**  
**10C 1835 PCGS MS66**

JR-5. Tied for FINEST 1835 dime graded by either PCGS or NGC, and it is worthy of its lofty GEM grade!

Brilliant mint luster gleams all over on both sides, shimmering from below a lovely, original, mottled olive, tan, russet, gold, and slate patina. The sharply struck devices stand out against generally smooth, problem free surfaces (a strong glass reveals a tick or two and are mentioned for full disclosure). The eye appeal is high end, and tied with the Pogue coin for finest graded at PCGS.

PCGS 4, NGC 6. NONE ARE GRADED FINER at either service. Only the Pogue coin, a JR-1, has ever sold in a PCGS holder, realizing \$16,450 in February 2016, which happened to be a soft time in the market. The current PCGS Price Guide value is listed at \$17,500. Seems cheap for a coin of this vintage in such a high grade. A great coin for type or date purposes, very few in the entire series grade so high. Good luck!

**PCGS# 4527 | ESTIMATE: \$13,000+**

**LEGEND'S AUCTION SCHEDULE**

**LOT 267**  
**10C 1874 ARROWS. PCGS MS68**

EX OLIVER JUNG

To make it into the Oliver Jung Type Collection (the BEST EVER built), you know this coin was special.

Basically, this coin is “as struck” like the day it left the bank! The surfaces are flawless. Some slightly irregular toning may look like a tick or two-but it is not-it is just toning. The texture is thick and satiny. A light luster can be detected. Both sides have a deeper crescent of original forest green/magenta colors that blend into deep champagne/pale green colors. Miss Liberty and the details are sharply struck. The eye appeal is excellent!

PCGS 2, NGC 1. Here is an interesting set of auction data: the last PCGS piece sold in 2000, and the last NGC piece brought \$40,250 in January 2008. Its multiple years later and the Collectors Universe Value is only \$45,000. That is wrong. None have traded publicly, so there is nothing to go by. This coin is needed in many Type sets and probably MS Dime sets. We think a new market level will be set here. Good luck!

**PCGS# 4668 | ESTIMATE: \$40,000+**

**LOT 268**  
**10C 1879 PCGS MS67 CAC**

This is a stunner! One of the higher graded examples at PCGS, there are just 8 coins graded higher of this date where only 14,000 were struck. Vivid flashy reflective luster blooms with a bold look. The sharply struck devices are thickly frosted and stand out with a cameo-like contrast against the fields. The obverse is framed by a brilliant gold and blue halo that accents the exceptional quality eye appeal. What a great coin!

PCGS 28, NGC 24, CAC 14. There has not been a CAC approved example sold in nearly three years, though a 67+ CAC sold in our November 2018 Regency Auction for \$4,583. The eye appeal is amazing and this one should bring a very strong bid, and a total price in excess of the current Collectors Universe value of \$3,250. Bound for a great set of dimes or type coins.

**PCGS# 4687 | ESTIMATE: \$3,000+**

**LOT 269**  
**10C 1873 NO ARROWS.**  
**CLOSED 3. PCGS PR67**  
**DCAM**

This is the **FINEST DEEP CAMEO** No Arrows 1873 dime that has graded at either grading service. It is a fantastic **SUPERB GEM** in every way, so much so that this coin was in the historic, all time finest type set of Oliver Jung.

Deeply reflective mirrors beam from all over with a strong, bold

clarity. Thickly frosted devices on both sides. The mirrored fields are the epitome of depth, clarity, and stunning black and white DCAM contrast. There is a touch of light tone around the date and corresponding area of the upper reverse. Needless to say the surfaces are as clean as you could ever hope to see.

PCGS 1, NGC 0. There is no recent auction record for a PCGS DCAM in any grade. Indeed we have to cite PR68 CAMs as comps. The Gardner Collection coin sold in January 2016 for \$17,625. In PR67 DCAM the Collectors Universe value is listed at \$24,500. This is the **FINEST DCAM** and will fit in wonderfully in any high end set!

**PCGS# 94766 | ESTIMATE: \$12,500+**

**LOT 270**

**10C 1874 ARROWS. PCGS PR67**

The mintage of 700 Proofs is in line with other dates in the series, but for some reason, very few have survived in such a high grade. Indeed, this one is just one of two PCGS graded examples in PR67 with just a single PR67+ graded higher.

Both sides of this GEM have a lovely iridescent patina with rich blue, rose, gold, and violet colors on both sides. The fields show off a wonderful watery reflection on the obverse, while the reverse has a blazing, bold, and blinding reflection that taken on its own would probably warrant a CAM designation. The strike is bold, and there are no distracting marks to be found anywhere. The eye appeal is very high end and extremely rare in such a fine state of preservation.

The Arrows at the date were added, as they had been two decades earlier, to signify a weight change. The coinage act of 1873 raised the silver content of the dime, quarter, and half dollar in an effort to absorb some of the silver that poured from the Comstock Lode in Nevada.

PCGS 2, NGC 1. The only auction records for a PCGS PR67 is for a CAC approved coin that most recently sold in June 2014 for \$27,025 and the current PCGS price Guide value is listed at \$28,500. This very high end example is worthy of placement in a world class Proof Seated Dime set. Unique finer, a PR67+ that sold in August 2018 for \$38,400, this SUPERB GEM presents a very important opportunity.

**PCGS# 4770 | ESTIMATE: \$18,000+**

**LOT 271**  
**10C 1884 PCGS PR68**

Tied for FINEST graded in the designation, this is a splendid SUPERB GEM Proof 1884 Seated dime. Regardless of the date, this coin is stunning, and ranks among the most beautifully toned examples that survives for collectors.

Intensely reflective mirrors beam from all over. The icy fields are flawless and have a stunning depth and clarity. Vivid blues, golds, roses, and purples are brought out by a stunningly bold reflection. The devices are sharply impressed and the eye appeal is exceptional in every way. We are not sure what CAC saw when they chose not to bean this SUPERB GEM.

Only 875 Proofs were struck. PCGS 3, NGC 3. The last PCGS coin brought \$7,605 in September 2017; that was the first time since 1998 that one sold in auction. The current PCGS Price Guide value is listed at \$9,000. There are NONE finer, and this is a great coin for anyone looking for a SUPERB Proof Seated dime with a huge eye appeal.

**PCGS# 4781 | ESTIMATE: \$6,500+**

**LOT 272**  
**10C 1885 PCGS PR67 CAM CAC**

Gorgeously toned on both sides! This is a wonderful, totally original SUPERB GEM that radiates bold technical quality and oozes with a visual allure that few could ever match!

Deeply reflective mirrors beam from the fields. They are watery and brilliant and are essentially flawless. An aqua-teal, azure, and cobalt blue toning deepens to a rich violet and warm orange gold with magenta accents closer to the center on the obverse. The reverse has similar tones in a different pattern, but is no less original or eye appealing. We note just some very minor softness in strike, which is common for the date, and does not take away from the bold visual allure of this SUPERB Proof dime.

Only 930 Proofs were struck. PCGS 14, NGC 17, CAC 14. PCGS has graded just 3 finer. The current PCGS value is listed at \$3,750. There has not been a PCGS/CAC example in auction since September 2017, where one brought \$3,525. That same year, we sold a slightly finer PR67+ with CAC endorsement for \$6,169. A gorgeous coin like this is worthy of a very strong bid.

**PCGS# 84782 | ESTIMATE: \$3,200+**

**LOT 273**  
**10C 1888 NGC PR67 CAM CAC**

This is a gorgeous SUPERB GEM Cameo Proof Seated Liberty dime that was once a part of the famed Gene Gardner Collection. Stunning black and white contrast between the highly reflective mirrored fields and the thickly frosted, sharply struck devices. A frame of orange-gold and deep blue toning create a halo around both sides, adding to the SUPERB eye appeal.

PCGS 3, NGC 6, CAC 7. NONE are finer at NGC. Most recently this coin sold for \$3,360, in June 2018, and prior to that, it brought \$3,995 in the Gardner sale of May 2015. Collectors Universe lists a value of \$3,750. If you seek a great type coin bring this SUPERB GEM home!

**PCGS# 84785 | ESTIMATE: \$3,000+**

**LOT 274**  
**10C 1893 PCGS MS66 CAC**

What a beautifully toned, exceptionally lustrous PQ GEM Barber dime. Impressive quality throughout, the surfaces are awash in pink, violet, and subtle green that mingles with the rich golden hues. The devices are sharply struck up adding to the exquisite, high end eye appeal.

PCGS 23, NGC 16, CAC 16. While the current PCGS Price Guide value is listed at \$1,350, it does not take into account this coin's very high end eye appeal. With just a dozen graded finer, this coin is a prime candidate for a wonderful Barber Dime set, and we know it will be a great addition to any collection it graces.

**PCGS# 4800 | ESTIMATE: \$1,400+**

**LOT 275**  
**10C 1904 PCGS MS66+**

Tied for second finest graded at PCGS, with just two finer. It is in good company, at the MS66+ grade with the Simpson coin. Remarkably lustrous surfaces are smooth and have a wonderful mint gloss. Album toning frames both sides, accenting the nicely struck devices. There are just a few microscopic ticks that keep it from a CAC bean.

PCGS 3, NGC 0. The only ones to sell were CAC, the most recent selling for \$3,290 in a weak market (February 2016). The current PCGS value is listed at \$3,750. With just two graded finer, this coin is bound for a world class set.

**PCGS# 4833 | ESTIMATE: \$2,800+**

**LOT 276**  
**10C 1908-O PCGS MS66+ CAC**

This gorgeously toned 08-O dime is tied for second FINEST graded by PCGS and it is hard to image a more beautiful example in any grade. Glowing satin mint luster blooms vivaciously on both sides, greatly enlivening the multicolored toning, especially on the obverse. Shades of blue, emerald, gold, orange, and magenta really come out in the light. The surfaces are smooth and very high end, giving this PQ coin a very high end look. This cataloger can honestly say it is one of the great Barber dimes in this sale.

PCGS 14, NGC 12, CAC 8. There are four in MS66+ and just five finer (all MS67). This is not the one we sold in February 2016 for \$2,174; this coin's eye appeal is so much better. Indeed we think it will bring a price well in excess of the current PCGS Price Guide value of \$2,400. The last MS67 sold in our May 2019 Regency Auction for \$5,758 and this colorful SUPERB GEM has a better look.

**PCGS# 4848 | ESTIMATE: \$2,000+**

#### OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 277**  
**10C 1897 PCGS PR67 DCAM CAC**

WOW! This coin looks like a black and white jewel! The quality is of course VERY HIGH END!

Exceedingly deep mirrors beam boldly from all over. The mirrors have full clarity and are super clean. When you twirl the coin the mirrors have that awesome rolling "watery" look. The contrast is of epic proportions. There is no toning. Miss Liberty and every detail are needle sharp in strike and have GEM thick frost. The eye appeal is spectacular!

Only 731 were minted. PCGS 1, NGC 0, CAC 1. PCGS has graded only 2 coins higher (of which we placed the PR68 in a major collection). If you seek nothing but the very best and the VERY BEST LOOKING, then this coin is for you! Expect strong bidding here!

**PCGS# 94881 | ESTIMATE: \$9,000+**

**LOT 278**  
**10C 1898 PCGS PR67+ CAM CAC**

What a stupendously SUPERB GEM that is extremely high end! This is an amazing Proof Barber dime.

First off, this headlight is a borderline DCAM! The deeply reflective mirrors are ultra smooth and have a bold clarity. The sharply struck devices have a thick mint frosty texture that boldly contrasts against the deep, beaming mirrors. Both sides are untuned and are of exceptional quality, imparting an amazing FRESH eye appeal. Despite

its age, the quality is so high end and the contrast so extreme, it looks like a 2019 Proof dime!

Only 735 Proofs were struck. PCGS 16, NGC 23, CAC 14. Just four are graded PR67+ CAM and there are four finer. The most recent to sell in auction realized \$6,756 in our September 2019 Regency Auction and the current PCGS Price Guide value is listed at \$6,250. Since we sold one of the 68 CAMs in May 2018 for \$16,450, we know that this is the highest grade that most collectors will be able to obtain. Don't worry though, this is a world class example that will delight any collector!

**PCGS# 84882 | ESTIMATE: \$5,000+**

**LOT 279**

**10C 1916-D MERCURY. PCGS MS65+ FB CAC**

This is a very high end and SUPERB GEM example of this very important, perennially popular KEY date. The undisputed key of the Mercury dime series, in constant demand from collectors in all grades from Poor-1 to MS67. Gems like this always draw attention from collectors.

Brilliant luster glows all over on this lovely, high end beauty. The surfaces show off a wonderful satin frost that is accented by a very subtle clear gold that is brought to life by the exceptional luster. Every detail is crisply rendered including the all important central bands on the fasces. This high end coin is a single contact mark or two away from an even loftier grade designation. The eye appeal is amazing!

PCGS 35, NGC 25, CAC 8. There are just two PCGS MS65+ FBs that have been graded. The other one was the delicately toned Blue Moon Collection coin that sold for \$58,750 in March 2017. The current PCGS Price Guide value is listed at \$52,500. RARE any finer, especially with CAC approval, this classy GEM will fit into any superior set of Mercury dimes and will see very strong bidding for sure. Good luck!

**PCGS# 4907 | ESTIMATE: \$50,000+**

**LOT 280**  
**10C 1918-S NGC MS67**

A lustrous GEM that displays a soft golden iridescent toning. The strike is generally bold throughout, save for the central band on the reverse, which is not split but very pleasing overall.

PCGS 1, NGC 3. There has not been one of these sold since October 2011, where one sold for \$2,128. The sole PCGS coin has never sold in auction, but Collectors Universe suggests a value of \$5,000. Worthy of a very strong bid from the specialist looking for a SUPERB example of this early date Mercury dime.

**PCGS# 4920 | ESTIMATE: \$2,500+**

**LOT 281**  
**10C 1921-D PCGS MS66 FB**

Fantastic quality! Everything is high end. Boldly lustrous, with a thick, satin mint frost that glows vibrantly on both sides. The devices are sharply struck, especially on the all important central band of the reverse fascies. Traces of pale russet gold tone in the fields on both sides give this high end GEM a great look and attest to the bold originality.

The 21-D is a lower mintage date, with only 1,080,000 struck. As a recession gripped the post World War I economy, demand for circulating coins dropped. The only coin that is not a key date from 1921 is the Morgan dollar where tens of millions were struck. The vast majority of 1921-D dimes went into circulation, and are quite scarce in Mint State, and are quite rare in such a lofty state of preservation.

PCGS 23, NGC 13. The most recent example to sell in auction was the well pedigreed Joshua II --Hallett Collection coin we sold in September 2018. The current PCGS Price Guide value is listed at \$14,000 and the three most recent examples sold in the \$9,694 to \$12,925. Keep in mind that a 66+ FB will cost \$32,000+ (we sold one in March 2019 for \$32,900). This is a great coin for any high ranking PCGS Registry Set.

**PCGS# 4937 | ESTIMATE: \$10,000+**

**LOT 282**  
**10C 1925-S PCGS MS65 FB**

A brilliant white luster gleams from all over, accenting the sharply struck devices on this lovely GEM. The surfaces are clean and free of any distracting marks anywhere; indeed there are only a couple of "water spots" of iridescent white tone that can be seen at angles on the reverse. The eye appeal is great.

PCGS 71, NGC 25. This appears to be a date that even in the higher grades, are not high quality; CAC's pass rate is dismal (only 4 MS65 FBs have ever gotten a CAC bean). The most recent sold in the 2019 ANA auction and the current PCGS Price Guide value is \$3,500. We think this one will bring a strong bid, even without CAC. Quite rare any finer, this is about as high a grade as most can hope to find for their GEM sets.

**PCGS# 4953 | ESTIMATE: \$2,500+**

**LOT 283**  
**10C 1928-D PCGS MS66+ FB CAC**

What a blazing ball of luster. One of the FINEST examples of the date certified by PCGS. This is a coin that looks as brilliant and high end as it did the day the dies came together at the Denver mint. A very bold impression from the dies has rendered all the details in their full forms, brought out in full 3D. Blistering, brilliant luster radiates boldly all over both sides; it is literally oozing from all over and the eye appeal is amazing! It is shocking that this coin survives in such a pristine state of preservation.

PCGS 28, NGC 17, CAC 11. PCGS has graded a mere four in this grade with just a half dozen graded finer. The most recent brought \$5,875 in our September 2018 sale of the Hallett Collection but this one has a bolder look and should hammer closer to the Collectors Universe price of \$6,500. Exceptionally RARE any finer, a PCGS MS67 FB without CAC sold for \$36,000 in the 2019 FUN auction. This is a real prize for the advanced Registry Set collector and will see very active bidding as soon as the lot opens! Good luck!

**PCGS# 4969 | ESTIMATE: \$6,000+**

**LOT 284**  
**10C 1929-S PCGS MS67+ FB CAC**

This is an exceptional SUPERB GEM 29-S dime that is tied for FINEST graded at PCGS and it is a really high end quality example.

Totally original surfaces have a warm, pearly silver luster that glows in the satiny fields, surrounding sharply struck devices. There is a touch of delicate peripheral toning on the obverse that enhances the strong eye appeal of this impressive, Condition Census quality SUPERB GEM.

PCGS 59, NGC 13, CAC 30. There are only 7 graded MS67+ FB. While the current Collectors Universe value is listed at \$5,000, the average APR is nearly \$7,000. This SUPERB coin should bring close to that for sure!

**PCGS# 4977 | ESTIMATE: \$6,000+**

**LOT 285**  
**10C 1934-D PCGS MS67+ FB CAC**

An exceptional SUPERB GEM that is tied for FINEST graded at PCGS. The obverse luster has a distinctly reflective texture that flashes brilliantly throughout the flawless glassy smoothness. The reverse is very frosty and shows extensive die lines, suggesting an early state of the dies. The design elements are sharply struck up from a precision blow from the dies, and the eye appeal is amazing.

PCGS 63, NGC 9, CAC 23. There are 10 graded 67+ FB and NONE finer at PCGS. The last PCGS/CAC example sold for \$4,080 nearly two years ago in February 2018. The current PCGS Price Guide value is listed at \$3,500. Seems reasonable for one of the FINEST graded of a date in a very popular series. Good luck

**PCGS# 1019012 | ESTIMATE: \$3,200+**

**LOT 286**  
**10C 1936-S PCGS MS67+ FB CAC**

White hot, blazing silver luster radiates on both sides of this pristine, SUPERB GEM. Exceptional brilliance gleams in the smooth fields and across the sharply struck up devices. The eye appeal is as fresh today as it was 81 years ago when this dime fell off the dies.

PCGS 264, NGC 66, CAC 66. There are 33 graded MS67+ FB at PCGS and just three coins have ever graded higher. A similar blast white example realized \$1,680 in the 2019 ANA auction and the current PCGS value is listed at \$1,650. Keep in mind that a 68 FB with CAC approval will cost about 10 times as much! Seems like a great value here.

**PCGS# 5003 | ESTIMATE: \$1,300+**

**LOT 287**  
**10C 1938-S PCGS MS67+FB CAC**

Blast white and fully brilliant, this exceptionally well struck GEM boasts essentially perfect surface quality. Even with a strong glass we can find zero flaws worthy of mention. The luster blazes with a strong vivacity that cannot be beat--this coin looks like it just came off the dies!

PCGS 193, NGC 66, CAC 79. There are 19 graded 67+ FB at PCGS and just 8 are graded finer. The most recent example sold for \$1,320 in September 2019 and the current PCGS value is listed at \$2,500. The only CAC coin graded higher is the 68+ that sold for a record \$364,250 in our June 2019 Regency Auction, a coin that brought the highest price ever for a Mercury dime. This brilliant SUPERB GEM will delight anyone who is building a great set of Mercury dimes.

**PCGS# 5015 | ESTIMATE: \$1,050+**

**LOT 288**  
**10C 1939 PCGS MS67+ FB CAC**

A satiny smooth SUPERB GEM! The frosty luster boldly gleams all over the essentially PRISTINE surfaces. Sharply struck devices stand out adding to a wonderful eye appeal.

PCGS 181, NGC 60, CAC 82. The most recent example sold for \$1,920 in the 2019 ANA auction, and the current Collectors Universe value is \$2,150. Only 15 are graded higher at PCGS, all MS68 FB. This one is worthy of a strong bid.

**PCGS# 5017 | ESTIMATE: \$1,400+**

**LOT 289**  
**10C 1939-D PCGS MS68 FB CAC**

This is a very high end SUPERB GEM that is sharply struck up and fully lustrous. The uber smooth surfaces give this beauty a great look. Beautiful color graces both sides imparting a good look.

PCGS 78, NGC 33, CAC 73. The most recent examples sold in auction between \$784 and \$870 and the current PCGS value is listed at \$950. This one is worthy of a strong bid, housed in an old blue tag holder.

**PCGS# 5019 | ESTIMATE: \$750+**

**LOT 290**  
**10C 1939-D PCGS MS69 FB**

An amazing SUPERB GEM that is the epitome of PERFECTION! How many coins struck for circulation prior to the modern era can possibly survive in this ultra lofty state of preservation?

Brilliantly lustrous with a satiny frost that is unbroken in any way. Traces of purple and orange gold cling to the peripheries of this razor sharp Mercury dime.

Apparently all the MS69 FB pieces came from a single source, a small hoard of old "dime savers" that had been found in

a bank, where the strip of paper that held the dimes in place helped to impart the vivid toning seen on many of these.

PCGS 24, NGC 2. The last non-CAC example to sell in a Legend Auction brought \$6,169 in September 2018. The current PCGS Price Guide value is listed at \$6,500. The only reason why this coin is being sold is the consignor just bought the one out of our September Regency Auction for a record \$42,300. Good luck!

**PCGS# 5019 | ESTIMATE: \$5,000+**

**LOT 291**  
**10C 1941 PCGS MS68 FB**

Quite RARE at this lofty state of preservation this SUPERB GEM is tied with a select group of a dozen or so coins at PCGS for second finest graded status of this plentiful issue. The luster is bold, and the surfaces are bright white with just a touch of russet gold around the periphery. The strike is bold and powerful, and the surfaces are simply amazing to behold.

PCGS 14, NGC 7. The last non-CAC example sold for \$5,280 in November 2017 and the current PCGS value is listed at \$4,500. This coin has been off the market for four years, last appearing in our December 2015 Regency Auction. Only three have graded finer, all MS68+ FB and the only one of those to sell realized \$17,625 in our September 2019 Regency Auction. Worthy of a high ranking set and strong bid.

**PCGS# 5029 | ESTIMATE: \$3,600+**

**LOT 292**  
**10C 1942-S PCGS MS67+ FB CAC**

A brilliant and totally original SUPERB GEM. Traces of a delicate gold tone sparkles in areas, brought out by a vibrant mint luster. The surfaces are totally smooth and clean contrasting wonderfully against the sharply struck devices. The eye appeal is wonderful indeed!

PCGS 232, NGC 108, CAC 79. There has been a very wide range of APRs from \$1,410 to \$3,840; the average is \$2,732, which is about what we sold the Hallett Collection coin for in \$2,703. VERY RARE any finer, this SUPERB example will delight any Registry Set collector. Good luck.

**PCGS# 5043 | ESTIMATE: \$2,000+**

**LOT 293**  
**10C 1944-S PCGS MS68 FB**

Call the fire department! We have a blazer here! A gorgeous toned SUPERB GEM that is tied for FINEST graded at PCGS. Rich fiery magenta, gold, olive, and emerald toning blend beautifully on both sides of the satiny surfaces. There is a single tiny mark on the reverse which is what we think held it back from CAC approval. The eye appeal is bold for sure!

PCGS 16, NGC 12. The current PCGS Price Guide value is listed at \$6,000. With its bold look and status as tied for FINEST, this coin will attract strong bidding from the advanced Registry Set collector. We love the look and you will too. Bound for a great set.

**PCGS# 5055 | ESTIMATE: \$5,000+**

**LOT 294**  
**20C 1878 PCGS PR65 CAC**  
 EX 1994 COLLECTION

This is a dramatic looking GEM Proof example of this Proof Only mintage. Only 600 pieces were struck of this final year in this short lived, odd denomination. Wonderful, deep, icy reflective mirrors shimmer all over. The fields are smooth and generally free of all but the most insignificant lines, which are appropriate for the PCGS assigned grade, and CAC confirms. The sharply rendered

devices have a thick, rich frost, giving this coin a borderline CAMEO contrast, which adds dramatically to the outstanding eye appeal.

Only 600 Proofs were struck. PCGS 24, NGC 25, CAC 5. The most recent PR65 with CAC approval brought \$9,400 in June 2017; the only other one was an NGC-graded example in March 2011 that brought nearly \$25,000. The current PCGS Price Guide value is listed at \$9,500. Very rare any finer, this GEM will delight any collector of this challenging series or advanced Proof type collectors. We anticipate strong bidding here.

**PCGS# 5306 | ESTIMATE: \$8,500+**

**LOT 295**

**25C 1818 PCGS MS65 CAC**

This is a very pleasing, totally original GEM 1818 quarter. Among the top 10 B-2 examples known, well within the Rea, et al and Tompkins Condition Census.

Sharply struck devices stand out on both sides, accented by a bold, frosty luster. The obverse and reverse have a very pleasing pewter-silver with lilac and pale gold accents. Struck from a cracked obverse die, as are all B-2s. This one shows the crack at the upper obverse stars. This lovely GEM is a great type coin, one of the FINEST graded.

PCGS 23, NGC 21, CAC 5. This was the most recent example sold for \$28,800 in the 2019 FUN auction in a first generation PCGS holder. Clearly someone thought it had a shot at a higher grade. It is very high end and very sharp. We know this lovely coin will bring a strong bid. Perfect for a type set, or someone putting together a high grade Capped Bust quarter collection. The current Collectors Universe value is \$28,500. EXTREMELY RARE any finer, just five have ever graded higher, including the James Stack- Brent Pogue 66 that sold for nearly \$50,000 in May 2015. What a great coin!

**PCGS# 5322 | ESTIMATE: \$26,000+**

**LOT 296**  
**25C 1831 B-2. SMALL LETTERS. PCGS MS66 CAC**

A gorgeous GEM which ranks as coin # 2 in the Tompkins Census and # 3 on the Rea-Koenings-Haroutunian Census. Hailing from the famed Oliver Jung Collection, sold by ANR back in July 2004, this is an exceptional example worthy of inclusion in that world class type set.

Sharply struck from a late reverse die state with a solid crack that encircles the entire reverse. Richly lustrous surfaces have a delicate melange of toning that brings a mixture of gunmetal, gold, tan, russet, and olive patina that attest to the outstanding and total originality. The details are razor sharp in definition with full crisp definition on both sides. A strong glass reveals a microscopic trace of contact, well hidden under the patina and cannot be seen with the naked eye, nor do they have any impact on the outstanding visual allure of this impressive SUPERB GEM!

PCGS 8, NGC 4, CAC 6. The most recent PCGS/CAC MS66 sold in the June 2014 Gardner Collection sale for \$47,000. The Pogue collection had an example that brought \$55,813. This one, with its impressive Jung Pedigree, will sell for a strong bid, likely in excess of current PCGS Price Guide value of \$42,500. There is just a single MS66+ finer, which realized \$55,813 in our October 2017 Regency Auction. This is a great type coin or high end example for the ultra high end early quarter set. Expect strong bidding for this one.

**PCGS# 5348 | ESTIMATE: \$42,000+**

**LOT 297**  
**25C 1834 PCGS MS64 CAC**

This is a gorgeous, Condition Census B-1; both modern censuses have a low grade of MS64. Though not listed on the insert, this is a popular Red Book variety with the O in OF punched over an errant F.

Well struck from a clashed and cracked obverse die, the guiles from the reverse shield are boldly struck on Liberty's neck and a bold arching die crack from below Star 1 to Star 13, across Liberty's neck and drapery. The fields show a lovely, semi-Prooflike reflection to the

luster that accent the sharply struck devices. Both sides have a great, old time collection color, shades of gold, lilac, slate, and olive-tan blend on the near-GEM caliber surfaces. The eye appeal is awesome!

PCGS 43, NGC 35, CAC 12. There have only been three PCGS MS64 CAC sold in auction, the most recent sold in July 2015 for \$8,225 and the other two brought more, clearly the Collectors Universe price of \$6,500 was dragged down by non-CAC coins selling cheaply. With just 13 graded higher at PCGS, this date is VERY RARE and hard to find any finer, with any MS65 being worth \$25,000 or more. Good luck!

**PCGS# 5353 | ESTIMATE: \$6,500+**

**Jessica Berkman (jessica@legendauctions.com)**

**LOT 298**  
**25C 1853 NO ARROWS. PCGS MS66 CAC**

This is a SUPERB GEM from a SUPERB collection. What a great looking, totally original beauty!

Thick, satiny mint frost has a rich brilliance on both sides. The devices are sharply struck up with and stand out against the essentially pristine fields. The obverse shows a tinge of the most subtle clear gold and peach while the reverse shows off a deeper coppery-orange with hints of purple/blue at the rims.

The composition of silver coins resulted in wholesale export and melting as the price of silver increased in relation to the price of gold, making the metallic value exceed the face value. An act of Congress in 1853 adjusted the silver content lower and the change was noted by Arrows at the date and a spray of rays around the eagle. Prior to the change, 44,200 quarters were struck from a single pair of dies. Between ravages of circulation and wholesale melting of the issue for bullion, this date is RARE so fine! The obverse die shows bold recutting of the 53 in the date.

PCGS 8, NGC 3, CAC 3. The current PCGS Price Guide value is listed at \$23,500. This coin has been off the market for four years. It realized nearly \$20,000 in the Gardner sale. Just a trio are graded higher, and the most recent to sell brought \$32,500 in a November 2016 internet auction. This coin has a very similar look and we would not be surprised if it brought close to that in its appearance here. Worthy of an exceptional type or specialized Seated quarter set! Good luck.

**PCGS# 5421 | ESTIMATE: \$24,000+**

**LOT 299**

**25C 1854 ARROWS. PCGS MS66 CAC**

From our September 2018 Regency Auction, where it was described as:

"A beautiful Premium GEM of this short lived type. Exceptionally radiant mint luster glows on the ultra smooth and clean surfaces. The luster really does gleam from all over. The razor sharp devices stand out against the cleanliness of the fields. Both sides show a delicate and totally iridescent tone with shades of pale silver, lilac, gold and olive-tan toning. The eye appeal is spectacular and very high end."

PCGS 10, NGC 3, CAC 4. This coin brought \$24,675 in the September 2018 Regency Auction. Our consignor, who is a major collector, has decided to change directions slightly and has consigned this beauty back to the market. The current PCGS value is \$22,500 and there are so few graded higher that anyone working on a type set needs to appreciate the importance of this opportunity.

**PCGS#5432 | ESTIMATE: \$22,000+**

**LOT 300**  
**25C 1873 ARROWS. PCGS**  
**MS65+ CAC**

This is a MAJESTIC toned GEM  
 25C 1873 ARROWS!

A brilliant luster radiates from below a blend of rich crimson and rose toning that is framed by iridescent blue and fuchsia. The surfaces are ultra clean, free of any distracting ticks, lines, or marks of any kind anywhere. The sharply struck devices stand out against the satiny smooth fields. This stunning, Brilliant GEM is a very high end and wonderfully preserved type coin, worthy of any type or quarter set.

PCGS 14, NGC 9, CAC 3. There are only 2 coins graded MS65+, the other one having last sold in February 2014 for \$6,169. The current PCGS Price Guide value is listed at \$6,250. Just six coins are graded finer, and this one has an absolutely high end look that will delight even the pickiest collector.

**PCGS# 5491 | ESTIMATE: \$5,000+**

**LOT 301**  
**25C 1875 PCGS MS67+ CAC**

An impressive SUPERB GEM that is tied for FINEST KNOWN! We are so glad to see this coin again, it is an old friend, having appeared in our Regency Auction XIV, lot 270, where it was described as:

"Glorious deep teal, blue and russet toning splashed on the obverse with bright silver on part of Liberty's dress, the reverse toning is more uniform with medium blue and rose blending together. Outstanding quality for

the date or type collector who demands monumental surfaces."

PCGS 5, NGC 7, CAC 4. There are two graded MS67+ and there are NONE GRADED FINER! This coin brought \$15,863 in our October 2015 Regency Auction and the current PCGS Price Guide value is listed at \$12,500. This coin has a record of \$44,063 in a January 2013 auction, which reveals just how amazing the quality and eye appeal are.

**PCGS# 5498 | ESTIMATE: \$10,000+**

**LOT 302**  
**25C 1884 PCGS MS67+ CAC**

What a magnificent SUPERB GEM. Tied for FINEST and fully Prooflike, we suspect that if resubmitted for a PL designation, this coin would get it (no guarantees). The brilliant untuned, blazing mint luster beams with a dramatic reflective flash like that of a full Proof striking. Every detail is razor sharp and fully frosted, giving this essentially perfect, pristine SUPERB GEM an exceptional eye appeal that cannot be beat. It looks as fresh today as it did when it came off the dies. A low mintage date, only 8,000 business strikes were struck.

PCGS 11, NGC 9, CAC 4. PCGS has graded 3 in 67+ and NONE FINER. We cannot trace this GEM in auction, but a different example sold for \$6,169 in September 2016. The current PCGS Price Guide is \$9,000. We know that this coin will fit into any exceptional type or set of late date Seated quarters. As the market has unfairly put 19th century coins like this on sale, now is the time to put them away and build collections of exceptional quality.

**PCGS# 5516 | ESTIMATE: \$6,000+**

**LOT 303**  
**25C 1874 ARROWS. PCGS PR64 CAM CAC**

VERY HIGH END! The mirrors are deep, crystal clear, clean and have bold reflection. Honestly we are not sure what PCGS sees to keep it a PR64, only with a strong glass can you find a thin and scattered line or two (that is it). Miss Liberty and every detail are fully struck and clearly display a creamy white frost.

Only 700 Proofs were struck. PCGS 16, NGC 6, CAC 4.

Collectors Universe lists a value of \$3,500 and the only PCGS/CAC coin sold in auction was in June 2010 - hard to believe but that is nearly a decade ago! RARE finer, this is a great coin for a budget minded collector who still demand very high quality

**PCGS# 85575 | ESTIMATE: \$3,000+**

**LOT 304**  
**25C 1874 ARROWS. PCGS PR67 CAM**

Absolutely high end and wonderfully preserved GEM example of this date.

Sharply struck and frosted standing out against the sleek, gleaming mirrored fields.

The fields are intensely reflective and are essentially without flaw of any kind. Beautiful orange-gold patina clings to the periphery, framing the stunning quality coin. The eye appeal is exceptional, we do not see anything that should preclude CAC approval. We think they were being very tight on this one.

Only 850 Proofs were struck. PCGS 2, NGC

0. This was the only one to sell in auction, where realized \$14,688 in the 2016 ANA auction. The current PCGS Price Guide value is listed at \$22,500. There is just a single PR67+ CAM graded finer, a coin that has yet to appear in auction. This is likely as fine an example as you will ever have the chance to bid on anytime soon. Good luck!

**PCGS# 85575 | ESTIMATE: \$12,000+**

**LOT 305**  
**25C 1892 PCGS MS68 CAC**

EX R.S.D. COLLECTION, as noted on the holder.

Hard to believe but this is a duplicate from the #1 all time Mint State Barber Quarter Collection-the R.S.D. Collection. Yes, a duplicate! This is one of the few true MS68's that exist. If you buy only the "best of the best", this coin is for you.

You can go over and over this coin with a glass and it will pass every test. To call this coin PERFECT is an understatement!!

The surfaces enjoy a thicker satiny like texture. A bold glowing lust really makes the coin stand out. Marvelous and totally original colors of deep blue, navy, purple, and deep champagne swirl all over. Miss Liberty and every details are razor sharp in strike and have delicate frost. The eye appeal is stunning!

PCGS 4, NGC 4, CAC 8 (totally wrong number). There has not been one sold in auction since 2006; even back then these were \$20,000 coins! Today, good luck finding any others as the R.S.D.

Collection has 8 MS68's total and Legend has placed 3 others. This may very well be the ONLY PCGS CAC MS68 to come to the market for a very long time.

This coin was replaced by the out of this world MONSTER (not that this coin is not) PCGS MS68+ CAC. The R.S.D Collection is #1 all time. It is 100% PCGS CAC and is all about quality and eye appeal!

**PCGS# 5601 | ESTIMATE: \$27,500+**

**LOT 306**  
**25C 1894 PCGS MS66+ CAC**

Tied for FINEST graded of the date. SUPER HIGH END quality. This one is totally original and beautifully toned. Vivid blue hues ranging from cobalt to teal fades to a gold, rose, and amber in the centers on both sides. Sharply struck up, this coin shows an ancient fingerprint that has taken on the dominating shades, giving this SUPERB GEM a great and unique visual allure. The surfaces are pretty much pristine. Miss Liberty and the details are sharply struck. Great eye appeal!

PCGS 14, NGC 6, CAC 8. There are five graded MS66+ at PCGS and NONE FINER. The current PCGS Price Guide value is \$4,500 and with its status as likely FINEST KNOWN, this coin will delight anyone working on the #1 PCGS Registry Set. We anticipate strong bidding. Great as a Type coin too!

**PCGS# 5607 | ESTIMATE: \$4,000+**

**LOT 307**  
**25C 1908 PCGS MS66+ CAC**

At first glance you can see how crazy original this piece is. It is also more than worthy of the +!

Remarkably clean surfaces are a joy to behold. They have a thick satiny texture. A strong luster beams vividly from all over. Both sides enjoy a moderate mix of totally original pale silver /gold color centers with thick golden brown rims. This is NOT a dull or drab coin. Miss Liberty and the details are sharply struck and stand out. The eye appeal is terrific!

PCGS 24, NGC 1, CAC 4. PCGS has graded 3 in MS66+. A PCGS CAC piece that was not as nice as this just sold for \$1,440 in August of 2019. The coin we are offering here is not a retreat and has neat looks! There is a Collectors Universe value of \$2,250. Note: The lone PCGS CAC MS67 is impounded in a major collection.

**PCGS# 5649 | ESTIMATE: \$1,500+**

**LOT 308**  
**25C 1909-S PCGS MS67 CAC**

Stunning! Wow! Tied for the FINEST graded at either service and there is no question to its high end visual allure!

Remarkable surfaces are satiny and are clean overall. A bold, brilliant mint bloom glows from below a dusting of original blue, auburn and pale greenish hues that are evenly distributed across the peripheries. The details are sharply struck and have generous frost. The eye appeal is imposing!

PCGS 4, NGC 3, CAC 3. The last example to sell in auction was a much more toned piece which brought \$12,337 in January 2019. The current Collector's Universe value is listed at \$12,500. If you demand the best, THIS IS the BEST; there are NONE FINER! This will be a star in ANY top MS Barber Collection

**PCGS# 5656 | ESTIMATE: \$9,500+**

**LOT 309**  
**25C 1909 PCGS PR68 CAC**

One of the TOP TEN FINEST graded at PCGS, just a single PR68+ has graded finer at that service. This is a totally original and very beautifully toned SUPERB GEM, that will delight anyone who truly appreciates the FINEST in Proof Barber quarters.

Deep blue and teal blend with rose on the reverse. Bold flashy mirrors are flawless with zero imperfections to be found anywhere, and the eye appeal is amazing!

Only 650 Proofs were struck. PCGS 9, NGC 10, CAC 10. The most recent example sold in our December 2016 Regency Auction for \$10,281. The current PCGS Price Guide value is listed at \$14,500. Just a single PR68+ is graded finer, which realized \$29,375 in our March 2019 Regency Auction. This marvelous SUPERB GEM borders on PERFECTION and should see fierce bidding. Good luck.

**PCGS# 5695 | ESTIMATE: \$10,000+**

**LOT 310**  
**25C 1909 PCGS PR67+ CAM CAC**

This is truly an AMAZING SUPERB GEM Proof 1909 quarter that is tied for FINEST graded at PCGS with just one other. The flashy, flawless, mirrored fields and thickly frosted white devices stand out with a nearly DCAM contrast. Stunningly smooth fields are the epitome of deep, clear reflection that beams from all over. The untuned surfaces are SUPERB technically and aesthetically, and high quality, looking as fresh today as it did 110 years ago when it came off the press.

Only 650 Proofs were struck. PCGS 8, NGC 12, CAC 10. There are 2 in PR67+ CAM at PCGS, and we sold one in June 2019 for \$6,756 and the current PCGS Price Guide value is listed at \$6,500. There are NONE graded finer in the CAM designation, so if you are building a #1 PCGS Set of Barber Quarters in Proof, this coin is a MUST!

**PCGS# 85695 | ESTIMATE: \$5,250+**

**LOT 311**  
**25C 1914 PCGS PR66+ CAM CAC**

An extraordinarily SUPERB GEM example of this incredibly underrated date! In such a lofty state of preservation this date is exceedingly RARE.

Superior mirrors are deep, with awesome clarity, cleanliness, and bold reflectivity. Miss Liberty and the details are needle sharp and stand out with thick, creamy white frost. The eye appeal is truly jaw dropping!

Only 380 Proofs were struck (the lowest mintage of the series.) PCGS 11, NGC 11, CAC 16. There are six in PR66+ CAM and just six finer. DO NOT let the fact that we have had the honor of selling three distinct examples earlier this year make you think this is a common date. Ranging from \$5,170 to \$7,638 in auction, and the current PCGS Price Guide value is listed at \$5,750. Nothing finer has sold since 2013, this is an impressive coin that will bring a very strong bid. Good luck!

**PCGS# 85700 | ESTIMATE: \$4,500+**

**LOT 312**  
**25C 1915 PCGS PR67 CAC**

As many of you know, Legend Numismatics and Legend Auctions have been longtime fans of ALL 1915 Proof coins. We have always felt they are overlooked.

This coin is totally FRESH to market, not even a retread from a few years ago (can't beat that). For a 1915, it has many high-end qualities: the mirrors are strong; we've never really seen ultra-deep on any 1915. They have good clarity, cleanliness, and yes, they have strong reflection. A borderline CAMEO with nice contrast, this is NOT a dull or drab coin. Miss Liberty and the details are needle sharp in strike. The eye appeal is fantastic!

Only 450 Proofs were struck. PCGS 13, NGC 13, CAC 15. The last PCGS/CAC example sold in auction in August 2013 for \$15,275 and the current PCGS Price Guide value is \$6,500. Just 8 are graded finer. This one will certainly bring a strong bid from the collector. We love the look of this blast white, mint fresh looking SUPERB GEM and you will too!

**PCGS# 5701 | ESTIMATE: \$5,000+**

**LOT 313**  
**25C 1917-D TYPE 1. PCGS MS66+ FH**

Radiant mint luster blooms on both sides of this brilliant Premium GEM. Light golden peripheral toning on both sides adds a dimension to the eye appeal. Crisply struck throughout, every detail is sharply rendered.

PCGS 12, NGC 6. The most recent example sold in our April 2018 Premier Session for \$2,145, and the current PCGS Price Guide value is listed at \$2,200. RARE any finer, fewer than three dozen have graded higher at PCGS. This is a great Type 1 for the collector.

**PCGS# 5709 | ESTIMATE: \$1,800+**

**LOT 314**  
**25C 1917-D TYPE 2. PCGS MS66 FH**

A very attractive GEM 17-D Type 2. Brilliant and satiny mint luster radiates and glows from the smooth surfaces on both sides. The peripheries on both sides of this lovely coin are framed by a cobalt and amber-gold blend that really enhances the sharply rendered devices. The surfaces are smooth and free of any distracting marks of any kind. The eye appeal is excellent, we are not sure why CAC didn't bean this beauty.

PCGS 25, NGC 3. It has been over two years since the last two PCGS examples sold in auction, where they brought over \$3,800 and the current PCGS Price Guide value is listed at \$5,000. Only seven coins have graded finer at PCGS and they are very rarely seen in the marketplace, making this a rare opportunity for the serious Standing Liberty collector. We anticipate strong bidding when this one crosses the block.

**PCGS# 5717 | ESTIMATE: \$3,500+**

**LOT 315**  
**25C 1920-D PCGS MS65 FH**

A GLORIOUS GEM! Brilliant silver white luster glows with a superb radiance on both sides accenting the sharply struck up devices. A frame of rich, orange-gold. Totally original, there is some "dirt" that clings to the recesses of some of the design elements. Every detail is crisply rendered with an exacting strike even on the shield the brads are fully visible. Aside from a minor reeding mark on the reverse, this coin is essentially flawless, and would have likely graded higher. The eye appeal is excellent.

PCGS 37, NGC 12. Clearly this date does not come "nice" in this grade, as CAC has only stickered a single MS65 out of nearly 50 graded by both PCGS and NGC. The most recent example to sell in auction was an NGC-graded MS65 FH that brought \$9,000 in September 2019. The current PCGS value is listed at \$8,250. Extremely RARE any finer, fewer than two dozen total are graded higher at PCGS, which no doubt includes duplication. A great looking GEM for the discerning collector who seeks only the best, most eye appealing examples.

**PCGS# 5737 | ESTIMATE: \$6,500+**

**LOT 316**  
**25C 1924-S PCGS MS66 CAC**

What a lovely Premium GEM! This coin is well stuck for this date that often comes very weak; Liberty's head shows the outline of the 2 leaves and most of the outline of her hairline. The shield likewise is very bold, with complete definition on all but three of the brads. A seductively lustrous coin that has a vibrant brilliance that really catches your eyes as it traces over the bold devices. Light, dappled, multicolored, old envelope-like toning dances on the surfaces as the luster beams in the light. Blue, pink, and gold hues come out as you rotate this GEM in a light.

PCGS 40, NGC 19, CAC 14. Two sold in June 2019, this one for \$2,938 and the other for \$3,600 and the current PCGS Price Guide value is \$4,250. With just a bakers dozen finer, this coin is a prime candidate for a high end set.

**PCGS# 5750 | ESTIMATE: \$3,000+**

**LOT 317**  
**25C 1926 PCGS MS66+ FH**

The 1926 quarter is a challenging coin to find with a full strike. It is also a difficult coin to find in Premium GEM grades, with or without the FH designation. The presently offered MS66+ FH combines both attributes, with fully struck up devices. Very lustrous surfaces have a touch of light blue and gold that can be seen when you rotate the surfaces in a light. Essentially every detail is sharply impressed, with all three leaves and Liberty's hairline fully rendered. A strong glass reveals a few trivial contact marks, but nothing that distracts the eye. The visual allure is excellent.

visible and all the shield brads are fully rendered. A strong glass reveals a few trivial contact marks, but nothing that distracts the eye.

PCGS 10, NGC 1. The only one of these to sell realized \$8,750 in a June 2019 internet auction, but was CAC approved. The current Collectors Universe value is listed at \$8,000. There are just three graded finer at PCGS, the only one of those to sell brought \$63,250 in October 2011. This is a great coin, clearly among the FINEST and worth a premium bid!

**PCGS# 5755 | ESTIMATE: \$6,000+**

**LOT 318**  
**25C 1953-D PCGS MS67+ CAC**

Though not a rare date, this is among the half dozen FINEST graded at PCGS, none of which have ever sold in auction. Thick frosty luster accentuates a sunset orange and brick red arc on the obverse that frames Washington's bust. Save for a tiny tick or two, visible only with the aid of a powerful loupe and careful inspection, this coin's surfaces are pristine.

PCGS 43, NGC 90, CAC 15. There are only 6 graded MS67+ at PCGS and NONE ARE GRADED FINER. An ideal candidate for inclusion in the #1 Registry Set of Washington quarters, we do not doubt that the Collectors Universe value of \$5,000 will be exceeded when the hammer falls.

**PCGS# 5853 | ESTIMATE: \$4,200+**

**LOT 319**  
**25C 1958 PCGS MS67+ CAC**

A highly lustrous SUPERB GEM that is tied for FINEST. Brilliant underlying surfaces enliven the delicate iridescent peach, olive, emerald, and gold patina. Sharply struck and nicely preserved, the surfaces are pristine.

PCGS 354, NGC 618, CAC 104. PCGS has graded 19 in 67+ and NONE finer. The two most recent examples sold for \$1,020 and \$1,026 and the current PCGS Price Guide value is listed at \$1,150. Bound for a top notch Registry Set.

**PCGS# 5864 | ESTIMATE: \$1,000+**

**LOT 320**  
**25C 1959 PCGS MS67+**

Wow! This is a totally gorgeous SUPERB GEM that is tied for FINEST PCGS graded example of the date. Blazing mint luster booms all over which enhances the gorgeous gold, emerald, rose, orange, and magenta tones are quite lively. This one is a firecracker!

PCGS 3, NGC 2.  
Though not CAC, this coin has a much better eye appeal than the one that sold \$9,600 in the 2010 Central States auction. Collectors Universe lists a value of \$12,000 and with this coin's exceptional eye appeal that level could be exceeded. This is a prime candidate for the #1 Registry set of Washington quarters. Good luck!

**PCGS# 5866 | ESTIMATE: \$9,000+**

**LOT 321**  
**25C 1938 PCGS PR67+ CAC**

This is a totally original SUPERB quality, GEM Brilliant Proof. Very reflective, watery surfaces flash from below the layer of yellow-gold toning that is dusted across both obverse and reverse.

PCGS 179, NGC 98, CAC 53. There are 41 graded PR67+ at PCGS and just 7 finer. The last two sold for \$2,040 in the 2019 ANA auction, and the current PCGS Price Guide value is listed at \$2,500. If you are looking for a SUPERB GEM Proof that is not blast white from dipping, this is your coin!

**PCGS# 5977 | ESTIMATE: \$1,800+**

**LOT 322****50C 1808 PCGS MS66+ CAC**

One of the FINEST KNOWN 1808 half dollars of any variety and ranking at the top of the Condition Census for O-107a.

This is a beautiful, totally original SUPERB GEM. Both sides of this early Capped Bust half dollar display a wonderful, dappled melange of olive, lavender, dove, and pastel gold; the mixture of hues, with their varied subtle shades are brought out by a vivid underlying mint luster. Sharply struck central devices stand out, despite the later stated of the dies that show heavy die flow to the peripheries as the dies wore from striking. The surfaces are generally very clean, and were it not for a single tiny line on Liberty's neck, this coin could well have graded at an even higher grade level. Regardless of this very minor flaw, the eye appeal of this MS66+ is VERY high end. Any Capped Bust half dollar in MS66+ is a rarity, but especially for such an early date. It is a miracle of numismatic survival that a coin of this work horse denomination escaped the ravages of early American commerce in such a PRISTINE state of preservation.

PCGS 6, NGC 4, CAC 3. Neither of the two PCGS MS66+ coins ever sold in auction, but the Newman coin, which in 2013 was graded MS66+ CAC at NGC brought \$52,875 (and we suspect it is the other 66+ on the Pop Report). The current PCGS Price Guide value is listed at \$55,000. VERY RARE any finer, there are just 4 MS67s graded finer, including the Knoxville-Pogue-Konstantine MS67 CAC that realized \$91,063 in our September 2018 Regency Auction. A real prize for ANY type coin aficionado or early half dollar connoisseur and will see very strong bidding when it crosses the block. If you are looking for a high end GEM 1808 half dollars look no further!

**PCGS# 6090 | ESTIMATE: \$40,000+**

Regency Auction for \$5,640. In AU58+, Collectors Universe lists a \$7,000 value. RARE in Mint State, this is a very popular variety and the first of many overdates in the Capped Bust half dollar series.

**LOT 323**  
**50C 1808/7 PCGS AU58+ CAC**

This is a totally original, GEM AU. This O-101 is the definition of "super slider." Below the layer of pewter, slate, rose, and olive toning, a warm, satiny luster glows wonderfully. Sharply struck on both sides, the dies cracked, especially on the obverse. The eye appeal is bold.

PCGS 25, NGC 21, CAC 9. There are just three examples graded AU58+. We sold a PCGS AU58 CAC in our September 2016

**PCGS# 6091 | ESTIMATE: \$5,500+**

toning. A strong glass reveals a tiny tick or two, but none distract. The strike is exceptionally bold with full definition of Ms. Liberty's hair, drapery and cap. Even the dentils, which are characteristically weak on this variety are rather bold. Likewise the reverse is razor sharp in strike and free of any distracting marks.

PCGS 4, NGC 19, CAC 6. The NGC Census data reflects all MS65 1811 half dollars, regardless of variety. The current PCGS Price Guide value is listed at \$17,500 and this GEM brought \$19,388 in our July 2017 Regency Auction. Nicer than the other MS65 O-106 we sold in September 2018, and it should bring a stronger price when the hammer falls.

**LOT 324**  
**50C 1811 SMALL 8. PCGS MS65 CAC**

What a rare delight to have another stunning CAC approved GEM Capped Bust half dollar in this sale. It is very high end and it has a gorgeous look.

HIGH Condition Census for the O-106 die marriage. Brilliant, bold mint luster swirls over clean and smooth surfaces when rotated in a light. The luster provides a back light to the wonderful deep blue, teal, violet, and gold iridescent

**PCGS# 6097 | ESTIMATE: \$15,000+**

**LOT 325**  
**50C 1819 PCGS MS65 CAC**

What a great looking, high condition census O-112, indeed tied for FINEST for the variety! Rated as R-3, this is a high end coin is totally original.

A vibrant underlying luster radiates from below a dappled mix of olive, tan, pale slate, and warm gold patina on both sides. Every detail is well rendered from an exacting blow from the dies. Even with a strong glass we can only find a tiny trace of contact mostly

hidden below the toning. A delightful GEM. The date is very rare in this lofty a grade.

PCGS 11, NGC 6, CAC 4. The last one sold for \$19,200 in April 2019 and prior to that, one sold for \$22,325 in June 2017. Both have sold for well in excess of the current PCGS Price Guide value of \$16,500. Just two coins are graded finer, the only one that is CAC approved is the extensively pedigreed Pogue coin in MS66 that brought \$82,250. This is a great coin for any high end date or type collector.

**PCGS# 6117 | ESTIMATE: \$15,000+**

**LOT 326**  
**50C 1819/8 LARGE 9. PCGS AU58 CAC**

O-102. A soft, satiny mint luster shines under old album toning. A very pleasing and original AU58 that even under a glass, displays no serious marks or hairlines. AU58 Bust halves are always in strong demand from collectors of all stripes, and always garner great bidding attention.

PCGS 41, NGC 62, CAC 10. The most recent examples realized very strong prices in specialized Mail Bid Auctions, realizing \$4,510 in August 2019 and the other \$3,850 in January 2018, both well in excess of the PCGS Price Guide value of \$3,000. Worthy of a great Capped Bust half dollar collection, and a coin that will invite strong bidding.

**PCGS# 6119 | ESTIMATE: \$2,800+**

**LOT 327**  
**50C 1821 PCGS AU58 CAC**

O-104a. A lovely, totally original "GEM" AU that is just a touch of friction on the highest points that keep this from a Mint State grade. Rich, old collection type toning, with its abundant olive-russet, tan-gold, and pewter hues attest to long term storage in an envelope. Glowing underlying luster survives accenting the sharply struck up devices. The eye appeal is excellent.

PCGS 127, NGC 73, CAC 28. There is a wide range of recent APRs, including a non-CAC coin that sold in our June 2019 Regency Auction for \$2,585 and a CAC-approved coin in August at \$2,200. The current PCGS Price Guide value is listed at \$1,600 and this one is very pleasing for the collector.

**PCGS# 6128 | ESTIMATE: \$1,250+**

**LOT 328**  
**50C 1823 PCGS MS64+ CAC**

A very attractive, high condition census O-103; which is listed at 65,65,64,64,64), and is bested in numeric grade only by the Pittman-Pogue coin. Sharply struck on both sides, the central devices stand out from a precision blow from the screw press. Abundant satin mint frost glows across the near-GEM quality surfaces (in the days before numeric grading, we are certain this coin would have been called "Gem BU"). A light pastel iridescent toning gently dusts the surfaces, the attractive hues really pop in a light. The scattered die lines above the left wing verify the variety.

PCGS 63, NGC 27, CAC 19. There are 9 in MS64+ at PCGS. The most recent one sold in July 2019 for \$4,920 and prior to that, we sold one in our February 2017 for \$5,500 hammer. The current PCGS Price Guide value is \$6,500. Fewer than a dozen have graded higher, at PCGS with NO PCGS CAC-approved examples ever selling in auction. This is an important opportunity for the date or type collector, good luck!

**PCGS# 6131 | ESTIMATE: \$4,600+**

**LOT 329**  
**50C 1824 O-115. NGC MS64 CAC**

EX JULES REIVER COLLECTION, as noted on the holder.

A condition census level O-115 half dollar in near-GEM grade from one of the great collections of early federal varieties. Extremely lustrous surfaces are lightly dusted with rose-gold, slate-gray, olive-tan, and pale blue color that graces the surfaces. Nicely struck, with just a trace of weakness, typical to the date. The eye appeal is very high end for the grade.

PCGS 62, NGC 64, CAC 16. This coin sold in April 2018 for \$4,080 and more recently an example with splotchy toning brought \$5,460 in September 2018. The current Collectors Universe value is listed at \$4,000. A coin like this will see very spirited bidding from the Bust half collector.

**PCGS# 6137 | ESTIMATE: \$3,500+**

**LOT 330**  
**50C 1825 PCGS MS64+ CAC**

A condition census O-102, easily identifiable by the faint die lines in front of liberty's bust. This is a very sharply struck and satiny lustrous borderline GEM with a sharp strike and beautiful, totally original toning on both sides. Lovely lilac and soft teal-blue tone blends with the clearest of gold over essentially flawless surfaces.

PCGS 101, NGC 50, CAC 27. PCGS has graded 11 in MS64+. This coin sold in the 2018 FUN auction, realizing \$3,840 and the current PCGS Price Guide value is listed at \$4,750. The average APR for PCGS/CAC MS64+ pieces is nearly \$4,500. RARE finer, especially with the CAC endorsement, and few possess the eye appeal of this lovely Capped Bust half dollar.

**PCGS# 6142 | ESTIMATE: \$3,500+**

**LOT 331**  
**50C 1829 PCGS MS62 CAC**

O-105. Totally original and high end looking for the grade. Satiny underlying luster gleams through a lovely pewter-dove tone. Nicely struck from an earlier state of the dies, the upper arrow shaft is boldly recut, a feature that gets lapped off in later die states.

PCGS 114, NGC 82, CAC 14. The most recent sold for \$1,200 in the 2019 FUN auction and the current Collectors Universe value is listed at \$1,650. This lovely coin should attract strong bidding from type and date collectors alike.

**PCGS# 6154 | ESTIMATE: \$1,200+**

**LOT 332**  
**50C 1829/7 PCGS MS64 CAC**

This is a lovely Condition Census quality O-101. A sharply struck, very choice example that has a bold, flashy luster. The satiny brilliance glows with an impressive vibrance that serves as a back light for the iridescent pearly-blue, soft rose-gold, and mottled olive-tan colors add to the beauty of this original MS64 Capped Bust half dollar. Remnants of the underlying 7 appear to the bottom right of the 9.

PCGS 25, NGC 15, CAC 5. The last PCGS/CAC example sold in the 2017 FUN auction, nearly 3 years ago, for \$6,169 and the current PCGS Price Guide value is listed at \$6,500. VERY RARE any finer, we think there is an error at the PCGS Population Report with 29 in MS64+ (none have ever sold). There are seven graded 65 or finer, all of those are well into the five figures. This is a great example for the variety collector and we anticipate strong bidding when the hammer falls.

**PCGS# 6155 | ESTIMATE: \$5,000+**

**LOT 333**  
**50C 1831 O-118. PCGS MS65 CAC**

At the very least, this GEM is ranked among the top of the Condition Census for this somewhat scarce R-3 die marriage. It is quite possibly the **FINEST** known.

Radiating satin luster glows along the frosty, mark free surfaces. A delicate olive-tan, golden-russet, and soft azure tone kisses the surfaces, giving this wonderful GEM a great look. Totally original, this beauty has impressive quality, both aesthetic and technical.

PCGS 64, NGC 39, CAC 19. The most recent example sold in auction for \$9,600 in the recent 2019 ANA auction. This gorgeous coin was the Rev. McClure coin that sold as an NGC MS65 CAC for \$8,225 in June 2016. Worthy of a good home, it belongs in a great 19th century type set. Good luck.

**PCGS# 6159 | ESTIMATE: \$7,500+**

**LOT 334**  
**50C 1843 PCGS MS65+**

A totally original GEM boasting a classic, old time collection look, the kind of look you would find in a classic auction sale of a generation or two ago. Exceptionally lustrous, satiny surfaces glow through light pastel toning in shades of gold, olive, sky-blue, emerald, and peach patina that evenly caresses the high end surfaces. Sharply struck up devices stand out against the smooth surfaces. Very high eye appeal, this early Seated Liberty half dollar is bound for a wonderful type or date set.

PCGS 2, NGC 0. None have sold in auction, but an NGC MS66 sold in the October 2015 Gardner Collection sale for \$12,925. That said, Collectors Universe lists a value of \$16,000 in MS65+. With just a single MS66+ graded finer (which used to be an NGC 67 that last sold for \$28,200), this is a rare opportunity to add a condition census quality GEM to your collection. Good luck!

**PCGS# 6243 | ESTIMATE: \$8,500+**

**LOT 335**  
**50C 1858-S PCGS MS64+**

This is the third finest graded at PCGS. A radiant borderline GEM that is extremely RARE in such a lofty grade. Frosty luster glows in the generally clean fields accenting the boldly struck up devices. Rich golden-orange toning has accents of deeper red, violet, and olive-russet. There are a few tiny marks that help identify this near GEM as the former Gardner coin. The luster is intense on both sides with bold swirling cartwheels that impart a superb eye appeal.

PCGS 1, NGC 2. There are just two coins finer. In 64+ the Collectors Universe value is listed at \$11,500. The MS65 example has never sold in auction and the finest is a PCGS MS66 that sold in April 2014 for \$32,900. A mid to high condition census example of the date that will fit into a very impressive Seated Liberty half dollar. Good luck.

**PCGS# 6295 | ESTIMATE: \$9,000+**

**LOT 336**  
**50C 1884 PCGS MS67**

While Philadelphia, New Orleans, Carson City, and San Francisco churned out silver dollars by the millions, the mintage of silver minor coins was miniscule in 1884. In deed, the mintage of half dollars for circulation was a scant 4,400. The present MS67 is among the top dozen PCGS graded examples and is a beautifully preserved and ultra eye appealing **SUPERB GEM**.

Radiant, semi-Prooflike luster beams from below a layer of deep aquamarine and pale rose tones. The devices are especially sharp and frosty, giving this **SUPERB GEM** a great look. In addition, the surfaces are wonderfully clean and well preserved, lacking in any major mark, line or fleck anywhere to be seen.

PCGS 8, NGC 7. The most recent non-CAC example sold in auction over a year and a half ago, bringing \$9,000 and the current PCGS value is listed at \$13,500. We really are not sure why CAC did not sticker this **SUPERB GEM**, but take our word, the quality and eye appeal are all there!

**PCGS# 6366 | ESTIMATE: \$8,000+**

**LOT 337**  
**50C 1857 PCGS PR64 CAC**

These early Seated half dollar Proofs are **VERY RARE** in all grades, but for some reason, the current market has put these wonderful numismatic treasures on sale.

The present PR64 displays exceptional watery reflective mirrors that beam from all over, and creates a wonderful, almost cameo contrast against the frosted devices. A dusting of marble-textured multicolored earthtone toning gives shape and form to the well executed striking from the dies. There are a few tiny lines, which account for the assigned grade. The eye appeal is quite nice.

Only 50 are estimated to have been struck. PCGS 14, NGC 12, CAC 11. (Clearly the population is inflated with resubmissions and crossovers). The Gene Gardner coin was the last one to sell in auction, selling for \$14,688 in May 2015 and the current PCGS Price Guide value is listed at \$11,000. This is a truly a **VERY RARE** coin that will delight any advanced collector who appreciates the absolute rarity of this near-GEM 1857 Proof half dollar.

**PCGS# 6411 | ESTIMATE: \$10,000+**

**LOT 338**  
**50C 1870 PCGS PR66 CAC**

One look and you can easily tell this coin was carefully saved since the day it left the Mint! We consider the quality VERY HIGH  
END!

Super mirrors are deep and beam vividly from all over. The mirrors have good clarity and are super clean. In fact, there are more lines on the holder than the coin. When you twirl the coin, you see mirrors that are totally sleek and icy. Both sides enjoy a totally original mix

of pale olive/blue/violet/gold colors. Miss Liberty and the details are fully struck and have thick toned frost. The eye appeal is delightful!

Only 1000 Proofs were struck. PCGS 5, NGC 7, CAC 3. The last auction record for a PCGS CAC piece selling is \$6,600 in April 2019 (not this coin), and the current PCGS Price Guide value is \$6,500. This GEM is out of the woodwork, and would make a great addition to any GEM Proof type set or collection of Proof Seated Half dollars.

**PCGS# 6428 | ESTIMATE: \$6,000+**

**LOT 339**  
**50C 1899 PCGS MS67**

A totally original, very high end and lustrous SUPERB GEM! The extremely clean surfaces are of superior quality and offer a thick, satiny lustrous mint bloom. The luster is unbroken as you rotate it in a light. Clearly this coin sat undisturbed with the reverse in contact with whatever holder, imparting a moderate blend of olive/reddish gold/gold/pale blue hues, while the obverse is more of a pearly silver with champagne-gold and pewter-tan

accents. Miss Liberty and the details stand out with crisp sharp strikes. The eye appeal is excellent! Even using a strong glass we cannot find any distracting anything, and we think perhaps the slightly uneven pattern of the tone is all that kept CAC from awarding this impressive, condition census SUPERB GEM a green bean.

PCGS 2, NGC 1. The only PCGS example to ever sell was a CAC coin that last brought \$20,000 in the 2015 ANA auction (Greensboro Collection, ex Dr. Duckor, where it originally sold for \$34,500!). The current Collectors Universe value is listed at \$25,500. Just a single coin is graded higher, making this a fine addition to any high ranking PCGS Registry Set. Upgrade your 1899 today!

**PCGS# 6483 | ESTIMATE: \$13,000+**

**LOT 340**  
**50C 1896 PCGS PR67 CAM CAC**

High end and highly reflective, this SUPERB CAMEO Proof is tied for FINEST in the designation. Brilliant white silver surfaces are gleaming with a bold depth of clarity in the fields. The sharply struck devices have a thick, white frost that contrasts wonderfully against the flashy darkness of the mirrored fields. The eye appeal is excellent.

Only 762 Proofs were struck. PCGS 5, NGC 11, CAC 6. NONE ARE GRADED FINER AT PCGS. The last PCGS/CAC example to sell in auction was in 2014, realizing \$8,225. The current PCGS value is listed at \$8,250. This wonderful GEM is bound for an exceptional set.

**PCGS# 86543 | ESTIMATE: \$6,500+**

**LOT 341**  
**50C 1897 PCGS PR68 CAM CAC**

One of the three PR68 CAMs that are tied for FINEST graded at PCGS and what an amazing, high end, high grade, gorgeous beauty it is! We cannot recall offering a similar coin in quite some time, certainly not this date!

Quicksilver like mirrors are flashy and bold, with a wonderful watery clarity. This SUPERB GEM is essentially flawless with totally smooth mirrored fields and nicely frosted design elements. The deep, rich totally original toning does not impede the boldness of the contrast, nor does its mottled pattern have an impact on its monster eye appeal.

Only 731 Proofs were struck. PCGS 3, NGC 3, CAC 3. This coin has been off the market since December 2014 where it sold for \$14,100. Obviously with NONE FINER, PCGS lists a Price Guide value of \$20,000. For one of the FINEST KNOWN, this coin should bring a very strong price. IF you are working on the number 1 PCGS Registry Set of Proof Barber half dollars, this coin is for you!

**PCGS# 86544 | ESTIMATE: \$14,000+**

**LOT 342**  
**50C 1902 PCGS PR66 CAC**

When you see a Proof Barber half dollar like this one with its totally unique toning pattern on the reverse, you know it sat undisturbed for ages in an old collection. What a neat looking GEM! Ultra watery reflective mirrors have a wonderful glint and sheen as the surfaces are rotated in a light. The obverse is awash in the clearest gold iridescent tone, with a soft, pearly lilac overtone that comes out in a light. The reverse has a deep, eggplant-purple splash right in the center, with bright yellow-gold and lime-green and warm tangerine combine for a totally original and really cool look. You really could look for ages and not find a similar example.

Only 777 Proofs were struck. PCGS 26, NGC 33, CAC 9. The most recent example sold in the 2018 ANA auction for \$3,240 and the current PCGS Price Guide value is listed at \$3,000. Very scarce any finer, this coin will delight anyone looking for a very eye appealing and high end example of this date.

**PCGS# 6549 | ESTIMATE: \$2,800+**

**LOT 343**  
**50C 1917-D REVERSE. PCGS MS65+ CAC**

A beautifully preserved and high end GEM that boasts a great look. The 17-D Reverse mint mark variety is a MAJOR Condition Rarity; rare in MS65 and finer, as here, are excessively so.

A bold satiny luster shines on both sides, amplifying the delicate pearly-gold tone that graces the brilliant silver lustrous silver surfaces. The strike is very bold with full definition to Liberty's thumb and nearly full lines on her gown. A few tiny ticks are noted under strong magnification, but they do not detract from the stunning, high end state of preservation and bold visual allure.

PCGS 51, NGC 22, CAC 9. There are just two coins graded MS65+ at PCGS and just a handful of coins are graded finer. The other MS65+ sold for DOUBLE the current PCGS value of \$21,500 in the 2018 FUN Auction, realizing \$43,200. This SUPERB example is stunning and will bring a very strong price when the hammer falls.

**PCGS# 6571 | ESTIMATE: \$30,000+**

**LOT 344**  
**50C 1919 PCGS**  
**MS65+ CAC**

LRCA loves coins like this; totally original, GEM quality examples of low mintage, classic key date issues.

This 1919 half dollar has a wonderful satiny frost that accents the very smooth, problem free surfaces. A delicate dove and pearly silver has a tinge of russet, tan, and gold tone. Sharply struck, both sides are very nicely

preserved and have a great look, unmarred by anything but a microscopic tick or two.

PCGS 58, NGC 33, CAC 10. PCGS has graded just TWO in MS65+ and this date is VERY RARE any finer. The current PCGS Price Guide value is listed at \$10,500 and the other example sold for \$10,575 in July 2017. Keep in mind that a PCGS MS66 CAC will cost \$18,000-\$20,000. What a great coin for any one working on a GEM collection of Walking Liberty half dollars, especially one that focuses on total originality.

**PCGS# 6577 | ESTIMATE: \$8,000+**

**LOT 345**  
**50C 1920 PCGS MS65+ CAC**

A wonderfully toned GEM example of this early Walker. While there were more than six million halves struck and they are readily available in lower Mint State grades, they are very scarce in GEM, even more so with very nice colorful toning. The well preserved, lustrous surfaces beam from under a lovely layer of powder blue and apricot iridescent toning. The devices were nicely rendered by a decent blow from the dies, even Liberty's thumb is well outlined. The surfaces are clean and free of any serious marks ticks. The eye appeal is quite nice and very high end.

PCGS 122, NGC 43, CAC 15. The last one sold in our December 2018 Final Premier Session internet sale for \$3,760 and the current PCGS Price Guide value is listed at \$4,250. Rare finer, just 23 are graded MS66 or MS66+, and they are worth well into the five figures today, especially for CAC-approved examples.

**PCGS# 6580 | ESTIMATE: \$3,200+**

**LOT 346**  
**50C 1929-D PCGS MS67**

To think that any coinage struck the year the stock market crashed, precipitating the Great Depression could have been saved is a marvel! Back when half dollars were regularly used in commerce and had some real spending power, any Mint State survivor is a prize for the collector, particularly in such a stunning, high grade.

The present coin is magnificent; truly a very high end and totally original SUPERB GEM 29-D half!

Rich, satiny mint frost with a strong, glimmering glow in the fields.

A gentle dusting of iridescent toning can be seen on both sides imparting a wonderful, original look. Sharply struck throughout, every detail is crisp and fully rendered with Liberty's thumb fully outlined. This high end 29-D half is truly an impressive SUPERB GEM that will delight any collector working on a superb set of Walking Liberty halves.

PCGS 2, NGC 1. Only a single MS67 has ever sold in auction, bringing \$44,400 in April 2018 (that same coin upgraded to MS67+ and brought a record \$82,250 in our September 2018 Regency Auction. This marvelous coin will see spirited bidding from the advanced Registry Set collector, as this conditionally VERY RARE date is most often seen in MS66 or lower. Good luck.

**PCGS# 6589 | ESTIMATE: \$30,000+**

**LOT 347**  
**50C 1935 PCGS MS67 CAC**

SUPERB! We really do not know why this coin is NOT a "+", what does PCGS want? Beautiful and brilliant silver luster as fresh as the day the coin fell off the dies. The fields are smooth and free from any distracting flaws and there is not a bit of color to be found anywhere. The strike is bold and nearly full throughout.

PCGS 59, NGC 29, CAC 41. The most recent example to sell in auction brought \$2,20 in March 2019 and the current PCGS Price Guide value is listed at \$2,250. Extremely RARE any finer, with just 10 coins graded higher. Bound for a great set!

**PCGS# 6595 | ESTIMATE: \$1,800+**

**LOT 348**  
**50C 1938 PCGS MS67+ CAC**

Here is one of the **FINEST** graded, with just a single MS68 graded finer.

This is a gorgeous, lustrous **SUPERB GEM** in every sense! The details are needle sharp and the surfaces are about as pristine as one could hope for. Brilliant, frosty luster blooms all over, accented by a gentle dusting of iridescent gold. The eye appeal is really off the charts!

PCGS 118, NGC 42, CAC 38. There are 11 graded MS67+ at PCGS and the most recent examples to sell in auction were all sold by us, realizing between \$8,813 and \$10,869. The current Collectors Universe value is listed at \$9,500 and the single MS68 has not appeared in auction since 2011 and is likely impounded in a major collection, making this among the **FINEST** that can be obtained in the marketplace today. We anticipate strong bidding from the Registry Set collectors.

**PCGS# 6604 | ESTIMATE: \$7,000+**

**LOT 349**  
**50C 1939 PCGS MS68 CAC**

Sheer, satiny perfection! Boldly lustrous surfaces gleam with a strong lustrous glow. The devices show razor sharp striking detail, with the design elements beautifully defined and they stand out against the icy lustrous fields. The lightest of pearly-opal iridescent toning adds to the exceptional eye appeal of this ultra high end and high grade coin.

PCGS 24, NGC 21, CAC 20. The Collectors Universe value seems low, considering that in July 2019 an example sold for \$6,600 and before that, we sold one in May 2018 for \$9,400. Just four MS68+s have ever been graded finer, and the last one of those to sell brought \$17,625 in our December 2017 Regency Auction. This very pretty **SUPERB GEM** is worthy of a world class collection and will see stiff bidding competition to bring it home.

**PCGS# 6606 | ESTIMATE: \$5,500+**

**LOT 350**  
**50C 1939-D PCGS MS67+ CAC**

This SUPERB GEM ranks very high up on the Population Report; it is tied for second FINEST graded by PCGS! Sharply struck with bold detail even in the highest design elements in the central portions of the design that are often softly defined. A bold, pearlescent satin sheen envelopes both sides without any trace of toning. Totally original and boasting a very pleasing visual appeal.

PCGS 116, NGC 75, CAC 74. There are 15 graded in MS67+ at PCGS, and just two finer (neither of which are CAC approved). The current PCGS Price Guide value is listed at \$5,000 and since 2016, we have sold four, with the average APR of \$4,641. Keep in mind that a 68 will cost over \$25,000, if you can locate one. A high end 39-D Walker that will fit into any world class set.

**PCGS# 6607 | ESTIMATE: \$4,000+**

**LOT 351**  
**50C 1939-S PCGS MS67**

A satiny, superb GEM Brilliant Uncirculated example that has a touch of warm color that accents the highly satiny lustrous surfaces. Pleasingly well struck with most of the details well defined, including the thumb and gown lines.

PCGS 220, NGC 135. The most recent example sold for \$810 in October 2019 and earlier this year one sold for \$1,680. Fewer than twenty coins are graded finer, making this a great coin for anyone working on a GEM set.

**PCGS# 6608 | ESTIMATE: \$1,000+**

**LOT 352**  
**50C 1942 PCGS MS67+ CAC**

Here is a wonderfully original, high end 1942 half dollar, that is essentially as fresh and flawless as it was when it came off the dies. Frosty luster glows in the satin smooth fields and among the boldly impressed design elements. Very appealing, this date is VERY RARE any finer.

PCGS 411, NGC 373, CAC 228. There are 52 in MS67+ and just a half dozen are graded finer. The recent APRs are all over the place with most falling around \$2,000-\$2,350 and the current PCGS Price Guide value is listed at \$2,250. Nothing finer has sold in six years, and a PCGS/CAC coin would likely cost \$25,000+ (if one ever came up for auction), this is a great value for any Set Registry collector.

**PCGS# 6614 | ESTIMATE: \$1,800+**

**LOT 353**

**50C 1943-S PCGS MS67+ CAC**

This is one exceedingly awesome stunner of a 43-S half dollar! Tied for ABSOLUTE FINEST GRADED at either service. We assure you, PCGS is extremely tight on coins like this. So for this to be a PCGS MS67+ CAC-it has to be a killer.

Completely struck up with full crisp devices. The pearly silver surfaces have a thick satiny sheen that is a genuine delight to behold. A trace of the palest powder blue iridescent toning caresses the smooth surfaces. Both sides are especially high end and essentially flawless. The dreaded right field passes the cleanliness test easily. The eye appeal is stunning!

PCGS 56, NGC 30, CAC 31. There are just three in MS67+ and NONE are graded finer. None have ever sold in auction but the current PCGS Price Guide value is listed at \$30,000. The pops are similar to the 38-D and a 38-D in 67+ sold for \$41,125 in our September 2019 Regency Auction. The eye appeal of this one will delight even the pickiest of Walker collectors will love this one. Good luck!

**PCGS# 6620 | ESTIMATE: \$20,000+**

**LOT 354**  
**50C 1944-S PCGS MS66+ CAC**

Truly a beautiful example of this late date Walker, and really this is a high end 66+ that is worthy of a very high end set. We note that it is extremely rare in MS67, the last one sold in auction nearly 15 years ago! The very frosty luster blooms all over in the satiny smooth surfaces. Totally original, there is a band of sunset orange along the left obverse rim, while the rest of the obverse has a pearly iridescent hue with a pale lilac overtone. Well struck and free of any serious marks, this SUPERB coin is truly a delight to behold.

PCGS 752, NGC 210, CAC 202. There are 115 graded in MS66+ and just 10 finer, leading us to believe that there is a lot of duplication looking to upgrade to 67. Most seem to sell in the \$1,500-\$2,000 range, though we sold one in May 2019 for \$4,935. This one will see strong bidding for sure. Keep in mind that if you can find a 67, it will cost over \$18,000.

**PCGS# 6623 | ESTIMATE: \$1,500+**

**LOT 355**  
**50C 1945-D PCGS MS67+ CAC**

This SUPERB 45-D Walker is tied for second FINEST graded at PCGS. One look and it is no wonder that PCGS graded it so high. Bright, brilliant silver luster has a bold vibrance that gleams all over. The fields are ultra clean and smooth, free of any serious marks. The strike is bold with nearly full definition in the central portions of the design. Wonderfully well preserved, this coin has a bold look that has to be nearly impossible to improve upon!

PCGS 255, NGC 227, CAC 142. There are 30 in MS67+ at PCGS and just two coins finer. The current PCGS value is listed at \$2,750 and we sold two earlier this year, one for \$2,174 and \$2,233. Nothing finer has sold in auction, making this one of the best for any top tier Regency Auction.

**PCGS# 6625 | ESTIMATE: \$2,000+**

**LOT 356**  
**50C 1946-D PCGS MS67+ CAC**

Among the FINEST GRADED, PCGS has not graded anything higher than MS67+ in 33 years of grading coins. This is a totally original SUPERB GEM with a wonderful, high end look.

A lovely pearlescent toning sits on the ultra smooth, satiny lustrous surfaces, attesting to the absolute originality. Sharply struck devices stand out against the totally defect free surfaces. Boasting a great look, this coin will delight even the pickiest of collectors.

PCGS 121, NGC 134, CAC 64. There are just 14 graded 67+ at PCGS and NONE FINER. LRCA had the pleasure of selling the last two CAC approved examples realizing \$14,688 and \$18,213, both above the current Collectors Universe value of \$13,500. With NONE FINER, this coin belongs in SUPERB set!

**PCGS# 6628 | ESTIMATE: \$13,000+**

**LOT 357**  
**50C 1946-S PCGS MS67+ CAC**

Tied for FINEST graded, this beautifully toned SUPERB GEM has a wonderful melange of blue-green and pale golden brown, and hints of rose frame both sides' peripheral details, silhouetting the ultra satiny surfaces. Weinman's design is sharply struck on both sides. This late date Walker has a great eye appeal.

PCGS 103, NGC 81, CAC 39.  
 PCGS has graded 5 in MS67+ and  
 NONE FINER. We sold a similar toned, non-CAC coin for \$12,337 nearly five years ago. The current PCGS Price Guide value is listed at \$15,000. This SUPERB GEM is worthy of an amazing Walker set.

**PCGS# 6629 | ESTIMATE: \$10,000+**

**LOT 358**  
**50C 1947 PCGS MS67**

Pearly textured, frosty mint luster blooms all over this SUPERB GEM example of the final year. Well struck devices stand against smooth, generally problem free surfaces. A dusting of gold and pearlescent hues grace both sides, attesting to the originality of this high grade coin.

PCGS 88, NGC 68. The current PCGS Price Guide value is listed at \$1,600, but the most recent examples sold in the 2019 ANA auction for \$960 and \$840. This one should bring a strong bid for its very original beauty.

**PCGS# 6630 | ESTIMATE: \$800+**

**LOT 359**  
**50C 1942 PCGS PR68**

Sheer perfection! Stunning reflective mirrors have a bold depth of clarity and the surfaces are absolutely as struck. We have looked at this SUPERB GEM with a very strong glass and cannot figure out what CAC saw that precluded a green CAC bean. There is some nice contrast at angles, and the eye appeal is amazing.

PCGS 75, NGC 177. Recent non-CAC PCGS PR68 examples have sold in the \$2,160 to \$2,703 range and the current PCGS Price Guide value is listed at \$3,500. EXCESSIVELY RARE any finer, just half a dozen coins have been graded higher and none have appeared in auction since 2015. A great capstone to any Proof Walker collection.

**PCGS# 6642 | ESTIMATE: \$2,300+**

**LOT 360**  
**50C 1952-D PCGS MS67 FBL CAC**

One of the absolute **FINEST** **KNOWN** examples of this date. While available even in MS65 and MS66 with FBL definition, this date is **EXCESSIVELY RARE** in **SUPERB GEM**, as here. Really an impressive beauty for the advanced Franklin half dollar collector and a prize for the Set Registry.

Beautifully toned on the obverse, shades of pale olive and silver that blend into a rich sunset-orange and golden-rose palette of color. Highly lustrous and displaying sharply impressed details, this 52-D has a superb eye appeal. Even using a powerful loupe all we can find are a couple of tiny ticks on the reverse.

PCGS 5, NGC 1, CAC 3. Another toned example with CAC approval sold for \$17,000 in a March 2019 Internet only auction and the current PCGS value is listed at \$16,000. A very impressive **SUPERB GEM**, and a coin that will face stiff bidding competition from Registry Set collectors! Good luck!

**PCGS# 86662 | ESTIMATE: \$17,000+**

**LOT 361**  
**50C 1953 PCGS MS67+ CAC**

This is the single **FINEST** graded 1953 half dollar in either designation, with or without FBL. Classic dappled Mint Set toning in shades of pale blue, russet, and golden olive patina graces both sides of this ultra lustrous **SUPERB GEM**. Nary a mark can be found anywhere, even with the aid of a powerful glass, and the strike is just a little soft at the upper left bell lines, keeping this from that striking designation.

PCGS 4, NGC 1, CAC 1. This is the **ONLY MS67+** either service and is unpriced in the PCGS Price Guide. Our estimate is just that, as with any **POP TOP**, who knows where the bidding will end when the Registry Set contenders get into an intense bidding war to add it to their set. Good luck!

**PCGS# 6664 | ESTIMATE: \$6,000+**

**LOT 362**  
**50C 1954 PCGS MS67 FBL**

POP TOP alert! Attention Franklin half dollar specialists, LRCA is honored to offer this tied for FINEST GRADED 1954 Franklin half dollar.

Pristine surface preservation defines this marvelous SUPERB GEM. Sharply struck and satiny lustrous, this coin has all the bells and whistles that the collector demands. Lovely original toning is dusted across the surfaces giving it a great look. We cannot find

anything on either side that would preclude a CAC endorsement, regardless, as one of the FINEST KNOWN in a very popular series, we know this coin will attract very strong bidding from those vying for #1 set!

PCGS 4, NGC 0. Only one has ever sold in auction, realizing \$14,100 three years ago. The current PCGS Price Guide value is \$16,500 and we think this GLORIOUS coin will bring close to that. Good luck!

**PCGS# 86667 | ESTIMATE: \$8,500+**

**LOT 363**  
**50C 1954-D PCGS MS66+ FBL CAC**

Bested by just a trio of MS67 FBLs, this gorgeously toned and totally original PQ GEM is tied for second FINEST for this conditionally difficult date. Clearly this lustrous beauty sat in an original Mint Set, where the cardboard and paper holder imparted a rich melange of tangerine, gold, and mottled tan on both sides. Splashes of untuned, original silver glints with a brilliance that is quite enchanting. Sharply struck up and wonderfully smooth surfaces add to the exceptional eye appeal.

PCGS 213, NGC 34, CAC 41. PCGS has graded just 18 in MS66+ FBL and the last one to sell was in in our July 2018 Premier Session for \$2,500. NOTE the rarity any finer, the last MS67 FBL, one of only three so graded, brought \$21,275 back in June 2002! Clearly anyone today working on a world class Registry Set may never have access to one of the 67s, putting outsize demand on this stunning quality MS66+!

**PCGS# 86668 | ESTIMATE: \$2,500+**

**LOT 364**  
**50C 1956 PCGS MS67 FBL CAC**

Among the FINEST graded for the date. We love the look! This coin clearly resided in an original mint set, whose cardboard holder imparted the iridescent, mostly pastel blue and pink toning on both sides; the varied shades brought out by a vivid luster. Sharply struck devices stand out against the smooth, clean surfaces. In all, this 1956 half has a great visual allure.

PCGS 54, NGC 7, CAC 50. The most recent example to sell in auction realized \$2,880 in August 2019 and the current PCGS value is listed at \$2,200. Keep in mind only two are graded finer, and the last one to sell brought \$9,000 in the 2018 FUN auction. With its total originality, this one should bring a considerable bid from the advanced collector.

**PCGS# 86671 | ESTIMATE: \$2,000+**

**LOT 365**  
**50C 1958 PCGS MS67+ FBL CAC**

Tied for FINEST graded with the monster toned example that brought a world record price of \$129,250. Like that coin, this one is beautifully toned with amazing eye appeal.

Boldly lustrous surfaces gleam with a strong, brilliant vibrance.

Every detail is sharply struck up from a precision blow from the dies. Again, like the other example, this coin's eye appeal is mostly imparted by a dramatic

palette of color. Sunset orange dominates and is joined by emerald green, violet, and magenta tones on the obverse, while the reverse has some pale blue within the olive-gold shades that dominate. The surfaces are clean and smooth, free of any distracting marks, lines or anything else. This coin is totally worthy of its lofty grade.

PCGS 25, NGC 7, CAC 13. There are three coins graded total in MS67+ FBL, only one of which has ever sold in auction, the world record breaking example that brought \$129,250 after multiple rounds of fierce bidding. Collectors Universe value has not been adjusted. As one of the FINEST of all Franklin half dollars known, this coin will see very strong bidding when the hammer falls.

**PCGS# 86674 | ESTIMATE: \$15,000+**

**LOT 366**  
**50C 1950 PCGS PR67 CAC**

A totally original PR67 of this popular first year of the Franklin series. Watery mirrored fields are framed by a delicate iridescent toning, attesting to the originality. The eye appeal is excellent, and even with a powerful glass we are unable to locate anything worthy of mention.

PCGS 184, NGC 326, CAC 88. The most recent example to sell in auction realized \$3,100 in an October 2019 Internet auction, and the current Collectors Universe value is \$3,000. RARE finer, PCGS has graded just 20 in 67+ and 1 in 68.

**PCGS# 6691 | ESTIMATE: \$2,500+**

**LOT 367**  
**50C 1953 PCGS PR68 CAM CAC**

Exceptional everything; from the deeply mirrored, reflective fields to the nicely frosted white devices, this SUPERB GEM has a ton of visual allure. Flawless mirrored fields beam with a vibrance rarely encountered for this date. The contrast is bold and very high end.

PCGS 32, NGC 49, CAC 40. The most recent PCGS/CAC example sold for \$3,360 in November 2018 and before that, one sold in April 2018 for \$3,600. The current Collectors Universe value is listed at \$4,250 and there are NONE FINER in the designation, making this beauty a prime candidate for any carefully chosen set.

**PCGS# 86694 | ESTIMATE: \$3,000+**

**LOT 368**  
**50C 1961 DOUBLED**  
**DIE REVERSE.**  
**PCGS PR67+ CAC**

Tied with just one other as FINEST in the designation, this borderline CAMEO is exceptional! Ultra deep, beaming mirrors contrast nicely with the sharp devices. This one is untuned, and highly contrasted, just shy of deserving of a full CAMEO designation. The surfaces are flawless and brilliant, with deep

reflective mirrors. Amazing eye appeal. The quality is wonderful and high end. The doubling is most noticeable on E PLURIBUS UNUM and other letters.

PCGS 25, NGC 26, CAC 10. There are just two examples in PR67+, neither of which have ever sold in auction, and PCGS has not included a price for this grade in their Price Guide. In PR67 it is listed at \$6,750. In Cameo, nothing is graded higher than 66+, and the single example brought \$14,100 three years ago. This is an important coin for anyone working on a top ranking set of Franklin Proofs.

**PCGS# 6689 | ESTIMATE: \$9,000+**

**LOT 369**  
**\$1 1795 3 LEAVES. PCGS VF25**

B-5, BB-27. This is the most common Flowing Hair dollar variety, and is perfect for type purposes. Easily identified by the small "bar" just off the top strand of hair behind Liberty's head. This coin shows honest wear with no signs of harsh treatment over the course of its existence. Lovely dove-gray color deepens to a deeper tone near the rims. Off the market for ages, our consignor's father stored this collector grade 1795 dollar in an ancient Wayte Raymond board until it was consigned to LRCA for grading and sale.

PCGS 184, NGC 65. Two sold in the 2019 FUN Auction, one for \$4,560 and the other for \$4,080. This pleasing example is great for any budget minded collector looking for a nice VF for type or date purposes.

**PCGS# 6852 | ESTIMATE: \$3,500+**

**LOT 370**  
**\$1 1799 PCGS MS62**

B-12, BB-160. A popular Red Book variety, with no berries on the olive branch. This is a high end example falls just shy of the Bowers Condition Census.

Sharply struck from a cracked obverse die, Die State III. The surfaces are smooth and satiny lustrous with a rich overtone on both sides that give this nearly CHOICE BU Bust dollar a wonderful, original look. Pale dove patina has a pearlescent sheen that is layered with a delicate battleship-gray, slate-blue, and amber-gold tone. Lighter shades of antique silver glows when rotated in a light.

This die marriage is one of the more common for the year, but like all Bust dollars, is quite rare in any Mint State grade. All

Mint State dollars are a highlight of whichever auction it is presented in. Most Draped Bust dollars are seen in lower grades or with condition issues, mostly in grades lower than VF; XF and AU coins are scarce. Mint State coins turn heads. This essentially CHOICE example is not an AU coin in a Mint State coin.

PCGS 26, NGC 14. This coin sold for \$30,000 in January 2019 and the current PCGS Price Guide value is listed at \$32,500.

As a date, PCGS has graded just 31 finer, up to MS66 grade. However, we think there must be duplication in the Population Reports. Though not listed in Dave Bowers' census, this high end coin will delight anyone looking for a high grade example of the date or variety.

**PCGS# 40051 | ESTIMATE: \$30,000+**

**LOT 371**  
**\$1 1800 PCGS VF30 CAC**

B-13, BB-193. This is just a wonderful, collector grade Draped Bust dollar. Problem free, moderate wear from use in early American commerce, retains bold definition on both sides. Olive, tan, russet and dove patina define both sides of this pleasing and original type coin.

PCGS 181, NGC 74, CAC 21. The most recent example brought \$2,400 in the 2019 ANA auction and the current PCGS value is \$2,500. This lovely example has long been off the market, recently graded by us for the first time. This is a great coin for a budget minded type collector.

**PCGS# 6887 | ESTIMATE: \$2,000+**

**LOT 372**  
**\$1 1800 12 ARROWS. PCGS XF45 CAC**

This is a very pleasing, Choice XF B-17, BB-196. This variety is easily identifiable by the die clash that makes it look like Liberty has a collar. This one is totally original, with a warm olive and tan accented dove and pewter gray patina. Well struck and very pleasing coin is exceptional for the grade and worthy of a great type coin.

PCGS 10, NGC 5, CAC 4. The only CAC-approved example to sell in auction was NGC-graded and realized \$4,700 in a weaker market in February 2015 and the current PCGS Price Guide value is listed at \$4,500.

**PCGS# 6890 | ESTIMATE: \$4,000+**

**LOT 373**  
**\$1 1858 NGC PR64**

EX AMON CARTER COLLECTION, as noted on the holder.

An important coin, hailing from one of the greatest silver dollar collections of all time, the Amon G. Carter Collection. A Proof only date, and struck during the first year that Proofs were struck for sale to the general public, the mintage was quite low. While no official record was kept, the oft cited mintage of less than 80 was apparently told to the Chapman Brothers by Patterson Dubois, an employee of the

Philadelphia mint. Today, the most recent mintage estimate, reported in the Osburn Cushing reference estimates 275 originals and 35 restrikes. Both sides of this VERY CHOICE 1858 dollar show off glassy mirrored fields that have a flashy reflection, especially when rotated in a light. Lovely peripheral toning, showing shades of gold, blue, amber-orange, and rose, with a slightly angular pattern, which is almost a signature for the Proof Seated Liberty dollars from the famed Carter Collection. A strong glass shows some light hairlines in the fields, which are all that keep this really attractive coin from a CAC-bean.

Amon Carter was, among other things, the publisher of the Fort Worth Star-Telegram and a director of American Airlines, as well as on the board of the Texas Rangers Baseball team. He was an avid coin collector, whose amazing collection, which boasted one of the most extensive silver dollar and U.S. Gold coin selections was sold by Stack's in January 1984, where this coin appeared as lot 267. Also appearing in that sale was the Specimen 1794 silver dollar, which our founder Laura Sperber bought later on for a world record price for any U.S. coin, over \$10,000,000!

PCGS 7, NGC 12. There has not been an NGC-graded coin in PR64 since March 2010—that coin brought \$13,800. This coin has apparently not been sold in auction since September 2003, when it sold uncertified, and was described as “Choice Brilliant Proof, with the glorious visual appear of a higher grade.” The current Collectors Universe value is listed at \$22,000. Extremely RARE any finer, NGC has graded just 13 coins finer in all designations. This is one of the classic silver dollar issues, and highly desirable in all grades, but especially so in PR64!

**PCGS# 7001 | ESTIMATE: \$13,500+**

down at the mint. Of those that did sell, it is a certainty that some were spent during the turmoil of the Civil War that was to begin the following year.

PCGS# 7003 | ESTIMATE: \$6,500+

[illegible]

**LOT 375**  
**T\$1 1875-S TRADE. PCGS MS66**  
**CAC**

—  
 SUPER HIGH END! We can't tell you how many times we sent this coin seeking a +). Maybe we are blind, but we can't figure out what PCGS sees (we make no promises it will ever +).

Superior surfaces have faint traces of semi prooflike mirrors yet are satiny smooth. Even if you use a strong glass and look and look you will not find ANY marks or problems. The surfaces are also

intensely lustrous. The centers are creamy white and there is some light russet toning on the rims. Miss Liberty and the details are frosty and are fully struck. The eye appeal is fantastic!

PCGS 7, NGC 5, CAC 3. The last PCGS CAC piece to sell in auction brought \$22,800. The current Collectors Universe Value is \$27,500.

Our unique experience with Trade Dollars (our sister company has built the #1 all time finest set) has taught us how rare and UNDER appreciated they are in grades like this. It would really boost value significantly if all MS TD's looked like this!

**PCGS# 7039 | ESTIMATE: \$21,000+**

**LOT 376**  
**T\$1 1876-CC DOUBLED DIE**  
**REVERSE. PCGS MS62 CAC**

—  
 FS-801. What a high end SUPERB GEM! What a great example, among the FINEST KNOWN 1876-CC Doubled Die Reverse trade dollars. Hard to imagine, but this coin was replaced by the amazing MS64 which was a recent find.

Brilliant, untuned silver surfaces gleam with a bold, semi-reflective flashy luster. Sharply struck devices stand out with a warm, frosty texture. The surfaces are very clean for the assigned grade, with just some minor ticks and giggles seen with the aid of a strong glass. The eye appeal is amazing for the grade.

The doubling is clearly evident among the eagle's talons, olive branch and lower feathers. This is a rarity in the series, with PCGS CoinFacts estimating 40 surviving in all grades, with just seven in Mint State. This variety was a late discovery, when Jack Beymer discovered it sometime before 1988 (as it was included in Walter Breen's Encyclopedia. It is one of the most dramatic of all doubled dies in the entire U.S. series.

PCGS 1, NGC 2, CAC 2. A PCGS MS62 without CAC sold for \$16,200. This coin really should bring in excess of the current PCGS Price Guide value of \$17,500 as it is very high end and close to MS63 quality for sure! The consignor paid \$20,400 for this piece. Worth placement in a WORLD CLASS trade dollar collection, keep in mind it was missing from the great Battle Born Collection of Carson City coinage! Good luck.

**PCGS# 97042 | ESTIMATE: \$18,000+**

**LOT 377**  
**T\$1 1876-S CHOP MARK. PCGS AU58 CAC**

This is a borderline Mint State example of this date with three Chop Marks: a very softly impressed one on Liberty's breast, a deeper and clearly impressed one on her knee, and another small hidden one on the arrows on the reverse. Pleasing and original, with a good strike and an essentially full mint luster.

PCGS 45, NGC 0, CAC 3. Freshly graded and CAC approved this lovely coin will bring a strong price for the issue when the hammer falls. The record for a PCGS AU58 is \$705 realized in April 2016.

**PCGS# 87043 | ESTIMATE: \$500+**

**LOT 378**  
**T\$1 1877-CC CHOP MARK. PCGS MS61 CAC**

A fully reflective and flashy lustrous 77-CC Trade dollar with four chops on the obverse and two or three on the reverse. Traces of contact from travel to China from the United States, a glass reveals some minor marks and ticks on both sides. The eye appeal is bold and this is such a cool piece of international trade history.

PCGS 4, NGC 0, CAC 1. This is the only CAC example to come up for auction. Two non-CAC coins with fewer chop marks have sold in auction, one in March 2019 for \$1,680 and the other three years earlier for \$3,055. The CAC approved MS62 sold in March 2013 for \$4,406.

**PCGS# 87045 | ESTIMATE: \$2,000+**

**LOT 379**  
**T\$1 1874 PCGS PR64 CAM CAC**

Possessing a totally original, classic, old time collection look is the borderline GEM quality 1874 Proof Trade dollar. Watery, reflective mirrors have a great flash and lovely depth of clarity despite a dusting of iridescent tone.

Sharply struck, thickly frosted devices contrast boldly against the hard, sleek fields. Perhaps a stray line or two can be found with the aid of a strong glass that keeps this coin from a full GEM grade, but they do not limit the eye appeal,

which at certain angles this beauty takes on the look of a near DCAM.

Only 700 Proofs were struck. PCGS 31, NGC 17, CAC 15. Do NOT let the population data fool you, NO PCGS/CAC example has sold in auction since August 2013! The current PCGS Price Guide value is listed at \$5,500 and keep in mind that there are only SEVEN graded higher in the CAM designation, and in PR65 CAM this date sells for well into the five figure range. This coin has a lot to offer the collector!

**PCGS# 87054 | ESTIMATE: \$4,200+**

**LOT 380**  
**T\$1 1876 TRADE. PCGS PR64**  
**DCAM**

A gorgeous untoned, highly reflective borderline GEM. The fields are ultra flashy and wonderfully mirrored with a soft light golden hue. The devices are sharply struck up and fully frosted, imparting the Deep Cameo contrast. A few light lines in the fields account for the grade, but they have no serious impact on the outstanding eye appeal.

PCGS 7, NGC 5. The most recent example sold in the 2018 FUN auction for \$5,520 and prior to that, one sold in the 2013 FUN auction for \$7,050. The current PCGS value is listed at \$8,000 and just a single PR64+ DCAM is graded finer. Good luck, this is a great centennial year Trade dollar Proof for the date collector.

**PCGS#97056 | ESTIMATE: \$6,000+**

**LOT 381**  
**T\$1 1877 TRADE. PCGS PR64**  
**DCAM CAC**

Are you looking for an intense, Deep Cameo Trade dollar for a type set, but do not want to spend \$20,000+ for a GEM? This is a great example for you. Do not overlook it.

The highly reflective, deeply mirrored fields have a bold clarity. Standing in full 3D effect are the sharply struck and thickly frosted devices that contrast brilliantly against the fields. A few tiny ticks and a patch of very minor hairlines can be seen, accounting for the assigned grade, but the visual allure is strong and bold.

Only 510 Proofs were struck. PCGS 6, NGC 6, CAC 5. The only CAC example to sell in auction realized \$9,107 in our July 2017 Regency Auction. Before that, the last PR64 DCAM sold in February 2009! Clearly these are not frequently available for collectors. We anticipate strong bidding for this one when it crosses the block--who knows how long you will have to wait for another!

**PCGS# 097057 | ESTIMATE: \$7,000+**

# THE CULLEN B. COLLECTION

Named for our consignor's young grandson who loved these "shiny" big coins, the collector set out to assemble as high a quality set, with the goal of all PCGS and CAC coins, and they had to meet his standard for eye appeal for the issue. Buying coins out of auctions, at local coin shows, off eBay, and from well known dealers, the collector worked hard to assemble a nice collection of Morgan dollars.

While not a complete Morgan dollar set, the Cullen B Collection is extensive, offering not just most dates and mints, but also includes numerous Red Book listed varieties, VAMs, and a DMPL or two as well to keep the offering interesting and varied. With most coins in the \$1,000-\$5,000 range, the Cullen B Collection shows that you do not need to spend huge sums to assemble a really nice, and personally meaningful collection of Morgan dollars.

**LOT 382**  
**\$1 1878 8 TAIL FEATHERS. PCGS MS65 CAC**

A bold, brilliant, lustrous way to start this collection. Sharply struck devices have a bold frost. A lovely semi-prooflike reflection flashes in the brilliance. Very pleasing for the grade, the surfaces are quite clean and high end. Pretty scarce any finer.

PCGS 836, NGC 342, CAC 123. There has been a wide range of APRs, mostly falling between \$1,300 and \$1,600. A very nice coin that, despite the modest \$1,100 Collectors Universe value, should bring way more.

**PCGS# 7072 | ESTIMATE: \$1,000+**

**LOT 384**  
**\$1 1878-S VAM 6. DOUBLED RIB. PCGS MS66 CAC**

A popular Hot 50 variety with RIB in LIBERTY clearly doubled, and this PQ GEM is among the top half dozen graded, tied as one of five graded MS66, with just a single 66+ finer. Blazing luster radiates with a strong brilliance on both sides. Sharply struck and untuned this generally clean example has a very eye appealing "just struck" look.

PCGS 5, NGC 2, CAC 314 (all varieties). The only example we can find that has sold in the last decade brought \$3,600 in June 2018, and this variety is unpriced at Collectors Universe. With just a single MS66+ finer, we expect anyone working on a world class collection of VAMs will place a very strong bid on this GEM.

**PCGS# 7082 | ESTIMATE: \$2,000+**

**LOT 383**  
**\$1 1878-CC VAM-11. PCGS MS65 CAC**

This Top-100 VAM is identified by a number of die gauges in the wings. RARE any finer, the Lines in Wings variety offered here is a great coin for any variety specialist. Radiating mint luster rolls with strong cartwheels, accenting the exceptionally frosty, sharply struck devices. A lovely GEM despite a few stray marks.

For the variety, PCGS has only graded 20 in MS65 and two finer.

For the date: PCGS 2243, NGC 1237, CAC 187. The most recent examples sold in auction range from \$1,265 to \$1,800. Collectors Universe lists VAM-11 at \$1,550. Just two are graded finer for the variety, worthy of a strong bid.

**PCGS# 7080 | ESTIMATE: \$1,400+**

**LOT 385**  
**\$1 1878-S PCGS MS66+ CAC**

Very RARE any finer, this lovely MS66+ has a bold radiant luster that is a true delight to the eye. The palest traces of iridescent gold accents the smooth, SUPERB GEM surfaces. Clean and free of any distracting marks, both sides show a good strike and the reverse has some lovely flash. The eye appeal is very high end.

PCGS 977, NGC 511, CAC 313. PCGS has graded 118 in MS66+, which must include duplication of submissions in hopes of getting a MS67 grade. The most recent MS66+ CAC examples sold in the 2019 ANA auction, one selling for \$2,160 and the other for \$1,920. The current PCGS Price Guide value is \$1,750 and keep in mind that the value jumps to \$10,000 in MS67. This is the optimal grade for most collectors to add to their sets. That said, we see strong bidding for this high end example!

**PCGS# 7082 | ESTIMATE: \$1,500+**

## THE CULLEN B. COLLECTION

**LOT 386**  
**\$1 1879 PCGS MS66 CAC**

A blast white, frosty lustrous GEM that we sold in December 2017, described as: "A highly lustrous and high end Premium Quality GEM Morgan dollar. Well struck devices are nicely frosted and stand out against the rolling cartwheel luster in the fields. The surfaces are very pleasing and clean for the grade with nary a mark to be found."

PCGS 262, NGC 74, CAC 70. Back in December 2017, this GEM brought \$2,640. While the value has dropped a bit since that time, with the current PCGS value being listed at \$1,600, the value jumps to \$3,750 in MS66+. Keep in mind that in MS67, the last one sold over a dozen years ago! This lovely, Premium Quality GEM is worthy of a strong bid and placement in a high quality set.

**PCGS# 7084 | ESTIMATE: \$1,600+**

**LOT 388**  
**\$1 1879-O PCGS MS65+ CAC**

Blazing mint luster swirls around exceptionally clean and high end surfaces. The eye appeal is bold with nicely struck up devices and a brilliance rarely seen on this date. We love the look of this GEM and you will too!

PCGS 529, NGC 154, CAC 83. PCGS has graded 63 examples in MS65+. VERY RARE any finer with just 36 coins graded higher. The last PCGS/CAC example to sell brought \$4,560 in September 2019 and prior to that, one sold in February 2019 for \$4,800. Keep in mind that no CAC approved MS66 has sold since August 2011, which realized over \$25,000! Clearly this high end MS65+ is the optimal grade for most collectors. We see this one ending up in a great collection of Morgan dollars. We know bidding will be as intense as the luster for this gorgeous GEM!

**PCGS# 7090 | ESTIMATE: \$3,500+**

**LOT 387**  
**\$1 1879-CC CAPPED DIE. PCGS MS62 CAC**

Brilliant mint luster blooms on both sides of this high end for the grade Capped Die. A popular variety, it is one of the key issues, especially in Mint State grades. The present coin is of essentially full CHOICE quality with just some contact on the cheek, which keeps it away from a higher grade; taken on its own the reverse is a full 63 grade. The strike is well defined with just some softness above Liberty's ear. Despite the contact, this is a lovely BU example.

PCGS 386, NGC 251, CAC 30. The most recent example sold in a May 2016 Internet only auction for \$5,350. Prior to that, one sold for \$4,700 in March 2016. The current PCGS value is listed at \$5,250. If you are looking for a lustrous Mint State example without breaking the bank, take a look at this one and bid accordingly.

**PCGS# 7088 | ESTIMATE: \$4,200+**

**LOT 389**  
**\$1 1879-S PCGS MS67+ CAC**

A bold, brilliant luster bomb! Screaming, semi-prooflike mint bloom gives this amazing SUPERB GEM an intense, flashy look. Sharply struck and nicely frosted devices are exceptionally well preserved and high end quality. Clearly the collector carefully selected this GEM for its essentially flawless quality and great eye appeal!

PCGS 1774, NGC 2080, CAC 536. PCGS has graded 166 in MS67+. The most recent example sold for \$2,880 in the 2019 ANA auction While others have sold between \$1,000 and \$1,300, and the current PCGS value is \$1,250, a similar looking example brought \$2,640 February 2019. This blazing SUPERB GEM is worthy of a very strong bid indeed! We know it will be at home in a very high end set! Bidding will be fierce.

**PCGS# 7092 | ESTIMATE: \$1,500+**

**LOT 390**  
**\$1 1880-CC VAM-3. PCGS MS64 CAC**

The sole FINEST graded VAM-3 at PCGS. IT is a borderline GEM with a supple, satin frost that delights the viewer's gaze. Sharply struck, this coin has a great look.

This is the finest of two graded as VAM-3, the other is an XF40. We are not sure where this one will end up, but it will certainly bring a premium over the Collectors Universe value of \$625 for a regular MS64.

**PCGS# 7100 | ESTIMATE: \$1,000+**

**LOT 391**  
**\$1 1880-CC 8/HIGH 7. PCGS MS66 CAC**

A frosty, lustrous, brilliant silver white example of this better Carson City issue. Very high end for the grade, and RARE any finer, this is a great looking, well struck GEM. The reverse is fully Prooflike with great contrast between the frosted eagle and reflective fields.

PCGS 95, NGC 20, CAC 43. The most recent example sold for \$2,040 in the 2019 ANA auction, and two sold for \$1,800 in July 2019. The current PCGS value is listed at \$2,200. VERY RARE finer, a 66+ is worth around \$7,000+. This exceptionally high end GEM is worthy of a wonderful Morgan dollar collection.

**PCGS# 7102 | ESTIMATE: \$1,600+**

**LOT 392**  
**\$1 1880-CC 8/LOW 7. PCGS MS65+ CAC**

Here is a very high end, exceptional, frosty, lustrous example of the popular 80-CC dollar. Thick, white silver frosty texture graces the sharply struck design elements. The brilliant mint luster has quite a bit of flash in the fields that contrasts nicely with the frosty white sharply struck devices. A few stray traces of contact can be seen, accounting for the assigned grade. The eye appeal is very high end for grade and is a delight to behold.

PCGS 249, NGC 66, CAC 37. PCGS has assigned the MS65+ grade 20 times. The current PCGS value is listed at \$1,600 and the only PCGS/CAC example to sell this year brought \$1,560 in the 2019 ANA auction. Fewer than 90 have been graded finer and the value jumps to over \$3,000 for CAC-approved examples. This GEM has a great look and will appeal to any collector of Morgan dollars.

**PCGS# 7104 | ESTIMATE: \$1,250+**

**LOT 393**  
**\$1 1880/79-CC REVERSE OF 1878. PCGS MS65 CAC**

Brilliant and frosty, this is a wonderful, eye appealing, well struck GEM example of this popular Carson City issue. Only the slightest trace of chatter keeps this high end coin from a higher grade. Some light iridescent gold and brilliant silver white are seen on both sides, imparting a great eye appeal.

PCGS 583, NGC 143, CAC 58. Hard to find with CAC approval, the last one to sell was nearly two years ago, in the 2018 FUN auction. In fact, only 12 PCGS/CAC MS65s have ever sold in auction going back to 2008! The average APR is \$2,244, with the most recent selling for \$1,920. Scarce any finer, there are fewer than 150 that have graded finer at PCGS. We anticipate strong bidding for this one as it is high end for the assigned grade.

**PCGS# 7108 | ESTIMATE: \$1,600+**

## THE CULLEN B. COLLECTION

**LOT 394**

**\$1 1880-O PCGS MS64+ CAC**

A bold, radiating cartwheel luster that blazes with an intensity rarely seen on this date, and compares to that usually seen on the San Francisco mint coinage of 1880. Nicely struck for the date, despite a late die state, with extensive peripheral die cracks at the lower obverse. The eye appeal is very high end, and in the old days, this coin would have easily been called a GEM. VERY RARE any finer!

PCGS 1672, NGC 957, CAC 239. PCGS has graded 166 in MS64+. Only fifty coins have graded higher in over 33 years of grading operations. The most recent example we sold was in our May 2019 Regency Auction, which realized \$3,525. A PCGS/CAC MS65 will cost over \$20,000, making this the highest grade most collectors will be able to own, and we see very high demand for a coin like this! Be prepared for bidding to go above the PCGS value of \$3,750.

**PCGS# 7114 | ESTIMATE: \$2,800+**

**LOT 396**

**\$1 1881-CC PCGS MS66+ CAC**

Thick, frosty, shimmering, brilliant silver luster blooms with a bold vivacity on both sides of this borderline SUPERB GEM. All that keeps this high end coin from a higher grade is a touch of contact from bag storage. A very eye appealing, and PQ example.

PCGS 2012, NGC 830, CAC 470. There are 315 graded MS66+ at PCGS and recent CAC-approved examples have sold in the \$1,700 to \$2,400 range, with a Collectors Universe price of \$1,750. Scarce finer, this is an affordable, high grade GEM that will fit into any set.

**PCGS# 7126 | ESTIMATE: \$1,500+**

**LOT 395**

**\$1 1881 PCGS MS66 CAC**

This is a SUPERB GEM 1881 all the way!

The surfaces are truly above average in cleanliness. A strong luster beams from all over and both sides are a crisp white. No question this coin was never messed with. Ms. Liberty, the eagle, and the details are all frosty and well struck, imparting a great eye appeal!

PCGS 221, NGC 54, CAC 39. RARE finer. This PQ GEM was sold in our Final Premier Session December 2018 Internet Auction, realizing \$1,595 and was part of the Sand Hill Collection. Prior to that, it sold for \$2,420 in our January 2018 Premier Session. Worthy of a very strong bid indeed! Good luck.

**PCGS# 7124 | ESTIMATE: \$1,600+**

**LOT 397**

**\$1 1881-O PCGS MS65 CAC**

A highly lustrous GEM with a great look! While 2/3 of the obverse and the whole reverse retains its bold, original silver lustrous surfaces, the lower left obverse offers a magnificent display of fiery orange magenta, pale blue, and purple hues. Ultra eye appealing, this coin would have easily graded a 65+ were it not for a small contact mark on the reverse above the eagle's head. RARE any finer.

PCGS 817, NGC 468, CAC 103. The last one to sell brought \$990 in July 2019 and we sold one for \$1,234 in our May 2019 Regency Auction. The CAC CDN Bid/Ask is \$1,100/\$1,380. Rare finer, Collectors Universe values MS65+s at \$2,000. This colorful GEM seems like a great value!

**PCGS# 7128 | ESTIMATE: \$1,000+**

## THE CULLEN B. COLLECTION

### LOT 398

**\$1 1882 PCGS MS66+ CAC**

This is an ultra high end for the grade GEM which borders on the SUPERB classification. Well struck and highly lustrous, a strong glass reveals nothing but the most trivial traces of contact.

PCGS 482, NGC 219, CAC 87. PCGS has graded 59 in MS66+ with just 14 coins graded finer. This lovely coin brought \$2,468 in our December 2017 Regency Auction. While the PCGS value is \$1,750 we know this one will sell for more when it comes up for sale again. The last PCGS/CAC MS67 by comparison sold for \$28,200! This GEM looks like a great value to us!

**PCGS# 7132 | ESTIMATE: \$1,600+**

### LOT 399

**\$1 1882-CC PCGS MS66+ CAC**

A lovely GEM example that boasts a bold, swirling cartwheel luster, a nice strike, and nearly SUPERB surface quality. The eye appeal is wonderful.

PCGS 1793, GC 653, CAC 391. PCGS has graded 229 in MS66+. The most recent example we sold brought \$1,821 in our January 2019 Regency Auction. More recently one sold for \$1,320 in the 2019 ANA auction. The current PCGS Price Guide value is listed at \$1,500. Scarce in MS67 and RARE finer than that.

**PCGS# 7134 | ESTIMATE: \$1,000+**

### LOT 400

**\$1 1882-O/S STRONG. PCGS MS64+ CAC**

With just three examples finer, this high end MS64+ is as high a grade as any collector could ever hope to acquire! A billowing, satiny mint luster blooms with a pearlescent sheen on both sides. Well struck for the issue, the central details are well defined. A touch of pale iridescent gold attests to the originality and eye appeal of this near-GEM. Indeed, we think in the old days, it would have been called GEM BRILLIANT UNCIRCULATED.

PCGS 328, NGC 191, CAC 47. PCGS has graded just 23 in MS64+. The most recent example sold for \$4,320 in September 2019 and prior to that, we sold two different examples; one in January 2019 for \$5,405 and one in July 2018 for \$6,169. The current PCGS Price Guide value is \$6,500. Keep in mind that this Red Book listed over mintmark variety is EXCESSIVELY RARE any finer, with just three finer, the most recent of which to sell was the finest graded MS65+, which brought \$64,625 in our November 2018 Regency Auction. This borderline GEM seems a great value in our opinion and can see it attracting very strong bidding activity when it crosses the block!

**PCGS# 7138 | ESTIMATE: \$4,250+**

### LOT 401

**\$1 1882-S PCGS MS67+ CAC**

Brilliant and frosty, this is a wonderful, eye appealing, well struck GEM example of this popular Carson City issue. Only the slightest trace of chatter keeps this high end coin from a higher grade. Some light iridescent gold and brilliant silver white are seen on both sides, imparting a great eye appeal.

PCGS 583, NGC 143, CAC 58. Hard to find with CAC approval, the last one to sell was nearly two years ago, in the 2018 FUN auction. In fact, only 12 PCGS/CAC MS65s have ever sold in auction going back to 2008! The average APR is \$2,244, with the most recent selling for \$1,920. Scarce any finer, there are fewer than 150 that have graded finer at PCGS. We anticipate strong bidding for this one as it is high end for the assigned grade.

**PCGS# 7140 | ESTIMATE: \$1,100+**

**LOT 402**  
**\$1 1883 PCGS MS67 CAC**

This gorgeous and highly lustrous SUPERB GEM is an old friend, selling in our January 2018 Regency Auction, where it was described as:

"A flashy satin frosty luster rolls over both sides of this high end superb GEM. Well struck and well preserved even close inspection reveals only the most insignificant of ticks. The eye appeal is wonderful and grabs you from across the room."

PCGS 144, NGC 131, CAC 75. This coin is so high end, it brought \$3,995 in our January 2018 sale. Keep that in mind when figuring your bid, as it sold for close to what a 67+ did in our September 2019 Regency Auction. RARE finer this is a high end example that will delight even the most jaded collector.

**PCGS# 7142 | ESTIMATE: \$2,200+**

**LOT 404**  
**\$1 1883-O VAM-22A. PCGS MS64 CAC**

Among the FINEST graded examples of this HOT 50 VAM variety. Not only is the coin high end with a great look, it is beautifully toned with a hint of sky blue that clings to the periphery and brilliant peach-gold tone.

This is a difficult variety to find in high grade, the finest is a single MS65, followed by this and a handful of other MS64s. Two examples, both non-CAC have sold in auction, realizing \$1,763 and \$3,055 (December 2014 and September 2013) respectively, and the current Collectors Universe value is listed at \$2,250. We think this one, with its lovely tone and CAC approval will delight any advanced VAM collector chasing high end Hot 50 and Top 100 varieties. Good luck.

**PCGS# 7146 | ESTIMATE: \$1,400+**

**LOT 403**  
**\$1 1883-CC PCGS MS66+ CAC**

Taken on its own, the reverse grades a 67 at the least, and there is just a tiny frost break or two that keeps that side from being truly superb. Amazing mint luster blooms on generally clean, smooth surfaces and sharply struck devices that stand out. The eye appeal is mint fresh.

PCGS 2996, NGC 1099, CAC 711. PCGS has graded 480 in MS66+. Recent PCGS/CAC examples have sold for about \$1,000 and the current PCGS value is listed at \$1,200. This one may bring more, as it is oh so close to MS67 (no guarantees it will ever upgrade).

**PCGS# 7144 | ESTIMATE: \$1,000+**

**LOT 405**  
**\$1 1883-S PCGS MS63 CAC**

This is a very lustrous and CHOICE example of this conditionally RARE date. While not as rare as the 84-S in Mint State, the 83-S is difficult to find above the MS63 grade, especially with CAC approval. Bold luster blooms on both sides, the fields show delicate traces of semi-PL flash in the fields. The devices are boldly struck, with a wonderful frost imparting a great look.

PCGS 930, NGC 444, CAC 84. We suspect there is some duplication in the population figures. The most recent sold for \$2,040 in September 2019, and one sold for \$4,080 in the 2019 ANA auction. The last 10 examples, dating to mid-2014 have an average of \$2,644. The current PCGS Price Guide value is listed at \$2,500. A date that is always in demand, especially so fine.

**PCGS# 7148 | ESTIMATE: \$2,000+**

## THE CULLEN B. COLLECTION

**LOT 406**  
**\$1 1884 PCGS MS66+ CAC**

A magnificent GEM example! A bold, brilliant, cartwheel luster blooms on both sides accenting SUPERB quality surfaces and well struck devices. The eye appeal is quite nice for the date and grade.

PCGS 752, NGC 268, CAC 247. There are 157 MS66+ graded at PCGS, and just 78 have graded higher (inclusive of duplication from resubmissions and crossovers). The current PCGS value is \$1,050 and we sold a very similar looking coin for \$1,234 in our January 2019 Regency Auction. A lovely example for the collector.

**PCGS# 7150 | ESTIMATE: \$1,000+**

**LOT 407**  
**\$1 1884-CC PCGS MS66+ CAC**

Marvelous cartwheel luster radiates with a white hot brilliance that rolls along PQ GEM surfaces, giving this borderline SUPERB 84-CC a great look. Thickly frosted devices are sharply struck.

PCGS 2499, NGC 988, CAC 716. PCGS has graded 392 in 66+. One of the more common Carson City dollars in Mint State thanks to the GSA hoard dispersed in the early 1970s, the 84-CC is a neat type coin. Collectors Universe lists a value of \$1,300 and we expect this high end example to see strong bidding before the hammer falls.

**PCGS# 7152 | ESTIMATE: \$1,000+**

**LOT 408**  
**\$1 1884-CC PCGS MS65+ DMPL CAC**

A dramatic black and white DMPL with bold contrast! What a beauty! Thickly frosted white devices are sharply impressed and very sharp, contrasting against the deeply mirrored reflective lustrous fields. They are clean and free of any singularly distracting marks. The eye appeal is amazing.

PCGS 741, NGC 196, CAC 106. There are just 28 graded MS65+ DMPL. Scarce any finer. The most recent one to sell in auction realized \$2,040 in the 2019 ANA auction, and the current PCGS Price Guide value is listed at \$2,000. This is an ideal coin if you are looking for a single DMPL from the Carson City mint, or are looking for a GEM to add character to a type set.

**PCGS# 97153 | ESTIMATE: \$1,500+**

**LOT 409**  
**\$1 1884-O PCGS MS67 CAC**

Here is a very high end example! Exceptional quality with a sharply struck up frosty devices that stand out against the satiny smooth and amazingly lustrous surfaces. A hint of pale gold can be seen with the aid of a bright light. Any grade limiting trace of contact is located in non focal points on the reverse; the obverse is essentially PRISTINE!

PCGS 162, NGC 121, CAC 82. The most recent example to sell in auction realized \$4,320 in the 2019 ANA auction. Prior to that, one sold for 3,120 in June 2019 and we sold one in January 2019 for \$4,818. Just 14 coins are graded finer mostly clustered in MS67+ with just a single MS68 finest. This one belongs in a SUPERB set.

**PCGS# 7154 | ESTIMATE: \$2,800+**

**LOT 410**  
**\$1 1885 PCGS MS67 CAC**

Vibrantly lustrous with bold swirling cartwheels that highlight crisply rendered devices. The strike is bold for the date, with only some very minor weakness above Liberty's ear. The surfaces are generally without flaw and boast an almost "as struck" appearance.

PCGS 183, NGC 203, CAC 106. The most recent example we sold in auction realized \$3,525 in our May 2019 Regency Auction. Our consignor bought this SUPERB GEM from the 2018 FUN auction and the current Collectors Universe value is listed at \$2,500. Just 35 coins are graded finer.

**PCGS# 7158 | ESTIMATE: \$2,000+**

**LOT 412**  
**\$1 1885-O PCGS MS67+ CAC**

This marvelous SUPERB GEM is a very high end example and as high a grade as most collectors could ever realistically hope to bid on. With just four graded finer, this date is extremely difficult to find in 68. A brilliant, satiny mint frost gleams all over with a strong vibrance on both sides. A trace of the slightest gold clings to the lower left stars on the obverse. The eye appeal is high end.

PCGS 394, NGC 594, CAC 221. The last ten PCGS/CAC MS67+s have sold in a wide range of APRS, averaging at \$4,032 and the current PCGS Price Guide value is listed at \$4,750. Just four are graded MS68 at PCGS, and only one of these ever sold in auction realizing \$37,600 in the 2015 FUN Auction. Here is another great coin for a top flight cabinet of Morgan dollars.

**PCGS# 7162 | ESTIMATE: \$3,000+**

**LOT 411**  
**\$1 1885-CC PCGS MS66+ CAC**

This is an ideal MS66+ example of the popular 85-CC Morgan dollar. A low mintage issue, just 228,000 were struck, thanks to the GSA hoard, thousands of lower Mint State grade examples are available to collectors. It is scarce in MS66+ and difficult to find in SUPERB GEM grade. The present example is extremely lustrous with a billowing silver white surfaces. Sharply struck devices are frosty and are enhanced by a rolling cartwheel. Very high end for the grade and visually appealing in every way.

PCGS 1564, NGC 736, CAC 338. PCGS has graded just 227 in 66+. The last CAC-approved PCGS coin sold in the 2019 ANA auction for \$2,280 and the current PCGS Price Guide value is listed at \$2,500. Keep in mind that a PCGS/CAC MS67 just sold for \$19,200 in September 2019, making this a great value in our opinion! Good luck.

**PCGS# 7160 | ESTIMATE: \$2,000+**

**LOT 413**  
**\$1 1885-S PCGS MS65 CAC**

A radiant GEM S-mint Morgan. Showing off the vivid mint luster that is known from this facility, this clean, eye appealing GEM is brilliant, white silver highlights the sharply struck devices. A lovely coin!

PCGS 627, NGC 242, CAC 57. The 85-S is a date whose Collectors Universe value of \$1,450 is lower than what PCGS/CAC coins routinely sell for; the most recent sold for \$2,250 in the Stone Collection sale in May 2018 and prior to that they were generally selling between \$1,645 and \$2,350. Scarce any finer, like most S-mints of the era, not a major rarity like the 83-S and 84-S in GEM but difficult like the 86-S, 87-S, etc.

**PCGS# 7164 | ESTIMATE: \$1,500+**

## THE CULLEN B. COLLECTION

### LOT 414

**\$1 1886 PCGS MS67+ CAC**

Here is a common date Morgan in a not so common state of preservation. Radiant and brilliant mint luster billows on both sides with a stunning silver sheen. A touch of clear gold can be found at the peripheries framing the satiny smooth and glowing surfaces. The devices are nicely rendered with just a touch of the typical central weakness. The eye appeal is superb!

PCGS 592, NGC 941, CAC 395. PCGS has graded 88 in MS67+ and extremely rare any finer. The most recent PCGS/CAC examples have sold in the \$1,860 to \$3,878 this year and the Collectors Universe value of \$2,500 is about average. This SUPERB GEM will bring a strong price, and keep in mind that CAC MS68 will cost over \$20,000, if you can locate one! Good luck.

**PCGS# 7166 | ESTIMATE: \$2,000+**

### LOT 416

**\$1 1886-S VAM 2. PCGS MS65+ CAC**

The VAM-2 shows a boldly repunched S mintmark, and is listed among the TOP 100. This pleasing, high end GEM has a strong luster that glows all over the high quality surfaces. The devices are sharply struck, imparting a great look. One of the FINEST examples of this variety graded.

For the variety PCGS has graded just 1 in MS65+ and three finer.

For the date: PCGS 412, NGC 119, CAC 60. Just 23 are graded MS65+ at PCGS. The most recent example sold for \$3,360 in April 2019 and we sold one in our January 2019 Regency Auction for \$3,055. Unpriced at Collectors Universe in this grade, we can see a VAM specialist placing a strong bid for this one. For reference, the CU value in 65+ is \$3,500.

**PCGS# 7170 | ESTIMATE: \$2,500+**

### LOT 415

**\$1 1886-O PCGS MS62+ CAC**

The 86-O is another date that was not saved at the time of issue by contemporary collectors, the majority of them were either stored in bags and melted down in 1918 and those that did go out into circulation remained there until they acquired quite a bit of wear. Scarce from AU on up, the coin becomes rare in MS63 and finer. This well struck and frosty lustrous example is a great coin for any budget minded collector. Glints of clear gold and ivory iridescence attest to the originality and add to the eye appeal. In our opinion, the contact that limits the grade to a 62+ does not have an impact on the eye appeal.

PCGS 869, NGC 567, CAC 49. PCGS has graded just a dozen in MS62+ and the only PCGS/CAC example to sell in auction to sell brought \$1,763 in October 2016 (a weaker market). The current PCGS value is listed at \$1,950. Scarce in MS63 and RARE any finer if you are still looking for a nice Mint State example that won't break the bank, do not over look this nearly CHOICE example.

**PCGS# 7168 | ESTIMATE: \$1,700+**

### LOT 417

**\$1 1887 PCGS MS67 CAC**

This is a top notch MS67, and with its blast white brilliance is the look most Morgan dollar purists desire! The surfaces are ultra clean and satiny smooth. There is one tiny tick on the face and that's really all you can see (and it VERY tiny). Both sides are a gorgeous frosty white. Miss Liberty and the details are frosty and have crisp sharp strikes. Her cheek is especially nice.

PCGS 187, NGC 342, CAC 78. The most recent example to sell in auction realized \$2,040 in June 2019. This coin realized \$1,925 in our February 2018 Premier Session. Today, it should realize a bid in excess of the current PCGS value of \$1,650. Only 21 coins are graded finer, making this a fine addition to any Registry Set of Morgan dollars.

**PCGS# 7172 | ESTIMATE: \$1,600+**

**LOT 418**  
**\$1 1887 VAM 12. ALLIGATOR EYE. PCGS MS66+ CAC**

This colorfully named Doubled Die variety is a Top 100 VAM and is noticed at Liberty's eyelid. Exceptionally lustrous and well preserved, this is a high condition census example for the variety, with just 2 in MS66+ and three graded higher. Sharply struck up and frosty, the surfaces are very clean, with only the slightest hints of contact, visible only with the aid of a strong glass. This coin is also the PCGS CoinFacts plate.

PCGS 29, NGC 60, CAC 529 (all non-overdate varieties included). There are only two examples in MS66+ with just three finer. No MS66+ has sold in auction, but the last MS67 sold for \$3,760 in August 2016. We expect this high end Alligator Eye to sell for more than the current PCGS value of \$650. Good luck.

**PCGS# 7172 | ESTIMATE: \$1,000+**

**LOT 419**  
**\$1 1887 VAM 1A. DONKEY TAIL. PCGS AU58 CAC**

A very scarce Top 100, one of the most popular VAMs out there, named by the bulge in a die crack off the D in dollar that looks like a tail. This lustrous AU58 is in the condition census for the variety, per PCGS CoinFacts.

For the variety, PCGS has graded just 15 in AU58 with less than 20 finer. No PCGS/CAC Donkey Tail has ever sold in auction, but NGC/CAC pieces have sold between \$456 and \$1,176. We think this PCGS-graded example will be worthy of a bid toward the higher end of that range.

**PCGS# 7172 | ESTIMATE: \$1,000+**

**LOT 420**  
**\$1 1887/6 PCGS MS65 CAC**

A lustrous GEM example of this conditionally scarce Red Book listed overdate. Satiny with a bold frost, the untuned silver surfaces glisten brilliantly on both sides. The underlying 6 is visible to the right of the bottom of the 7. Generally clean with few marks to be found anywhere.

PCGS 160, NGC 88, CAC 46. Going back to April 2012, only 10 PCGS/CAC examples have sold in auction, realizing an average of just about \$2,000; this one realized \$1,800 in March 2018. Rare any finer, this is a great coin for any Morgan dollar collection.

**PCGS# 7174 | ESTIMATE: \$1,600+**

**LOT 421**  
**\$1 1887-O PCGS MS64 DMPL CAC**

Very high end for the grade and gorgeous! Bold contrast between the highly lustrous, reflective fields and thickly frosted and well struck devices. The surfaces are clean, clearly carefully handled since it came off the dies. A great looking DMPL that is very rare any finer.

PCGS 102, NGC 50, CAC 24. The most recent PCGS/CAC example to sell in auction realized \$2,280 in July 2018 and the current PCGS value is \$2,500. Just a dozen and a half coins have been graded higher, the finest a 66 that has been off the market for over a decade. Worthy of a premium bid.

**PCGS# 97177 | ESTIMATE: \$2,000+**

## THE CULLEN B. COLLECTION

### LOT 422

**\$1 1887/6-O PCGS MS63+ CAC**

Nearly identical in quality to the Star City Collection coin we sold in January of this year. Highly lustrous surfaces are truly a delight to behold. A decent strike for the issue, the definition is bold throughout.

This popular overdate was not discovered until 1972, thus precious few survive in so high a grade; the population drops off dramatically in MS64.

PCGS 358, NGC 150, CAC 39. There are 15 in MS63+ at PCGS. We have sold two recently, one in January 2019 for \$2,233 and the other in September 2018 for \$2,310. The Collectors Universe value is listed at \$2,600. A nice coin that will see bidding from anyone looking to expand their date set. Good luck.

**PCGS# 7178 | ESTIMATE: \$2,000+**

### LOT 424

**\$1 1888 PCGS MS66+ CAC**

A premium GEM that offers a radiant brilliance over smooth, defect free surfaces. The devices are sharply struck and stand out without any singularly serious flaws of any kind. The eye appeal is very nice, especially for the date. VERY SCARCE any finer.

PCGS 1081, NGC 957, CAC 309. PCGS has graded 163 in 66+. The current PCGS Price Guide value is listed at \$1,100 and the most recent examples have sold in the \$990 to \$1,440, all in the last six months. Clearly the quality of higher grade examples falls off dramatically, of the 149 graded higher combined at PCGS and NGC, only 8 have ever been awarded CAC approval. This is a great coin for anyone who demands high quality.

**PCGS# 7182 | ESTIMATE: \$1,000+**

### LOT 423

**\$1 1887-S PCGS MS65 CAC**

Here is another HIGH END GEM dollar from this collection. Brilliant cartwheel luster radiates vividly across both sides of this 87-S that has a distinctive, semi-PL flash on both sides. Sharply struck up devices stand out with a nice frost. All that keeps this from an even loftier grade is a scattering of minor chatter. Untoned surfaces gleam all over and have a great eye appeal. The 87-S is a scarce date in GEM, and is rare any finer.

PCGS 447, NGC 149, CAC 43. The most recent PCGS/CAC example sold in our March 2019 Regency Auction, realizing \$2,233; indeed CAC-approved examples consistently sell well above the Collectors Universe value of \$1,500. Fewer than 75 have graded finer at PCGS. For more budget minded collectors seeking a GEM that is all there, this is a great coin for you!

**PCGS# 7180 | ESTIMATE: \$1,500+**

### LOT 425

**\$1 1888-O VAM 9. DOUBLED ARROWS. PCGS MS66 CAC**

Another popular Top 100 VAM, this one's doubling is evident on the lower arrow shafts on the reverse. Swirling cartwheel luster radiates with a vibrant brilliance on both sides. The reverse shows a hint of reflective flash, adding to the intensity of the eye appeal. Sharply struck and showing off a touch of iridescent silver-white and clear gold tone that attest to the originality, and adding to its high end allure.

PCGS 9, NGC 1, CAC 80 (for all 1888-O varieties except the Scarface and Doubled Die Obverse). This coin sold in a November 2017 Internet Auction for \$2,375 and has sold for as much as \$2,900 in its five auction appearances between 2004 and 2017. Unpriced in the PCGS Price Guide, we anticipate strong bidding. For the Registry Set collector, take note, just a single MS66+ is graded higher!

**PCGS# 7184 | ESTIMATE: \$2,000+**

**LOT 426**  
**\$1 1888-O SCARFACE. PCGS MS63+ CAC**

Tied for second FINEST Scarface at PCGS, with just a single example graded higher.

Not only is it a gorgeous CHOICE BU example, but it is struck from the latest state of the die, VAM 1B4, which displays the die break all the way across Liberty's cheek and into the lower hair curls behind her neck. This state is the most desired among collectors.

The coin itself is very nicely struck with good definition for an 88-O. A warm, satiny mint luster blooms on both sides, which are

framed by varying shades of blue and gold tone. The eye appeal is exceptional!

PCGS 23, NGC 8, CAC 5. PCGS has graded seven in MS63+ and just a single MS64 is graded finer at PCGS. This was the most recent PCGS/CAC example to sell in auction, realizing \$6,000 in February 2018. Since then a non-CAC coin sold for \$8,400 in February 2019. The currently PCGS value is listed at \$8,500. Keep in mind the value doubles for the FINEST MS64 which sold in June 2018 for \$16,800. What a great coin for an advanced Registry Set! We know this coin will bring strong bidding when it crosses the block!

**PCGS# 87184 | ESTIMATE: \$5,500+**

**LOT 427**  
**\$1 1888-S PCGS MS65+ CAC**

The 85-S is a difficult date to find in such a lofty grade; and this one is not just high grade, having been carefully cared for since it left the mint. Exceptionally brilliant with a superb luster that rolls over both sides. The design elements are crisply struck up and and the surfaces are clean, free of any singularly distracting marks and both sides are ringed by a light tone that attests to the pure originality of this PQ GEM.

PCGS 408, NGC 96, CAC 31. Twenty-eight have been graded MS65+ at PCGS and of the examples sold in auction, NONE were CAC approved. The most recent example sold for \$2,820 in February 2017 and the current PCGS value is listed at \$3,250; that value doubles in MS66. Worthy of a strong bid, we are not sure where this one will end up when the hammer falls, but it is likely the Collectors Universe value will have to be adjusted upward.

**PCGS# 7186 | ESTIMATE: \$3,000+**

**LOT 428**  
**\$1 1889-O PCGS MS64+ CAC**

A conditionally rare date any finer, this is a great grade for most collectors to pursue, as the 89-O is quite difficult to find any finer! Vibrant mint luster graces both sides of this near-GEM example. Well struck and very pleasing, this coin is very close to MS65 quality (we don't know if it will upgrade, but it is close).

PCGS 2037, NGC 1016, CAC 231. The PCGS Population shows 165 in MS64+ and this date is very scarce any finer. We sold one in January 2019 for \$1,293 and the current PCGS Price Guide value is \$1,200. Worthy of a nice set.

**PCGS# 7192 | ESTIMATE: \$1,000+**

## THE CULLEN B. COLLECTION

### LOT 429

**\$1 1889-S PCGS MS65 CAC**

A high end, lovely GEM housed in an OGH. Bold, brilliant luster beams all over with a touch of flashy reflection. The design elements are sharply struck up and the surfaces are smooth and virtually untuned. The eye appeal is bold.

PCGS 747, NGC 329, CAC 86. Clearly this low mintage date does not come nice, even in high grade. There is a wide range of APRs among the five examples we have sold, the most recent of which brought \$3,643 in our January 2019 Regency Auction, well above the current PCGS value of \$1,300. RARE any finer, this coin is a great value play for the collector looking for a high end coin for their set and it will bring a premium bid.

**PCGS# 7194 | ESTIMATE: \$1,500+**

### LOT 431

**\$1 1890-CC PCGS MS64 DMPL CAC**

A true, old time DMPL 90-CC dollar! Deeply reflective mirrored fields beam with a highly flashy brilliance on both sides. The devices are razor sharp and thickly frosted creating a neat, cameo like look. A few faint lines and ticks are seen, but none impact the visual allure of this near-GEM.

PCGS 227, NGC 114, CAC 51. We sold the most recent example for \$3,760 in our May 2019 Regency Auction, and prior to that, we sold one for \$3,630 in July 2018, both well above the current Collectors Universe value of \$3,250. RARE any finer, this coin is the finest most collectors can hope to acquire. Very pleasing and housed in an old holder.

**PCGS# 97199 | ESTIMATE: \$3,200+**

### LOT 430

**\$1 1890 PCGS MS65+ CAC**

Another high end and lustrous GEM example and this one is bested by just a handful of coins graded at PCGS. Well struck and beautifully preserved, this 1890 Morgan has a bold, brilliant mint frost and radiating cartwheel luster. A few traces of contact limit the grade, but do not have any effect on the outstanding eye appeal.

PCGS 848, NGC 317, CAC 67. PCGS has graded 91 in MS65+ and a mere five coins graded finer. The most recent MS65+ with CAC approval realized \$4,465 in our September 2019 Regency Auction and again in September 2018 we sold another for \$4,230. This one will sell for a strong bid for its eye appeal and keep in mind that a MS66 will cost about \$15,000 or so!

**PCGS# 7196 | ESTIMATE: \$3,600+**

### LOT 432

**\$1 1890-S PCGS MS66+ CAC**

A blazing ball of luster! Tied for second FINEST graded by PCGS and a coin truly worthy of its lofty grade and CAC endorsement. Indeed everything about this GEM is VERY HIGH END! Swirling cartwheel luster rolls with a strong brilliance on both sides. The obverse is wonderfully frosty, while the reverse is essentially Prooflike with a flashy reflection. The devices show only the slightest touch of weakness above Liberty's ear, though all other details are full and crisply defined. A scattered line or tick do not detract, and account for the assigned GEM grade. The cheek is clean and smooth, a delight for even the pickiest of specialists.

PCGS 284, NGC 58, CAC 103. PCGS has graded 56 in MS66+. With just 8 coins graded finer, we think there is duplication in the Population Report. The most recent example we have sold brought a very strong \$6,169 in our May 2019 Regency Auction and the current PCGS Price Guide value is listed at \$5,200 and keep in mind that the value is listed at \$20,000 in slightly finer MS67, this coin presents a great value and opportunity for the collector.

**PCGS# 7202 | ESTIMATE: \$4,600+**

**LOT 433**  
**\$1 1891-CC VAM 3. SPITTING EAGLE.**  
**PCGS MS65+ CAC**

The Spitting Eagle is a popular, yet "common" variety, with a die chip just under the Eagle's beak. Based on casual observations of 91-CC dollars, about half of them are VAM-3.

The present GEM is gorgeously toned and beautifully preserved. Shades of teal, sky-blue, soft tangerine, and apricot-rose hues are amplified by a strong, booming luster. Clearly this exceptional coin sat undisturbed in an old bank wrapped roll.

Microscopic traces of contact can be found under the toning with the aid of a strong glass. The eye appeal is amazing.

PCGS 826, NGC 129, CAC 77. PCGS certified four Spitting Eagles in MS65+ and just four finer. The current PCGS Price Guide value is listed at \$7,500 and the most recent one to sell realized \$5,520. Keep in mind that a slightly finer MS66 would cost \$20,000+, if you can find one. The Sunnywood-Simpson Collection had two toned 1891-CCs a 64+ non-CAC that sold for \$7,344 in our May 2017 Regency Auction and the other was a 65 CAC that sold for \$5,288 in our October 2014 Regency Auction. This marvelous GEM should bring around the average of those two. We anticipate strong bidding as this date rarely comes nicely toned.

**PCGS# 7206 | ESTIMATE: \$5,000+**

**LOT 434**  
**\$1 1891-S PCGS MS65 CAC**

A lovely, original GEM with strong luster, a bold strike, and pleasing, clean surfaces. Scarce in this grade, and rare finer.

PCGS 555, NGC 223, CAC 88. The current PCGS value is listed at \$1,200 and the average of the last 10 pieces sold in auction brought \$1,273. Bound for a nice collection of Gem Morgan dollars.

**PCGS# 7210 | ESTIMATE: \$1,000+**

**LOT 435**  
**\$1 1892 PCGS MS64+ CAC**

Thick, frosty luster blooms with a pearly texture. Nearly GEM quality surfaces, there are just a tiny frost break or two that keep it from grading MS65. The strike is bold and the eye appeal is nice.

PCGS 1772, NGC 857, CAC 200. PCGS has graded 94 in MS64+. The current PCGS Price Guide value is listed at \$1,250 and the last 10 APRs for PCGS/CAC coins is \$1,272. Scarce in higher grades, this is a great price point and grade for most collectors.

**PCGS# 7212 | ESTIMATE: \$1,000+**

**LOT 436**  
**\$1 1892-CC PCGS MS64 CAC**

A very high end example for the grade with a vibrant semi-Prooflike reflection in the lustrous fields. Depending on the angle, the frosty and well struck devices display a Cameo-like contrast. A pale ring of clear gold clings to the obverse rim, adding to the excellent eye appeal. Very high end and pleasing for the assigned grade, this second to last Carson City mint issue is very scarce finer.

PCGS 1734, NGC 945, CAC 237. The current PCGS Price Guide value is listed at \$2,750 and the most recent sold in the 2019 ANA auction for \$3,360. Our consignor paid \$3,400 for this one. Scarce any finer, this has a great eye appeal that will delight any collector.

**PCGS# 7214 | ESTIMATE: \$2,800+**

**LOT 438**  
**\$1 1892-S PCGS AU53 CAC**

Totally original, dove and gold hued surfaces show off quite a bit of retained luster that gives this lightly worn condition rarity a great, original look. Scarce in all grades above AU50, and a major rarity in any Mint State grade, this lovely AU53 is worthy of a premium bid.

PCGS 360, NGC 331, CAC 28. The most recent example sold for \$1,560 in the 2019 ANA auction and they have sold for as much as \$3,055. The current PCGS value is \$2,000. Very popular among collectors, this pleasing and totally original coin will delight any budget minded collector.

**PCGS# 7218 | ESTIMATE: \$1,500+**

**LOT 437**  
**\$1 1892-O PCGS MS64+ CAC**

In the old days, this coin would have been called GEM BRILLIANT UNCIRCULATED. A frosty, satiny borderline GEM. Well struck and very clean for the date and grade, which usually comes choppy and with a pancake strike.

PCGS 2480, NGC 1491, CAC 283. PCGS has graded 184 examples in MS64+ and the date becomes very scarce finer. We sold one in January 2019 for \$1,939 and the most recent, which was in May 2019, brought \$1,560. The current PCGS value is listed at \$1,250. The value jumps to \$3,250 in MS65. We know this coin will see very strong bidding when it comes across the auction block!

**PCGS# 7216 | ESTIMATE: \$1,000+**

**LOT 439**  
**\$1 1893 PCGS MS64+ CAC**

A wonderful example of this semi-key date that is just on the cusp of an even higher grade, with a brilliant luster and bold strike that have claims to GEM quality. Smooth surfaces show only the most minute traces of insignificant contact, none of which detract from the high end quality surfaces. A touch of the softest of golden tones can be seen toward the upper obverse periphery, attesting to the outstanding originality and adding to the eye appeal. About as close to GEM as you can get!

PCGS 1407, NGC 674, CAC 146. There are 85 graded MS64+ at PCGS and the most recent CAC-approved example sold for \$3,055 in our May 2019 Regency Auction and prior to that, one sold for \$3,408 in our March 2019 auction. While the current Collectors Universe value is listed at \$2,850. This one, with its outstanding and high end for the grade visual appeal will see strong bidding.

**PCGS# 7220 | ESTIMATE: \$2,700+**

**LOT 440**  
**\$1 1893-S PCGS VF25 CAC**

Aside from the 1895 Proof Only issue, the 1893-S is the lowest mintage and rarest date in an absolute series. Only 100,000 were struck, most saw extensive circulation and many have serious problems. Pleasing silver gray and hints of gold. Honest, moderate wear from extensive circulation during and after the financial Panic of 1893 is smooth and problem free.

PCGS 411, NGC 159, CAC 32. The most recent PCGS/CAC example brought \$5,775 in our December 2018 Final Premier Session Internet Auction and the current Collectors Universe value is \$5,250. The perfect "collector grade" example of this KEY date rarity and worthy of a wonderful collection.

**PCGS# 7226 | ESTIMATE: \$4,500+**

**LOT 442**  
**\$1 1896-O PCGS MS62 CAC**

Really CHOICE! What a pleasing example of this major condition rarity. Satiny mint frost glows with a pearly-gold silver sheen that is highly original and very pleasing quality. Very well struck for the date, which usually comes flat in the centers; this one has just some minor weakness above the ear. No singularly distracting marks can be found anywhere, just a few minor scuffs from bag storage all those years ago. Nothing serious nor anything that would preclude CAC approval.

PCGS 654, NGC 417, CAC 36. Clearly there is duplication at this grade level at the services, and they are usually so bad, precious few can garner CAC approval. The last PCGS/CAC example brought \$2,880 in November 2018 and that was the first one sold since 2016. Keep in mind that a PCGS/CAC MS63 will cost close to \$10,000. This borderline CHOICE example will delight any Morgan collector.

**PCGS# 7242 | ESTIMATE: \$2,400+**

**LOT 441**  
**\$1 1894-S PCGS MS65 CAC**

A lovely GEM example of this semi-KEY scarce date Morgan dollar. Generally smooth and clean surfaces show off a bold, radiant mint bloom that rolls all over. The reverse is particularly bold and has some semi-reflective tendencies. The devices are frosty and crisply struck. There are a few, tiny ticks, which account for the assigned MS65 grade. The technical and visual quality is quite high end!

PCGS 172, NGC 38, CAC 37. The current PCGS Price Guide value is listed at \$5,750 and the most recent PCGS/CAC MS65 to sell in auction realized \$5,523 in our June 2019 Regency Auction. With just about 3 dozen graded finer, this is an optimal grade for the collector, as a 66 will cost into the five figures and out of budget range for many collectors. What a great opportunity for the collector.

**PCGS# 7232 | ESTIMATE: \$4,600+**

**LOT 443**  
**\$1 1896-S PCGS MS64+ CAC**

A borderline GEM that boasts a very strong, rolling cartwheel luster on both sides. Just some minor contact away from a full MS65 grade (no guarantees that it will upgrade, but we have seen 65s that have more contact). A delicate dusting of gold can be seen on the obverse. The devices are sharply impressed and the eye appeal is quite handsome.

PCGS 553, NGC 202, CAC 76. There are 554 in MS64+ and the most recent example to sell in auction realized \$4,560 in September 2019. We sold one in our January Regency Auction for \$7,638. This lovely coin should bring a bid around the current PCGS Price Guide value of \$5,500 in our estimation. Good luck.

**PCGS# 7244 | ESTIMATE: \$4,500+**

**LOT 444**  
**\$1 1897 PCGS MS66+ CAC**

A pleasing frosty, lustrous GEM! Exceptionally brilliant with a sharply silver white color and clean surfaces throughout.

PCGS 626, NGC 171, CAC 158. There have been two that have sold recently, bringing \$2,040 and \$1,920 in June and August 2019 respectively. This borderline SUPERB coin should bring in that range as well. Good luck!

**PCGS# 7246 | ESTIMATE: \$1,700+**

**LOT 445**  
**\$1 1898-O PCGS MS67 CAC**

A frosty, satiny SUPERB GEM 98-O. Mostly untuned with just a couple of splashes of gold at the rims. Rolling cartwheel luster glows on both sides, accenting generally clean surfaces and nicely struck devices. The eye appeal is very nice and deserving of the lofty grade and CAC approval.

PCGS 309, NGC 184, CAC 127. The most recent example sold in June 2019 for \$1,620 and prior to that another sold for \$1,920. The current PCGS value is listed at \$1,500. RARE finer, just 31 MS67+s have been graded higher at PCGS as finest.

**PCGS# 7254 | ESTIMATE: \$1,400+**

**LOT 446**  
**\$1 1899 PCGS MS66+ CAC**

The 1899 Philadelphia mint Morgan dollar is a very interesting date. While it was a low mintage issue, (only 330,000 were struck), it can be found in Mint State grades and is not prohibitive for collectors, even in GEM. However in this lofty grade, it is quite scarce. The eye appeal of this MS66+ is excellent. Bold, brilliant, billowing silver mint luster blooms all over on both sides of this borderline SUPERB GEM. A tiny tick or two is all that keeps this sharply struck coin from an even higher grade.

PCGS 389, NGC 78, CAC 98. There are 60 graded MS66+ and just 27 graded higher. The most recent PCGS MS66+ CAC sold in our January 2019 Regency Auction for \$3,290 and the current PCGS Price Guide value is listed at \$3,250. Just a handful of CAC coins exist with a higher grade, only one of which has sold in auction, a PCGS MS67+ (the finest known) from our sale of the Coronet Collection. Since this is one of the FINEST graded with CAC approval, we know this coin will see very strong bidding indeed.

**PCGS# 7258 | ESTIMATE: \$3,000+**

**LOT 447**  
**\$1 1899-S PCGS MS66 CAC**

Brilliant GEM with a strong pearlescent sheen across both sides. High quality and very eye appealing, the classic design elements are nicely rendered by an exacting strike from the dies. A few tiny ticks, mostly confined to the reverse, account for the assigned grade. Very pleasing to the eye and VERY RARE any finer.

PCGS 130, NGC 27, CAC 34. There are 29 finer, mostly in MS66+. The most recent PCGS/CAC coin to sell in auction brought \$2,860 in our June 2018 Premier Session. That was the first time in over two years that one had sold, so clearly these do not appear very frequently. The current Collectors value is \$3,100 and that level jumps to \$5,500 in 66+ and \$32,500 in 67. Take advantage of this opportunity to add a premium GEM to your set.

**PCGS# 7262 | ESTIMATE: \$2,600+**

## THE CULLEN B. COLLECTION

**LOT 448**

**\$1 1900 VAM 16A. PCGS MS66+ CAC**

This is the **FINEST** certified of this **HOT 50** variety. Satiny lustrous surfaces have a vivid warmth that accents both sides. The olive on the branch is doubled, thus the name "Two Olive Reverse."

Unique so fine, this is a prize for the advanced VAM specialist. For a regular MS66+, the Collectors Universe value is \$1,000 and the most recent CAC approved examples sold for close to or above that level. The demand for a Top 50 variety will certainly vault it to a higher bid level.

**PCGS# 134025 | ESTIMATE: \$1,000+**

**LOT 450**

**\$1 1901-O PCGS MS66+ CAC**

Frosty and lustrous with a bold, brilliant satiny sheen. Pearly silver with some light iridescence. Swirling cartwheels come to life in the light. A few stray traces of contact can be seen, which is all that keeps this high end GEM from a 67 grade and a five figure price tag.

PCGS 629, NGC 518, CAC 167. PCGS has graded just 59 in MS66+ and there are just **TEN** finer. In MS66+ the current PCGS Price Guide value is listed at \$3,250 and we sold one of the most recent examples for \$3,173 in our May 2019 Regency Auction. Two sold in June, with a similar looking example bringing \$3,120. Keep in mind that in MS67 the current PCGS Price Guide value is \$22,500 and the only CAC-approved example sold back in FUN 2011 for \$37,375! What a great coin for any Registry collector who demands CAC approval and does not want to spend \$30,000!

**PCGS# 7274 | ESTIMATE: \$2,600+**

**LOT 449**

**\$1 1900-O/CC PCGS MS66 CAC**

A very popular Morgan dollar variety and this very impressive GEM ranks high up on the PCGS Population Report. Created when a leftover Carson City reverse die was pressed into service by punching the New Orleans "O" over the obsolete CC mintmark. While available in grades up to and including MS66, they become **VERY RARE** any finer. The lustrous 66 offered here is well worthy of its CAC endorsement. Bold cartwheels swirl over glossy-satiny silver surfaces that glitter and glint from under a frame of attractive slate and amber tone at the periphery. High end for the assigned grade, this lovely and totally original GEM is PQ defined!

PCGS 132, NGC 9, CAC 50. There has been a wide range of auction results in the last five years, from \$4,465 to \$13,750. The only PCGS MS66 CAC example we have sold brought \$4,818 in our May 2018 Regency Auction. This lovely toned GEM is worthy of strong bidding and it would not be a surprise if it sold in excess of the current PCGS value of \$4,600. Keep in mind that a 66+ with CAC would bring in the \$10,000 range.

**PCGS# 7268 | ESTIMATE: \$4,500+**

**LOT 451**

**\$1 1901-S PCGS MS64+ CAC**

First off, we think all that keeps this beauty from a full MS65 GEM grade is a small reeding mark on Liberty's cheek. Brilliant lustrous surfaces radiate with a bold rolling cartwheel effect. The devices are well struck with a wonderful crispness. A few minor ticks are seen with a glass. Both sides are framed by a rich orange-gold and navy blue peripheral tone. For the more modest grade assigned, the eye appeal is exceptional!

PCGS 1107, NGC 614, CAC 117. PCGS has graded 49 in MS64+ and the last two sold for \$1,438 and \$1,440 back in 2018 and the current PCGS value is listed at \$1,500. A very pretty example for the more budget minded collector.

**PCGS# 7276 | ESTIMATE: \$1,200+**

**LOT 452**  
**\$1 1902 PCGS MS66+ CAC**

Despite a large mintage of or nearly 8 million, the 1902 Philadelphia mint Morgan dollar is very challenging in GEM Mint State grades, especially in MS66+ and finer grades. Sharply struck and satiny, this totally original borderline SUPERB GEM example is a bargain compared to the next half step up in MS67.

PCGS 744, NGC 193, CAC 172. PCGS has graded 73 in MS66+. The most recent example sold in our May 2019 Regency Auction for \$1,058 and the current PCGS value is listed at \$1,300. RARE finer, this is the ideal grade for most collectors seeking a high grade example with CAC approval.

**PCGS# 7278 | ESTIMATE: \$1,000+**

**LOT 454**  
**\$1 1903 PCGS MS66+ CAC**

A glossy satin luster glows with a vibrant brilliance on both sides of this totally original GEM. A bold strike is framed by a delicate, mottled amber-russet tone. The eye appeal is quite nice.

PCGS 1270, NGC 544, CAC 325. PCGS has graded 118 in MS66+ and the most recent example to sell realized \$1,146 in our May 2019 Regency Auction. The current PCGS value is \$1,000 and it jumps to \$3,000 in MS67.

**PCGS# 7284 | ESTIMATE: \$1,000+**

**LOT 453**  
**\$1 1902-O PCGS MS66+ CAC**

Highly lustrous, satiny surfaces glow in the fields and across the generally well struck devices on both sides. A narrow band of original toning frames both sides, attesting to the originality.

PCGS 932, NGC 676, CAC 306. There are 146 currently graded MS66+ at PCGS, and the grade is listed at \$1,200 in their Price Guide. VERY RARE any finer, this coin easily becomes a five figure coin in PCGS MS67 CAC. Worthy of a premium bid!

**PCGS# 7280 | ESTIMATE: \$1,000+**

**LOT 455**  
**\$1 1903-O PCGS MS67 CAC**

The presently offered SUPERB GEM is very appealing! A strong cartwheel luster rolls along the exceptionally smooth and seductive surfaces. Ms. Liberty and the details offer nicely struck and well defined devices. A pale silver-white iridescent tone attests to its unmolested originality.

The oft-told story about this coin's former rarity shows how things in the market can change instantaneously if a hoard is found. The 03-O was one of the rarest dates in Mint State in the Morgan series, that was until the Treasury found a hoard of original bags in a vault, and released them into circulation in the early 1960s. Luckily today for collectors, it is a generally available date in most Mint State grades that has a neat historical story.

PCGS 109, NGC 53, CAC 32. The most recent example we sold in auction realized \$8,225 in our June 2019 Regency Auction. Indeed, all PCGS/CAC coins we have sold going back to 2015 have brought between \$7,050 and \$8,519, well in excess of other auction firms' results, a record we are quite proud of! With just three finer, all MS67+ and none seen in auction, this is one of the highest grade examples you can hope to add to your set. Good luck!

**PCGS# 7286 | ESTIMATE: \$4,500+**

**LOT 456**  
**\$1 1921 MORGAN. PCGS MS66+ CAC**

This is the PFM Collection coin we sold in May 2018, where it was described as:

"After a 17 year hiatus of striking silver dollars, after the widespread melting of silver dollars under the Pittman Act, the Mint began striking dollars again. By the time 1921 rolled around, new hubs had to be created, slightly different in the depth of the details than on the 1878-1904. While nearly 45 million dollars were struck in Philadelphia, and it is the MOST common issue, in high end GEM grades as here it is VERY RARE. Shimmering satin brilliance dances on the extremely high end surfaces. Mark free and displaying on the lightest iridescent pearly-silver gold. The devices are sharp and completely rendered. What a beautiful, HIGH END GEM!"

PCGS 916, NGC 679, CAC 297. PCGS has graded 139 in MS66+, and this one brought \$1,528 in the our May 2018 Regency Auction. The most recent two examples \$1,500 and \$1,440 in September 2019 and April 2019. Any MS67 is a five-figure coin, making this a great value play.

**PCGS# 7296 | ESTIMATE: \$1,200+**

**LOT 458**  
**\$1 1921-S PCGS MS65+ CAC**

A frosty GEM with a wonderful, pearly silver luster that glows all over. Nicely struck up for the date with smooth, pleasing surfaces.

PCGS 1415, NGC 774, CAC 60. PCGS has graded 99 in MS65+. Surprisingly RARE finer. The most recent PCGS/CAC examples have brought just shy of \$1,000 in auction, and the current PCGS value is listed at \$1,450. A nice coin to end this set with.

**PCGS# 7300 | ESTIMATE: \$1,000+**

**LOT 457**  
**\$1 1921-D MORGAN. VAM 1A. PCGS MS65 CAC**

Among the FINEST graded of this Top 100 listed variety. The reverse die is missing the S in TRUST, making for an interesting coin from this only Denver mint issue. Semi reflective, intensely lustrous fields boom with exceptionally high end brilliance. Nicely struck for the date. There are some minor ticks that we note for accuracy, but the eye appeal is exceptional for the assigned grade.

PCGS 6, NGC 2, CAC 264 (for all varieties). PCGS has graded just a single MS65+ finer. The only MS65 to sell in auction realized \$2,160 in September 2017. Worthy of a strong bid from the specialist, we know this high end, PQ GEM will bring a strong bid. Unpriced in Collectors Universe.

**PCGS# 7298 | ESTIMATE: \$1,200+**

#### OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 459**  
**\$1 1879-O PCGS MS65**

The 79-O Morgan dollar is a conditionally scarce date in GEM. The presently offered PCGS MS65 is fully struck with highly lustrous surfaces. While the obverse is fully brilliant silver-white, the reverse has a tinge of light golden tone. The surfaces are nice and clean, we are not sure why CAC did not bean this coin, it is very pleasing for the grade.

PCGS 480, NGC 142. The most recent example sold for \$3,840 in the 2019 ANA auction, and the average APR of non-CAC PCGS-graded coins is \$2,310 with a Collectors Universe value of \$2,500. Rare finer, worthy of a strong bid.

**PCGS# 7090 | ESTIMATE: \$1,800+**

**LOT 460**  
**\$1 1880-CC PCGS MS66+ CAC**

Blazing white, untuned silver luster shines with SUPERB satiny fields and frosted devices. Simply put, this coin gleams! Close examination reveals a few tiny ticks here and there, but none are singularly distracting.

PCGS 1046, NGC 501, CAC 202. There are 134 graded MS66+ at PCGS and just 37 graded finer. The most recent example to sell in auction brought \$3,600 in July 2019 and we sold one for \$3,760 in our January 2019 Regency Auction. Collectors Universe lists a value of \$3,250 and that jumps to \$22,500 in MS67. Worthy of a great Morgan dollar set.

**PCGS# 9019 | ESTIMATE: \$3,000+**

**LOT 461**  
**\$1 1880-CC 8/LOW 7. PCGS MS66+ CAC**

What a wonderful example of this popular variety. The devices are sharply struck and thickly frosted with a bright white frost.

The fields are exceptionally lustrous, bold and brilliant with a very high end quality. The fields and reliefs are clean and mostly devoid of any serious trace of contact on either side. The eye appeal is very high end and this is tied for second finest graded with just a single MS67 finer.

PCGS 90, NGC 18, CAC 28. There are 13 graded MS66+ and a single MS67 is finer. The last 66+ CAC sold for \$9,694 in our June 2019 Regency Auction and the current Collectors Universe value is listed at \$8,500. The single MS67 (not CAC) sold for \$26,400 in the 2019 ANA auction. This one seems like a great value by comparison. Good luck!

**PCGS# 7104 | ESTIMATE: \$8,000+**

**LOT 462**  
**\$1 1880-O VAM-6A. 8/7 EAR. PCGS MS64+ CAC**

Among the very FINEST of this Top 100 VAM. Bold and brilliant luster swirls around this impressive GEM. Remnants of the underlying 7 peeks above the top left portion of the second 8 in 1880 giving the nickname "ear." Nicely struck for the date with good frosty luster that blooms all over. A tiny tick or two are all that keep this coin from an MS65 grade.

PCGS has graded just 4 of this VAM variety in MS64+ and the only one to sell realized \$5,040 in June 2018. The current Collectors Universe value is listed at \$4,250 and keep in mind it is listed at \$16,000 in MS65! Bid accordingly!

**PCGS# 41289 | ESTIMATE: \$3,800+**

**LOT 463**  
**\$1 1880-S PCGS MS68 CAC**

WHOA! This is an amazing MS68 1880-S dollar. It is very high end, we do not know why it is not graded MS68+. While we make no guarantees, it certainly looks like it has a shot. Bold, intense cartwheel luster rolls brilliantly on both sides. The devices are razor sharp and thickly frosted. The eye appeal is exceptional and this is an exemplary and SUPERB example of the date and grade.

PCGS 243, NGC 296, CAC 185. The most recent example we sold in auction brought \$4,700 and the current PCGS Price Guide value is \$5,200; the current CDN CAC bid/ask is \$4,800/\$6,000. Remember that there are only 33 graded in MS68+ and those are solidly five figure coins. This is a great coin worthy of a great Morgan set. We know a coin like this will excite very strong bidding.

**PCGS# 7118 | ESTIMATE: \$4,500+**

**LOT 464**  
**\$1 1881 PCGS MS66+ CAC**

Sharply struck and very lustrous, this Premium Quality, borderline SUPERB GEM is among the finest graded by PCGS. Brilliant, satiny mint frost shines on both sides, the devices are well struck and pleasing with a subtle golden halo at the rims.

PCGS 267, NGC 58, CAC 39. There are 41 in MS66+. This one sold for \$4,348 in our December 2017 Regency Auction on an estimate of \$3,200-\$3,500. The most recent brought \$4,560 in September 2019 and there are just a half dozen finer, of which only one is CAC, making this one of the FINEST CAC approved examples for your set.

**PCGS# 7124 | ESTIMATE: \$3,500+**

**LOT 465****\$1 1881-CC PCGS MS67+ CAC**

Among the finest graded 81-CCs that PCGS has seen (just five are graded MS68) this is about as high a grade as you can ever hope to add to your set. While a lower mintage date, with just 296,000 struck, many survive in Mint State, up to MS66 level, thanks to the release of government stored bags in the early 1970s.

This blast white, frosty, exceptionally lustrous SUPERB GEM clearly did not get all banged up in mint bag storage, and today looks as fresh, clean, and vibrant as the day it came off the dies. A satiny bloom glows in the fields and the sharply struck have a thick, white frost. Clean surfaces are essentially without flaw and the eye appeal is amazing.

PCGS 270, NGC 149, CAC 65. PCGS has graded 21 in 67+ and just five graded higher. One sold in September 2019, realizing 25,200 and prior to that, we sold one for \$28,200 in our May 2019 Regency Auction. The current Collectors Universe value is listed at \$27,500 and keep in mind that a 68 will cost over \$60,000. We anticipate strong bidding for this SUPERB GEM 81-CC, remember, just five are finer and good luck finding one!

**PCGS# 7126 | ESTIMATE: \$20,000+**

**LOT 466**  
**\$1 1881-O NGC MS66**

An incredibly lustrous GEM example of this conditionally rare date. Tied for FINEST graded at NGC, this blast white silver beauty looks like it just came off the dies.

Sharply struck with an intense, semi-reflective cartwheel luster. The devices are nice and thickly frosted with a very clean cheek. The eye appeal is exceptional, and we have looked the coin over and over looking for something that would preclude CAC-approval, and have come up short; we really do not understand why it did not bean!

PCGS 43, NGC 9. There are NONE FINER at NGC. The most recent example to sell brought \$6,600 in the 2018 FUN auction. Prior to that, one sold in April 2014 for \$7,638. The current Collectors Universe value is listed at \$7,500. If you are working on a high grade Morgan dollar collection, be sure to bid on this magnificent GEM.

**PCGS# 7128 | ESTIMATE: \$5,500+**

**LOT 467**  
**\$1 1881-S PCGS MS67 CAC**

Bold, intense cartwheel luster rolls smoothly across the surfaces of both sides. Both the obverse and reverse display a totally original blend of apricot and Caribbean blue, though the reverse has a much more vivid blend, which we rate an 8+ on our 10-point scale. If the reverse color was on the obverse, this SUPERB GEM would bring about \$2,000 or so. Regardless, this coin is worthy of a strong bid, as its eye appeal is high end.

**PCGS# 7130 | ESTIMATE: \$1,000+**

**LOT 468**  
**\$1 1882-CC PCGS MS67+ CAC**

WOW! What an amazing SUPERB GEM 82-CC! Did we say WOW? How about an OMG?! What a great coin, that is among the FINEST GRADED.

Exceptional quality everything. Really this is an ideal Carson City dollar. Frosty mint luster glows on both sides. The smoothness of the fields and the sharpness of the devices are very high end. Wonderful original toning caresses both sides, shades of golden-peach, with traces of pale blue and olive-tan. The devices are sharply struck, with just a touch of the most minute softness on the hair curls above Liberty's ear.

PCGS 109, NGC 60, CAC 27. PCGS has graded just 8 in MS67+ with just a single coin graded higher, which has not sold in auction since January 2004! The most recent PCGS/CAC MS67+ CAC sold in September 2019 for \$31,200. The current PCGS Price Guide value is listed at \$20,000. We know this one will bring a very strong bid when it crosses the block, and will be placed into a WORLD CLASS Morgan dollar collection. If you are looking to upgrade your set, bid on this colorful, high end SUPERB GEM that borders on sheer perfection!

**PCGS# 87134 | ESTIMATE: \$16,000+**

**LOT 469**  
**\$1 1882-CC PCGS MS65 DMPL CAC**

A true GEM in EVERY respect! Housed in an older blue tag holder.

Full deep 8" mirrors beam boldly from all over. The mirrors are incredibly clean (just a few trivial ticks can be found), sleek, crystal clear, and have a very strong reflection. This coin is completely untuned and has bold contrast. We assure you, this coin has not been dipped or messed with. Miss Liberty and the details are fully struck and have really thick frost. The eye appeal is great!

PCGS 400, NGC 135, CAC 48. The last PCGS CAC piece to sell in auction brought \$2,350 in February 2017. A NON CAC piece sold for \$2,080 in January 2019. As you all know we have been totally dry of all GEM DMPL's for the past 1-2 years. Don't pass up nice pieces like this when they are offered!

**PCGS# 97135 | ESTIMATE: \$1,750+**

**LOT 470**  
**\$1 1882-CC PCGS MS66 DMPL**

Wow! This is such a high end DMPL 82-CC! Even though, for some reason CAC did not bean this GEM, we absolutely adore the excellent, beaming mirrors and thickly frosted devices that have great contrast. Untuned and remarkably clean, this GEM has a great look.

PCGS 84, NGC 3, CAC 9. The current PCGS Price Guide value is listed at \$4,250 and these have been selling in the \$3,400-\$3,800 range without CAC approval. This HIGH END example should bring more. Keep in mind that we sold a PCGS 66+ DMPL CAC for nearly \$19,000 in May 2019. This GEM belongs in a great collection of DMPL Morgans, good luck!

**PCGS# 97135 | ESTIMATE: \$3,200+**

**LOT 471**  
**\$1 1882-S PCGS MS68 CAC**

This is a wonderful SUPERB GEM 1882-S.

Remarkable surfaces are as pristine as pristine can be. How often do you see any Morgans with virtually NO ticks anywhere? A full booming cartwheel luster vividly beams from all over. Both sides are a gorgeous original frosty white color. We have no reason to believe this coin has ever been dipped. Miss Liberty and the details are moderately frosted and have clear, crisp full strikes. The eye appeal is phenomenal!

PCGS 68, NGC 124, CAC 66. The most recent example that sold in auction realized \$6,900 in September 2019 and we sold one for nearly \$10,000 in our sale of the RanJack Collection in July 2018. The current Collectors Universe value is \$6,000 and keep in mind that only ten have graded finer, only one of which has ever sold in auction, bringing \$27,025 in our May 2019 Regency Auction. This is an exceptional coin, bid accordingly.

**PCGS# 7140 | ESTIMATE: \$5,500+**

**LOT 472**  
**\$1 1883-CC PCGS MS67+ CAC**

WOW! Look at this satiny, virtually perfect 83-CC. With just a half a dozen finer, this SUPERB GEM is tied for second HIGHEST graded at PCGS, and it has a great eye appeal.

Glowing, satiny mint luster blooms all over with lovely rolling cartwheels that accent the soft gold and blue dappled peripheral tone.

The surfaces are ultra clean and the devices are very nicely frosted, and there is just a touch of striking weakness in the central obverse

devices. The eye appeal is excellent and you will not be disappointed, even if you are the pickiest of Morgan dollar aficionados.

PCGS 284, NGC 140, CAC 90. There are 24 graded in MS67+ at PCGS and just a half dozen graded finer. The most recent example to sell in auction realized \$16,800 in September 2019, and the current PCGS Price Guide value is listed at \$12,500. With the CAC Price Guide value for a 68 with CAC approval at \$85,000/\$102,800 and a Collectors Universe value of \$75,000, this impressive SUPERB GEM is a great value and will fit into any great Morgan dollar set. Good luck!

**PCGS# 7144 | ESTIMATE: \$11,000+**

**LOT 473**  
**\$1 1883-S PCGS MS64 CAC**

This is quite the high end MS64 83-S! Brilliant and billowing cartwheel luster rolls across both sides of this impressive near-GEM. Flashy, somewhat reflective mint bloom glows throughout the untuned and brilliant silver surfaces, which are devoid of any singularly distracting marks or scuffs. Ms. Liberty and the eagle are both very nicely struck and frosty and her cheek is remarkably clean. Overshadowed by the 84-S, the 83-S is also an important condition rarity in the Morgan Dollar series, rarely found finer than the present MS64 grade, making this a great coin for collectors to add to their sets.

PCGS 460, NGC 240, CAC 97. The average APR for PCGS/CAC MS64s going back to August 2016 is \$4,845 and the current PCGS value is \$4,850. This high end example is worthy of a very strong bid.

**PCGS# 7148 | ESTIMATE: \$4,000+**

**LOT 474**  
**\$1 1884-O PCGS MS67**

An exceptionally lustrous and sharply struck 84-O. A date that is notoriously weak in strike and usually has a frosty/satin sheen. This lovely MS67 has a great look with a bold, cartwheel luster. Generally clean, with only a couple of very minor traces of contact are noted with a strong glass and are unobtrusive to the outstanding eye appeal.

PCGS 164, NGC 121. Extremely rare any finer, with just 14 graded higher. Collectors Universe value is listed at \$2,250 and non-CAC coins have been bringing on average about \$1,850, this one is well above average and we cannot see why CAC didn't endorse it. With CAC coins selling for \$3,000+ this one is a good value.

**PCGS# 7154 | ESTIMATE: \$2,500+**

**LOT 475**  
**\$1 1884-O PCGS MS66 DMPL CAC**

This is an exceptional GEM DMPL 84-O dollar. For the date, this coin has dramatically reflective, deep, flashy mirrors that beam a full 8" on both sides. They are ultra clear and sleek and contrast against the thickly frosted, crisply struck devices. A trace of minor contact does not detract from the outstanding DMPL eye appeal.

PCGS 64, NGC 10, CAC 15. The most recent example sold in October 2018 for \$5,640. Because of so many non-CAC examples bringing lower prices, the Collectors Universe value of

\$3,750 does not reflect the average APR for CAC-approved coins (nearly \$4,700). Just seven coins have ever graded higher, including a 66+ we sold for \$9,106 in May 2018 and a 67 in May 2019 that brought \$21,738. This high end, PQ GEM is worthy of a strong bid from the advanced collector.

**PCGS# 97155 | ESTIMATE: \$4,200+**

**LOT 476**  
**\$1 1884-O PCGS MS66+ DMPL**

Super reflective, deep beaming mirrored fields flash with at least 8 inches of depth. The sharply struck devices are snow-white and thickly frosty on both sides. There are a few tiny ticks on the cheek and in the fields which may be why CAC did not bear this wonderful DMPL GEM. The eye appeal is excellent.

PCGS 5, NGC 3. The current PCGS Price Guide value is listed at \$11,500. Just two are graded numerically higher, a 67 that we sold in May 2019 for \$21,738 and a 68 DMPL that has not been seen in nearly 15 years. This is an outstanding opportunity for the advanced Morgan dollar collector. This coin will see very strong bidding when it crosses the block.

**PCGS# 97155 | ESTIMATE: \$8,000+**

**LOT 477**  
**\$1 1884-S PCGS MS61**

Here is a brilliant, truly Mint State example of this KEY conditionally RARE issue. Nicely impressed design elements are frosty and show no signs of wear or circulation. The surfaces are moderately abraded which accounts for the assigned grade, but there are no singularly distracting marks. A radiating cartwheel luster blooms on both sides, accenting a light dusting of the clearest gold patina. While not CAC approved, this pleasing coin will certainly fit in nicely to any Mint State collection.

PCGS 113, NGC 201. The average APR for the last 10 PCGS-graded examples, realized \$11,075 and the current PCGS Price Guide value is listed at \$14,500. This is among the toughest dates in Mint State, this could be your coin if you are still looking an 84-S, bid on this one.

**PCGS# 7156 | ESTIMATE: \$10,000+**

**LOT 478**  
**\$1 1885 PCGS MS67+ CAC**

With just four coins graded higher, this beautiful, SUPERB GEM 1885 Morgan ranks among the absolute FINEST graded by PCGS.

Intensely lustrous, blast white silver surfaces show off well struck devices that have a very pleasing silver white frost. The fields are pristine in every way and the eye appeal is outstanding!

PCGS 209, NGC 314, CAC 103. There are 31 graded MS67+ with only four coins finer. The most recent sold for \$6,300 in September 2019 and we sold the RanJack Collection coin for \$5,875. Collectors Universe lists a \$6,000 value and this high end example should bring a very strong bid for its great eye appeal.

**PCGS# 7158 | ESTIMATE: \$5,000+**

**LOT 479**  
**\$1 1885 PCGS MS66+ DMPL CAC**

WOW! This is an ultra reflective borderline SUPERB DMPL dollar! The quality is so impressive, and with just a single MS67 DMPL graded higher at PCGS, this is a real prize for the collector who demands high end quality! The surfaces are clean and wonderfully preserved with a distinctive deep Prooflike reflection in the bold, brilliant luster. The mirrored fields have a fantastic clarity and cleanliness, even with a strong glass, we fail to find anything but the most minute break or two in the frost. The visual allure is stunning!

PCGS 112, NGC 54, CAC 33. There are just 10 graded MS66+ DMPL at PCGS and the most recent example sold in our September 2019 Regency Auction for \$4,348, and prior to that we sold one in our June 2019 sale for \$4,465. This coin with its great look will bring a strong price and the current PCGS Price Guide value is listed at \$7,300. Just a single example is graded higher, which has never been sold in auction and is not CAC, so if you are building a top ranking set with all CAC coins, this is a high a grade as you will find! We see strong bidding here.

**PCGS# 97159 | ESTIMATE: \$4,000+**

**LOT 480**  
**\$1 1885-CC PCGS MS66 DMPL CAC**

Our sister company, Legend Numismatics has a long history with DMPL Morgans. So between them and us, we know what a killer DMPL should look like, and this coin blows away many of the other MS66 DMPL's (including the one just sold at an ANA auction). The quality is VERY HIGH END!

Intense mirrors are at least 8"+++ and beam boldly from all over. Just a few very tiny scattered ticks can

be seen. When you twirl this coin the mirrors look like a freshly made sheet of glass. You can even brush your teeth using these mirrors! A light band of pale russet frames some of the rims on both sides. Overall this coin's a full black and white bold contrasted piece. Miss Liberty and the details are fully struck and of course have thick frost. The eye appeal is jaw dropping!

PCGS 47, NGC 20, CAC 17. To us it really does not matter what other 1885-CC's have sold for. You do NOT pay bid or buy a coin like this cheaply. The current Collectors Universe Value is coin is \$12,000. We can see that being changed after this coin sells. Even if you are a very picky DMPL collector, this GEM will more then impress you! Seeing is believing! Good luck!

**PCGS# 97161 | ESTIMATE: \$10,000+**

**LOT 481**  
**\$1 1887 PCGS MS67+ CAC**

Incredible high end quality, both in terms of technical quality and eye appeal. Boldly lustrous and well struck, this essentially untuned SUPERB GEM ranks as one of the FINEST graded for the date. Though common in all grades to MS67, the 1887 is remarkably rare in MS67+ and is UNIQUE in MS68, even after 33+ years of coin grading.

This coin has a bold cartwheel luster that enhances the satiny surfaces. The fields are icy smooth

and the devices are nicely impressed and frosty, offering a high quality, problem free look.

PCGS 207, NGC 357, CAC 77. There are 20 graded MS67+ by PCGS. We sold the most recent example for \$6,463 in our May 2019 Regency Auction and prior to that, one sold for \$6,600. The current PCGS value is listed at \$7,500. Keep in mind that the SINGLE PCGS MS68 has not been sold since March 2009! Good luck!

**PCGS# 7172 | ESTIMATE: \$6,000+**

**LOT 482**  
**\$1 1887 PCGS MS66+ DMPL CAC**

Our sister firm, among other areas, has always specialized in DMPL Morgans, in fact, years ago, when the late, great Jack Lee was selling his DMPL collection, he selected Legend Numismatics to handle the deal. So we all know our stuff about DMPL's! All these years later, LRCA is proud to offer this 1887, the single FINEST DMPL graded at either service.

Deeply reflective, highly polished fields have bold, clear mirrors that

beam from all over. The sharply struck devices stand out dramatically with a wonderful, thick frost. While the mintage was high, with over 20 million struck, relatively few were struck from the early, polished state of the dies with this level of contrast and depth to the mirrors. There are some tiny traces of contact, nothing that affects the stunning visual allure!

PCGS 42, NGC 16, CAC 5. This is the ONLY MS66+ DMPL graded at either service, and it is VERY high end. None are graded finer. The current PCGS Price Guide value is listed at \$7,500. A coin that is worthy of the GREATEST collection of DMPL Morgans, and one that will likely see bidding exceed any previous records! Good luck.

**PCGS# 97173 | ESTIMATE: \$7,500+**

**LOT 483**  
**\$1 1889 PCGS MS66+ CAC**

Here is a totally original and high quality 1889 Morgan dollar. Satiny luster glows wonderfully on both sides. The pearly iridescent toning with a narrow band of iridescent teal-blue and gold along the left periphery. The reverse is evenly bathed in cobalt blue which gives this sharply struck SUPERB GEM a great look!

PCGS 499, NGC 194, CAC 115. PCGS has graded 63 in MS66+ and just eight graded finer. Two examples sold in September 2019 for \$2,640 and \$2,411 and we sold one in May 2019 for

\$3,878. The current PCGS value is \$3,000 and the value jumps to \$23,500, making this a great choice for any collection.

**PCGS# 8952 | ESTIMATE: \$2,500+**

**LOT 484**  
**\$1 1889-O PCGS MS65+ PL CAC**

Despite a mintage of nearly 12 million pieces, the 89-O is a rare date in GEM Mint State, especially so with any kind of Prooflike reflection. Blazingly lustrous surfaces gleam with a flashy reflective brilliance on both sides. The devices are sharply struck and nicely frosted, especially the cheek, which is remarkably clean and smooth. There are no breaks in the frost and there is just the barest trace of any kind of contact anywhere to be found. This is the epitome of what a GEM PL should look like.

PCGS 10, NGC 3, CAC 4. This is the only 65+ in the PL designation and there is just a single coin finer. Neither have sold in auction. The last regular MS65 PL sold in auction over a dozen years ago, making its price realized irrelevant. The current PCGS Price Guide value is listed at \$9,600. A non-PL with CAC approval in MS65+ sold in September 2019 for \$7,200. This PL GEM is worthy of a very strong bid.

**PCGS# 7193 | ESTIMATE: \$8,000+**

**LOT 485**  
**\$1 1890-CC PCGS MS65+ CAC**

The 1890-CC dollar is quite rare in GEM, with fewer than 500 graded in MS65 or finer at PCGS. In MS65+, PCGS reports 51 graded, (though that likely includes multiple duplicate submissions hoping to make a 66). In MS66 PCGS the 90-CC is a major Morgan dollar rarity, with a mere 20 graded total in over 32 years of grading operations! This is a brilliant GEM! Blast white, this impressive, high end example has a thick mint frost that is amplified by a vivid rolling cartwheel luster. Sharply struck up, the devices stand out boldly against smooth surfaces.

PCGS 435, NGC 78, CAC 53. PCGS has graded 51 in 65+ and 20 in 66. There have been 10 PCGS/CAC MS65+s sold in auction, the most recent bringing \$9,600 in September 2019. We sold two: one in December 2017 Regency Auction for \$9,400 and one in December 2016 for \$9,988. The current PCGS Price Guide value is listed at \$9,700 and we know this impressive coin will join their ranks. We sold a non-CAC MS66 in May 2019 for \$30,550, so this CAC-approved MS65+ is an incredible value for the advanced Morgan collector, who does not want to break the bank for a marginally finer piece.

**PCGS# 7198 | ESTIMATE: \$7,000+**

**LOT 486**  
**\$1 1891 PCGS MS65**

A wonderfully toned and totally original example of this date that rarely comes with any kind of color. Some softness is seen, as usual in the central devices, but the definition is generally bold and the surfaces clean. The olive and azure hues are brought out by a GEM luster, imparting a great look.

PCGS 245, NGC 107. Extremely RARE any finer. The current PCGS Price Guide value is listed at \$2,500 and with its eye appeal it could well bring more than that. Bound for a nice set of toned Morgans.

**PCGS# 7204 | ESTIMATE: \$2,500+**

**LOT 487**  
**\$1 1891-CC VAM-3. SPITTING EAGLE. PCGS MS66**

This is a very rare grade for the 91-CC dollar. What makes this coin even rarer is that it is wonderfully toned and totally original. The eye appeal is really cool!

The VAM-3 is easily identified by a tiny die chip in the field below the eagle's beak.

Both sides are awash in blue and amber-rose toning that gives this coin a great look. Displaying the typical

bluntness in the central obverse, the eye appeal of this GEM is great.

PCGS 40, NGC 10. Just 8 coins are graded finer. The most recent example to sell in auction realized \$16,800 in March 2019, and recently they have sold for as much as \$19,200. The current PCGS Price Guide value is listed at \$21,500. This coin is very rare any finer., and becomes very pricey any higher. Worthy of a very strong bid. The 91-CC is quite rare with any color and this one will attract strong bidding.

**PCGS# 7206 | ESTIMATE: \$14,000+**

**LOT 488**  
**\$1 1892-CC PCGS MS65**

A strong satiny mint frost is brought out by a light on both sides of this impressive GEM quality 92-CC. Virtually untoned silver surfaces show a sharp strike on both Ms. Liberty and the eagle, which both show a thick frosty texture. The eye appeal is excellent, we are not sure what CAC saw that prevented a bean.

PCGS 415, NGC 167, CAC 73. The most recent PCGS-graded example brought \$5,040 in the 2019 ANA auction and one sold in July 2019 for \$4,811. The current PCGS Price Guide value is listed at \$6,000. RARE any finer, only 97 have graded finer, and there has to be duplication in those figures, as most are MS65+. This is a pleasing GEM worthy of a great set.

**PCGS# 7214 | ESTIMATE: \$4,200+**

**LOT 489**  
**\$1 1893 PCGS MS65+ CAC**

This gorgeous GEM is from our sale of the RanJack Collection, where it was described as:

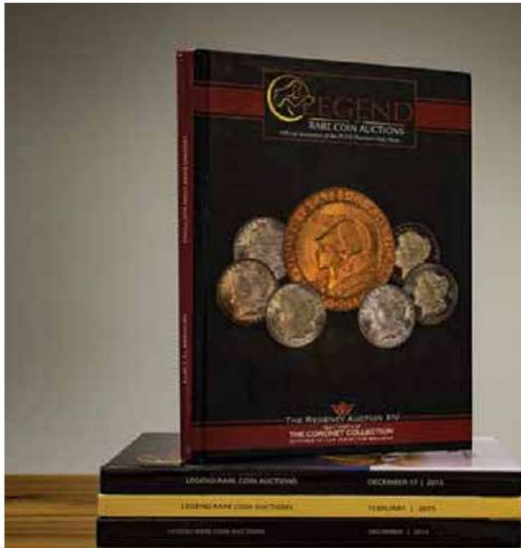

"A REAL GEM! And a beautiful one at that! What a great coin, among the FINEST graded, and boasting an amazing look! Everything about this coin is HIGH END.

A strong glowing luster shines with a vivid brilliance on both sides. Very well struck devices stand out against the satin

smooth surfaces. A delicate dusting of pearly-gold iridescent toning graces the surfaces, which are free of any marks or ticks. As you would expect, the eye appeal is excellent."

PCGS 284, NGC 86, CAC 44. There are just 29 in MS65+ and six finer. This coin brought nearly \$10,000 in our RanJack Collection sale, July 2018 and the current PCGS value is listed at \$9,750. Keep in mind a 66 will cost close to \$50,000 if you can find one! This high end example will fit nicely in any world class set.

**PCGS# 7220 | ESTIMATE: \$8,000+**

**BOB SIMPSON, DAVID HALL, GERALD FORSYTHE AND PHIL FLANNAGAN HAVE ALL CONSIGNED TO LRCA, WHY HAVEN'T YOU?**

**CONTACT JULIE ABRAMS, GREG COHEN OR JESSICA BERKMAN TO DISCUSS YOUR COINS!**

**LOT 490**

**\$1 1893-CC PCGS MS64+ CAC**

This 93-CC is an eye popper that really is all there and then some; it really does border MS65!

Both sides are clean and sleek, which is not easy to find. Only with a strong glass can you find a few ticks and light scuffs (nothing major). We'd bet anything in the old days before PCGS this coin would have been called a GEM. A strong, rolling cartwheel luster shows off totally original white, undipped surfaces. Miss Liberty and the details are extremely well struck and frosty. Her cheek is amazingly clean and smooth. The eye appeal is fantastic!

The final issue from the Carson City mint saw a mintage of 677,000 which the vast majority of it went right into circulation. VERY RARE any finer.

PCGS 633, NGC 217, CAC 70. There are 45 graded MS64+. While the most recent example sold for \$30,000, prior to that, these were selling between \$35,000 and \$38,500 and the current PCGS value is \$40,000. This coin, with its great eye appeal sold for \$35,250 in our March 2019 Regency Auction and will sell for a similar high price today. It is worthy of a GREAT set of Morgans.

**PCGS# 7222 | ESTIMATE: \$28,000+**

**LOT 491**  
**\$1 1894 PCGS MS64+ CAC**

Boasting the second lowest mintage of the series, just 110,000 were minted (just 10,000 more than the 93-S). Unlike the 93-S a number in Mint State have survived for collectors, but the higher you go up the grading scale, the rarer they become. In MS64+ and finer grades, this date is indeed quite rare.

Beautiful satiny luster radiates with a frosty white brilliance.

Well struck there is just the slightest touch of chatter noted that keeps this high end example out of a MS65 holder.

PCGS 308, NGC 129, CAC 52. There are only 28 graded MS64+ at PCGS. The current PCGS value is listed at \$12,000 and the last two examples sold for over \$11,200. There are 3 dozen graded finer, and a PCGS/CAC coin is worth more than \$30,000! This great coin will delight any Morgan dollar collector looking to upgrade their set.

**PCGS# 7228 | ESTIMATE: \$10,000+**

**LOT 492**  
**\$1 1894-O PCGS MS64 CAC**

This is a boldly lustrous and exceptionally high end quality example of this semi-key date.

In close to GEM grades as here, this is indeed a quite a rare date. The lustrous surfaces are an intense, beaming, glowing cartwheel bloom with a pleasing shimmering vibrance. The details are well struck and have a definition that shows most of the design elements to their fullest execution. A couple of minor traces of contact are seen,

none of which are in the prime focal areas and the cheek is exceptionally clean for the grade. This is a high end coin that has a strong eye appeal, with an initial look of a full GEM coin.

PCGS 369, NGC 236, CAC 73. The most recent PCGS/CAC example sold in our June 2019 Regency Auction for \$9,400 and prior to that we sold one for \$9,106 in our January 2019 Regency Auction. Rare in higher grades, anything finer will be a five figure coin. This is a great looking coin that gives you the eye appeal of a GEM without the price tag.

**PCGS# 7230 | ESTIMATE: \$7,500+**

**LOT 493**  
**\$1 1896 PCGS MS67 CAC**

A vibrant example! Especially satiny and lustrous, this untuned SUPERB GEM has a strong strike and frosty devices that really captivate the eye. Truly a great coin for the collector of hand selected, high end Morgans.

PCGS 247, NGC 68, CAC 85. A similar looking example recently sold for \$2,640 in July 2018 and we sold another for \$2,585 in our May 2018 sale of the PFM collection. CAC coins are valued well above non-CAC coins, with the current CDN/CAC Bid/Ask listed at \$2,400/\$3,000, while the current Collectors Universe value is listed at \$1,500. RARE any finer with 36 in 67+ and two in 68 graded higher.

**PCGS# 7240 | ESTIMATE: \$2,000+**

**LOT 494**  
**\$1 1896 PCGS MS67+ CAC**

Among the very finest graded and well preserved SUPERB GEMS. A smooth, glorious mint frost has a bold satiny glow on both sides. Sharply struck up devices are very bold. Peach and iridescent pastel tones can be seen on the periphery on both sides, adding to the excellent eye appeal.

PCGS 283, NGC 70, CAC 55. PCGS has graded 36 in 67+ and a mere 2 finer. The most recent example that we sold realized \$4,583 in our September 2019 Regency Auction. The current PCGS value is listed at \$5,500. Keep in mind neither of the MS68s have ever sold in auction and PCGS estimates them to be worth \$25,000. This is a great coin for any one working on a great Registry Set of Morgans. Good luck!

**PCGS# 7240 | ESTIMATE: \$4,000+**

**LOT 495**  
**\$1 1896-O PCGS MS63+**

The Morgan dollar series, as ubiquitous as a type as it may be, contains some major condition rarities; dates that are common in low grade, but are VERY RARE in Mint State. Among these Mint State stoppers is the 1896-O, which despite a 4.9 million mintage, fewer than three bags worth have thus far been graded in ALL Mint State grades between PCGS and NGC COMBINED!

Clearly, the majority either disappeared into circulation, or into the furnace after the passage of the Pittman Act in 1918.

This CHOICE example has lovely original toning on both sides, suggestive of long term album or envelope storage in some old time collection. The obverse center is a delicate peach-gold, which deepens to light teal and dappled gold. The reverse is haloed by a subtle, narrow band of rainbow toning. For the date, the devices are very well struck up, with nearly complete definition over Liberty's ear. Sure, there are the grade limiting traces of contact, most obscured by the toning, thus not affecting the excellent eye appeal.

PCGS 28, NGC 3. VERY RARE any finer. This is the highest grade that most collectors will be able to afford, in MS64, the value is well into the \$30,000+ range. By comparison, this MS63+ has a Collectors Universe value of \$10,000 and in the last four years, just three other examples have sold in auction, bringing between \$7,800 and \$9,106. We think this one has a strong shot at bringing a strong price. Good luck!

**PCGS# 7242 | ESTIMATE: \$7,000+**

**LOT 496**  
**\$1 1896-O PCGS MS63+ CAC**

A classic, old time look on both sides of this important condition rarity. Very few survive in such high a grade and very rare in this state of preservation.

VERY CHOICE quality surfaces show very few traces of contact anywhere, even the cheek is very clean and problem free. A delicate dusting of clear gold graces both sides of this excellent 96-O Morgan. Well struck for the date the present example is very high end for the assigned grade and has an exceptional eye appeal.

PCGS 354, NGC 143, CAC 20. There are 31 graded MS63+ at PCGS and just 34 are graded finer. The only PCGS MS63+ CAC sold in auction in September 2019 for \$9,300. Keep in mind that a 64 with CAC approval will cost around \$50,000, if you can find one! this MS63+ is a great looking coin with a strong eye appeal. Good luck.

**PCGS# 7242 | ESTIMATE: \$8,000+**

**LOT 497**  
**\$1 1897-S PCGS MS66+ CAC**

EX ARIZONA COLLECTION, as noted on the holder.

A glorious GEM with a very bold brilliance that consists of a strong cartwheel bloom and semi-reflective surfaces. Sharply struck, frosty devices show off nice definition and pleasingly smooth surfaces. Blazing white silver surfaces blaze all over, with just the slightest hint of the faintest of gold that accents the periphery. The surfaces are exceptionally clean for the grade. Scarce so fine, and rare finer, this is a great example with an exceptional eye appeal.

PCGS 411, NGC 123, CAC 96. PCGS has graded 58 in MS66+. There are fewer than three dozen graded finer. While the most recent example sold for \$1,740, the average APR for a PCGS/CAC MS66+ is nearly \$2,400 and the current PCGS Price Guide value is listed at \$2,700. The most recent example in one of our auctions brought \$3,055 in January 2019. Keep in mind a PCGS/CAC MS67 will cost \$7,000+ if you can find one. Seems like a great value play here! Good luck.

**PCGS# 7250 | ESTIMATE: \$2,000+**

**LOT 498**  
**\$1 1897-S PCGS MS67**

Conditionally very rare this fine, and extremely rare any higher. A frosty and very lustrous coin that is of exceptional quality. Well struck and pleasing, this blast white SUPERB coin shows just a few tiny ticks that keep it from attaining a CAC bean. The eye appeal is quite nice.

PCGS 31, NGC 13. The last one to sell realized \$7,200 and the current PCGS value is listed at \$7,000. Worthy of a high grade Registry Set. Just four are graded finer and they carry with them \$20,000+ price tags.

**PCGS# 7250 | ESTIMATE: \$6,500+**

**LOT 499**  
**\$1 1898-O PCGS MS67+ CAC**

WOW! We have offered some of these tied for FINEST 98-O Morgan dollars, and this one is of exceptional quality within that subset!

Everything about it is excellent, and clearly worthy of its lofty grade! The cartwheel luster has a vibrant satiny glow that accents the smooth, problem free surfaces are fully frosted. The impeccably struck devices are razor sharp and stand out and are the epitome of cleanliness and flawlessness.

This magnificent coin will delight any demanding collector looking to build the BEST quality Morgan dollar set.

PCGS 340, NGC 188, CAC 127. There are 34 graded MS67+ at PCGS and NONE FINER. Dating back to December 2015, we have sold eight examples, all with CAC approval, ranging from \$7,638 to \$12,338 (the average APR for these 8 is \$10,291) and the current PCGS Price Guide value is listed at \$9,500. We expect this magnificent brilliant GEM will bring a very strong price.

**PCGS# 7254 | ESTIMATE: \$7,000+**

**LOT 500**  
**\$1 1898-O PCGS MS66 DMPL**

This is a very impressive 98-O DMPL Morgan dollar. A GEM of the first order, we really do like the look, and it is the real deal! The fields have full 8" reflection. The cheek is incredibly smooth, like a baby's bottom! The devices are sharply struck and nicely frosted, creating a lovely contrast on both sides. A touch of peripheral toning adds to the eye appeal on the reverse, and if it weren't for a tiny tick on the reverse, this coin would likely have gotten CAC endorsement. The eye appeal is high end for sure.

PCGS 49, NGC 10. The current PCGS Price Guide value is listed at \$3,500 and the average APR for the last 10 non-CAC PCGS coins (which go back well over a decade) is \$2,359. We suspect that this one will sell for more in today's market.

**PCGS# 97255 | ESTIMATE: \$2,000+**

**LOT 501**  
**\$1 1899 PCGS MS66 CAC**

Here is a sharply struck, brilliantly lustrous, wonderfully untuned PQ GEM example of this lower mintage date. Only 330,000 were struck and they are scarce in such a lofty Mint State grade. Very pleasing, the surfaces are clean with no imperfections of any kind worthy of mention and the eye appeal is excellent.

PCGS 329, NGC 75, CAC 98. The average PCGS/CAC example in the last four years brought \$2,279 and the current PCGS value is listed at \$2,150. RARE finer, only 87 have graded higher.

**PCGS# 7258 | ESTIMATE: \$2,000+**

**LOT 502**  
**\$1 1899-O PCGS MS67+ CAC**

Sheer, satiny perfection! This coin is the definition of pristine and it boggles our minds that it can survive in such a high end and lofty state of preservation.

A bold, vibrant mint luster is the epitome of shimmering, flawless brilliance. Essentially mint fresh, this coin is as stunning today, as it was 120 years ago when it came off the dies. Nicely struck for a New Orleans issue, with crisp, nearly complete definition at the central

portion of the devices, which are often flat. This is a totally lovely SUPERB GEM that is among the very finest graded with just a single MS68 graded finer.

PCGS 216, NGC 117, CAC 82. PCGS has graded 27 in MS67+. The two most recent examples to sell in our sales were sold in our May and June 2019 Regency Auctions realizing \$13,513 and \$9,694 respectively and the current PCGS Price Guide value is listed at \$12,000. The single MS68 has not sold in auction in over a decade, realizing nearly \$30,000, making this a real value play for the collector who demands Premium Quality all the way!

**PCGS# 7260 | ESTIMATE: \$8,000+**

**LOT 503**  
**\$1 1899-O PCGS MS66 DMPL CAC**

EX LEVI RANCH COLLECTION, as noted on the holder.

A real blazer! Intensely brilliant cartwheel luster that swirls all over. Flashy, deeply reflective mirrors beam from all over, surrounding sharply struck, frosty devices. The surfaces are ultra clean and offer a great contrast. The eye appeal is exquisite.

PCGS 18, NGC 5, CAC 5. EXTREMELY RARE any finer. Two PCGS MS66 DCAM CAC coins have sold in auction, the most recent in the 2019 ANA auction for \$9,300. Just four coins are graded any higher, none have appeared in auction for over a decade. Good luck!

**PCGS# 97261 | ESTIMATE: \$7,000+**

**LOT 504**  
**\$1 1900-O/CC PCGS MS66+ CAC**

A very high end example of this important over mintmark variety.

Remarkable surfaces are as clean and smooth as you will see on ANY Morgan. Even when using a strong glass, you will only find a microscopic tick - even after really searching. The texture of the surfaces is satiny smooth. A strong luster illuminates the totally original, slightly off-white/ pale-golden hued surfaces. Miss Liberty and every detail are well struck. You can

clearly see the over mintmark without a glass. The eye appeal is fabulous! A very popular variety in the Morgan series, where an old reverse die, originally prepared for use at the closed mint in Carson City, had the "CC" mintmark partially removed, then the New Orleans "O" punched over.

PCGS 183, NGC 11, CAC 51. Just 18 MS66+s have graded finer. The most recent example to sell in auction brought \$8,813 in our September 2019 Regency Auction, and prior to that there are two APRs for over \$10,000 earlier this year. The current PCGS Price Guide value is \$12,500. There are just two graded finer, one in MS67 and one in MS67+. This coin is worthy of being in that company as among the FINEST known!

**PCGS# 7268 | ESTIMATE: \$7,500+**

**LOT 505**  
**\$1 1901 PCGS MS62**

The 1901 Morgan dollar is a major condition rarity and is a date that is seldom found in any Mint State grade. The presently presented coin is a borderline CHOICE coin, indeed if it were raw, it would have likely have been described as such. A pearly-satin sheen accents both sides, which are nicely struck and the surfaces are generally clean and free of any distracting marks and the eye appeal is quite nice for the grade.

PCGS 353, NGC 210. The most recent example to sell in auction brought \$3,480 in September 2019; prior to that one sold for \$5,520 in April 2019. The current PCGS value is \$5,000. Very scarce finer, and it becomes prohibitively rare in MS63+ and better.

**PCGS# 7272 | ESTIMATE: \$3,600+**

**LOT 506**  
**\$1 1901 PCGS MS64**

What a great coin! While the mintage of nearly seven million would suggest common date status, it is the RAREST Philadelphia mint date struck for circulation in Mint State. This borderline GEM ranks among the top three dozen examples that have been graded by PCGS, with just three coins graded higher.

First off, this coin is very high quality, we see no reason for CAC not awarding it a green sticker. If it were any other date, it likely would have gotten the coveted bean. Bold mint luster rolls smoothly along both sides of this brilliant white Morgan dollar. The devices are sharply struck with full definition to Liberty's hair curls and the eagle's feathers. A couple of very minor, scattered ticks are the only marks seen, and are fully acceptable by the assigned grade. We have seen MS65s of common dates that are not as clean as the present coin. Its status as a major condition rarity makes this a very important coin, a serious highlight of our Regency Auction.

PCGS 33, NGC 17. The most recent non-CAC PCGS graded example to sell in auction brought \$55,200 in the 2018 FUN auction and the current PCGS Price Guide value is listed at \$60,000. PCGS has graded 2 in MS65 and a single coin (the Jack Lee-Coronet-Illinois Collection) as MS66. Anything finer than the present gem will cost well into the six figures: PCGS value in 65 is \$300,000 and the MS66 sold for a record \$587,500 in our October 2015 Regency Auction. This is a real prize and major opportunity for any advanced Morgan dollar collector, a coin that will see intense bidding from anyone looking to upgrade their set. Don't let this opportunity pass you by!

**PCGS# 7272 | ESTIMATE: \$45,000+**

**LOT 507**  
**\$1 1902-S PCGS MS65+ CAC**

A gloriously lustrous example of this conditionally very scarce date. Wonderful, brilliantly swirling cartwheel luster that rolls all over brings a vibrance to the smooth surfaces. Sharply struck on both sides, the cheek is clean and high end quality for the grade, which is a delight for the collector. There is a tiny toning dot on the wing, which will always identify it, but it does not detract from the outstanding eye appeal.

PCGS 408, NGC 107, CAC 47. There are 16 graded MS65+ at PCGS and none have sold in auction in five years! The current PCGS Price Guide value is listed at \$3,250. Keep in mind that if you can find one, a PCGS MS66 CAC would cost \$7,000+. Good luck!

**PCGS# 7282 | ESTIMATE: \$2,800+**

**LOT 508**  
**\$1 1902-S PCGS MS66+ CAC**

This is truly a magnificent SUPERB GEM. We love the look of this totally original, lustrous beauty. It is very high end and ultra eye appealing.

Anyone collecting Morgan dollars knows how difficult this semi-key date is to find in GEM grades. Despite a large number released from Treasury vaults from the 1920s to 1950s, the average Mint State coin tends to be on the lower side of the scale, GEMS like the one offered here are indeed quite rare and this coin ranks among the top 15 examples graded by PCGS!

Brilliant, bold, vivid cartwheel luster rolls undisturbed across extremely clean and smooth surfaces. Displaying the typical, somewhat softly struck central devices, otherwise the strike is bold. This piece does not show the die striations that often plague the date, but there are some swirling die polish lines noted on the reverse. A few light ticks are seen on both sides, but none are especially distracting or have any impact on the outstanding eye appeal of this very pretty and awesome high grade 02-S.

PCGS 62, NGC 7, CAC 15. PCGS has graded 10 in MS66+ with just five graded higher. The most recent PCGS/CAC example sold in September 2019 for \$26,400 and the current PCGS Price Guide value is listed at \$25,000. There are just five coins finer. We sold the two most recent of those: a 67 for \$52,875 and a 67+ for just shy of \$100,000. This exceptional coin will see stiff bidding competition and will bring a very strong bid from the specialist when the hammer falls.

**PCGS# 7282 | ESTIMATE: \$20,000+**

**LOT 509**  
**\$1 1904 PCGS MS65 CAC**

Fantastic surfaces for the grade and is essentially fully white. Far nicer than usually encountered for the date and a true condition rarity this nice; downright RARE any finer!

PCGS 380, NGC 110, CAC 56. The average PCGS MS65 CAC to sell in auction in the last five years is nearly \$2,200 and the current PCGS value is listed at only \$1,600. There are 76 graded finer, mostly MS65+ and MS66, and they are appreciably pricier in higher grades.

**PCGS# 7290 | ESTIMATE: \$1,600+**

**LOT 510**  
**\$1 1880 PCGS PR67+ CAC**

This gorgeous SUPERB GEM Proof is was sold in our November 2018 Regency Auction, and as soon as it was reconsigned we recognized our friend, Blue Velvet!

The surfaces are deeply toned in a symphony of blues and greens that are brought out by the bold, flashy, watery mirrored fields. Clearly the rich toning, which is suffused with rose and salmon-orange is a real treat to behold. The eye appeal is simply stunning! Needless to say, this coin ranks among the very **FINEST** of the date.

PCGS 23, NGC 28, CAC 8. There are currently 4 graded at PCGS as PR67+ and just four finer. This remarkable coin sold in our November 2018 Regency Auction for \$18,213. The current Collectors Universe value is listed at \$22,500 and keep in mind that a PR68 CAC sold for \$38,188 in May 2015. This SUPERB GEM is worthy of a great Proof Morgan dollar collection and will be right at home in any high ranking set.

**PCGS# 7315 | ESTIMATE: \$16,000+**

**LOT 511**  
**\$1 1921 CHAPMAN. PCGS PR67**

LRCA is very proud to offer this SUPERB Chapman Proof 1921 Morgan dollar. Not only is it an extremely RARE issue, but it is the SOLE FINEST graded at either PCGS or NGC. Not only is it the finest graded, we pronounce it to be the FINEST KNOWN in existence.

Full proof mirrors beam endlessly from all over. The mirrors enjoy great clarity and cleanliness. In fact the only mark we can find is on the holder. All the die polishing marks are as light as we have ever seen (you really need a strong glass to see them). The contrast on this coin is amazing and here too we don't see why it is not called cameo. Miss Liberty and every detail are sharply struck. These features also have silvery white frost. The eye appeal is amazing, and your jaw will drop and lock! DO NOT let the lack of a CAC bean give you any pause, this coin is all there and then some! Legend Numismatics and Legend Rare Coin Auctions are proud to have accepted this MONSTER Chapman Proof for auction, we would not have if we didn't think the quality was all there!

It is estimated only 40 were minted by special request by the Chapman Brothers, coin dealers in Philadelphia in the late 1800s and early 1900s. Like Farran Zerbe, who also had specially issued Morgan dollars in 1921, they had connections in the Philadelphia mint, and they were obliged. The Chapman Proofs look more like the Proofs that were struck in 1878-1904, while the Zerbe Proofs (which are more "common" have more of a "Specimen" finish.

PCGS 1, NGC 0. This coin was last sold in our November 2018 Regency Auction for \$229,125, a world record for a Chapman Proof and the current PCGS Price Guide value is listed at \$275,000. Let this be your capstone to any world class cabinet of Proof Morgan dollars. We expect bidding to be intense (like this SUPERB GEM's mirrors), and a new record to break when the hammer falls.

**PCGS# 7342 | ESTIMATE: \$200,000+**

A lovely GEM 1921 Peace dollar. Well struck up with nicely detailed design elements. Bold satiny luster graces both sides, with a dusting of pastel opalescent toning. With the aid of a very powerful glass, we note a few tiny scuffs hidden in the eagle's wing.

PCGS 1564, NGC 1244, CAC 263. There are 61 graded MS65+ and we sold the last two PCGS/CAC examples in auction; one in June 2019 for \$3,290 and the other in our September 2019 sale for \$3,408. The current PCGS Price Guide value is listed at \$3,250. Keep in mind that a

## NOTES

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

**LOT 513**

**\$1 1921 PEACE. HIGH RELIEF. PCGS MS66+ CAC**

Legend Rare Coin Auctions is proud to offer this very high end GEM 1921 Peace dollar. Easily among the top 10 FINEST PGCs-graded examples.

The high relief details of Anthony DeFrancisci's classic design stand out in a dramatic, sculpted way with full 3D effect. The fields are exceptionally clean and satiny with a warm, ember-like glow. Delicate peach and gold mingle with the pearlescent sheen to the silver brilliance. A strong glass reveals a couple of stray ticks, which are mostly hidden among the devices, none of which detract from the SUPERB eye appeal.

After the end of World War I, the mint wanted to strike a commemorative to celebrate Peace. Various artists were invited to submit designs, and late in the year, over a million high relief Peace dollars were struck. While available up to and including MS65 grades, it becomes quite scarce in MS66 and EXTREMELY RARE any finer. There are 10 coins at PGCs that grade MS66+ or MS67 listed on the Population Report.

PCGS 197, NGC 135, CAC 40. There are just four graded MS66+ at PGCs and only one of these has sold previously, realizing \$31,200 in the 2019 ANA auction. The current PGCs Price Guide value is listed at \$32,500 and keep in mind that just half dozen are graded higher--and any MS67 will cost into the six figures today. This is an amazing opportunity for any Peace dollar collector. If you are looking for a new set to build, take a look at this 24-piece set, and start it with this one!

**PCGS# 8953 | ESTIMATE: \$25,000+**

**LOT 514**  
**\$1 1922 PCGS MS62 CAC**

And now for something completely different! This is a MONSTER toned Peace dollar, arguably one of the most intensely toned Peace dollars we have ever had the pleasure of handling. The toning, which is most pronounced on the reverse is stunning, we rate it a 10 on our 10-point scale. Let us also be clear, if the toning was on the obverse, this could have been a \$5,000+ coin! Every color, the full rainbow spectrum, is represented on this vibrant beauty. The emerald green, bright magenta, soft gold, and impressive blue colors are exquisite! The obverse is also nicely toned, with lovely blue and gold tones that are slightly more subdued, but nonetheless quite attractive. Though we make no guarantees, we judge this coin to be better than an MS62; we have seen higher grade coins that had much more contact than this beauty.

This coin will see record bidding; it is truly a special, totally unique coin that will appeal to a very wide range of collectors, and it will bring a very strong price for its unrivaled beauty.

**PCGS# 7357 | ESTIMATE: \$1,000+**

**LOT 515**  
**\$1 1922 PCGS MS64**

This is an absolutely STUNNING, MONSTER TONED Peace dollar. While the 1922 is the most common date, they RARELY ever look like this! Clearly this coin sat in an old time coin board, which imparted a gorgeous orange, gold, and violet blend at the rims, which yield to a brilliant untuned silver in the center. The devices are razor sharp. A patch of light scratch marks on the neck are all that keeps this from a GEM grade and probably a CAC bean. Be that as it may, this coin rates a 9+ on our 10-point color scale, and the color is amazing for any Peace dollar. The eye appeal is wonderful! Ignore the population data, price guides, and auction prices and go with your gut on this one. As soon as you see it, you will know how incredibly special this one is!

**PCGS# 7357 | ESTIMATE: \$3,000+**

**LOT 516**  
**\$1 1922-D PCGS MS66+ CAC**

A frosty white, wonderfully preserved PQ GEM that was struck from a very late state of the obverse die. Intricate die cracks encircle the obverse, and the fields show signs of fatigue, adding a very cool look to the surfaces. Blazing silver luster radiates boldly on both sides, accenting the sharply struck devices. Every detail is razor sharp and the surfaces are ultra clean. The eye appeal is very high end and very cool. EXTREMELY RARE any finer!

PCGS 271, NGC 244, CAC 102. There are 31 graded MS66+ at PCGS; three CAC-approved examples have sold in 2019, realizing between \$6,600 and \$7,200, all well above the current PCGS value of \$6,000. Just three PCGS MS67s are graded higher, and none are CAC approved. If you could find one, it will cost you close to \$100,000 based on the most recent APR and Collectors Universe value. A real prize for anyone building a very high end set, and a coin that will bring very serious bidding.

**PCGS# 7358 | ESTIMATE: \$6,000+**

**LOT 517**

**\$1 1924-S PCGS MS64+ CAC**

A very challenging date in GEM, this MS64+ is a great coin for anyone looking for a high end, CAC coin for their set without wanting to spend close to five figures on a CAC approved MS65. Boldly lustrous and sharply struck for the date, the eye appeal is great for the grade. Just a few tiny traces of contact away from a GEM designation, this coin has a lot to offer the collector.

PCGS 1560, NGC 929, CAC 229. PCGS has graded 157 in MS64+ and the population drops to 115 in all grades finer, which leads us to believe there is a lot of duplication of submissions in MS64 and 64+ hoping for a 65 grade. We sold the most recent example in our September 2019 Regency Auction for \$2,056 and the current PCGS Price Guide value is \$2,200. The last MS65 with CAC approval sold for \$9,900 in the 2019 ANA auction.

**PCGS# 7364 | ESTIMATE: \$1,600+**

### OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality.

There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 518**  
**\$1 1925-S PCGS MS65 CAC**

EX LINDA GAIL COLLECTION, as noted on the holder.

This is one of the FINEST MS65 1925-S Peace dollars we have handled. This coin has a very strong, brilliant luster that beams all over with a strong vibrance on both sides. The strike is full, crisp, and complete with fully struck up devices. Very pretty golden-tan toning graces the reverse, and there is just the slightest hint at the periphery. There are a few tiny ticks, visible with a very strong glass, but the eye appeal is truly that of an even loftier grade. After 33 years of grading, PCGS has never graded a single coin finer.

PCGS 45, NGC 73, CAC 9. The most recent example to sell in auction realized \$35,425 in our May 2019 Regency Auction. That was the first one since December 2015. This one will bring a strong bid for sure, worthy of another world class Peace dollars!

**PCGS# 7366 | ESTIMATE: \$27,000+**

**LOT 519**  
**\$1 1926 PCGS MS66 CAC**

Glorious GEM quality surfaces are really as perfect as you will ever see on a MS66. We used a strong glass and found NO imperfections of any size, anywhere. The surfaces are also a thick satiny texture and a moderate luster beams from all over. There is some light even golden toning spread around both sides. Miss Liberty and the details are frosty and are sharply struck. The eye appeal is great!

PCGS 265, NGC 52, CAC 79. The most recent PCGS/CAC MS66 sold in May 2019 \$4,080 and prior to that, we sold one in May 2019 for \$3,290. This lovely coin will see very strong bidding for sure!

**PCGS# 7367 | ESTIMATE: \$3,000+**

**LOT 520**  
**\$1 1926 PCGS MS66+ CAC**

Tied for FINEST GRADED at PCGS, this coin is very high end and it is so close to MS67 it may well be a contender for FINEST KNOWN honors.

Frosty brilliant mint luster shows off a warm satiny sheen that glows throughout the exceptional quality surfaces. The fields and devices are devoid of all but the most insignificant ticks that can only be seen with a strong glass. A slight pearly iridescent hue can be seen anywhere on the surfaces, accenting the sharpness of the devices. The eye appeal is exceptional!

PCGS 298, NGC 55, CAC 79. There are just 33 graded MS66+ and NONE FINER at PCGS. The last two sold earlier in 2019 for \$7,200 and the current PCGS Price Guide value is listed at \$8,500. If you are building a top tier set and want one of the FINEST, bid actively on this superb example.

**PCGS# 7367 | ESTIMATE: \$6,000+**

**LOT 521**  
**\$1 1926-D PCGS MS66 CAC**

A splendid Premium GEM quality 26-D Peace dollar. Vibrant mint luster enlivens the wonderfully preserved surfaces and sharply rendered devices. The eye appeal is exceptional in every way.

PCGS 277, NGC 103, CAC 101. The most recent example that we sold realized \$4,583 in our September 2019 Regency Auction and prior to that we sold one in our May 2019 Regency Sale for \$6,756. Despite those two great results, the average APR for CAC approved coins comes to be around \$2,800 (still a significant premium to the Collectors Universe value of \$1,800). RARE finer, there three dozen graded higher, anything finer will cost into the five-figures. A great coin for any serious Peace dollar collector.

**PCGS# 7368 | ESTIMATE: \$2,000+**

**LOT 522**  
**\$1 1926-D PCGS MS66+ CAC**

This is an exceptional GEM quality 26-D and has a bold, brilliant luster that radiates with an intensity that is rarely seen on Peace dollars of this date. The blast white silver surfaces are a blazing ball of luster that just captivates the viewer's gaze. Sharply struck, every detail is razor sharp and the surfaces are very clean and free of any distracting ticks and marks.

PCGS 308, NGC 104, CAC 102.  
There are 28 graded in 66+ and just 8 are graded finer. LRCA has had the honor of selling the two most recent examples, one for \$12,338 and the other for \$14,100. The current PCGS value is listed at \$15,000. The value jumps to over \$40,000 in 67 with a CAC sticker.

**PCGS# 7368 | ESTIMATE: \$10,000+**

**LOT 523**  
**\$1 1926-S PCGS MS66 CAC**

Unbelievable high end brilliant luster! The brilliance is quite vivid with a bold swirling cartwheels that roll on both sides. Sharply struck up devices stand out against the generally smooth, clean surfaces. Though a glass reveals just a tiny line and tick or two, the eye appeal holds up to close inspection. This GEM is the highest "collectible" grade for this date, which is excessively rare any finer.

PCGS 105, NGC 36, CAC 18. We sold the most recent example for \$5,875 in our May 2019 sale of the Issaquah Collection. CAC-approved examples are worth more than the current Collectors Universe value of \$3,250. Just five coins have ever graded finer, only one of which, a PCGS/CAC MS66+ has ever sold in auction, realizing \$41,125 in our September 2019 Regency Auction.

**PCGS# 7369 | ESTIMATE: \$4,000+**

**LOT 524**  
**\$1 1928 PCGS MS65 CAC**

Delightful and totally original, this is a very pleasing GEM Mint State 1928 Peace dollar. RARE any finer, this is a great example of this KEY date. Sharply struck devices stand out against satiny lustrous surfaces. The surfaces have a light touch of original skin that shows it has never been dipped, stripped, or otherwise cleaned or processed in any way.

PCGS 376, NGC 106, CAC 85. We have sold six examples going back to October 2015 ranging from \$4,700 to \$7,931 (that was the most recent in our May 2019 Regency Auction. There are 50 graded higher, most in 65+ and 66, and the price becomes much higher any finer. This one is bound for a great Peace dollar set.

**PCGS# 7373 | ESTIMATE: \$3,500+**

**LOT 525**  
**\$1 1928 PCGS MS65+ CAC**

This is one heck of a GEM 1928 Peace dollar! Truly an exceptional specimen of this important key date. A blazing mint luster flashes brilliantly across the high end attractive GEM surfaces. The devices are satiny smooth and sharply struck up with full definition on both sides. The 1928 had the lowest mintage for circulation, only 360,649 were struck, and is a popular date in all grades, but especially so in GEM Mint State.

PCGS 404, NGC 108, CAC 86. PCGS has graded 29 in MS65+. Going back to August 20116, there have been 10 PCGS/CAC examples ranging in price from \$4,200 to \$17,038 and the current PCGS value is listed at \$8,500, which is about the average APR for all those examples. The high of \$17,038 was achieved in our March 2019 Regency Auction on an estimate of \$7,000 to \$7,500. Just 21 coins have graded higher. The most recent PCGS/CAC example sold for \$33,600 in March 2019. This is a great coin for an excellent Gem Registry Set, worthy of a strong bid.

**PCGS# 7373 | ESTIMATE: \$7,000+**

**LOT 526**  
**\$1 1934-S PCGS MS64+ CAC**

Fantastic everything! This 34-S would have been called "Gem Brilliant Uncirculated" back in the days before third party certification.

Blazing silver luster has a white hot glow that billows forth from satin smooth, brilliant silver surfaces. A few minor traces of contact can be seen with care, but they do not detract from the sensational quality of the surfaces! Truly a special coin!

PCGS 680, NGC 328, CAC 156. This coin sold for \$7,050 in the 2016 FUN auction, a sale that took place in a lower point in the market - indicative of the exceptional, high end qualities of this wonderful GEM! The current PCGS value is listed at \$6,750. Worthy of a very strong bid, it is essentially of MS65 quality!

**PCGS# 7377 | ESTIMATE: \$5,000+**

**LOT 527**  
**\$1 1934-S PCGS MS66+ CAC**

An exquisite GEM! To call this marvelous 34-S SUPERB is an understatement. Tied with just a single coin as FINEST seen at PCGS with its CAC approval, this is a candidate for FINEST KNOWN of this late date Peace dollar issue.

Totally original, this highly lustrous beauty has a delicate dusting of iridescent, pastel toning that clings to the highly satiny surfaces. The details are crisply struck up showing off complete definition to the hair and feather details. The surfaces are very clean, showing off just a couple of the tiniest touches of contact on both sides account for the assigned grade, but the eye appeal is not affected at all. This is a very high end GEM worthy of the FINEST of Peace dollar collections!

PCGS 37, NGC 14, CAC 13. There are two PCGS MS66+s graded, and there are NONE GRADED FINER! This is an ideal coin for anyone working on the absolute FINEST Peace Dollar Registry Set. Neither MS66+ has ever sold in auction, but the current Collectors Universe value is listed at \$125,000. With TOP POP 20th century coins bringing record prices as many top ranking registry set collectors vie for the FINEST pieces, this SUPERB GEM will bring a world record price when the hammer falls! Good luck, and congratulations to the winning bidder, you have just elevated your set to a new world class level!

**PCGS# 7377 | ESTIMATE: \$90,000+**

**LOT 528**  
**\$1 1935 PCGS MS66+ CAC**

A lovely, high end SUPERB GEM example of this final date. Pale gold tone accentuates the highly lustrous surfaces. With NONE graded finer, this coin is ideal for a wonderful Peace dollar set. Sharply struck devices show off a nice frost and the overall surface has a brilliant, satiny look.

PCGS 340, NGC 75, CAC 128. There are 76 graded MS66+ at PCGS. With NONE higher, we know there is lots of duplication in the population report. As of this writing, the most recent example to sell in

auction realized \$4,800 in September 2019; prior to that, we sold one in June 2019 for \$5,875. The current Collectors Universe value is listed at \$6,000. With NONE higher, if you are building a high ranking set, and need to upgrade your 1935, bid now. Good luck.

**PCGS# 7378 | ESTIMATE: \$4,500+**

**LOT 529**  
**\$1 1935-S PCGS MS66+ CAC**

An ultra brilliant, SUPERB GEM 35-S Peace dollar, the final issue of the 24-piece series.

Sharply struck devices stand out against the ultra smooth surfaces. Both sides are totally untuned and totally defect free. The eye appeal is excellent.

PCGS 217, NGC 66, CAC 64. Only PCGS has graded any in 66+, with 26

reported in that grade, with a mere 3 graded higher. While the most recent sold for \$7,638 in our September 2019 Regency Auction, this coin has a stronger eye appeal than that one. The current PCGS Price Guide value is listed at \$12,000 and it jumps to \$35,000 in MS67 (none have ever sold). This is an important opportunity for anyone working on a set! Good luck, bidding will be fierce.

**PCGS# 7379 | ESTIMATE: \$7,000+**

# THE PIEDMONT NUMISMATICS COLLECTION

Formed in 2009, the Piedmont Numismatics Collection was assembled as an investment portfolio at a time where there was a lot of economic uncertainty caused by the aftermath of the Great Recession. The coins were purchased from a very well known rare coin retail firm, in several transactions. Having been retained by the owners for a decade, all these coins are now fresh to the market, and in many cases making their first appearance on the auction market. There have been many changes to the U.S. coin market in this decade, including the prevalence of CAC, “+” grades, and the formation of Legend Rare Coin Auctions.

The assortment of coins in this collection is varied, consisting mostly of 19th century type coins.

Highlights include:

Lot 534. 10C 1796 PCGS MS63 CAC

Lot 541. T\$1 1883 Trade. PCGS PR65 DCAM CAC

Lot 545. \$2.50 1895 PCGS MS66+ CAC

Lot 548. \$2.50 1882 PCGS PR66 DCAM CAC

Lot 551 \$3 1888 PCGS MS66 CAC

Lot 554. \$5 1886 PCGS MS66 CAC

Lot 557. \$5 1882 PCGS PR65 DCAM CAC

As you can see, many of the coins were carefully selected and among the finest graded examples of their respective issues and many of these have not been seen anywhere in years. We know that many of today's biggest buyers have not had a chance to add some of these to their respective collections and we know that there will be strong demand. Once sold, who knows when you will have the chance to bid on some of these important rarities. On behalf of the owners of the Piedmont Numismatics Collection, LRCA congratulates you in advance as you add some awesome coins to your collections.

**LOT 530**  
**2C 1870 PCGS PR65 RD**

This is a fully reflective, fully red GEM Proof example. The obverse shows brilliant, vividly flashy mirrored fields. The devices are razor sharp in strike and nicely frosted which creates a neat cameo like contrast. The reverse shows some mellowing to the red color, but it is not RB. There are two tiny flecks at OF on the reverse that will forever identify this beauty.

Only 1,000 Proofs were struck. PCGS 43, NGC 24. The CAC Population of 7 shows just how picky that service is with these. The current PCGS value is listed at \$2,250 and that is about the average APR for these in auction over the last seven years. Our consignor paid more in 2009. Just 21 have graded finer at PCGS and we think there is duplication in the reported populations in PR65 and PR66.

**PCGS# 3644 | ESTIMATE: \$2,000+**

**LOT 532**  
**H10C 1830 PCGS MS66+ CAC**

Kaboom! This coin just explodes at you with powerful everything. This is one of the nicest, most beautifully preserved GEM 1830 half dime we have had the pleasure of offering! This vibrantly lustrous surfaces have a thick frost and bold swirling cartwheel bloom. Sharply struck up the devices show razor bold definition, wonderfully crisp from a precision blow from the dies. A blush of the most subtle pale gold that attests the SUPERB originality of this stunning Capped Bust half dime; the eye appeal is, simply put, amazing.

PCGS 28, NGC 28, CAC 13. There are four graded MS66+ and just seven are graded higher. None of the MS66+s have ever sold in auction. Recent comps include a PCGS MS66 CAC that sold for \$5,520 and a PCGS MS67 (no CAC) sold for \$12,338 in our October 2017 Regency Auction. The current PCGS Price Guide value is listed at \$8,000.

**PCGS# 4277 | ESTIMATE: \$5,500+**

**LOT 531**  
**3CN 1881 PCGS PR65 CAM GOLD CAC**

Very HIGH END quality! Bold, beaming nickel-silver mirrors have a deep, clear reflection, contrasting against the thickly frosted devices. The quality is exceptional for the assigned grade, but don't just take our word, CAC agrees with its GOLD sticker!

PCGS 48, NGC 34, CAC 13 This is the ONLY CAC Gold sticker example, and it is fresh to the market. The last PCGS/CAC PR66 CAM sold for \$764 and the Collectors Universe value is \$700. We see this one selling for more though. Good luck!

**PCGS# 83777 | ESTIMATE: \$650+**

**LOT 533**  
**H10C 1848-O PCGS MS66**

Among the highest graded examples of this New Orleans mint half dime, this is a wonderful MS66. Fully brilliant with a touch of reflective flash that blends with the surrounding frostiness. A blush of iridescent gold with some pale blue accents are dusted over the totally defect free surfaces. The eye appeal is excellent, the preservation wonderful, we are not sure why CAC did not bean this GEM!

PCGS 8, NGC 16, The current PCGS Price Guide value is listed at \$4,500. The most recent PCGS coin to sell was CAC approved and it sold for \$6,000 in the 2018 FUN auction. There have only been 11 auction appearances for PCGS-graded MS66s going back nearly 15 years, with an average APR of about \$4,000. This impressive coin should see very strong bidding when it crosses the block.

**PCGS# 4340 | ESTIMATE: \$3,500+**

**LOT 534**  
**10C 1796 PCGS MS63 CAC**

This is a totally original and fully CHOICE JR-1. Easily identified by the die break at Star 1, this is a late die state with bold clashes on the obverse and cracks on the reverse.

Richly toned surfaces show off lovely iridescent shades of olive, gold, and pale teal toning that surround the sharply struck devices. All the details are crisply rendered, standing out against the smooth, boldly lustrous fields. The underlying satiny brilliance glows from under the color, accenting the subtle differences in the toning and the sharpness of the strike. A few tiny planchet adjustment marks are noted on Liberty's shoulder. The eye appeal is exceptional in every way.

The dime was authorized in the April 12, 1792 Mint Act, and while silver coinage began in 1794, it focused on half dollars and dollars.

In the early days of the mint, depositors would deliver silver to the mint for assaying and refining, then the silver would be used to produce coins. Little demand was seen for dimes and quarters, both denominations did not begin to see any demand until 1796 (Spanish colonial one and two reales pieces served in commerce for the smaller silver denominations). The 1796 dime is a two-year only type, and as the first year of issue, the 1796 is an American numismatic "blue chip" a coin that is in demand from collectors in all grades.

PCGS 16, NGC 20, CAC 8. This coin was purchased privately in 2009, for \$39,500. The most recent PCGS/CAC JR-1 sold in the 2017 ANA auction for \$41,125. This one is a touch sharper and more evenly toned. The current Collectors Universe value is listed at \$42,500. There are two dozen examples graded finer, and anything finer is going to cost around \$70,000. This is an exceptional early type coin that is in an exceptional state of preservation and will fit in nicely in any great cabinet of coins!

**PCGS# 4461 | ESTIMATE: \$36,000+**

**LOT 535**  
**20C 1875-S PCGS MS66**

The 1875-S 20 Cent piece is the most available date of this short lived, odd denomination series. Although seen from time to time in this lofty state of preservation, it is really quite scarce when it has a great look like this one.

Both sides show a thick, frosty mint bloom that glows warmly in the fields. Generally well struck throughout, we do note some mint made roller lines on the central obverse and a shattered reverse die. The surfaces have a pale pearly-silver sheen and a touch of the faintest gold that define the originality of this GEM quality coin.

PCGS 62, NGC 49. The current PCGS Price Guide value is \$7,500 and our consignor paid over \$10,000 for this coin over a decade ago privately. Auction prices today are widely dispersed (from a low of \$2,880 to a high of \$14,400) each coin bringing what they are worth based on their individual traits. There are just 19 coins graded finer, and we think these are just not appreciated in the market today.

What a neat type coin in excellent condition!

**PCGS# 5298 | ESTIMATE: \$4,000+**

**LOT 536**  
**25C 1875 PCGS MS66 CAC**

A wonderful, highly lustrous GEM. Both obverse and reverse have a vibrant frost that yield to traces of gold near the peripheries. Generally well struck, there are some minor traces of striking softness in areas, noted only for full disclosure. The eye appeal of this totally original Seated quarter is nice.

PCGS 22, NGC 8, CAC 11. The most recent example brought \$2,280 in April 2019. Just 8 coins are graded finer, making this a very popular grade for date collectors. This coin has been off the market since 2009, so it is not a retread from any recent auction or dealer boxes.

**PCGS# 5498 | ESTIMATE: \$2,000+**

**LOT 537**  
**25C 1904 PCGS MS66**

This is among the FINEST graded examples, there are a mere 9 in 66 and two each in 66+ and 67. This is a conditionally RARE Barber quarter. Despite a mintage of nearly 10 million, the fact that these high grade examples survive in such limited numbers after 33 years of grading. This satiny GEM has a bold luster and has some light silver-dove, and pale gold iridescent hues. The eye appeal is excellent. We think that a single slide mark on the cheek is all that keeps this coin from a CAC bean.

PCGS 9, NGC 3. In 2009, our consignor paid what is now the current PCGS Price Guide value of \$3,250. The last non-CAC coin sold for \$2,640 in June 2018. Just four are finer, of which only a single MS67 has sold in the last 10 years.

**PCGS# 5637 | ESTIMATE: \$2,500+**

**LOT 538**  
**50C 1826 PCGS MS66**

A Condition Census level O-101a, an easily identifiable die marriage. What a great looking PQ GEM Mint State example of this date! It is exceptional in EVERY WAY.

Both the obverse and reverse of this spectacular coin have a rich, beaming luster with swirling cartwheels and some semi-reflective flash. The luster enhances the razor sharp definition to the classic John Reich design and ultra smooth surface quality. We note a small mark in the obverse field, but it is not distracting to the overall quality and eye appeal of this beauty. Lovely original toning, mostly in shades of blue and rose yield to brilliant pewter-silver tinged with gold. We have looked this GEM over and over with a glass, and we are not sure why CAC chose not to bean this one, the quality is all there!

The die variety is identified by a short die crack at the bottom of the date on the obverse and a number of markers on the reverse include mostly solid shield lines, a small tine on the upper left corner of the ribbon, and the spacing of AT and AM in STATES and AMERICA. A couple of die cracks at the lower reverse define the die state.

PCGS 10, NGC 15. Do not let the the fact that this coin is not CAC throw you off. This coin's quality stands right up there with CAC coins we have seen lately. It is truly high end and should be valued like a CAC coin. The most recent ones were CAC approved, selling for \$18,213 and \$24,000 in September and April of this year respectively. This GEM was purchased in 2009 for \$24,500, a testament to the quality for sure. The current PCGS Price Guide value is listed at \$25,000. For the date, which had 20 different die marriages, only three coins have ever graded MS67 at PCGS and none of these have ever sold in auction, making this one of the absolute FINEST obtainable examples extant for the advanced date or type collector. Good luck!

**PCGS# 6143 | ESTIMATE: \$20,000+**

## THE PIEDMONT NUMISMATICS COLLECTION

### LOT 539 50C 1935-S PCGS MS66 CAC

This is truly a SUPERB example of this conditionally rare date. Very high end surfaces gleam with an intense untuned, vibrant luster that radiates brilliantly on both sides. Very nicely struck with bold definition throughout, this PQ coin has clean surfaces and a great visual appeal.

PCGS 164, NGC 43, CAC 46. This one is cleaner and more lustrous than the one we sold in June 2019 for \$3,408. Extremely RARE any finer, with just 13 graded higher at PCGS, and a 66+ will cost around \$6,000 with CAC approval. This coin will see fierce bidding and will delight anyone working on a high ranking Walker set.

PCGS# 6597 | ESTIMATE: \$3,200+

### LOT 540 T\$1 1877-S TRADE. PCGS MS65 CAC

This is an exceptional GEM quality Trade dollar. Though the mintage was well over 9.5 million, the vast majority did their intended job in the Asian trade, and disappeared into commerce in China. Gem quality examples are RARE, and anything finer, excessively so. The present MS65 is very high quality and totally original, distinctly worthy of its CAC endorsement. An impressive, underlying mint luster glows brilliantly on both sides accenting the satiny smooth surfaces and crisply rendered devices. All of the design elements are fully struck up and have a warm frosty texture. Both sides

are awash in olive, tan-gold, and iridescent lilac-slate patina. Both sides are very well preserved showing no serious marks, lines, ticks, or any kind of contact of any kind. The eye appeal is amazing. It is a pleasure to offer this coin as part of this collection.

PCGS 31, NGC 27, CAC 17. This coin sold in the 2009 FUN Auction for \$12,650 and has been off the market since. Other examples have sold in auction for as much as \$14,375, though the current market is somewhat lower, the most recent selling for \$8,100. With just 17 coins graded finer, this is a difficult coin to improve upon if you are looking to add a GEM example to your set, be sure to look at this exceptional piece!

PCGS# 7046 | ESTIMATE: \$7,000+

### LOT 541 T\$1 1883 TRADE. PCGS PR65 DCAM CAC

Legend Rare Coin Auctions is proud to offer the FINEST DCAM 1883 Trade dollar graded by PCGS. Think about that, in over 33 years of 3rd party grading, PCGS has only graded this coin as PR65 DCAM and NONE HAVE GRADED HIGHER. As to be expected for a GEM DCAM trade dollar, the mirrors are exceptionally deep, with a bold, beaming clarity in the fields. The fields are quite pleasing with no serious lines, ticks, or any discolorations of any kind. The sharply rendered devices display a thick, white frosty texture which contrasts boldly against the deeply mirrored fields. The eye appeal is wonderful, as to be expected of a coin of this high grade.

Only 979 Proofs were struck. PCGS 1, NGC 0, CAC 1. This coin last sold over a decade ago, bringing \$11,500, but the current PCGS Price Guide value is listed at \$15,000 and a PR64 DCAM sold for a very strong premium more recently. We suspect, when the bidding finally ends, this coin will bring a record bid. Good luck!

PCGS# 97063 | ESTIMATE: \$12,000+

## THE PIEDMONT NUMISMATICS COLLECTION

**LOT 542**  
**G\$1 1883 PCGS MS67**

This is a SUPERB example of this date! Vivid luster radiates boldly on both sides with strong, satiny frost. Sharply struck up, the devices are fully rendered with a full crisp. The color is awesome and the surface preservation is excellent. This is a very pleasing coin! A lower mintage date, only 10,800 were struck.

PCGS 119, NGC 70. We are not sure why CAC did not bean this SUPERB GEM. This coin sold in November 2008 for \$4,888. Unfortunately the market has put it on sale. Despite not being CAC, this coin is high end and very pleasing and should bring a premium bid.

**PCGS# 7584 | ESTIMATE: \$2,400+**

**LOT 543**  
**G\$1 1884 PCGS MS67+ CAC**

Unbelievable high end quality! This coin ranks among the very finest examples graded at PCGS: the Population Report shows 2 in MS67+, 7 in MS68, and one each in MS68+ and MS69.

This coin is AWESOME! Ultra flashy, fully Prooflike reflective luster blooms vividly across both the obverse and reverse. All the details are crisp, with fully defined devices in all areas. The obverse fields show a slight orange peel texture. A strong glass fails to reveal anything more than a tiny tick anywhere. The eye appeal is spectacular and this coin is essentially pristine

PCGS 18, NGC 13, CAC 14. PCGS has graded just two in MS67+, neither of which have ever sold in auction. The current Collectors Universe Price Guide value is listed at \$5,500 and just keep in mind that the most recent comp that we have sold was a PCGS/CAC MS68 that realized \$22,913 in our October 2017 Regency Auction. We like this coin as much as that one, and this coin will see very spirited bidding from any collector demanding ultra high end quality examples for their collections. Good luck!

**PCGS# 7585 | ESTIMATE: \$5,500+**

**LOT 544**  
**\$2.50 1878 PCGS MS66 CAC**

Well this is a date and grade we seldom see. This coin is very pleasing in quality.

Overall, the surfaces are satiny smooth and are clean. However, when using a strong glass you can find some scattered ticks and giggles. Nothing is serious or degrades the coin. A mild glowing luster beams from all over. GEM original pale orange gold surfaces cover both sides. There is one tiny copper dot on the obverse, that proves the coins originality. Miss Liberty and the details are frosty and are fully struck. The eye appeal is pleasing!

PCGS 9, NGC 7, CAC 3. CAC has beaned NONE higher. NO PCGS CAC piece has ever sold in auction. The current Collectors Universe value is \$5,250. With only 3 beaned and none sold so far in CAC's 10+ years of operating, it could be a very long time until another reaches the auction block! Opportunity knocks loud here!

**PCGS# 7828 | ESTIMATE: \$4,250+**

**LOT 545**  
**\$2.50 1895 PCGS MS66+ CAC**

WOW! What an amazing SUPERB GEM example of this very low mintage issue. Only 6,000 quarter eagles were struck and this one ranks among the FINEST GRADED!

A stunning, brilliant, rolling cartwheel luster radiates on both sides of this exceptional quality coin. It is very high end, and borders on an even higher grade designation.

The fields are sleek, showing off a vibrant orange-gold tone that is highly original. The sharply struck up devices display razor sharp definition and the surfaces are clean and free

of any kind of mark, line, or discoloration that would limit the grade or effect the awesome eye appeal.

PCGS 31, NGC 15, CAC 7. There are 17 listed as being MS66+ at PCGS, but that seems high to us. None have sold in auction (the example that shows under 66+ in the databases is actually a regular MS66, which was in our October 2017 Regency Auction, selling for \$10,281). The current PCGS Price Guide value is listed at \$12,500 and this coin should hit that level. Only a single MS67 is graded finer, making this a perfect coin for a top rate Registry Set. We anticipate strong bidding and this glorious coin will perhaps set a new record price when the hammer falls.

**PCGS# 7847 | ESTIMATE: \$9,000+**

**LOT 546**  
**\$2.50 1904 PCGS MS66+**

Exceptionally lustrous and high end, this original P.Q. GEM quarter eagle has a sharp and bold strike, giving each detail, full crisp definition. The surfaces show a tiny tick or two which is all that keeps it from a fully SUPERB grade.

PCGS 12, NGC 16. The only one to sell realized \$1,528 back in June 2015 and the current PCGS Price Guide value is listed at \$1,600. Scarce any finer, this borderline SUPERB quarter eagle will fit nicely in any late date "short set."

**PCGS# 7856 | ESTIMATE: \$1,400+**

**LOT 547**  
**\$2.50 1905 PCGS MS66**

A glorious GEM. Rich, thick satin luster is aglow with a strong golden brilliance on both sides. Sharply struck and beautifully colored we love the look and see no reason why it did not CAC.

PCGS 336, NGC 342. The current PCGS Price Guide value is listed at \$1,100. The eye appeal is very strong and worthy of a strong bid. Our consignor paid way more in 2009!

**PCGS# 7857 | ESTIMATE: \$1,000+**

LOT 548

**\$2.50 1882 PCGS PR66 DCAM CAC**

Legend Rare Coin Auctions is proud to offer this SUPERB Deep Cameo 1882 quarter eagle Proof. It is clearly one of the FINEST examples seen at PCGS and may well be one of the FINEST KNOWN period. The eye appeal is AMAZING in every way.

First off the contrast is as dramatic as you would expect for a modern coin. The mirrored fields are deep, beaming, and blindingly reflective and show a bold clarity. There is no haze or anything more than a hairline that can be found anywhere that would limit the grade. Exceptional orange peel texture in the fields is truly a delight to behold and adds to the outstanding and totally original eye appeal. The devices are razor sharp in strike and have a very thick frost. A strong glass fails to find any flaws of any kind. The eye appeal is stunning.

From an original mintage of 67, John Dannreuther notes that 20-24 survive today. There are 12 enumerated examples in his census, two of which are impounded in institutional collections, one in the ANS and one in the NNC. This is not the Bass coin, which was graded PR65 in Bass III:244, nor does it appear to be the Pittman II:1845.

Dannreuther's Significant Examples listing shows that the Bass, Pittman, Garrett, Eliasberg, Amon Carter, and Kaufman collections coins have not appeared in decades.

PCGS 2, NGC 1, CAC 3. PCGS has graded just 2 in PR66+ DCAM graded finer. No DCAM has sold in auction in a generation! A PR66+ DCAM with CAC approval is currently on the market with an ask price of \$82,500. An NGC PR66 CAM CAC sold in October 2012 for \$41,125. In DCAM, PCGS does not list a Price Guide value above PR65+. We expect this SUPERB GEM to bring a record price when the hammer falls. We wish to congratulate the winning bidder for adding a world class coin to their set.

**PCGS# 87908 | ESTIMATE: \$40,000+**

## THE PIEDMONT NUMISMATICS COLLECTION

and a half years since a PCGS/CAC example  
a non-CAC coin sold for \$13,200 and we just sold the Coronet MS66+ CAC for \$22,325. The current published prices for MS 66 PCGS CAC Indian \$2.5 are all wrong-because so few have traded. We fully expect this coin to bring in the low five figures. Finding PCGS CAC gold is very difficult these days. This coin will be a great addition or beginning to any set! Good luck!

**LOT 549**  
**\$2.50 1908 PCGS MS66 CAC**

This is an immaculate GEM! What a fantastic, superb quality example of the first year of the type. For a \$2.5 Indian, the surfaces are remarkably clean and lustrous with a beautiful two tone original gold with pale orange gold highlights. All of the incuse details are very well struck. A strong glass reveals a tiny tick or two, but even the dreaded right reverse field is high end. The luster is good and is glowing and there here are NO spots or discolorations anywhere.

PCGS 113, NGC 65, CAC 22. It has been two sold in auction, but more recently in April 2019

**PCGS# 7939 | ESTIMATE: \$8,000+**

auction prices were regularly in the \$3,500 to \$4,000+ range. The quality is quite pleasing and this one should a price commensurate with the outstanding originality.

**LOT 550**  
**\$2.50 1926 PCGS MS65**

This is a totally original and very eye appealing example of this later date Indian Head quarter eagle. Rich orange-gold color radiates across the frosty, satiny lustrous surfaces. The details are richly embossed in the surfaces of the coin and the fields are generally pleasing quality with just a few hidden traces of contact. Housed in an old green tag holder, the eye appeal is excellent.

PCGS 823, NGC 618. The current PCGS Price Guide value is listed at \$1,500. Our consignor bought this GEM back in 2009, when

**PCGS# 7950 | ESTIMATE: \$1,300+**

**LOT 551**  
**\$3 1888 PCGS MS66 CAC**

This is a SUPER HIGH END and really good looking coin! It is housed in an older pale blue tag holder. There are light hints of semi-prooflike mirrors. Superior surfaces are are clean and satiny smooth. Only when using a strong glass can you see a single lint mark on the reverse that is probably what keeps this killer piece from an MS67. A full booming luster beams from all over. This coin has exceptional original colors. The peripheries are moderate reddish gold while the centers are a deeper gold color. There are NO spots or discolorations. Miss Liberty and the details are super frosty and are fully struck. The eye appeal is incredible!

PCGS 32, NGC 13, CAC 16. The last PCGS CAC piece to sell in auction brought \$19,975 in September 2014. That is FIVE long years ago. The current Collectors Universe Value is \$18,500. With gold on the rise more people will be buying better gold coins and we expect many to build Gold Type sets. This is a remarkable coin any picky buyer would want in their set. The amount of PCGS CAC Gold coins is so limited.

**PCGS# 7847 | ESTIMATE: \$15,000+**

**LOT 552**  
**\$3 1888 PCGS PR65 CAM**

This is a very pleasing, original GEM with bold cameo contrast on both sides. The surfaces are generally very smooth, free of any serious contact or signs of mishandling. The surfaces are bathed in a warm glow of rich orange gold that add to the delightful visual allure!

Only 291 Proofs were struck. PCGS 11, NGC 19. The most recent PCGS graded example realized \$28,800, but the current PCGS value is listed at \$35,000 and this one has a richer orange-gold color and should sell for more. Keep in mind that a mere 9 coins are graded higher in the CAM designation, making this a great coin for any Proof Gold Type Set. Good luck!

**PCGS# 88052 | ESTIMATE: \$28,000+**

**LOT 553****\$5 1803/2 PCGS MS64**

This is a very pleasing BD-3 and must be among the finest known of this variety, with approximately 125-175 survivors estimated. The eye appeal is exceptional in every way.

A bold mint luster blooms vividly on both sides, which enlivens the richness of the orange and rose gold accents. Every detail is boldly and crisply rendered, with a thick mint frosty texture that contrasts nicely against the satiny glow of the golden fields. Accounting for the near-GEM grade are a few tiny, widely scattered traces of contact. This is one of the **FINEST** examples of this R-4 die marriage. Housed in an older blue tag holder.

This is a great type coin. All 1803 half eagles are overdates, utilizing two different 1803/2 obverse dies, three of these share the same obverse. None are particularly difficult to acquire, all but one is rated R-4 in the Bass-Dannreuther reference. Where these become rare is in Mint State grades, especially above MS63. Near-Gem quality examples are represented by just a couple dozen examples between PCGS and NGC and that includes duplicate submissions trying for a higher grade designation. Anything finer is going to be quite elusive (only four coins have graded finer than MS64 at PCGS after nearly 34 years of grading rare coins).

PCGS 14, NGC 9. The current PCGS Price Guide value is listed at \$45,000, but when our consignor bought this coin, they were regularly selling in excess of \$50,000. Indeed, since our consignor bought this coin in June 2009, only four PCGS-graded examples have sold in auction! Clearly these do not appear in auction with any frequency. It must be noted that the last time a PCGS MS65 (pop 1) sold in auction was back in 2007 and the Pogue coin, which is the finest certified, sold in 2015 for over \$440,000! This coin is fresh to the market and will see very strong bidding. This coin is fresh as fresh as fresh can be!

**PCGS# 8084 | ESTIMATE: \$40,000+**

**LOT 554**  
**\$5 1886 PCGS MS66 CAC**

This is the SINGLE FINEST 1886 half eagle graded at PCGS and it is a very pleasing Premium Quality GEM!

Boldly struck devices stand out and are surrounded by impressive and unending luster. Wonderful peach and gold toning combine over the very high end, pleasingly clean surfaces to give this awesome \$5 Lib a stunning look. With 388,360 struck, this date is plentiful in lower grades. It is a RARE date any finer than MS64; that after 33+ years of operations, PCGS and NGC have graded combined a mere seven coins above MS64!

PCGS 1, NGC 1, CAC 1. NONE ARE GRADED FINER! This coin is destined for the #1 set of Liberty Head Half Eagles. If you are working on this challenging series, you know how rare this date is to find. This coin has been off the market since May 2009; a whole decade has gone by making this perhaps a once in a generation opportunity that should not be missed. The current Collectors Universe value is listed at \$25,000 and for a POP TOP coin like this, it is quite possible that this coin will bring more. Who knows when you will have an opportunity like this again!

**PCGS# 8369 | ESTIMATE: \$25,000+**

**\$5 1901-S PCGS MS66**

PCGS 76, NGC 59. Back in March 2009, this coin realized \$4,600 and our consignor bought it after the sale for more. While the current PCGS Price Guide value is listed at \$3,250, the average APR going back to 2004 is well over \$5,100. There are just 18 coins graded finer. A really nice coin for anyone working on a set of late date Liberty \$5s or gold type set.

**PCGS# 8404 | ESTIMATE: \$3,000+**

**\$5 1908 LIBERTY. PCGS MS66**

PCGS 49, NGC 52. While the current Collectors Universe value is listed at \$3,000 and the most recent examples brought \$2,100 in May 2019 and \$2,640 in September 2017. Off the market since 2009, these were bringing much more. The average APR for the 18 PCGS MS66 examples that have sold since 1991 is \$5,406. Fewer than a dozen have graded higher. Worthy of a strong bid.

PCGS# 8418 | ESTIMATE: \$2,400+

[illegible]

**LOT 557**  
**\$5 1882 PCGS PR65 DCAM CAC**

This is a STUNNING DEEP CAMEO GEM Proof 1882 half eagle. Everything about it is exceptionally high end and gorgeous, one of the FINEST DCAMs graded and among the finest known of the date. Only 48 Proofs were struck, of which John Dannreuther estimates a survival of 18-22 in all grades.

The gold mirrored fields possess a wonderful, rippled orange peel effect that accents the fully frosted design elements. The black and white cameo contrast is gorgeous and captivates the viewer from across the room. Even with a strong glass, all you can find is a stray line or two that is perfectly acceptable for the assigned GEM grade.

Matching Proof gold to old auction appearances is difficult to do. Of the 14 enumerated by John Dannreuther, three are impounded in institutional collections: The ANS has the Colvin Randall-J.P. Morgan coin, and the National Numismatic Collection has the old mint cabinet coin as well as the Josiah Lilly Collection coin which was probably Col. Green before going to Clifford T. Weihman. The remaining 11 may or may not be earlier appearances of the same coin; the half tone black and white images do not allow for up close inspection for microscopic lines or other identifiers.

PCGS 1, NGC 2, CAC 1. The only PR DCAM graded by PCGS to ever sell in auction was a PR63 DCAM that sold in 2009. Indeed the only recent comparables are PR66 coins: one was the Floyd Starr PCGS PR66 CAM that sold in the 2015 ANA auction for nearly \$50,000 and an NGC PR66 UCAM that brought \$48,000 in November 2017. The current Collectors Universe value is listed at \$52,500. We know that a coin like this, which appears at auction so infrequently, will bring a very strong bid from specialist collectors. Bound for a great collection of Proof half eagles, a gold Proof type set, or a box of special rarities and will see strong bidding.

**PCGS# 98477 | ESTIMATE: \$46,000+**

## THE PIEDMONT NUMISMATICS COLLECTION

**LOT 558**  
**\$10 1901-S PCGS MS65**

Sharply struck devices are greatly enhanced by a bold rolling cartwheel luster on both sides. The flashy brilliance is unimpeded by any serious contact or breaks in the frost. The eye appeal is quite nice.

PCGS 1216, NGC 1292. Back in 2009, the premiums for "generic" GEM quality gold coins was way higher, with MS65s routinely selling for over \$5,000 in auction. The current auction range is from \$1,800 to \$2,400 and the current PCGS Price Guide value is listed at \$2,150. With premiums so low today, it is a great time to put these away.

**PCGS# 8749 | ESTIMATE: \$2,000+**

**LOT 559**  
**\$10 1932 PCGS MS65 CAC**

This is truly a wonderful GEM quality example of the final collectible date Indian Head eagle. A common enough date, but anyone who collects CAC-approved gold coins, these are NOT as common as you might think. This satiny GEM has a warm, glowing luster and totally original surfaces. Sharply struck up and the eye appeal is lovely.

PCGS 1554, CAC 2366, CAC 191. Fewer than twenty PCGS/CAC MS65s have sold in auction, with an average APR of \$4,743. Back when this coin was purchased in 2009 the were selling for much more than they are now; as the premiums were much higher. Market conditions have changed but the fact remains that CAC-approved gold brings strong premiums to non-CAC coins. The current CDN CAC Price Guide value is \$3,850.

**PCGS# 8884 | ESTIMATE: \$3,800+**

**LOT 560**  
**\$10 1932 PCGS MS65 CAC**

A pleasing, boldly lustrous and satiny example with attractive deep gold color and orange-rose highlights. Sharply struck from an exacting blow from the dies, this wholly original GEM is well deserving of the CAC sticker. The final collectible issue in the series, as the 1933 is a major rarity.

PCGS 1555, NGC 2366, CAC 191. Only 10 PCGS/CAC examples have sold in auction since September 2014, so do not let the Population figures fool you. The average APR is over \$4,300 and the current CDN-CAC bid/ask is \$3,600/\$4,500. Despite its status as a generic date, it is surprisingly scarce any finer. Worthy of any holding of gold coins and will see strong bidding for its exceptional eye appeal and originality.

**PCGS# 8884 | ESTIMATE: \$3,400+**

**LOT 561**  
**25C 1893 ISABELLA. PCGS MS65**

A genuinely lustrous, high quality GEM example that we are unsure why CAC did not bean. The strike is bold throughout and the highly lustrous surfaces. Wisps of white silver iridescent toning is noted the eye appeal is quite nice.

PCGS 517, NGC 430. Back when this coin was purchased by our consignor, they were consistently selling in the \$2,000-\$3,000 range, which is why he paid \$2,995. The market dynamic has changed with the current Price Guide value listed at \$1,300; we think this GEM is worthy of a stronger bid.

**PCGS# 9220 | ESTIMATE: \$1,300+**

**LOT 562**  
**50C 1928 HAWAIIAN. PCGS**  
**MS66 CAC**

This is a wonderful Premium Quality GEM example of this key date classic commemorative half dollar. The sharply struck design elements are surrounded by essentially flawless fields that have a wonderful satiny luster. The eye appeal is excellent.

PCGS 129, NGC 66, CAC 48. Only eight PCGS/CAC examples have ever sold in auction, realizing an average APR of \$7,038. We think this high

end coin should see very strong bidding. About a decade ago, this GEM would have brought close to \$10,000, which is about what our consignor paid. Its quality and eye appeal are excellent and should bring a strong price today.

**PCGS# 9309 | ESTIMATE: \$5,500+**

**LOT 563**  
**50C 1934-D OREGON. PCGS MS67**

With so few graded finer, this is a great looking SUPERB GEM. Brilliant satiny luster blooms all over, accenting sharply struck up devices. The eye appeal is enhanced by a blush of the faintest clear blue and rose gold. Very high end for the grade, just seven coins have graded finer of this low mintage issue.

PCGS 87, NGC 26. The current PCGS Price Guide value is \$950 and the prices fall in a wide range. This coin has a great look and will sell for a strong bid. Bound for a neat collection of commems.

**PCGS# 9344 | ESTIMATE: \$750+**

**LOT 564**  
**50C 1937-D OREGON. PCGS MS68**

Frosty with a bold, satiny luster that is seen on both sides. A pale, original toning can be seen across the surfaces, deepening at the periphery. The sharply struck devices stand out boldly on both sides, giving this virtually perfect example a really nice look.

PCGS 58, NGC 80. Just 10 are graded finer. The current PCGS Price Guide value of \$1,750 seems somewhat low, but prices have been all over the place. High grade commems have some softening in prices over the last decade, but this coin has a great eye appeal and will see strong bid.

**PCGS# 9347 | ESTIMATE: \$1,800+**

**LOT 566**  
**G\$1 1854 TYPE 2. PCGS MS66+ CAC**

What an AMAZING, SUPERB, and totally ORIGINAL 1854 Type 2 gold dollar. Ranking among the VERY FINEST KNOWN, you are likely never going to find another anywhere close to this monster!

The surfaces are clean overall and look satiny. There is some light die clashing visible. A headlight blinding luster shows off the killer orange/yellow gold colors. Miss Liberty and the details are exceptionally struck from deeply clashed dies and have light frost. One look and you WILL say WOW! And no matter how picky you are, you will love this high end MS66+!

PCGS 14, NGC 4, CAC 6. This is the ONLY MS66+ graded at either service. We just sold the Coronet MS66 CAC which brought \$64,625 in the October 2019 Regency Event. In MS66+, PCGS lists a value of \$80,000. Only two examples have graded finer at PCGS, both MS67 and none have sold since 2003! If you are working on a SUPERB set, this coin is for you. If a 67 was to come up for sale today, it would bring at least \$100,000! Good luck!

**PCGS# 7531 | ESTIMATE: \$70,000+**

**LOT 567**

**G\$1 1880 PCGS MS68+ CAC**

This is GODZILLA Jr. Its Jr. because there is an MS69 that is GODZILLA! This coin is from the Oliver Jung Type Collection, the former #1 Type Collection ever. If you know anything about the set, his gold overall was the BEST of the BEST by far.

Immaculate looking surfaces are super smooth and satiny. Only when using a string glass can you detect some frost breaks that are what keep it from equaling GODZILLA! An amazing full blooming luster beams boldly from all over. The luster enhances killer totally original colors of gold/orange gold. There are NO spots or discolorations. Miss Liberty and the details are frosty and are fully struck. The eye appeal is off the charts!

PCGS 28, NGC 24, CAC 24. There are 2 MS68+ graded by PCGS or NGC. The long MS69. This remarkable coin last sold for \$28,200 in January 2017 when Oliver Jung added it to his BEST EVER Type set. The current Collectors Universe Value is \$29,500. This is the best you can get; the lone MS69 is impounded in a major collection. This coin will be a prize for any G\$1 or Type collector! Good luck!

**PCGS# 7581 | ESTIMATE: \$25,000+**

**LOT 568**

**G\$1 1880 PCGS MS66 PL**

This is a fully Prooflike example of this very low mintage date. Only 1,600 1880 gold dollars were struck for commercial use. The fields are deep and beaming with full reflectivity similar to full Proofs. Sharply struck devices are frosty and stand out in full 3D effect giving this SUPERB coin a great look.

PCGS 1, NGC 12. This is the ONLY PCGS PL graded. There are no prices for a PL example, but the Collectors Universe value in MS66 is \$3,250. A coin that will delight any gold specialist and one that we expect will see strong bidding.

**PCGS# 87581 | ESTIMATE: \$2,800+**

**LOT 569**

**G\$1 1889 PCGS MS67 CAC**

A SUPERB example of the last gold dollar issue. From the strong billowing mint luster to the sharply struck devices to the smooth, defect free surfaces, this coin is essentially FLAWLESS! The eye appeal is spectacular!

PCGS 259, NGC 181, CAC 95. We sold the most recent PCGS/CAC example which realized \$2,938 in our May 2019 Regency Auction. Prior to that, we sold one in September 2018 for \$3,173. The current CAC-CDN Bid/Ask is \$2,900/\$3,620. Worthy of a very strong bid. Good luck!

**PCGS# 7590 | ESTIMATE: \$2,800+**

**LOT 570**

**\$2.50 1834 PCGS MS64+ PL CAC**

WOW! At first glance this coin looks like a proof. The contrast and quality are off the charts!

Exceedingly deep mirrors are at least 8" and are of full DMPL status. A few very light scattered ticks are visible because of the mirrors depth. The clarity is remarkable too. When you twirl this coin you are nearly blinded by the flash. The mirrors have that light rolling liquid look. Both sides are a brilliant yellow gold color. There are NO spots or discolorations. Miss Liberty and the details are fully struck and have bright thick frost. The eye appeal is so incredible your jaw will drop and lock!

PCGS 37, NGC 44, CAC 9. This is the only MS64+ PL. The regular MS64+ (which is also pop 1) sold for \$18,000 in January 2019 and was NOT CAC. It has a \$21,500 Collectors Universe Value. Of course, with the full PL mirrors this coin has it is worth substantially more. On a scale of 1-10 with 10 as the best in terms of wildness, this coin is an 11 and is off the charts! Good luck bidding!

**PCGS# 87692 | ESTIMATE: \$25,000+**

**LOT 571**  
**\$2.50 1839-O NGC AU53 CAC**

This is a very pleasing, lightly circulated example of this important issue. The 1839-O quarter eagle is the only Classic Head issue struck in New Orleans and was the only date that the "O" mint mark was put on the obverse of the coin. Well struck and nicely preserved, despite light wear, the olive-gold patina graces both sides. Well struck devices retain bold definition and the surfaces are generally very clean, and free of any serious problems. This is the High Date/Wide Fraction variety and the reverse shows a rather dramatic die break from the rim through the olive branch.

PCGS 20, NGC 43, CAC 4. This is the only CAC approved example to ever sell in auction, realizing \$5,288 in November 2014. The current Collectors Universe value is listed at \$5,500 and the CDN CAC Bid/Ask is \$5,000/\$6,250. This is a great coin for anyone working on a set of New Orleans mint gold, Classic quarter eagles, or type. We expect strong bidding here. Good luck!

**PCGS# 7701 | ESTIMATE: \$4,200+**

**LOT 572**  
**\$2.50 1854-D PCGS AU55**

From a tiny mintage of only 1,760, the 54-D quarter eagle is a rarity in all grades, especially so in AU and finer grade. PCGS CoinFacts estimates about 75 examples survive today in all grades.

The presently offered Choice AU example is fresh to the market, newly graded and has a very pleasing, wholesome look. Well struck for the date, with good definition on both sides. There is just a touch of weakness in the reverse dentils. The color is nice, and the surfaces show just a few minor traces of contact.

PCGS 5, NGC 2. The most recent example to sell in auction realized \$17,625 in the 2015 ANA auction. More recently a PCGS AU53 sold in the 2019 ANA auction for \$22,800. This coin should bring around the Collectors Universe value of \$19,000 when the hammer finally falls. RARE finer, with just a dozen graded higher at PCGS, a single MS63 graded finest there. A real prize for the southern gold specialist, we can see very strong bidding here. Keep in mind no PCGS AU58 or higher has sold since 2013! Good luck!

**PCGS# 7771 | ESTIMATE: \$14,000+**

**LOT 573**  
**\$2.50 1909 PCGS MS65 CAC**

Here is a gorgeous GEM Mint State 1909 quarter eagle. Glowing satin mint luster blooms all over the sharply struck incuse design elements. The deep amber-honey gold color radiates all over and the surfaces are very clean and free of any distractions. The eye appeal is excellent.

PCGS 211, NGC 196, CAC 52. The most recent example sold in our September 2019 Regency Auction for \$4,230 and the current PCGS Price Guide value is \$4,000. Rare finer, this is an early blue tag holdered GEM that is worthy of a strong bid from the gold type or Indian Head quarter eagle collector. Good luck.

**PCGS# 7940 | ESTIMATE: \$3,800+**

**LOT 574**  
**\$2.50 1908 PCGS PR64 CAC**

This is a very handsome, wonderful example of this first year of issue. A totally original, essentially GEM quality sand blast Proof quarter eagle that is a delight to behold.

The surfaces offer a wonderful, glittering sand blast finish, that has infinite microscopic facets that reflect the light. The natural olive-tan gold color is unconserved (unlike the majority of survivors that have been dipped and stripped of any originality in an effort to get a higher certified grade). The details are needle sharp. There are two minor scratches noted in the obverse field that keep this awesome coin from an even higher grade. The eye appeal is very high for the assigned grade.

The mint produced 236 Proofs during this first year of the Bela Lyon Pratt design, part of the Renaissance of U.S. Coinage that Teddy Roosevelt envisioned when he and Augustus St. Gaudens began redesigning the \$20 and \$10 gold pieces a year earlier.

PCGS 25, NGC 18, CAC 5. The current PCGS/CAC example to sell in auction realized \$21,150 in March 2017. More recently a PCGS PR65 CAC sold in April 2018 for \$28,800. Despite being one of the more available dates, it is quite rare any finer. This lovely, eye appealing example will delight anyone looking for an "affordable" Matte Proof \$2.50, but keep in mind the quality, originality, and eye appeal all will attract lots of bidding activity. Good luck.

**PCGS# 7957 | ESTIMATE: \$18,000+**

**LOT 575**  
**\$3 1854 PCGS MS65 CAC**

The first year of this odd-denomination gold coin, saw the highest mintage of the series, with 138,618 produced. While among the more "common" dates, it is conditionally RARE in GEM and finer grades. Indeed, in MS65 or better, PCGS has graded just 41 in 33+ years of operations.

Extremely lustrous surfaces are aglow with a frosty satin sheen that radiates on incredible quality surfaces. Sharply struck devices stand out with all details crisply rendered on both sides. This coin has a great look.

PCGS 26, NGC 9, CAC 13. This coin sold for \$18,000 in April 2018, and prior to that, it did sell over a dozen years ago for nearly \$19,000. The current PCGS value is listed at \$19,000 and there are just 15 graded higher, making this a great coin for the gold type collector working on a high end set. It will fit nicely in a gold type set or a special collection of \$3s; either way bidding will be strong for this impressive GEM.

**PCGS# 7969 | ESTIMATE: \$16,000+**

**LOT 576**  
**\$3 1855 PCGS MS64**

While a “common” date in lower grades, even in MS63, it is very scarce in MS64 and VERY RARE higher. Nearly fully Prooflike with a bold, flashy reflective luster that beams with a full brilliance on both sides. The surfaces show off a warm, orange-gold hue that is a delight to behold. A glass reveals some trace contact marks, most of which fade into the the mint made striations that can be seen

on both sides. The details are mostly fully rendered, with just the slightest trace of weakness at the top of Liberty’s headdress and on the ribbon on the wreath. The eye appeal is quite bold and attractive; very nice for the grade.

PCGS 30, NGC 21. Prices realized in auction recently fall into a wide range, from \$6,600 to \$8,400; with the most recent two examples bringing \$6,900 and \$8,400 in July and April 2019, respectively. The current PCGS Price Guide value is \$10,000. Extremely RARE any finer, with just eight graded higher at PCGS. A great type coin, or for the collector of the series, a lovely near-GEM.

**PCGS# 7972 | ESTIMATE: \$5,500+**

**LOT 577**  
**\$3 1878 PCGS MS64+ CAC**

An exceptional quality example of this obsolete and odd denomination. The 1878 \$3 is one of the more common dates in this challenging series, this borderline-GEM is a great type representative. A warm, satiny frost glimmers all over accenting smooth fields and sharply struck devices.

Rich orange-gold color accents the minimally marked surfaces. The eye appeal is very high end.

PCGS 849, NGC 450, CAC 162. There are 56 in 64+. We recently sold an MS64 for \$5,288 in our September 2019 and the current PCGS Price Guide value is listed at \$5,250.

Keep in mind that a PCGS MS65 with CAC approval will cost well over \$10,000—if you can find one. Good luck!

**PCGS# 8000 | ESTIMATE: \$4,800+**

**LOT 578**  
**\$5 1808 PCGS MS63 CAC**

This is a wonderful HIGH END piece. There are no serious problems. It is housed in an older green tag holder.

There are a few light scrapes and lines-nothing that would knock this coin out of the MS63 grade. Not much is visible to the naked eye. A tremendous luster beams boldly from all over. Both sides are a gorgeous original pale orange gold color. There are NO spots or discolorations, nor has this coin been messed with. Miss Liberty and the details are frosty and are sharply struck. The eye appeal is nice!

PCGS 19, NGC 19, CAC 5. The last PCGS CAC piece to sell in auction brought \$30,550 in July 2016. These are not nearly as available as the pops make you think. Plus, this coin is in an older holder with a green tag (we'd bet there re not many left) . PCGS CAC Early gold has NOT been showing up for sale much these days.

**PCGS# 8102 | ESTIMATE: \$26,000+**

**LOT 579**

**\$5 1811 SMALL 5. PCGS MS64 CAC**

BD-2. This coin is AMAZING and totally original. It is very high end and pleasing for the grade.

The first thing you see when this coin comes in front of you is the thick, rich, honey gold frost on both sides. The surfaces are wonderfully toned and the luster has a warm, glowing satin sheen. The devices are sharply struck, which stand out against the fields. Nicely preserved, there are some very minor breaks in the frost which we note, only for the sake of accuracy, none of which detract from the amazing eye appeal.

PCGS 18, NGC 0, CAC 9. There are just five graded finer, all MS64+. The most recent example to sell in auction brought \$52,875 in our November 2018 Regency Auction. The present coin presents better in hand than the Floyd Starr-Brent Pogue MS64+ CAC. This is an amazing near-GEM and will bring a very strong bid. Good luck!

**PCGS# 8109 | ESTIMATE: \$45,000+**

**LOT 580**  
**\$5 1835 PCGS AU53 CAC**

This is a very high end, very pleasing AU53, fully CHOICE for the grade. Nicely struck with original orange-gold skin and a warm luster that glows in the protected areas. Light circulation marks are seen but none detract from the great eye appeal.

PCGS 60, NGC 75, CAC 8. Only a single CAC example has ever sold in auction, realizing \$1,661 in an internet only auction nearly six years ago. The current Collectors Universe value is \$1,400. Great for a circulated type or date collection.

**PCGS# 8173 | ESTIMATE: \$1,200+**

**LOT 581**  
**\$5 1882-S PCGS MS65 CAC**

An exceptional quality GEM which ranks among the FINEST graded. Though 969,000 examples were struck, this date is quite rare in GEM despite being called "readily available in any condition" by David Akers. The current Population data from PCGS and NGC confirm that this date is NOT common in GEM. Lovely, lustrous surfaces have a rich orange gold patina that accents the smooth surfaces and sharply struck devices. The surfaces show a minor trace of contact which do not detract from the outstanding eye appeal.

PCGS 17, NGC 27, CAC 2. The only CAC-approved sold way back in August 2011 for \$6,325. Just two coins have graded MS66, but neither has ever been in auction and this is a prime candidate for a SUPERB set of \$5 Libs.

**PCGS# 8360 | ESTIMATE: \$3,200+**

**LOT 582**  
**\$5 1891-CC PCGS MS62**

High end for the assigned grade, indeed, in the old days before slabbing, this coin would have been classified as Choice BU. The frosty surfaces are satiny and smooth, with very few contact marks to be found anywhere. The details are boldly struck up and stand out against the lovely, clean surfaces on both sides. The color is bold and original. We have looked this coin over with a strong glass and do not understand why CAC did not sticker this one.

PCGS 357, NGC 413. This high end example should sell for a little more than the current PCGS value of \$2,850. A great CC-mint \$5 for anyone looking for any CC \$5 for a collection.

**PCGS# 8378 | ESTIMATE: \$3,000+**

**LOT 583**  
**\$5 1897 PCGS MS65 CAC**

This is a very pleasing original GEM coin.

Overall, the surfaces reveal a few light frost breaks and light lines. There are no major hits or scuffs. A strong luster beams from all over. Both sides enjoy a wonderful and totally original mix of gold, deeper gold and a slight pale green. There are NO spots or discolorations anywhere. Miss Liberty and the details are frosty and are fully struck. The eye appeal is great!

PCGS 34, NGC 78, CAC 13. This is far from a common date. The last PCGS CAC to sell is auction brought \$3,084 in February 2014! That is FIVE years ago. Today wholesale sight UNSEEN is \$1,900.00 for ANY date in MS65. Opportunity knocks loud here!

**PCGS# 8394 | ESTIMATE: \$1,750+**

**LOT 584**  
**\$5 1899 PCGS MS65 CAC**

Very high end for the assigned grade. A strong frosty mint luster has a wonderful satiny texture on both sides. The sharply struck design elements stand out and have a great look, and aside from a tiny reverse planchet flake, the surfaces are really clean. A real GEM in every sense of the word.

PCGS 150, NGC 610, CAC 59. The most recent CAC-approved example to sell in auction realized \$3,360 and was an NGC graded coin. The last PCGS/CAC coin sold nearly three years ago. We know this coin will sell for a premium bid, as this one is totally PQ!

**PCGS# 8398 | ESTIMATE: \$1,850+**

**LOT 585**  
**\$5 1908-S INDIAN. PCGS MS65 CAC**

It is so hard to find these unmessed with and a real FULL GEM MS 65. This coin certainly is both!

Totally real surfaces are smooth and have almost NO marks of any size (with a glass you can find a minor tick or two-and that's it). Even the dreaded right reverse is above average. No question this coin is totally ORIGINAL and has never been dipped or messed with. A strong luster shows off beautiful even gold color. There are NO

spots or discolorations. Every detail is sharply struck and has light frost. The eye appeal is like the quality - fabulous!

PCGS 51, NGC 17, CAC 9. The last PCGS CAC piece to sell in auction brought \$21,736 in September 2018 (this piece). Prior to that, NO PCGS/CAC piece had ever sold at auction. Do NOT be fooled by the pops, this is a VERY RARE date to find in true GEM. This is a great coin to place in a GEM \$5 Indian set. These are so hard to find!

**PCGS# 8512 | ESTIMATE: \$18,000+**

**LOT 586**  
**\$5 1910 PCGS MS65+**

Legend Rare Coin Auctions is proud to present this GEM 1910 half eagle, one of only four graded MS65+ at PCGS, with exactly ZERO graded finer.

As such, this is a prime candidate for anyone demanding the highest graded examples for their PCGS Registry Sets. This GEM represents the date on PCGS CoinFacts as the plate coin.

Not only is this coin a solid GEM, it is totally original and wonderfully fresh, having been submitted for grading for the first time by our consignor just before consigning to our sale. The

golden color is tinged with a warm honey and wheat tone. Every detail is sharply embossed into the surface of the coin, all the feather details are sharp and fully rendered. The surfaces are quite clean, with only the most minor trace of trivial chatter that often appears even on the highest graded specimens. Satiny luster glows vibrantly on both sides, enhancing a bold, visual allure.

PCGS 4, NGC 0. None are graded finer at PCGS. As stated, this coin is FRESH to the market, having been in an old family holding before being submitted for grading. No other MS65+ has ever sold in auction, but the current PCGS Price Guide value is listed at \$22,500. We believe that this coin will see very spirited bidding, bringing a strong price. If you are working on a #1 set of Indian Head half eagles, bid accordingly!

**PCGS# 8517 | ESTIMATE: \$18,000+**

**LOT 587**  
**\$5 1914 PCGS MS64 CAC**

A VERY HIGH END coin! Overall, the surfaces are above average in cleanliness. Even the dreaded right reverse field is fairly clean. A strong luster illuminates a beautiful shade of totally original gold color. There are NO spots or discolorations anywhere. Every detail is frosty and has a sharp strike. The eye appeal is fantastic!

PCGS 292, NGC 202, CAC 58. The most recent example sold in the 2019 ANA auction and realized \$3,000. The current PCGS Price Guide value is listed at \$2,750 and the current CDN CAC bid/ask is \$2,400/\$3,000. Worthy of a strong bid, we have not sold one since 2017!

**PCGS# 8527 | ESTIMATE: \$2,600+**

**LOT 588**  
**\$5 1916-S PCGS MS64+ CAC**

This is a VERY HIGH-END piece!

We are most impressed with the coin's cleanliness.

Even the dreaded right reverse field is clean and smooth (that is really rare). Overall, there are just a few hidden light ticks to find. A surprisingly strong luster enhances the beautiful original glowing gold color. There are NO spots or discolorations. This coin has not been messed with in any way. All of the details are frosty and are sharply struck.

PCGS 131, NGC 66, CAC 25. There are 30 graded 64+ and just 15 finer. We sold a non "+" coin for \$7,638 in our June 2019 Regency Auction and a 64+ sold in that same month for \$7,800. Keep in mind that we just sold a PCGS 65 CAC for nearly \$40,000 in our Regency Event auction in October 2019.

**PCGS# 8532 | ESTIMATE: \$7,250+**

**LOT 589**  
**\$10 1853/2' NGC AU58**

This is a very attractive looking CHOICE AU example the so-called 1853/2 overdate. The overdate was first discovered in 1960, as the feature is quite subtle, David Akers noting "the 2 is quite faint and easy to miss even on high grade specimens." Walter Breen's Encyclopedia, notes "possibly 8-10 known, none UNC." We know now, with sharp eyed specialists looking at all 1853 eagles, that while still quite scarce, it is not a major rarity in the series. In AU58, the date is RARE and Mint State examples are represented by just a handful of MS61 and MS62 pieces, combined at both PCGS and NGC.

The present coin has a warm tangerine-tinged, honey gold surface that is a delight to behold. Nicely struck, with only a touch of weakness, this coin saw only brief circulation and just a few small abrasions from its life in commerce.

PCGS 8, NGC 30. We suspect that there is duplication in that figure. The last NGC-graded example brought \$4,080 in November 2017 and prior to that, one sold in July 2014 for \$4,113. The current Collectors Universe value is listed at \$6,500. Keep in mind that any Mint State example is going to be a five figure coin. A nice coin overall for the No Motto \$10 Lib collector and we can see active bidding for this one.

**PCGS# 8611 | ESTIMATE: \$3,500+**

**LOT 590**  
**\$10 1901-S PCGS MS65+ CAC**

No question this coin is totally original and very pleasing, well deserving of its grade. Overall, the surfaces are clean, although there are a few very tiny ticks scattered around and a spot that attests to the originality. The surfaces have that thick satiny type of mint luster around the bust on the obverse. Totally original shades of gold/pale greenish gold swirl all over. Miss Liberty and the details are frosty and are fully struck. The eye appeal is super!

PCGS 1302, NGC 1310, CAC 162. PCGS has graded just 86 in MS65+ and the date becomes quite scarce any finer. The recent APRs for CAC approved examples bring strong premiums over the current PCGS Price Guide value of \$2,600 (the last two sold for \$3,290 and \$3,480). This is a great coin for any gold bug.

**PCGS# 8749 | ESTIMATE: \$2,800+**

**LOT 591**  
**\$10 1901-S PCGS MS66+ CAC**

The 01-S \$10 is one of the most generic date Liberty eagles, readily available in all grades up to MS65. It becomes scarce in MS66, and it is EXCESSIVELY RARE any finer with CAC approval.

Boldly lustrous with a brilliant golden cartwheel mint bloom, the surfaces show only microscopic ticks and a razor sharp strike. The eye appeal is superb!

PCGS 258, NGC 216, CAC 47. PCGS has graded 22 in 66+ and just 2 MS67s finer.

**PCGS# 8749 | ESTIMATE: \$6,500+**

There has not been a 66+ in 2 and a half years, which realized \$7,050 in July 2017 and the current PCGS Price is \$8,250.

**LOT 592**  
**\$10 1907 INDIAN. NO MOTTO. PCGS MS66+ CAC**

This is a GORGEOUS example! The surfaces are essentially PRISTINE with a great eye appeal. Having built the #1 all time set of Indian Head eagles, our sister firm, Legend Numismatics has handled many of these over the years. This coin really impressed them when it was consigned. Outstanding surfaces are very clean and using a strong glass we found only a couple of small old ticks. No question this coin is original and has never been messed with. A bold thick satin-like luster glows from all over accenting the outstanding

apricot and rose tinged gold surfaces. There are NO spots or discolorations. Miss Liberty and the details are sharply struck and do stand out.

PCGS 155, CAC 165, CAC 64. There are 39 graded MS66+ at PCGS and with just a dozen graded finer, we suspect that there is plenty of duplication of submissions of the same coin hoping for a 67 grade. The most recent PCGS/CAC example to sell in auction realized \$21,238 in our January 2019 Regency Auction; and the average APR for a PCGS MS66+ CAC coin is nearly \$21,000 making the \$15,000 Collectors Universe value irrelevant for CAC-approved examples. Keep in mind, we sold a PCGS 67 CAC in our October 2017 Regency Auction for \$82,250. This beauty is very high end and is very close to being the definition of SUPERB!

**PCGS# 8852 | ESTIMATE: \$17,500+**

**LOT 593**  
**\$10 1908 MOTTO. PCGS MS64+ CAC**

A SUPER HIGH END piece. This piece is way above average with excellent satiny smooth surfaces. Even using a strong glass there are no serious imperfections to be found. The surfaces look like an original skin. There is a tiny copper stain on the reverse-proving this coin to be fully original. A moderate luster (typical) glows on both sides. Every detail is sharply struck and stands out.

PCGS 319, NGC 188, CAC 55. PCGS has graded 19 in MS64+. This coin sold in our July 2018 Premier Session auction for \$5,500 and the current Collectors Universe value is listed at \$5,500. Keep in mind that a PCGS MS65 CAC will cost in the \$9,000-\$10,000 range, making this a great coin for the collector.

**PCGS# 8859 | ESTIMATE: \$4,000+**

**LOT 594**  
**\$10 1909-S PCGS MS64+ CAC**

This coin is SUPER HIGH END! Only a tiny "strike through" piece of lint (MINT MADE) on the reverse is all we see as keeping this coin from being a full MS65. Overall, the surfaces are really immaculate and have a satiny texture. A full luster shows off the gorgeous, even, and totally original gold colors. There are NO spots or stains. Miss Liberty and the details are lightly frosty and have crisp full strikes. Her face is NOT hacked up like you typically see. The eye appeal is super!

PCGS 55, NGC 34, CAC 13. There are just six in MS64+ and this one sold for \$8,813 in our November 2018 Regency Auction. The current PCGS Price Guide value is listed at \$11,000 and keep in mind how rare this date is any finer (just 40 have been graded higher in all grades.) This is a totally original example that will delight any collector of this challenging series and will fit into a GEM set.

**PCGS# 8864 | ESTIMATE: \$8,000+**

**LOT 595**

**\$10 1911 PCGS MS66+ CAC**

Wango Tango! WOW is this a BEAUTIFUL SUPERB GEM piece! We fully rank it a MS66.8+!

Outstanding surfaces are as pristine and satiny smooth as you will even see on MS67's! There are simply NO imperfections anywhere. A booming glowing type luster makes the coin really sparkle. Gorgeous totally original colors of even gold/pale pinkish gold boldly swirl all over. Mother Nature really came through on this piece. Miss Liberty and every detail are exceptionally struck. The eye appeal is SUPERB in EVERY respect and then some!

PCGS 24, NGC 42, CAC 21. PCGS has graded only 4 in MS66+. The only auction result is from five long years ago and is a ridiculously cheap -\$18,800 in February 2014. An MS67 CAC would cost easily OVER \$50,000. You certainly do not see this date looking like this very often (and we do know, our sister company has built the #1 and 2 sets). This piece would even be a star in any Gold Type set!

**PCGS# 8868 | ESTIMATE: \$20,000+**

**LOT 596**  
**\$10 1913 PCGS MS65 CAC**

Presented is a very pleasing, totally original GEM Indian Head \$10. Sharply struck up devices stand out against the wonderfully frosted, satiny lustrous surfaces. A warm, yellow gold with medium peach overtones give this vivid beauty a great look. Remember this date is quite difficult to find any finer.

PCGS 68, NGC 85, CAC 22. The last one to sell was the Crow River Collection coin that we sold in October 2017 for \$9,106. This one

is cleaner, and will likely sell for a stronger bid. The only other CAC-approved MS65s that ever sold in auction were NGC-graded. Worthy of a strong bid, in excess of the current PCGS value \$7,500. Good luck!

**PCGS# 8873 | ESTIMATE: \$7,000+**

**LOT 597**  
**\$10 1914 PCGS MS65+ CAC**

This is a very high end example of this conditionally RARE date. While available in lower Mint State grades, above MS65, this date is VERY RARE. A premium quality GEM, this beautifully preserved MS65+ is totally original, boasting a medium orange-gold color that is highlighted by a thick satiny mint frost. The devices are fully rendered by a precise blow from the dies, fully bringing out the full delineation to all the feathers. The surfaces are devoid of all but the most insignificant marks, visible with a strong glass only, and otherwise they are the epitome of satiny smooth! The eye appeal is fantastic in every way!

PCGS 49, NGC 44, CAC 15. PCGS has graded just 4 in MS65+ and there are 15 graded higher. The most recent PCGS/CAC example sold in the 2017 ANA auction for \$11,750 and prior to that, one sold for \$14,100 in June 2017. Anything finer with CAC approval will approach \$30,000. Worthy of a great collection of gold coins; whether you collect type or specialize in high end GEM \$10 Indians, this coin is perfect for you!

**PCGS# 8875 | ESTIMATE: \$10,000+**

**LOT 598**  
**\$10 1926 PCGS MS65+ CAC**

This is a majestic GEM quality Indian Head eagle. Everything about it is Premium Quality. Radiant, satin luster blooms all over, giving this 1926 \$10 a great look. The devices are sharply struck up and there are no serious ticks. Warm orange and brilliant yellow gold color is such a delight to behold on this highly original and fresh GEM.

PCGS 510, NGC 603, CAC 40. PCGS has graded just 38 in MS65+ and a mere 31 finer. The most recent PCGS/CAC example to sell brought \$6,169 in our May 2019 Regency Auction. What a great looking coin, one that is worthy of a strong bid for its great look.

**PCGS# 8882 | ESTIMATE: \$4,500+**

**LOT 599**  
**\$20 1867-S PCGS MS61**

Despite a generous mintage of 920,750, the 67-S \$20 remains a very rare coin in any Mint State grade.

The present MS61 has a thick, frosty luster that glows under a layer of totally original orange-gold color. Sharply struck, the devices stand out nicely. Though there are a few tiny marks, this uncirculated jewel shows no wear and has a good look.

PCGS 13, NGC 18. The most recent one brought \$12,000 in June 2018 but that one had significant cuts on the obverse; prior to that one with other flaws brought \$17,038 in the 2015 FUN Auction. The current Collectors Universe value is listed at \$18,500. Only four are graded finer at PCGS, all MS62, and none have sold since 2002! Good luck!

**PCGS# 8952 | ESTIMATE: \$10,000+**

**LOT 600**  
**\$20 1869 PCGS AU58+ CAC**

This is a very pleasing super slider with virtually no perceptible wear to be found anywhere. A shimmering, satiny luster blooms all over with very pleasing rich orange-gold color. Some minor lines and contact from a brief stay in commerce. The eye appeal is excellent.

PCGS 30, NGC 84, CAC 9. There are two in AU58+, neither have ever sold. NO CAC AU58 has ever sold in auction. The current Collectors Universe value is listed at \$5,850 and this coin will delight anyone working on a set who does not want to spend five figures for a Mint State survivor of this conditionally rare Type II double eagle.

**PCGS# 8955 | ESTIMATE: \$5,000+**

**LOT 601**  
**\$20 1889-CC PCGS AU58 CAC**

We love coins like this: There is something extremely romantic about Carson City double eagles; big gold coins that have the aura of the wild west and the myths of bandits, bank robberies, stage coach chases, and the like.

This borderline Mint State example is very choice for the assigned AU58 grade with the obverse displaying a full cartwheel luster. There are a few traces of contact, with some minor scattered ticks that we note for accuracy. There is a touch of planchet "slag" on the reverse, where some impurities came to the surface during the minting process. The eye appeal is totally original.

PCGS 129, NGC 241, CAC 26. The most recent PCGS AU58 CAC sold in our November 2018 Regency Auction for \$8,519 and the current PCGS Price Guide value is listed at \$8,250. Despite the minor flaws this coin has a great visual allure and will see very strong bidding when the hammer drops. This is an extremely popular CC double eagle date.

**PCGS# 9011 | ESTIMATE: \$7,000+**

**LOT 602**  
**\$20 1889-S PCGS MS64**

EX SADDLE RIDGE HOARD, as noted on the holder.

Nearly 30% of the gold coins from the famed Saddle Ridge Hoard were 1889-S double eagles. This stunningly brilliant borderline GEM has a SUPERB luster and boldly struck devices. Boasting a full booming luster that you can see from across the room, the surfaces are generally clean, the devices sharp and frosty, and the color is a bright, glittering yellow gold. The

surfaces are very clean and show only very minute ticks on either side. It is astonishing that this coin sat in a rusting tin can with many other large gold coins underground and stayed with bold, lustrous, and clean surfaces.

PCGS 72, NGC 37. The most recent example sold in March 2019 for \$7,800 and the current PCGS Price Guide value is listed at \$6,500. This is a very important opportunity any gold bug looking for a great looking double eagle.

**PCGS# 109012 | ESTIMATE: \$5,000+**

**LOT 603**  
**\$20 1892 PCGS AU53**

A pleasing AU example of this very important and scarce date \$20 Lib. A very low mintage date, with only 4,430 struck, this date is mostly seen in XF and AU grades. The surfaces retain a certain flash from the original Prooflike luster. The details are nicely and crisply rendered with just some minor signs of wear on the high points and in the fields. Contact marks are noted on both sides, acquired naturally during the course of normal circulation and none are singularly distracting. The eye appeal is better than most, which often come quite choppy.

PCGS 12, NGC 17. None of these are CAC approved. The most recent example to sell in auction brought \$15,275 in September 2016, and the current PCGS Price Guide value is \$12,000. We think this coin will bring a strong bid.

**PCGS# 9019 | ESTIMATE: \$7,500+**

**LOT 604**  
**\$20 1892-S PCGS MS65**

This is a FRESHLY GRADED GEM example of the date. While the 92-S \$20 saw a mintage of 930,150, those that exist in Mint State are generally MS64 and lower grade. In GEM grades, this date is QUITE RARE, with only 25 graded MS65 or MS65+ at PCGS and NONE finer.

This lustrous beauty has bold, swirling cartwheel mint bloom that gleams over semi-reflective flash in the fields. The razor sharp devices are nicely frosted and the

surfaces are very clean. Even using a strong glass there are no serious contact marks or discolorations anywhere to be found.

While David Akers noted that "Gems are very scarce, but i have seen a number of them as well as a few truly superb quality specimens," the current Population figures do not bear that out. In fact, the Saddle Ridge Hoard, discovered in 2013, had 178 examples of this date, which included 3 coins that graded MS65+ which ranked as the finest of the date.

PCGS 20, NGC 7. The most recent example to sell in auction brought \$19,388 in our September 2019 Regency Auction and the current Collectors Universe value is listed at \$20,000. Flashier than the one we just sold, we would not be surprised if it brought more.

**PCGS# 9021 | ESTIMATE: \$15,000+**

**LOT 605**  
**\$20 1898-S PCGS MS64 CAC**

Well struck with satiny luster as is typical of this late date Liberty Head Double Eagle. Truly original pale orange and rose gold dominates. The luster is substantial, as one would expect of a coin at this grade level.

PCGS 1,542, NGC 1,185, CAC 204. PCGS Price Guide value \$2,250. In the past year, auction prices for CAC coins ranged from \$1,920 to \$2,880. The present coin should place solidly in the middle of that range.

**PCGS# 9034 | ESTIMATE: \$2,000+**

**LOT 606**  
**\$20 1904 PCGS MS65+ CAC**

This is a VERY HIGH END and refreshing piece.

A strong luster glows throughout the warm, orange-gold surfaces. The eye appeal is exceptional as you would expect of a GEM. Radiant luster booms all over enlivening the delightful color and sharply struck devices.

PCGS and NGC have combined graded over 13,000 examples in MS65 and MS65+, only 471 have been CAC approved. In 65+ with a CAC bean, these sell in the \$4,000-\$5,000 range. Worthy of a premium bid, this is a great coin for any gold bug.

**PCGS# 9045 | ESTIMATE: \$3,600+**

**LOT 607**  
**\$20 1907 NO MOTTO. SAINT GAUDENS. PCGS MS66+**

This is an exceptional, Premium Quality GEM example of the first year of the Saint Gaudens series. Satiny smooth surfaces show off a very strong mint frost that is thickly distributed across the very pleasing surfaces. Nicely struck, only the strongest of glasses will reveal a minor scuff that keeps this coin from CAC approval. Regardless, we do like it, as the visual allure is excellent and will delight any gold coin collector as well.

PCGS 31, NGC 3. Fewer than 20 have graded finer in over 33 years of operations. The most recent example sold for \$9,400 in our September 2018 Regency Auction and the current PCGS Price Guide value is \$9,500. Keep in mind that anything finer is going to cost \$45,000-\$50,000 if you can find one. This coin does present a grand opportunity for the collector of high grade Saints.

**PCGS# 9141 | ESTIMATE: \$7,500+**

**LOT 608**  
**\$20 1911-D PCGS MS65 CAC**

A highly lustrous GEM with a brilliant satiny mint frost that glows on both sides. Nicely struck and free of any distracting marks or discolorations, the eye appeal is strong and truly deserving of its CAC bean. While the three other gold denominations are keys to their respective series, the 11-D Saint is relatively available, though scarce in CAC quality.

PCGS 2560, NGC 2202, CAC 317. PCGS/CAC examples generally sell in the \$2,400 range and the current PCGS value is listed at \$2,450.

**PCGS# 9158 | ESTIMATE: \$2,000+**

**LOT 609****\$20 1916-S PCGS MS66+ CAC**

Tied for the FINEST graded, this 16-S Saint is absolutely gorgeous and totally original!! To say it is PQ may be an understatement. Laura Sperber feels this is the FINEST 16-S she has ever seen and she has built the #1 and #2 FINEST PCGS Saint sets ever.

Incredibly satiny surfaces are all over. The luster boldly glows on totally original rich orange-gold colored surfaces. Easily among the prettiest, the color only gets richer as you rotate both sides under a light. There are NO spots or discolorations. A couple of light breaks in the frost are all that keeps this coin limited to the present grade. The devices are sharply struck and the eye appeal is exceptional.

PCGS 189, NGC 149, CAC 30. The present coin is one of a half dozen graded MS66+ at PCGS with NONE FINER. Only one has ever sold in auction, bringing \$24,675 in our November 2018 Regency Auction. This coin has a richer golden color and the strike appears to be slightly stronger. Collectors Universe lists a value of \$22,500 and this one will easily exceed that when the hammer falls. We would not be shocked if this coin set a new record for the date. Good luck!

**PCGS# 9169 | ESTIMATE: \$20,000+**

**LOT 610**  
**\$20 1924 PCGS MS66 CAC**

This is a high end GEM MS66 housed in an old green tag holder. A vivid orange-gold color is brought out by a bold satiny luster on both sides. There are no discolorations anywhere and the surfaces are very nice without any serious flaws, and the fields are ultra clean. Certainly high end for the grade, and very attractive, especially compared with what is recently being graded MS66.

PCGS 9801, NGC 5218, CAC 662. This high end coin is worthy of a really strong bid as its quality is certainly on par with many graded MS66+, which bring on average \$4,554. There will be strong bidding for this exceptional generic \$20.

**PCGS# 9177 | ESTIMATE: \$4,500+**

**LOT 611**  
**25C 1870 J-911. PCGS PR66+ CAM CAC**

**EX DENALI COLLECTION**

The FINEST KNOWN example of this very rare R-7+ Standard Silver Pattern. Struck in aluminum with a plain edge. There were many varieties of Standard Silver coins produced between 1869 and 1871 in various different metals and with differing designs.

This variety has a capped bust of Liberty facing right with three stars on the band. The reverse wreath is made of one branch

each of laurel and oak. This simple design looks fantastic on the highly reflective and contrasted aluminum planchet. Indeed, the coin is blinding when viewed under a light. Most of these off metal strikings were produced as part of special sets made for VIP mint clients to a very limited extent. Untoned and with only the slightest bit of haze, but never dipped or conserved. As pretty today as the moment it was carefully removed from the dies.

PCGS 1, NGC 0, CAC 1. This is the finest example known, and sold in our November 2018 Regency Auction for \$7,344. In January 2017 is Regency Auction XX, the Bob Simpson example, graded PR65 CAC, sold for \$7,931. Anyone building a collection of Standard Silver patterns should really take a good, hard look at this one and plan to bid liberally.
